meteorological parameters calculated from  
radiosonde data  
[NASA-TT-P-13981] p0707 N71-36398

## METEOROLOGICAL RADAR

Thin CAT layer detection in lower stratosphere by L  
band radar complemented by radiosonde and U-2  
aircraft probes  
p0007 A71-10567

Traffic radar generated weather contours for air  
traffic controller in helping aircraft avoid  
thunderstorms  
p0007 A71-10587

Onboard meteorological pulse radars for cloud  
formations detection, navigational aids, ground  
reference points determination and relief  
surveillance  
p0491 A71-31920

Solid state airborne weather radar for civil  
aviation, discussing design, weight and power  
requirement reduction  
p0698 A71-44273

Severe thunderstorm radar tracking and related  
weather events hazardous to aviation operations  
[ESSA-TM-ERLTM-MSSL-46] p0042 N71-10720

Airline meteorological radar operational policies  
and procedures  
[AD-713636] p0161 N71-14623

Weather outline generators for producing contours  
around radar weather clutter for all weather air  
navigation  
[FAA-NA-70-62] p0238 N71-17527

Meteorological radar for detection of thunderstorms,  
hail, and turbulence hazardous to aviation noting  
echo interpretation and radar transmission  
[WMO-264-TP-148] p0456 N71-24394

## METEOROLOGICAL ROCKETS

U SOUNDING ROCKETS

## METEOROLOGICAL SATELLITES

NT SYNCHRONOUS METEOROLOGICAL SATELLITE

## METEOROLOGICAL SERVICES

Observational data characteristics analysis as contributor to knowledge and utilization of all atmospheric physical occurrences

p0212 A71-21722

Describing techniques and equipment used by air weather services for fog dissipation

[AD-712392] p0116 N71-12997

## METEOROLOGY

## NT AEROLOGY

## NT HYDROMETEOROLOGY

## NT POLAR METEOROLOGY

## NT SYNOPTIC METEOROLOGY

## NT WEATHER FORECASTING

Poor visual flight meteorological conditions, discussing instrumental and visual aids, airport landing and approach, holding patterns and overshoots

p0146 A71-17922

Supersonic transport air traffic meteorology, considering high altitude and flight velocities, applications technology satellites for lower stratosphere thunderstorms, clear air turbulence, etc

p0272 A71-23070

Single anemometer wind measurement required for aircraft landing, comparing data from different sampling periods

p0435 A71-30395

## METERS

## U MEASURING INSTRUMENTS

## METHANE

Turbojet engine design for methane element of liquified natural gas as aircraft fuel, discussing supersonic transport applications

p0005 A71-10485

Water vapor condensation effects on methane-air combustion gases for aerodynamic test medium

[AIAA PAPER 71-258] p0217 A71-21986

Comparison of hydrogen and methane as coolants in regeneratively cooled panels

[NASA-CR-1652] p0261 N71-19289

Performance prediction of methane-fueled supersonic transports over range of cruise speeds up to Mach 4

[NASA-TM-X-2281] p0467 N71-25384

Fuel tests to determine feasibility of gelled methane for use in jet engine

[NASA-CR-72876] p0469 N71-25772

Evaluation of liquid methane storage and transfer problems for future supersonic aircraft cryogenic fuel requirements

[NASA-CR-72952] p0678 N71-34648

## METHOD OF CHARACTERISTICS

Supersonic overexpanded jet flow past cone, determining impingement point by method of characteristics

p0007 A71-10613

Surface construction of body of revolution in supersonic gas flow from distribution of velocity vector modulus along generatrix of body, using Frankl method of characteristics

p0198 A71-20089

Method of characteristics application to supersonic jet and nozzle gas flow with allowance for equilibrium and nonequilibrium condensation

p0547 A71-35636

Transonic flow theory and experiment, considering hodograph method, integral equation method, parabolic method and method of characteristics

p0599 A71-37454

## METHODODOLOGY

Blunt body problem with detached shock, considering methods of lines and integral relations agreement for wide range of Mach numbers

p0082 A71-14449

Aircraft engine noise test methods for acoustic certification, investigating jet and compressor silencing, absorbent materials, rotor and propeller noise and psychoacoustic tests

p0489 A71-31890

## METHODS

## U METHODOLOGY

## U PROCEDURES

## METHYL COMPOUNDS

Kinetics of catalytic dehydrogenation of methylcyclohexane at 600, 650, and 700 deg F and 5 atm pressure

[AD-715926] p0254 N71-18729

## METROPOLITAN AIRCRAFT

## U CV-440 AIRCRAFT

## MICROBE

## U MICROORGANISMS

## MICROBIOLOGY

Microbiological contamination of jet aircraft fuel tanks in tropical regions, considering maintenance

[SAE PAPER 710438] p0406 A71-28320

## MICROCALORIMETERS

## U CALORIMETERS

## MICROCIRCUITS

## U MICROELECTRONICS

## MICROCRACKS

Optical holographic interferometry for radial microcracks detection from bolt holes in high strength aircraft steel

[ASME PAPER 71-MET-C] p0361 A71-27312

## MICROELECTRONICS

## NT LARGE SCALE INTEGRATION

Microelectronic circuits reliability in aircraft engine control applications, discussing testing and selection for severe temperature and vibration environments

[SAE PAPER 700822] p0209 A71-21369

## MICROMANOMETERS

## U MANOMETERS

## MICROMINIATURIZATION

## NT LARGE SCALE INTEGRATION

## MICROORGANISMS

## NT BACTERIA

Electrical and physical nature of microbial membranes implicated in aircraft fuel quantity probe malfunction

[SAE PAPER 710439] p0406 A71-28321

## MICROPHONES

Condenser microphones aerodynamically induced noise, investigating acoustic pressure lower limit dependence on air flow velocity and turbulence

p0359 A71-27063

## MICROSTRUCTURE

High temperature Ni and Co alloys for stationary gas turbines and jet engine parts, considering microstructure and mechanical behavior under stress and temperature

p0275 A71-23302

## MICROWAVE ANTENNAS

## NT HORN ANTENNAS

## NT SLOT ANTENNAS

Planar microwave array antenna for scan requirement, discussing tilt angle and element arrangement optimization

[AIAA PAPER 70-191] p0221 A71-22030

Flush mounted aeronautical waveguide antennas with dielectric plug for 5GHz operation

p0446 A71-31043

Low carrier power aircraft antenna module for airborne UHF communications system, considering range/field strength measurements

p0446 A71-31046

Aircraft phased arrays for L-band ATC satellite system application, alleviating problems of power budget and vulnerability to multipath and interference

p0447 A71-31054

Performance of engineering model microwave radio relay system for remote radar display

[FAA-NA-70-52] p0109 N71-12386

## MICROWAVE CIRCUITS

Research and development of solid state and electronic equipment, microwave circuits, semiconductors, and ionospheric radar

p0034 N71-10126

## MICROWAVE EQUIPMENT

## NT CATHODE RAY TUBES

## NT HORN ANTENNAS

## NT MICROWAVE ANTENNAS

## NT MICROWAVE RADIOMETERS

## NT PHOTOMULTIPLIER TUBES

## NT SLOT ANTENNAS

STOL navigation equipment and microwave landing instruments test programs, noting data recording and flight operations

p0068 A71-13286

Integrated electro-optical microwave radar and laser /lidar/ systems for earth oriented, environmental and domestic applications

p0181 A71-18827

V/STOL microwave scanning beam approach and landing system, describing ground and airborne station

- equipment and operation p0211 A71-21680
- Microwave and modular solid state ILS designs, discussing accelerated progress, international standard and present system life expectancy p0280 A71-23943
- Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques p0359 A71-27016
- Microstrip p-i-n diode controlled L band digital phase shifter for aircraft-satellite communication p0447 A71-31055
- Millimeter system, devices and guides - Conference, Los Angeles, August 1970, Volume 14 p0536 A71-34601
- Modular step scan microwave aircraft landing system /TALAR/ design and operation, noting short takeoff and landing p0667 A71-42088
- Doppler scanning landing microwave system for air-derived azimuth and elevation angle aircraft guidance by frequency coding and reference carrier transmission p0667 A71-42089
- Operational requirements of microwave guidance systems, comparing guidance and position measurement applied to aircraft approach and landing p0668 A71-42092
- Microwave landing guidance systems initial concept validation tests in RTCA signal format [AD-717183] p0334 A71-21368
- Design and characteristics of continuous wave, microwave scanning-beam aircraft landing system operating at C band and superhigh frequencies [AD-718972] p0459 A71-24555
- MICROWAVE FREQUENCIES**
- NT C BAND
- NT SUPERHIGH FREQUENCIES
- Automatic RF and microwave test equipment for communication, navigation, radar and tactical systems p0063 A71-13083
- Scanning microwave landing guidance system coordinates choice, discussing signal format, antennas planar or conical beams and V/STOL application p0667 A71-42090
- MICROWAVE RADIONETERS**
- Microwave radiometry for snow and ice sensing in aerial reconnaissance p0052 A71-11160
- MICROWAVE TRANSMISSION**
- Integrated flight test data system combining digital airborne data acquisition/recording system with telemetry/microwave link to computerized ground station p0433 A71-30318
- Past and projected development of VHF ILS p0112 A71-12447
- MICROWAVE TUBES**
- NT CATHODE RAY TUBES
- NT PHOTOMULTIPLIER TUBES
- MICROWEIGHING**
- U WEIGHT MEASUREMENT
- MIDAIR COLLISIONS**
- Aircraft midair collision avoidance, discussing Elimination Range Zero system operation procedures and cost p0183 A71-19079
- ATC system analysis, discussing airport and airspace utilization, area navigation, midair collisions and traffic mix p0266 A71-22470
- Midair collisions analysis for civil-military integrated ATC air space, discussing near miss volume, random heading aircraft density and pilots evasive action vs avoidance percentages p0367 A71-27599
- Inertial navigation impact on aircraft safety, discussing error sources and midair collision risks p0666 A71-42079
- Midair collision hazards, incidents, and recommendations for safe aircraft operations p0246 A71-18103
- Investigation of midair collision between Boeing 707 and Cessna 150 at Edison, New Jersey, on January 9, 1971 [SB-71-28] p0332 A71-21169
- MILITARY AIR FACILITIES**
- Bare base shelter/hangar expandable structures for rapid worldwide Tactical Fighter Organization deployment, noting foam and honeycomb fabrication [AIAA PAPER 71-398] p0341 A71-25274
- Reference file of factors affecting weather at Reese AFB, Texas [AD-711390] p0045 A71-10948
- Reference file of factors affecting weather at Vance AFB, Oklahoma [AD-711381] p0045 A71-10949
- Inventory of existing airport system in Rhode Island [PB-189332] p0049 A71-11028
- Terminal weather forecast data for Randolph AFB, Texas [AD-712681] p0115 A71-12680
- Describing techniques and equipment used by air weather services for fog dissipation [AD-712392] p0116 A71-12997
- Military air traffic report for calendar year 1969 in United States and overseas [REPT-70-10] p0122 A71-13418
- Erosion control of soil on air force bases [AD-713644] p0169 A71-15636
- Design, construction, operation, and management of military airports [AD-716603] p0312 A71-19702
- Runway concrete pavement condition at Naval Station, Adak, Alaska [AD-719889] p0469 A71-25604
- Survey of airfield pavement conditions at Point Mugu Naval Air Station, Calif. [AD-720319] p0516 A71-27206
- Survey of airfield pavement condition at USNAS New Orleans, Louisiana [AD-724286] p0637 A71-33007
- Condition survey of military airfield runways and taxiways [AD-724069] p0639 A71-33093
- Fabrication and field testing of lightweight, recoverable, air-transportable hangar [AD-727051] p0684 A71-35396
- Fabrication and field testing of aircraft maintenance hangars and general purpose shelters [AD-727047] p0685 A71-35397
- Development and characteristics of lightweight, mobile structures for aircraft storage and maintenance [AD-727056] p0712 A71-36674
- MILITARY AIRCRAFT**
- Combat aircraft cockpit temperature control system design and operation p0003 A71-10270
- Avionics system maximizing pilot chances of surviving mission and destroying selected target by removing mental limitations p0006 A71-10506
- Flight control systems influence on military aircraft design and performance, discussing static stability, ride quality, flutter margin and maneuver load controls [AIAA PAPER 69-767] p0027 A71-12683
- Electric power source requirements of USAF aircraft, missile and spacecraft electrical systems p0063 A71-13036
- STOL aircraft for tactical support, discussing USAF intertheater requirements p0087 A71-15024
- WG.13 Lynx battlefield helicopter design and performance p0091 A71-15394
- Reliability and maintenance problems of U.S. Army operational environment, noting inadequate design and test criteria during development p0092 A71-15402
- Army rotorcraft hot day standard design hover criterion, developing analytical models for hovering aircraft, cost, climatology and environmental features p0096 A71-15431
- Corrosion damage relationship to military aircraft accidents, discussing quality control, material selection and manufacturing processes p0141 A71-17415

# SUBJECT INDEX

# MILITARY HELICOPTERS

Development program for multiple access real time tactical information distribution system, designing and constructing tactical air control system test facility  
[AIAA PAPER 71-243] p0188 A71-19718

Military aircraft zinc silver oxide battery service requirements and performance  
p0207 A71-21103

FAA flying and handling qualities program, discussing development of optimum and minimum acceptable flight characteristics criteria for new civilian and military aircraft designs  
[SAE PAPER 710372] p0285 A71-24241

Medium weight NAMC C-1A tactical transport aircraft technical specifications  
p0340 A71-25231

Military aircraft flight test establishments, discussing airframe, engine, flight control and weapons delivery systems tests work flow integration requirements  
p0355 A71-26315

Terrain following radar for airborne guidance of low flying military aircraft  
p0358 A71-26881

Landing load estimation methods for preliminary design weight prediction for military aircraft  
p0404 A71-28211

Optimization of military VTOL aircraft secondary power systems, considering alternate power source for aircraft hydraulics, pneumatic drives, etc  
[SAE PAPER 710445] p0407 A71-28326

Military/commercial STOL transport design, discussing performance, payload and equipment requirements with emphasis on production cost benefits  
[SAE PAPER 710468] p0408 A71-28336

Commercial vs military design criteria for STOL transport aircraft, noting landing and takeoff distances and noise levels  
[SAE PAPER 710465] p0438 A71-30536

Army aircraft automatic inspection and maintenance monitoring system, considering feasibility, technology approach and effectiveness  
[AIAA PAPER 71-649] p0440 A71-30726

Multimission strategic aircraft installation effects testing in propulsion and aerodynamic wind tunnels, yielding flowfield definition, inlet internal performance, drag, forebody shape and orientation  
[AIAA PAPER 71-759] p0443 A71-30792

Flightworthy 25-foot diameter propotor wind tunnel test, considering civil and military need for VTOL transportation  
[AHS PREPRINT 501] p0448 A71-31077

Lateral-directional handling qualities and roll control power requirements for executive jet and military class II airplanes in landing approach flight phase  
[AIAA PAPER 71-771] p0506 A71-34007

Sight line autopilot /SLAP/ for side-firing aircraft pointing accuracy improvement, using optimal regulator theory to generate control gains  
[AIAA PAPER 71-960] p0598 A71-37201

Army aircraft modification program management review and recommendations  
p0036 N71-10287

Cost effectiveness of pulse Doppler radar in airborne aircraft of early warning system  
p0125 N71-13939

High lift systems design for combat aircraft  
p0319 N71-20059

Flight testing military transport aircraft for handling and performance in STOL applications  
p0319 N71-20060

Flight test evaluation of military aircraft low altitude high speed performance  
p0394 N71-23421

Procedures for service test evaluations of Army aircraft automatic navigation systems  
[AD-719096] p0455 N71-24369

Procedures for evaluating effectiveness of self propelled and portable ground servicing units for Army aircraft  
[AD-719102] p0457 N71-24459

Design, development, and flight testing of fire suppressant void filler foam kits for lower hemisphere of fuel tanks in various tactical army aircraft  
[AD-719711] p0518 N71-27679

Approach power compensator system for manual and automatic Navy carrier landing system  
[AD-722025] p0522 N71-28241

Functional suitability of internal/external lighting systems for military aircraft  
[AD-723034] p0574 N71-29797

Statistical analysis of Navy and Marine aircraft activity and airspace usage in Feb. and Mar. 1970 as part of National Airspace Utilization System  
[AD-722698] p0576 N71-30174

Flight testing and performance evaluation of rotary and fixed wing aircraft for military operations  
[AD-723411] p0623 N71-31815

Application of two dimensional collision geometry to collision avoidance warning techniques for military aircraft operations  
[AD-723977] p0635 N71-32931

Design criteria for crashworthy aircraft fuel systems for military aircraft  
[AD-723988] p0637 N71-32992

Integration of photographic methods in test procedures for military aircraft, aircraft weapons, and ancillary equipment  
[AD-724081] p0639 N71-33080

Bibliographies on Japanese, German, and Italian military aircraft during Second World War  
[RAE-LIB-BIB-312] p0639 N71-33162

Analysis of 56 Army midair collisions which occurred during period Jan. 1963 to Nov. 1969 with conclusions and recommendations  
[AD-724682] p0641 N71-33278

Performance test and evaluation of hand tools used in support of military aircraft maintenance  
[AD-726893] p0686 N71-35558

Basic engineering technology for Automatic Inspection Diagnostic And Prognostic Systems (AIDAPS) for Army aircraft  
[AD-726951] p0711 N71-36432

Statistical, cause/factor and injury tables, accident rates, and briefs of accidents involving US carriers in 1969  
[NTSB-ARC-71-1] p0711 N71-36437

**MILITARY AVIATION**

Man role in future navigation from SAC viewpoint, considering relationships to mission and machine  
p0006 A71-10502

Navigator role in Military Airlift Command/MAC/ as navigator, weather analyst, fuel manager and flight planner  
p0006 A71-10504

Legal aspects of military sonic booms, discussing administrative remedies, liability and various cases  
p0215 A71-21830

Fog clearance from airport runways, discussing available techniques, economic aspects and importance for military operations  
p0361 A71-27247

Military aviation greases for subsonic commercial airplane lubricants, discussing economic and technical benefits based on service experience and testing  
[SAE PAPER 710411] p0404 A71-28304

Army rotorcraft performance data, discussing hovering and forward flight performance out of ground and level flight power requirements and drag and compressibility effects  
[AHS PREPRINT 500] p0448 A71-31076

Civil and military aviation operational problems, including cloud masses and CAT detection, landing aids and radar navigation  
p0491 A71-31917

Military and civil aircraft navigation systems development, emphasizing self contained airborne equipment  
p0542 A71-35374

UK military and civil ATC coordination, discussing Mediator plan for modernization of communication and navigation equipment and techniques  
p0662 A71-41519

## MILITARY HELICOPTERS

NT CH-3 HELICOPTER  
NT CH-46 HELICOPTER  
NT CH-47 HELICOPTER  
NT CH-54 HELICOPTER  
NT H-19 HELICOPTER  
NT H-53 HELICOPTER  
NT H-56 HELICOPTER  
NT OH-6 HELICOPTER

- NT QH-50 HELICOPTER  
 NT UH-1 HELICOPTER  
 Sand and dust effects on military helicopter flight controls and equipment service life, discussing relief program p0096 A71-15430  
 Environmental development and testing of OH-58A light observation helicopter for close ground support, noting particle separator and injection seals p0097 A71-15439  
 Military helicopter design and weaknesses correction, considering man/machine combat survivability and operational accidents reduction p0098 A71-15447  
 Height velocity /H-V/ flight testing, giving results from OH-58A Kiowa and AH-1G Huey Cobra helicopters p0184 A71-19093  
 Soviet Mil V-12 heavy lift helicopter for civil and military missions, noting turbine engines, rotor configuration, cargo hold and navigation system p0436 A71-30420  
 Weapons delivery computer for attack helicopters, using planar distributed function generator for general closed form instantaneous solution capability [AHS PREPRINT 531] p0450 A71-31092  
 Lynx military helicopter design high reliability and low maintenance demands p0503 A71-33457  
 U.S. Army ATC cost-effective system developments for high density low altitude helicopter tactical operations to avoid enemy radar under near-all weather conditions p0667 A71-42084  
 Flight test of fire control system in AH-1G helicopter [AD-714670] p0173 N71-16019  
 Feasibility of electroluminescent panels and rotor tip lighting for military helicopters to aid in observation by other vehicles in formation [AD-715851] p0255 N71-18734  
 Flight safety performance of V/STOL Harrier military aircraft having jet control p0395 N71-23427  
 Aerodynamic configurations and characteristics of USSR military helicopters [AD-719585] p0466 N71-25133  
 Flight testing and performance evaluation of rotary and fixed wing aircraft for military operations [AD-723411] p0623 N71-31815
- MILITARY TECHNOLOGY**  
 Army avionics technology transfer to civil aviation, discussing communication systems, flight control and landing aids p0087 A71-15017  
 Electronic warfare technology, discussing airborne platforms, battlefield surveillance, jamming devices, homing and warning systems p0087 A71-15019  
 USAF technology programs providing near term particular capability needs and long term fundamental incremental gains p0132 A71-16286  
 Human role in Aerospace Defense Command navigation, discussing Airborne Warning And Control System and navigational aspects of ADC mission p0201 A71-20346  
 Plastics as potting compounds in military aircraft electrical systems, investigating resistance to reversion and hydrolytic stability p0283 A71-24115  
 MAC malfunction detection, analysis and recording system applications in commercial airlines, emphasizing real time response for maintenance function [SAE PAPER 710425] p0405 A71-28311  
 All-weather landing systems military constraints and requirements, considering ground equipment mobility and insensitivity topographic environments p0490 A71-31908  
 Naval Air Rework Facility, discussing primary mission, technical disciplines and operational performance feedback [AIAA PAPER 71-765] p0506 A71-34003  
 Flying qualities military specification, discussing longitudinal static stability, transonic flight relaxation, control forces in maneuvering flight, lateral-directional oscillations, etc [AIAA PAPER 71-766] p0506 A71-34004  
 USAF total in-flight simulator model-following feedback control system, discussing conceptual design and flight test results [AIAA PAPER 71-961] p0598 A71-37202  
 Kalman filtering algorithm for hybrid navigation in army aircraft [AD-713553] p0167 N71-15391  
 Description of Air Force tactical air control and communications system [AD-714292] p0176 N71-16492  
 Evaluation procedures to determine effectiveness of visible and infrared searchlights mounted on fixed and rotary wing aircraft during tactical support missions [AD-721155] p0511 N71-26895  
 Air Force research program objectives for 1971 [AD-720905] p0516 N71-27208
- MILLING (MACHINING)**  
 Wing models development by tangent milling on jig-borer, approximating cross section by hand finish smoothened polygon p0481 A71-31439
- MINERALS**  
 NT FLUOROSILICATES
- MINIATURE ELECTRONIC EQUIPMENT**  
 Miniature transducers design and fabrication for fluctuating pressure measurements in jet engine testing, noting frequency response and power dissipation p0434 A71-30324
- MINIATURIZATION**  
 Miniature aerodynamic turbulence gage using axisymmetric lifting body sensor p0403 A71-28158  
 Heat exchanger miniaturization for avionics applications, discussing design and fabrication [HEAT EXCH. CONF. PAPER 15] p0487 A71-31636
- MINIMAX TECHNIQUE**  
 Application of multivariable search techniques to design of low sonic boom overpressure [NASA-CR-73496] p0160 N71-14613
- MINIMIZATION**  
 U OPTIMIZATION
- MINIMUM DRAG**  
 Civil aircraft aspect ratio relationship to commercial viability, considering need for minimum induced drag at wing loading to improve payloads, speeds and ranges p0017 A71-11628  
 Pointed body of revolution in gravitationally stratified atmosphere, discussing supersonic boom and minimum drag p0135 A71-16712  
 Hypersonic minimum drag slender wing leading edge shape for given airfoil section, using Newtonian theory p0222 A71-22039  
 Numerical solution of axisymmetric minimum drag bodies in hypersonic viscous gas flow, obtaining coefficient of friction by local variations method p0289 A71-24370  
 Minimum drag surface shape of thick lifting delta wing integrated with conical fuselage for supersonic cruising speed p0369 A71-27716  
 Minimum drag wing-fuselage combination for supersonic speeds and prescribed lifting force, longitudinal moment and volume, using method of successive approximations p0416 A71-29182  
 Minimum drag and lifting line characteristics of large aspect ratio wing in uniform shear flow with velocity variations along span p0693 A71-43312  
 Minimum drag airfoil shape solutions with supersonic flow and turbulent boundary layers for given chord length and heat transfer rate [AD-726767] p0708 N71-36409
- MIRAGE 3 AIRCRAFT**  
 Mach 2 Mirage Milan ground attack fighter, noting lift aid moustache, low speed and steep approach handling from short airstrips p0029 A71-12740  
 Extreme turbulence measurement during low level flights of Mirage A3-76 fighter aircraft, determining true gust velocities and power spectral energy distributions

- p0425 A71-29756
- MISFIRES**  
 U FIRING (IGNITING)  
**MISS DISTANCE**  
 Midair collisions analysis for civil-military integrated ATC air space, discussing near miss volume, random heading aircraft density and pilots evasive action vs avoidance percentages p0367 A71-27599  
 Radar avoidance action logic for converging aircraft safe passage, discussing near miss and collision situations p0367 A71-27600
- MISSILE CONFIGURATIONS**  
 Cone-cylinder-cone missile type body in transonic buffeting environment determining static and fluctuating wall pressure distribution [ONERA-TP-942] p0553 A71-36020  
 Numerical analysis of downwash interference on wings of missile tails p0302 A71-19360  
 Angle of attack effects on induced rolling moment of low aspect ratio missile at transonic speed p0302 A71-19363
- MISSILE CONSTRUCTION**  
 U MISSILE STRUCTURES  
**MISSILE CONTROL**  
 Kalman-Bucy linear filtering algorithm application to nonlinear estimation of single channel missile attitude control system parameters p0182 A71-18835  
 Control, navigation and guidance review, considering application of earth reference coordinates for aircraft, missiles and spacecraft p0440 A71-30710  
 Soviet book on radio control of various flight vehicles covering closed loop synthesis, missile guidance, spacecraft trajectory correction and air traffic control p0543 A71-35403

Military and civil aircraft navigation systems development, emphasizing self contained airborne equipment

p0542 A71-35374  
Narita site Tokyo international airport, discussing transportation, runways, ground handling, navigation aids, lighting, etc

p0553 A71-35997  
Aircraft onboard equipment tests in air navigation aid satellite project, estimating tracking random errors

p0559 A71-36509  
Unified error analysis application to altimeter-aided terrestrial inertial navigation systems

[AIAA PAPER 71-901] p0595 A71-37152

Short haul air transportation, discussing performance requirements, community acceptance and navigation and landing aids

p0665 A71-42073  
Aeronautical radio navigation aids photo-optical calibration, describing photogrammetric procedure and ground equipment for checking out airport ILS systems

p0695 A71-43587  
STOL aircraft system, discussing ground installations, runways, three dimensional area navigational aids, noise reduction, air traffic and short haul productivity

[AIAA PAPER 71-983] p0700 A71-44579

Advanced ILS and automatic landing systems for conventional and V/STOL aircraft - conference

[AGARD-CP-59-70] p0109 N71-12426

Kalman filtering algorithm for hybrid navigation in army aircraft

[AD-713553] p0167 N71-15391

Shuttlecraft landing and navigational aid capabilities

[NASA-TM-X-66720] p0248 N71-18187

Cockpit display of automatic radar control systems data

[AD-716425] p0315 N71-19848

Procedures for service test evaluations of Army aircraft automatic navigation systems

[AD-719096] p0455 N71-24369

Bibliography on radar and radio navigation

[DLR-MITT-70-21] p0513 N71-26970

Operating instructions of Decca Mark 19 navigation system

p0634 N71-32861

Operating instructions for Decca Mark 25 navigation system

p0635 N71-32917

Position fixing navigation aids for use in Army aircraft, surface vehicles, and waterborne vehicles

[AD-724079] p0639 N71-33124

#### NAVIGATION INSTRUMENTS

NT ATTITUDE INDICATORS

NT COMPASSES

NT GYRO HORIZONS

NT GYROCOMPASSES

NT RADIO ALTIMETERS

NT RADIO DIRECTION FINDERS

STOL navigation equipment and microwave landing instruments test programs, noting data recording and flight operations

p0068 A71-13286  
Area navigation in commuter/air taxi operations concerning airborne equipment, airport utilization and CTOL, STOL and VTOL aircraft

## NAVIGATION SATELLITES

## SUBJECT INDEX

p0085 A71-14650  
Aircraft navigation system requiring computer and display for approach guidance to circular orbit over fixed ground area  
[AIAA PAPER 69-986] p0200 A71-20305  
Gyrocompass strapdown three coil synchro sensor magnetometer in conjunction with vertical gyro, eliminating azimuth detector inertial platforms p0201 A71-20340  
High speed airborne scanning navigational radar antenna with matched patterns, using offset horn fed reflector and polarization modes for improved visual display p0446 A71-31036  
ATC system improvement, presenting data acquisition upgrading and ground automation-aircraft navigation systems interface p0536 A71-34614  
Large scale MOS IC digital VOR navigation converter, comparing accuracy, size, weight and cost with standard design p0550 A71-35789  
High aperture wide angle lens design for compact electro-optical systems of airborne moving map projection navigational instruments p0560 A71-36605  
Avionics combined display system for area navigation, discussing design, color map projection, overlays, CRT unit and viewability p0650 A71-40137  
Aerial photographic equipment survey, describing topographic cameras, aerial photograph orientation equipment, onboard navigation instruments and mapping survey system p0659 A71-40875  
Unaided, integrated and differential OMEGA radio navigation configurations, comparing accuracy and suitability for airways system operations p0667 A71-42082  
Air traffic control integrated communication, navigation and identification system, discussing design, economics, technology and flexibility p0667 A71-42086  
Describing digital computer used in navigation and attack system of Jaguar aircraft p0114 N71-12611  
Evaluation of flight plan position information display for ocean flying control [FAA-WA-71-21] p0628 N71-32084

**NAVIGATION SATELLITES**  
Satellite systems for transatlantic simultaneous air and marine navigation, traffic control and rescue, stressing technical and economical factors p0146 A71-18015  
Electronically scanned cruciform slot-array aircraft antenna for satellite controlled navigation aid, discussing circularly polarized wave radiation p0509 A71-34123  
Navigation and communication satellites development for civil aviation and shipping, examining technical, organizational, operational and cost problems p0533 A71-34240  
Civil aviation and merchant marine satellites, considering aircraft and surface vessel antenna characteristics and modulation techniques for optimum communication channel frequencies p0546 A71-35582  
Satellite navigation system for aviation and marine use, examining operational requirements, economic viability and technical solutions p0662 A71-41509  
Aeronautical satellite systems program planning for improved aircraft communications, ATC and other air traffic services in airspace over oceanic areas p0668 A71-42096  
Cost analysis of joint NASA-European space program involving navigation and communication satellites for civil air traffic control [ESRO-SP-61] p0115 N71-12756  
Tropospheric and ionospheric absorption at VHF for North Atlantic aeronautical satellite system [NASA-TM-X-65507] p0464 N71-24914  
Satellite aided aircraft collision avoidance system effective for large number of aircraft [NASA-CASE-ERC-10090] p0464 N71-24948

**NAVIGATORS**  
Man role in future navigation from SAC viewpoint,

considering relationships to mission and machine p0006 A71-10502  
Navigator role in TACAN of reconnaissance and fighter aircraft, noting Weapon System Officer functions p0006 A71-10503  
Navigator role in Military Airlift Command /MAC/ as navigator, weather analyst, fuel manager and flight planner p0006 A71-10504

**NAVY**  
Naval aircraft testing, discussing weapons systems, funding commitments, outfitting schedules, time frames, contracts and management problems p0183 A71-19077

**NC-130 AIRCRAFT**  
U C-130 AIRCRAFT  
**NEUTRAL BEAMS**  
**NT MOLECULAR BEAMS**  
**NEW YORK**  
Extension of New York Waterfront Commission to area airports and establishment of security measures to combat air cargo theft [REPT-91-1262] p0576 N71-30164

**NEWTON THEORY**  
Nonaffine similarity laws and transformations subject to limitations of Newtonian impact theory for two dimensional bodies, obtaining aerodynamic coefficients p0011 A71-10948

**NICKEL ALLOYS**  
**NT HASTELLOY (TRADEMARK)**  
**NT INCONEL (TRADEMARK)**  
Ni base superalloys fatigue strength improvement for gas turbine engine components, discussing homogeneous deformation distribution, grain size control, etc p0002 A71-10166  
Gas turbine engine Ni alloys heat resistance, examining fatigue life and creep properties at various temperatures and test durations p0136 A71-16754  
Plasma arc welding of jet engine components of Ti and Ni alloys, comparing to gas tungsten arc and electron beam processes p0211 A71-21684  
High temperature Ni and Co alloys for stationary gas turbines and jet engine parts, considering microstructure and mechanical behavior under stress and temperature p0275 A71-23302  
Room temperature ultrasonic frequency fatigue behavior of Ni-base superalloy single crystals p0535 A71-34493  
Gas turbine engine steels and Ni alloys heat resistance, examining fatigue life and creep properties at various temperatures and test durations p0543 A71-35453  
Mach 1 burner rig tests at 2100 F for oxidation resistance evaluation of NiCrAl and FeCrAl claddings on TD-NiCr p0052 N71-11426  
Cobalt and nickel based alloy metallurgy for high temperature gas turbine materials p0233 N71-17389  
Thermal fatigue behavior of fiber reinforced nickel alloy gas turbine blades p0234 N71-17390  
Aluminide coatings for nickel-base superalloy developed for high temperature jet engine components [NASA-CR-72863] p0468 N71-25454

**NIGHT**  
Night rescue terminal navigation, considering design, development and tests of Limited Night Recovery System for HH-53 helicopter [AHS PREPRINT 534] p0450 A71-31095

**NIGHT VISION**  
Cheyenne attack helicopter weapons system, discussing night vision capability, armament, fire control and navigation equipment integration [AHS PREPRINT 530] p0450 A71-31091  
Closed cycle refrigeration system for cryogenic cooling of IR illuminator in helicopter mounted U.S. Army NVASS Night Vision System for night reconnaissance p0613 A71-39275

## NIKE ROCKET VEHICLES

NT NIKE-CAJUN ROCKET VEHICLE

NIKE-CAJUN ROCKET VEHICLE

Laboratory testing of breakdown on Nike-Cajun VHF  
quadraloop antenna

p0179 N71-16634

## NIOBIUM

Tungsten reinforced oxidation resistant columbium  
alloys with operating temperature above 2000 F for  
use in gas turbine engines

[AD-717969]

p0398 N71-23673

## NIOBIUM ALLOYS

Nb alloys in hypersonic glider fabrication,  
discussing mechanical properties, oxidation  
resistance and sandwich panel design

p0030 A71-12935

Niobium alloys for gas turbine blades, examining  
working temperatures, protective coatings and  
ductility

p0031 A71-12939

Silicide coated Nb alloys for gas turbine engine  
components operating at temperatures above 2000 F

[SAE PAPER 710460]

p0408 A71-28334

## NITRIC OXIDE

Aircraft gas turbine engines nitric oxide emission  
model, describing flow behavior and chemical  
processes

[AIAA PAPER 71-123]

p0155 A71-18659

Air polluting nitric oxide and soot production by  
jet aircraft, discussing mixing process and  
atmospheric dispersion

[AIAA PAPER 70-115]

p0366 A71-27560

Chemical kinetic calculation of nitric oxide  
formation in spark ignition automobile engines and  
gas turbine combustors

p0436 A71-30454

Turbojet engine combustor nitric oxide formation  
prediction based on adiabatic micromixed perfectly  
stirred reactor model analysis

[AIAA PAPER 71-713]

p0493 A71-32286

Jet engines nitric oxide air pollutant emission  
formation, developing gas turbine combustor models

[AIAA PAPER 71-712]

p0493 A71-32289

Nitrous oxide dissociation as natural source of  
stratospheric nitric oxide, noting estimates use  
as yardstick for artificial source

p0693 A71-43347

Depletion of atmospheric ozone by nitric oxide from  
SST exhausts

p0643 N71-33439

## NITROGEN

NT LIQUID NITROGEN

NT NITROGEN IONS

Aircraft fuel tank nitrogen inerting, fire and  
explosion suppression for foreign particle  
contamination, sludge and lacquering reduction

[ASME PAPER 71-GT-45]

p0351 A71-25978

Support systems and operational design of nitrogen  
hypervelocity blowdown wind tunnel

[AD-722345]

p0574 N71-29907

Nozzle design procedure and calculations for  
hypervelocity wind tunnel including thermodynamic  
properties of nitrogen and inviscid core and  
boundary layer calculations

[AD-727591]

p0723 N71-37821

## NITROGEN COMPOUNDS

NT AMMONIA

NT NITRIC OXIDE

NT NITROGEN OXIDES

NT NITROUS OXIDES

NT POLYIMIDES

## NITROGEN IONS

Velocity determination in hypersonic low density  
wind tunnel based on high energy electron beam  
produced nitrogen ions time of flight

p0538 A71-34887

## NITROGEN OXIDES

NT NITRIC OXIDE

NT NITROUS OXIDES

Stratospheric ozone reduction through catalytic  
action of nitrogen oxides from SST exhaust,  
discussing degrading effect on atmospheric  
radiation shield

p0562 A71-36922

## NITROUS OXIDES

Nitrous oxide dissociation as natural source of  
stratospheric nitric oxide, noting estimates use  
as yardstick for artificial source

p0693 A71-43347

## NOISE (SOUND)

NT AERODYNAMIC NOISE

NT AIRCRAFT NOISE

NT ENGINE NOISE

NT JET AIRCRAFT NOISE

NT ROCKET ENGINE NOISE

NT SONIC BOOMS

Discrete tone noise generation by high speed fans  
and compressor blades, using McCune analysis for  
linearized three dimensional compressible flow in  
infinite annulus

[AIAA PAPER 71-617]

p0483 A71-31555

Noise sources in axial flow fans, considering  
radiation from turbulent boundary layers,  
scattering of incident turbulence and secondary  
flow influence

p0658 A71-40710

Fundamentals of turbocompressor and turbofan noise  
and noise reduction possibilities

[DLR-FB-70-74]

p0569 N71-29374

Forms and causes of noise due to fluid flow

[NLL-CE-TRANS-5424-/9022.09/]

p0572 N71-29622

## NOISE ATTENUATION

U NOISE REDUCTION

NOISE ELIMINATION

U NOISE REDUCTION

NOISE HAZARDS

U HAZARDS

U NOISE (SOUND)

NOISE INJURIES

Determining sound pressure and noise spectra of  
turboshaft engines to assess potential noise  
injury

[DRET-TM-788]

p0716 N71-37113

## NOISE INTENSITY

Human subjective responses to approaching and  
receding aircraft sounds during flight over  
stationary observer

p0003 A71-10345

Low velocity and coaxial jet noise data and  
correlations for noise prediction of turbofan  
engines

p0139 A71-17155

Noise nuisance value index /noise pollution level/  
considering aircraft and motor vehicle noise  
surveys and tradeoff of intensity against duration

p0205 A71-20802

Jet aircraft noise over residential areas,  
discussing actual and permissible noise levels and  
proposals for remedial action

p0207 A71-21163

Engine inlet noise prediction from static test and  
flyover data as function of time at various  
observer locations, examining suppression effects  
on total spectra

[SAE PAPER 710386]

p0286 A71-24250

Two dimensional sound wave equation solution in  
terms of time retarded arguments, deriving  
analytical expressions for aircraft noise  
intensity and power

p0339 A71-25144

Transonic compressor shock wave noise generation and  
decay rates at multiple tones, using sonic boom  
analysis

[ASME PAPER 71-GT-7]

p0348 A71-25953

Temporal and spectral stimuli combinations effects  
on judged noisiness of aircraft sounds by college  
students

p0365 A71-27531

Aircraft noise on and near airports and factors  
affecting its intensity

p0419 A71-29304

Civil V/STOL aircraft projects, discussing design,  
lift fan engines, weights, flight performance,  
noise levels, safety and comfort standards

p0509 A71-34101

Subsonic turbulent jets acoustic emission,  
calculating noise intensity in far field for  
various Mach numbers

p0533 A71-34213

Propulsion systems trends for 1980s, discussing  
environmental noise levels, stoichiometric gas  
turbine engines for military aircraft, high bypass  
ratio engines for V/STOL aircraft, etc

p0546 A71-35625

Jet aircraft flyover noise measurement, determining  
average intrusion level in residential communities  
under approach and departure corridors

p0600 A71-37497

- Prediction methods for human aircraft noise perception, assessing weighted sound pressure level or complex loudness-noisiness computation scales p0659 A71-40866
- Determining types of acoustical measurements suitable for test section of NASA Langley wind tunnel [NASA-CR-111868] p0311 N71-19630
- Development and description of basic descriptors used to analyze jet engine noise, aircraft noise, and noise level of airports p0372 N71-21980
- Second order slender body theory for calculating nonlinear effects on sonic boom intensity p0523 N71-28364
- Flow field mapping for determining sonic boom intensity from wind tunnel measurements p0526 N71-28384
- Analysis of aircraft noise recordings to determine experimental values of atmospheric sound absorption [NASA-CR-1751] p0531 N71-28883
- Comparison test to evaluate perceived noise level for STOL and other aircraft sounds [WR-70-9] p0587 N71-31075
- Noise exposure from supersonic transport operations and estimates of changes in noise levels [AD-722366] p0622 N71-31793
- Analysis of factors creating aircraft noise problems and efforts to reduce level of aircraft noise p0628 N71-32086
- Aircraft noise problems in vicinity of Kennedy International Airport, New York and recommendations for noise reduction [PB-199723] p0677 N71-34032
- NOISE MEASUREMENT**  
**U ACOUSTIC MEASUREMENTS**  
**NOISE POLLUTION**
- Noise nuisance value index /noise pollution level/, considering aircraft and motor vehicle noise surveys and tradeoff of intensity against duration p0205 A71-20802
- Noise pollution control and airport noise levels abatement regulation by state government, taking into account economic and technical feasibility p0215 A71-21825
- SAE/DOT conference on aircraft and environments covering noise pollution, airport noise, sonic booms, regulatory/legal aspects and air pollution [AIAA PAPER 71-729] p0443 A71-30776
- Aircraft and environment - Conference, Washington, D.C., February 1971, Part 2 p0492 A71-32240
- Control and abatement of transportation noise pollution [NASA-CR-115881] p0169 N71-15557
- Urban air and surface vehicle noise levels and abatement potential [OST-ONA-71-1-VOL-2] p0332 N71-21085
- Literature survey and bibliography on noise pollution including sources, effects, and control [AD-724344] p0642 N71-33315
- Annotated bibliography on noise pollution-sonic booms [AD-722910] p0675 N71-34023
- NOISE PROPAGATION**
- Nonlinear planar propagation of sinusoidal and band-limited noise signals in air, extending to spherical waves p0139 A71-17157
- Sound radiation by rotor from interaction with nonuniform flow, considering multiple blades p0140 A71-17159
- Far field sound radiated from steady loading of isolated subsonic rotor, noting dependence on spatial uniformity of flow entering rotor p0140 A71-17160
- Aerodynamic sound radiation from point force in accelerative circular motion, obtaining closed form for overall far field radiation p0140 A71-17162
- Fan noise random propagation and sound power in cylindrical air ducts from modal spectra and pressure measurements p0294 A71-24834
- Combustion generated aerodynamic noise, considering sound radiation from open turbulent flames, spectral content, power output and origin p0443 A71-30780
- [AIAA PAPER 71-735] p0443 A71-30780
- Jet aircraft noise generation, transmission and reduction, emphasizing turbofan engine acoustics, operational characteristics and exhaust sound p0492 A71-32241
- Experimental research at Building Research Station on outdoor sound propagation for building design in relation to aircraft and road traffic noise p0540 A71-35237
- Aircraft noise propagation in city streets due to intertown V/STOL and helicopter ports, using small scale models p0613 A71-39264
- Air transportation system noise propagation and reduction [PB-196391] p0336 N71-21638
- Analysis of aircraft noise recordings to determine experimental values of atmospheric sound absorption [NASA-CR-1751] p0531 N71-28883
- NOISE REDUCTION**
- Aladin 2 interurban Stoll transport design with blown wings and jet deflection by wing flaps, emphasizing engine noise reduction p0008 A71-10749
- Noise reduction relationship to air transportation progress, considering cost/technology balance, quiet engine, research and development programs, etc p0009 A71-10819
- Steep approach to landing for jet transport aircraft noise abatement, using ground based equipment and onboard TV display p0014 A71-11311
- Axial flow compressors radiated sound reduction by segmented stator blades p0068 A71-13283
- High bypass ratio jet engine noise reduction in relation to mission requirements [ASME PAPER 70-WA/GT-13] p0076 A71-14121
- High bypass ratio fan engine design for low noise, discussing acoustic treatment, turbine noise and modulation tones [ASME PAPER 70-WA/GT-14] p0077 A71-14122
- Large low-speed fan for low noise production, testing performance on suppression effects of acoustic treatment and exhaust jet noise [ASME PAPER 70-WA/GT-15] p0077 A71-14123
- Helicopter noise minimization by various piloting maneuvers, discussing takeoff and landing, transition to forward flight, route selection, etc p0093 A71-15408
- Helicopter design for cabin noise level reduction p0095 A71-15423
- Jet noise suppressor development test techniques and facilities, discussing model tests at hydrodynamic ONERA wind tunnel p0101 A71-15819
- Rotating blade noise technology, discussing vehicles and components, noise nature, generation, reduction and prediction p0139 A71-17158
- Supersonic aircraft turbojet engine exhaust noise suppressor research program, predicting full scale noise spectra from model suppressor tests [AIAA PAPER 68-1023] p0144 A71-17693
- Turbofan engine noise reduction, using acoustic liners in inlet and exhaust ducts [AIAA PAPER 71-183] p0155 A71-18622
- Electrostatic charging noise measurement, reduction and flight test verification p0194 A71-19937
- SST noise suppression research, discussing engine noise suppressor conceptual designs and test results with installed devices p0199 A71-20302
- Aircraft optimum minimum noise takeoff profile, solving by equations of motion system for jet aircraft p0204 A71-20779
- Helicopter noise minimization by various piloting maneuvers, discussing takeoff and landing, transition to forward flight, route selection, etc p0207 A71-21049
- Jet aircraft noise over residential areas, discussing actual and permissible noise levels and proposals for remedial action p0207 A71-21163

- Q-Star experimental aircraft design and acoustical characteristics to study Quiet Aircraft Technology p0210 A71-21441
- Noise abatement power cutback takeoff procedures, maximum altitude approaches and preferential runway systems for noise relief p0213 A71-21813
- Subsonic jet engine noise reduction, considering turbojets, turbofans and jet suppressors p0214 A71-21814
- Noise reduction at source, flight methods adjustments and airport compatible land use for jet noise abatement p0214 A71-21815
- Land use strategies and noise reduction by source control and flight procedures for noise exposed areas minimization p0214 A71-21818
- Community reactions to aircraft noise, discussing short term interim alleviation measures in airport operations and runway usage scheduling p0214 A71-21819
- Noise pollution control and airport noise levels abatement regulation by state government, taking into account economic and technical feasibility p0215 A71-21825
- Aircraft noise abatement control on international basis by setting acoustic technological capability compulsory standards of quietness p0215 A71-21826
- Federal legislation and regulatory activities for control and abatement of aircraft noise p0215 A71-21827
- Federal legislation and regulation of aircraft noise, legal rights of airport neighbors and legal aspects of compatible land use, discussing noise control efforts p0215 A71-21829
- Land use control in aircraft noise abatement, considering airport development and community goals p0216 A71-21836
- Business jet aircraft noise certification, discussing test programs and cost reduction [SAE PAPER 710384] p0286 A71-24249
- VTOL lift fan engine design for minimum noise levels, noting silencers application p0292 A71-24750
- Axial flow fan noise, investigating louvers effects on sound field p0357 A71-26704
- Aircraft propulsion system testing, stressing noise reduction and inlet-engine exhaust system compatibility [SAE PAPER 710450] p0407 A71-28328
- Operations research minimum cost model of aircraft noise abatement in airport communities [AIAA PAPER 71-525] p0423 A71-29551
- Noise attenuation prediction in absorbing ducts adaptable to bypass jet engines, using Morse theory p0437 A71-30522
- Tip turbine driven lift fan noise reduction tests, considering design parameters effects [AIAA PAPER 71-743] p0443 A71-30784
- Acoustic liner design for propellant combustion instability and jet aircraft noise suppression, discussing cross flow and oscillatory pressure effects [AIAA PAPER 71-757] p0443 A71-30791
- SST sonic boom minimization, discussing cross-country flight p0444 A71-30820
- Jet noise reduction by foam injection, developing mathematical model for foam behavior in sound field [AIAA PAPER 71-734] p0480 A71-31327
- Commercial SST aircraft engine noise during takeoff, discussing exhaust geometries for suppression p0486 A71-31595
- Quiet turbofan STOL feasibility, discussing structural, propulsive and technical aspects, economy, passenger comfort and performance estimates p0487 A71-31605
- Acoustic and gas dynamic characteristics of jet noise muffler, using adapters at outlet section of exhaust nozzle p0487 A71-31710
- Aircraft powerplant noise test facilities and reduction, emphasizing jet acoustic Mach number, pressure and temperature ratio and exit turbulence effects p0488 A71-31876
- Concorde aircraft engine noise emission and reduction, examining acoustic measurements in takeoff and approach phases, reduced thrust and retractable silencer p0488 A71-31877
- Aircraft noise reduction criteria, examining noise measurements relation to human behavior and physical measures connection to subjective judgments p0488 A71-31879
- Soundproofing of air inlets and fan exhausts with reference to absorbent systems with resonant cavities, technologies, environmental conditions and material fatigue p0488 A71-31880
- STOL jet aircraft noise reduction by using engines with moderate dilution rate p0489 A71-31882
- Aircraft engine noise test methods for acoustic certification, investigating jet and compressor silencing, absorbent materials, rotor and propeller noise and psychoacoustic tests p0489 A71-31890
- Jet aircraft noise generation, transmission and reduction, emphasizing turbofan engine acoustics, operational characteristics and exhaust sound p0492 A71-32241
- Community actions for jet aircraft noise reduction, discussing noise environments, nationwide goals, decision making and economic incentives p0493 A71-32249
- Sonic boom phenomena, discussing supersonic flow near aircraft, atmospheric propagation, distortion, focusing, caustics, turbulence effects and reduction p0495 A71-32566
- French disengageable silencer for jet engine noise attenuation during aircraft takeoff p0496 A71-32695
- Rotorcraft and VTOL aircraft noise characteristics, noting implications of reduction to acceptable levels p0503 A71-33419
- Gulfstream 2 acoustics program for cabin noise level reduction, compliance with FAA takeoff and landing noise certification and structure qualification against sonic fatigue [AIAA PAPER 71-783] p0545 A71-35527
- Flight dynamics for aircraft noise reduction, gust effects decrease and dynamic stability of parachute load systems p0561 A71-36752
- Sonic boom implications and decision on acceptability with alternative policies of complete barring, controlled corridors and overflight limitations [CASI PAPER 72/4] p0601 A71-37595
- Civil aircraft future propulsion requirements, considering larger engine sizes, higher takeoff thrusts and lower noise levels [CASI PAPER 72/10] p0601 A71-37600
- Civil V/STOL aircraft engines requirements, considering noise reduction, thrust, multifunction propulsion/blowing, lift and booster fan engines [CASI PAPER 72/19] p0605 A71-38021
- Super CTOL airport planning, discussing location of runway pairs, aircraft operations, noise reduction, community relations and efficiency p0605 A71-38023
- Flight test measurements of shock cell noise loading of aircraft tail planes, noting alleviation by nozzle and mirror structural modifications p0609 A71-38467
- Segmented stator vanes performance in axial flow compressor, noting radiated sound reduction p0611 A71-39093
- Air traffic control delays, airport airspace congestion, flyover noise reduction and performance requirements effect on airline operations economics p0614 A71-39391
- Aircraft noise reduction in takeoffs/operational procedures and by land use planning p0614 A71-39392

- Low noise levels of DC-10 aircraft with CF6-6D turbofan engines, discussing design, flyover tests and FAA requirements  
[CASI PAPER 72/5] p0615 A71-39424

Application of photochromic coatings to provide nondestructive inspection for aerospace materials and structures
- [AD-720239] p0475 N71-26383  
**NONEQUILIBRIUM CONDITIONS**  
Nonequilibrium electron temperature, concentration and reflection in reentry boundary layers, discussing heat transfer and ionization energy diffusion
- [AIAA PAPER 69-82] p0191 A71-19879

## NONEQUILIBRIUM DRAG

## U FRICTION DRAG

## NONEQUILIBRIUM FLOW

German monograph on centered two dimensional nonequilibrium hypersonic expansion flow, considering real gas flow with chemical reactions p0131 A71-16124

Thin airfoils theory in nonequilibrium magnetogasdynamics with nonuniform nonequilibrium free stream, using Green function technique p0273 A71-23200

Two phase mixture nonequilibrium flow mathematical model with allowance for colliding droplets coagulation and atomization based on high speed photographic studies p0290 A71-24380

Multicomponent nonequilibrium air flow past axisymmetric blunt body, calculating flow distribution at various attack angles with time dependent technique [AIAA PAPER 71-595] p0485 A71-31575

Condensate particle crystallization retardation effect on energy characteristics of jet engine, calculating nonequilibrium flows of two phase combustion products in nozzle p0703 A71-45004

## NONEQUILIBRIUM IONIZATION

Nonequilibrium electron temperature, concentration and reflection in reentry boundary layers, discussing heat transfer and ionization energy diffusion [AIAA PAPER 69-82] p0191 A71-19879

Nonequilibrium multicomponent ionization calculations for stagnation merged shock layer of hypersonic blunt body by successive accelerated replacement [AIAA PAPER 69-655] p0191 A71-19890

## NONFLAMMABLE MATERIALS

Flame retardant silicone elastomers for use as aircraft construction materials, describing fabrication techniques, mechanical, aging and weathering properties p0362 A71-27412

Airplane interior materials ignition and fire extinguishing foam [FAA-RD-70-81] p0179 N71-16818

Design, development, and flight testing of fire suppressant void filler foam kits for lower hemisphere of fuel tanks in various tactical army aircraft [AD-719711] p0518 N71-27679

Utilization of aerospace nonflammable cellulosic elastomeric, fibrous, and composite materials in commercial aircraft refurbishment p0581 N71-30759

Nonflammable polyurethane foam for ejection seat cushions and statistical analysis of its mechanical properties [AD-723302] p0621 N71-31775

## NONGRAY ATMOSPHERES

Nongray absorption and radiation cooling on smooth symmetric blunt bodies included in modified Maslen flow field method for radiation and large blowing [AIAA PAPER 69-637] p0134 A71-16566

## NONISOTROPIC PLATES

## U ANISOTROPIC PLATES

## NONLINEAR EQUATIONS

## NT QUADRATIC EQUATIONS

Nonlinear partial differential equation solution for natural free-free vibrations of beam structures [ASME PAPER 70-WA/APR-55] p0078 A71-14172

System of nonlinear equations of motion for isentropic, compressible fluid solved by cyclic relaxation method for subsonic and transonic regimes p0530 N71-28688

## NONLINEAR SYSTEMS

Nonlinear control systems with transport lag, obtaining parameter plane equations for stability analysis p0202 A71-20369

Nonlinear self adjusting and variable structure automatic control systems for piloted and pilotless flight vehicles, considering oscillations due to electric servosystems nonlinear characteristics p0357 A71-26716

Nonlinear systems optimal control computational method, using Chebyshev algorithm

Suboptimal fixed point data smoothing algorithm for parameter and initial state estimation of nonlinear dynamic systems p0698 A71-44113

Investigating nonlinear digital control methods for attitude stabilization of VTOL aircraft p0114 N71-12615

Mathematical models for acoustic scattering by porous elliptic cylinder with nonlinear resistance [NASA-TN-X-67019] p0334 N71-21408

## NONNEWTONIAN FLUIDS

Combined free and forced laminar convective heat transfer to nonNewtonian fluids flowing in constant wall temperature vertical tubes and controlling parameter analysis p0387 N71-22702

## NONRIGIDITY

## U FLEXIBILITY

## NONSYNCHRONIZATION

Nonsynchronous interrogation repetition frequency selection methods applied to radar beacon systems [AD-715335] p0242 N71-17766

## NONUNIFORM FLOW

Numerical analysis of flow field around thin airfoil in two dimensional nonuniform stream, using finite difference method p0027 A71-12680

Parallel nonuniform supersonic flow of two coaxial gas jets past sphere p0083 A71-14562

Sound radiation by rotor from interaction with nonuniform flow, considering multiple blades p0140 A71-17159

Thin airfoils theory in nonequilibrium magnetogasdynamics with nonuniform nonequilibrium free stream, using Green function technique p0273 A71-23200

Numerical solution of nonuniform enthalpy mixed axisymmetric gas flow in curvilinear regions with upper boundary and discontinuity using build-up method p0290 A71-24376

Nonuniform flow field sonic boom reduction device using slit jet impinging on inclined flat plate [AD-717193] p0335 N71-21623

## NONVISCOUS FLOW

## U TURBULENT FLOW

## NORMAL FORCE DISTRIBUTION

## U FORCE DISTRIBUTION

## NORMAL SHOCK WAVES

Mesh method for supercritical transonic flow calculation with normal or oblique shock wave at trailing edge p0550 A71-35799

Normal shock existence in blade spacings of rotor and guide vanes of axial flow supersonic compressor as function of pressure nonuniformity p0664 A71-41843

Normal or oblique plane detonation waves producing combustion products in supersonic flow [ARC-R/M-3638] p0332 N71-20938

Turbulent boundary layers in compressible flow and their interactions with normal shock waves in zero and adverse pressure gradients p0517 N71-27602

Normal shock control systems for supersonic mixed compression inlet using feedback loops [NASA-TN-D-6382] p0573 N71-29745

# SUBJECT INDEX

# OPTICAL EQUIPMENT

Onboard area navigation systems in ATC environment, discussing route structure and flight instruments [SAE PAPER 710455] p0404 A71-28250

Onboard meteorological pulse radars for cloud formations detection, navigational aids, ground reference points determination and relief surveillance p0408 A71-28332

Aircraft loading system consisting of onboard weight and balance equipment and fully mechanized cargo pallet transfer, using computerized simulation model for parametric evaluation [SAE PAPER 900] p0491 A71-31920

Strut pressure and axle strain gage systems testing for balance and weighing onboard De Havilland C-7A aircraft [SAE PAPER 881] p0550 A71-35811

Investigating tasks of data processing equipment in advanced navigation systems for aircraft p0552 A71-35827

Evaluating use of airborne digital computers for guidance and control of X-15 and F-104 aircraft [NASA-TM-X-66491] p0113 N71-12604

Calculating delivery errors of automatically released bombs caused by onboard computer and attitude/air data sensor errors p0113 N71-12610

Satellite aided aircraft collision avoidance system effective for large number of aircraft [NASA-CASE-ERC-10090] p0114 N71-12612

ONBOARD NAVIGATION p0464 N71-24948

U NAVIGATION

ONE DIMENSIONAL FLOW

One dimensional flow models of internal combustion engine exhaust silencers in noisy systems p0339 A71-25180

Free vortices from slender wings, controlling strength, position, core stability and thickness on basis of one dimensional flow model p0654 A71-40492

One dimensional channel flow theory for designing ram wing surface effect vehicle [AD-727774] p0709 N71-36419

OPENINGS

NT PORTS (OPENINGS)

OPERATING SYSTEMS (COMPUTERS)

Navy avionic modular multiprocessing digital computer operating system reliability, comparing totally software and partly hardware approaches p0182 A71-18833

OPERATING TEMPERATURE

Gas turbine engine nozzle guide vanes under pulsed thermal operation, discussing service life evaluation and increase p0136 A71-16756

Gas turbine engine nozzle guide vanes under pulsed thermal operation, discussing service life evaluation and increase p0544 A71-35455

Aircraft high temperature turbine engine design, reviewing technological advances coupled with laboratory engine and component tests p0615 A71-39399

Aerodynamic and thermodynamic performance of sweat cooled gas turbine engine blades p0233 N71-17382

Temperature field measurements within convection cooled rotor blade of gas turbine engine p0233 N71-17387

OPERATIONAL HAZARDS

Safety tests for aircraft equipment [AD-723033] p0625 N71-31940

OPERATIONAL PROBLEMS

Reliability and maintenance problems of U.S. Army operational environment, noting inadequate design and test criteria during development p0092 A71-15402

Sand and dust effects on military helicopter flight controls and equipment service life, discussing relief program p0096 A71-15430

VTOL operation under snow and ice conditions, discussing adhesion, radiation absorption and electrical properties of ice p0097 A71-15437

Subsonic and supersonic airline operations, restraints, considering noise, air pollution and inadequate airport facilities

Optimization and operational problems of man powered aircraft, noting Kremer Competition design [AIAA PAPER 71-798] p0358 A71-26870

Technological aspects of film cooling for blades in high temperature gas turbines p0508 A71-34023

Survey of air traffic control radar beacon system operational problems p0235 N71-17404

Description and operational behavior of hypersonic low density wind tunnel at Goettingen, West Germany [DLR-FB-70-42] p0247 N71-18116

OPERATIONS RESEARCH p0514 N71-27034

NT DYNAMIC PROGRAMMING

NT GAME THEORY

NT MINIMAX TECHNIQUE

Operations research minimum cost model of aircraft noise abatement in airport communities [AIAA PAPER 71-525] p0423 A71-29551

Accident investigations, flight control systems, and operational recordings for improved aircraft flight mechanics [AGARD-CP-76-71] p0393 N71-23410

Automatic data processing systems for air traffic control, health services, operations research, management planning, information systems, and reading machines p0722 N71-37742

OPERATOR PERFORMANCE

ATC automation system design, considering controllers decision time savings p0288 A71-24271

ATC display device man-computer interaction faults and delays effects on operator performance p0650 A71-40119

Feasibility of visual tracking to determine effect of lag in simulated aircraft dynamics [IAM-R-479] p0256 N71-18838

OPERATORS (MATHEMATICS)

Unsteady motion of finite span wing in ideal incompressible liquid near solid surface by integral operator method in potential acceleration space p0156 A71-18701

OPERATORS (PERSONNEL)

NT AIRCRAFT PILOTS

NT PILOTS (PERSONNEL)

NT TEST PILOTS

Air traffic controllers legal responsibility and disciplinary procedure, considering clearances, flight crew instructions and aircraft accidents p0269 A71-22891

OPTICAL ABSORPTION

U ELECTROMAGNETIC ABSORPTION

OPTICAL CORRECTION PROCEDURE

Automatic approach and landing system with flash warning signal for Caravelle aircraft control p0396 N71-23429

OPTICAL DATA PROCESSING

Holographic techniques, optical data processing and laser properties for aerospace instrumentation p0434 A71-30329

Pulse compression and optical data correlation in side-looking radar, considering Doppler effect p0496 A71-32650

Investigating possibilities and limitations of applying holographic techniques to aerospace technology [NASA-SP-248] p0115 N71-12776

OPTICAL DENSITY

Visible exhaust smoke trails from aircraft jet engines, measuring optical density by photographic photometry [SAE PAPER 710428] p0406 A71-28314

Schlieren method for measuring wake density behind hypervelocity projectile [ISL-T-12/69] p0105 N71-12221

OPTICAL EQUIPMENT

NT ASTRONOMICAL TELESCOPES

NT CAMERAS

NT HIGH SPEED CAMERAS

NT IMAGE CONVERTERS

NT MULTISPECTRAL BAND SCANNERS

NT OPTICAL MEASURING INSTRUMENTS

NT OPTICAL RADAR

NT REFRACTOMETERS

NT SPECTROPHOTOMETERS

## OPTICAL FILTERS

NT STROBOSCOPES  
NT TRANSMISSOMETERS  
NT WIDE ANGLE LENSES

Low profile optical system producing annular cone of radiation from point source for high speed aircraft beacon

p0185 A71-19203

Combined optical attitude and altitude indicating instrument for use in aircraft or spacecraft [NASA-CASE-XLA-01907]

p0391 N71-23268

Shipboard test procedure of Fresnel lens optical landing system MK 6 MOD 2 for carrier landings [AD-718335]

p0397 N71-23488

Development and characteristics of scanning systems for thermal viewers and infrared detectors for airborne operation

[AD-719854]

p0466 N71-25053

## OPTICAL FILTERS

Contrast level reading tests of CRT and self luminous display devices with optical filters at high ambient light for cockpit applications

p0650 A71-40127

## OPTICAL GENERATORS

## U LASERS

## OPTICAL MASERS

## U LASERS

## OPTICAL MEASUREMENT

## NT PHOTOMETRY

Structure constant of jet exhaust turbulence of J-57 with afterburner by laser beam probing compared with scintillation and hot-wire anemometer measurements

p0354 A71-26304

Optical holographic interferometry for radial microcracks detection from bolt holes in high strength aircraft steel

[ASME PAPER 71-MET-C]

p0361 A71-27312

Optical measurement of sprays mean droplet size, assessing operating variables effect on air-blast atomizer characteristics

p0411 A71-28756

Photoelectric, bolometric and photographic recording assembly for measurement of light pressure and aerodynamic forces on complex shape body in free molecular flow

p0415 A71-29155

Vortex laser Doppler velocimeter system for aircraft wake turbulence velocity profile mapping, describing optical arrangements, back and forward scattering modes and prototype design

p0548 A71-35756

Aeronautical radio navigation aids photo-optical calibration, describing photogrammetric procedure and ground equipment for checking out airport ILS systems

p0695 A71-43587

Ground visibility observations and automatic measurement of runway visual range of airport runways

p0034 N71-10118

Automatic calculation of runway visual range of airport runways

p0034 N71-10120

## OPTICAL MEASURING INSTRUMENTS

## NT REFRACTOMETERS

## NT SPECTROPHOTOMETERS

## NT TRANSMISSOMETERS

Feasibility evaluation on optical probing of supersonic aerodynamic turbulence with statistical correlation

[NASA-TN-D-6077]

p0237 N71-17444

## OPTICAL PROPERTIES

## NT ABSORPTIVITY

## NT OPTICAL REFLECTION

## NT PHOTOELECTRIC EFFECT

## NT TRANSPARENCE

Holographic recording of optical inhomogeneities in gas flow in hypersonic wind tunnels, using Mach-Zehnder interferometer and schlieren apparatus

p0479 A71-31274

Aircraft mounted infrared detectors for remote measurements of optical cloud properties

p0467 N71-25260

## OPTICAL RADAR

Coherent laser synthetic aperture radar at microwave frequencies for airborne ground point target mapping

p0021 A71-12044

## SUBJECT INDEX

Integrated electro-optical microwave radar and laser /lidar/ systems for earth oriented, environmental and domestic applications

p0181 A71-18827

Experimental pulsed neodymium lidar system modified for measuring slant visibility conditions for aircraft landing operations

[AD-716483]

p0522 N71-28217

## OPTICAL REFLECTION

Pilot performance in recognizing electronic display systems under varying dazzle and color conditions in cockpits

[BAE-LIB-TRANS-1545]

p0721 N71-37621

## OPTICAL RESONATORS

## U LASERS

## OPTICAL SCANNERS

## NT MULTISPECTRAL BAND SCANNERS

## OPTICAL SENSORS

## U OPTICAL MEASURING INSTRUMENTS

## OPTICAL THICKNESS

Inviscid flow distribution of high temperature jet of optically thick radiating gas exhausting from two-dimensional nozzle into low temperature quiescent medium

p0291 A71-24588

## OPTICAL TRACKING

Apollo range instrumentation aircraft, describing C-135A modification with airborne lightweight optical tracking systems

p0609 A71-38546

## OPTIMAL CONTROL

## NT TIME OPTIMAL CONTROL

Optimal synthesis of selective multidimensional invariant control systems applied to turboprop engine with differential reductor

p0008 A71-10718

Rotorcraft ideal height-velocity boundary and critical decision point height prediction, discussing pilots optimal control under emergency conditions

p0094 A71-15414

Sensitivity analysis and optimal control theory used to design optimal gust alleviation systems, discussing gain and gear ratios

[AIAA PAPER 71-9]

p0150 A71-18483

Hypersonic body optimum lift control during atmospheric entry, taking into account drag coefficients and density

[AIAA PAPER 71-21]

p0150 A71-18488

Aircraft collision avoidance dynamical system, determining barriers between possible capture regions by optimal control problem solution

p0209 A71-21322

Optimal air traffic control coordinating flow and holding patterns of aircraft landing in single runway using linear-quadratic technique

p0209 A71-21335

Supersonic airplane minimum time turns at constant altitude, determining thrust, bank angle and angle of attack programs with optimal control theory

p0221 A71-22032

Aircraft motion and traffic control at air corridors intersections for minimum flight schedule deviation under random disturbance due to weather, using statistical simulation

p0283 A71-24158

Optimal control stabilization under continuous small disturbances applied to aircraft stability in horizontal flight under vertical gust loads

p0292 A71-24726

Constrained gain problem optimality conditions, presenting algorithm for optimal gains and application to aircraft control problems

p0295 A71-24859

Optimal stochastic control and gust alleviation for jet aircraft response for flight through turbulent upwash field

p0297 A71-24870

Quasi-optimal proportional navigation, deriving feedback guidance laws for interceptor aerodynamically controlled missiles

p0355 A71-26409

Nonlinear systems optimal control computational method, using Chebyshev algorithm

p0367 A71-27592

Aircraft optimum control synthesis for powered flight phase, determining angle of attack for transfer to maximum velocity by Cauchy problem

p0503 A71-33442

- Interceptor aircraft optimal nonlinear command guidance scheme for reduction of airborne computation load with forward prediction of interceptor and target state vectors  
[AIAA PAPER 71-916] p0596 A71-37166
- Aircraft control design by implicit model- following technique with optimal feedback sampled data and continuous control algorithm, exemplifying STOL aircraft landing approach control  
[AIAA PAPER 71-956] p0597 A71-37197
- Model following technique for optimal control applied to hovering motion of CH-3 helicopter  
p0611 A71-39000
- Helicopter optimal autorotation landing parameters for touchdown at zero speed, including rotor rpm drop due to flow separation on blades  
p0692 A71-43090
- Minimum order state vector reconstruction linear filters for constant plants optimal control, applying to aircraft flight multiple control-point problem  
p0696 A71-44077
- Stochastic optimal control theory application to airplane rescheduling model, obtaining dynamic programming algorithm for optimal landing and takeoff rules  
p0697 A71-44104
- Computer-aided decision algorithm for ATC problem in near terminal area, emphasizing scheduling and holding strategies  
p0697 A71-44105
- Trends in automatic control field in last two decades, emphasizing optimal control and performance criteria selection  
[AIAA PAPER 71-1001] p0701 A71-44591
- Quadratic performance index for VTOL aircraft model reference attitude control system  
[NASA-TN-D-6231] p0255 N71-18836
- Computerized simulation of aerodynamic loads and dynamic responses for aircraft control system design based on optimal and feedback control theories  
[AD-722652] p0625 N71-31933
- Coordination of traffic flow and holding patterns of aircraft landing on same runway  
[NASA-CR-121466] p0646 N71-33747
- Practical design procedure for F-4 aircraft augmentation systems based on quadratic optimal control technology  
[AD-726584] p0682 N71-35221
- OPTIMIZATION**
- NT FLIGHT OPTIMIZATION**
- NT OPTIMAL CONTROL**
- NT TIME OPTIMAL CONTROL**
- NT TRAJECTORY OPTIMIZATION**
- Maximum thrust plug nozzle design for fixed inlet geometry, using calculus of variations for optimum contour determination  
[AIAA PAPER 71-40] p0151 A71-18501
- Mathematical model of small scale versatile aircraft component production process, developing computer production optimization algorithm  
p0156 A71-18715
- Aircraft optimum minimum noise takeoff profile, solving by equations of motion system for jet aircraft  
p0204 A71-20779
- Planar microwave array antenna for scan requirement, discussing tilt angle and element arrangement optimization  
[AIAA PAPER 70-191] p0221 A71-22030
- Optimization of slot angle, slot positioning and flow quantity affecting boundary layer control in energy transfer over airfoil profiles  
p0273 A71-23201
- Design optimization of aircraft starting and generating systems, identifying information required and system analysis methods  
[SAE PAPER 710392] p0286 A71-24256
- Flight path optimization with multiple time scales, discussing decoupling of high order three dimensional aircraft flight problem into several low order problems  
p0295 A71-24858
- Weight minimization of semiinfinite flat sandwich panel at constant dynamic pressure in supersonic flow subject to flutter constraint, using finite element model  
[AIAA PAPER 71-330] p0342 A71-25310
- Automated optimal weight fully stressed large scale structural design of aircraft, using matrix-mathematical programming technique  
[AIAA PAPER 71-361] p0343 A71-25340
- Stability analysis and design optimization with dynamics and aeroelastics constraints for helicopter rotor blade minimum weight with bending torsion flutter and favorable frequency placements  
[AIAA PAPER 71-388] p0344 A71-25352
- Optimal blowing wall jet prediction for suppressing separation from high lift aerofoils with incomplete mixing of upstream boundary layer  
p0354 A71-26196
- Modulation cancellation altimeter error analysis and performance optimization  
p0362 A71-27437
- Optimization of military VTOL aircraft secondary power systems, considering alternate power source for aircraft hydraulics, pneumatic drives, etc  
[SAE PAPER 710445] p0407 A71-28326
- Optimal penetration effect on peripheral gas flow temperature field at outlet of turbine combustion chamber with circular flame tubes  
p0414 A71-28971
- Wing thickness optimal distribution for minimum wave drag in supersonic flow at zero angle of attack for given planform, using Ritz method at lower Mach numbers  
p0417 A71-29222
- Design interface requirements for optimal aircraft engine condition monitoring system, using parameter, vibration, oil, borescope and radiography analysis  
[SAE PAPER 710447] p0438 A71-30531
- Life cycle cost optimization of STOL aircraft and tracked air cushion vehicles for operating transportation system  
p0501 A71-33306
- Constrained optimization problems solution combining modified pattern search methods and polynomial constraints in aircraft design parameters selection  
p0505 A71-33721
- Optimization and operational problems of man powered aircraft, noting Kremer Competition design  
[AIAA PAPER 71-798] p0508 A71-34023
- Aircraft structural parameters optimization satisfying flutter velocity constraint and minimum mass, applying to box beam design  
p0537 A71-34874
- Random access signaling system application to aircraft control, discussing signal redundancy requirement for access capability optimization based on radio environment model  
p0550 A71-35783
- Three dimensional minimum fuel turns for supersonic aircraft by energy state approximation  
[AIAA PAPER 71-913] p0596 A71-37163
- Aerodynamic control surfaces optimal location for flexible aircraft disturbed by random wind gusts, using matrix minimum principle and calculus of variations  
p0610 A71-38713
- Centrifugal blowers optimum blade number for maximum efficiency, discussing design measures for shock and friction loss minimization  
p0610 A71-38750
- High speed wind tunnels air heating system optimization, considering pebble bed air heater for intermittent operations  
p0611 A71-39086
- Monograph on satellite airport system modeling for large metropolitan areas covering systems analysis methodology and computer algorithms for optimization  
[SU-TR-71-1] p0658 A71-40799
- Sonic boom minimization including front and rear shocks, exemplified by SST aircraft  
p0660 A71-40972
- Flexible ram air inflated keel and leading edge parawing design optimization for increased stability and reliability, introducing semirigid member concept  
[AIAA PAPER 71-986] p0700 A71-44582
- Computerized aerodynamic optimization of aircraft propellers  
[AD-710356] p0034 N71-10122
- Optimization techniques in aircraft configuration design

## OPTIMUM CONTROL

## SUBJECT INDEX

[AD-711410] p0048 N71-11023  
Automatic landing system optimization using inertial navigation data and modern control theory  
[NASA-CR-111575] p0110 N71-12431  
Computer based methods in man machine interaction for dynamic structural design optimization of stressed-skin structures and structural members  
[AGARD-CP-36-70] p0117 N71-13126  
Application of aeroelastic constraints in structural optimization of aircraft design p0117 N71-13131  
Computer system for optimal design of aircraft structures p0118 N71-13132  
Matrix methods in computer-aided design optimization of aircraft structures p0118 N71-13135  
Computer program for structural design optimization of horizontal stabilizer of supersonic aircraft p0118 N71-13137  
Optimization techniques for aircraft multiple flight paths [AD-713136] p0168 N71-15392  
Design optimization for cylindrical shell subjected to reentry loads and heating p0244 N71-18022  
Optimization of interferences between aircraft components in supersonic flow p0301 N71-19356  
Optimal bomb release intervals from B-52 aircraft bombing system p0305 N71-19383  
Optimization of aeroelastic constraints for aircraft design using differential equation idealization and finite element approximation [NASA-CR-117198] p0322 N71-20139  
Computer and optimization techniques in aircraft design p0322 N71-20140  
Optimization design procedures for development of stability augmentation systems [AD-717168] p0328 N71-20617  
Configuration optimization and performance of air breathing hypersonic cruise vehicles [AD-721471] p0529 N71-28580  
Cost estimations, noise constraints, and supercritical wing compatibility in optimization of turbofan engines for Mach 0.90 to Mach 0.98 commercial air transports [NASA-TN-X-67906] p0641 N71-33246  
Use of NASTRAN as analysis tool in structural design optimization process applied to aircraft fuselage type structure p0688 N71-36280

## U ESTIMATING

## OVEREXPOSURE

## U RADIATION DOSAGE

## OVERPRESSURE

Plane compression waves propagation into constant state nonviscous fluid, considering shock formation of pressure pulses and overpressure as function of time

p0195 A71-19961

Wind tunnel stability tests of wing with different blowing nozzle arrangements on bottom overpressure surface at 18 and 30 m/sec air speeds

p0278 A71-23663

Sonic booms loudness as function of peak overpressures and rise times, using semiempirical formulae

p0657 A71-40530

Application of multivariable search techniques to design of low sonic boom overpressure

[NASA-CR-73496] p0160 N71-14613

Prediction methods for sonic boom generation and propagation with overpressure minimization in supersonic transport design and operation

[NASA-SP-255] p0523 N71-28363

Approximative sound wave scattering behind sonic boom overpressure signatures

p0524 N71-28368

Sonic boom pressure signature variations as function of distance to ground due to atmospheric refraction

p0527 N71-28389

Finite difference method for predicting sonic boom overpressure signature near caustic

p0527 N71-28390

Structural response and acoustic transmission characteristics of glass pane and standard wood frame construction wall panels subjected to sonic booms

[NASA-CR-111925] p0631 N71-32488

Semiempirical formulae representing sonic boom loudness as function of overpressure and time compared with experimental and theoretical calculations

[ISVR-TR-46] p0681 N71-35214

## OXIDATION

Hypersonic flight load bearing refractory alloy control surface protective coatings, emphasizing oxidation screening tests

p0423 A71-29646

## OXIDATION RESISTANCE

Nb alloys in hypersonic glider fabrication, discussing mechanical properties, oxidation resistance and sandwich panel design

p0030 A71-12935

High temperature turbine parts protective coatings, discussing aluminum diffusion prevention and crack and oxidation resistance

p0274 A71-23290

High temperature oxidation protective coatings behavior, emphasizing jet engine applications

p0274 A71-23296

Mach 1 burner rig tests at 2100 F for oxidation resistance evaluation of NiCrAl and FeCrAlY claddings on TD-NiCr

[NASA-TM-X-52916] p0052 N71-11426

Tungsten reinforced oxidation resistant columbium alloys with operating temperature above 2000 F for use in gas turbine engines

[AD-717969] p0398 N71-23673

## OXIDES

## NT CARBON DIOXIDE

## NT CARBON MONOXIDE

## NT NITRIC OXIDE

## NT NITROGEN OXIDES

## NT NITROUS OXIDES

## NT SULFUR OXIDES

## OXIDIZERS

## NT ROCKET OXIDIZERS

Jet engine liquid fuel wall layer combustion stimulation by repeated oxidizer injection into supersonic section of nozzle

p0080 A71-14256

## OXYGEN

## NT OZONE

Jet fuel dissolved oxygen concentration effects on plunger antiwear properties

p0487 A71-31677

## OXYGEN DEFICIENCY

## U HYPOXIA

## OXYGEN PRODUCTION

Commercial business and utility aircraft chemical oxygen generators to satisfy FAA requirements, discussing weight, size and maintenance savings and increased safety

[SAE PAPER 710390] p0286 A71-24254

## OXYGEN SUPPLY EQUIPMENT

Commercial business and utility aircraft chemical oxygen generators to satisfy FAA requirements, discussing weight, size and maintenance savings and increased safety

[SAE PAPER 710390] p0286 A71-24254

Oxygen supply to air transported patients by chemical compounds, suggesting use of permanganates and chlorates

p0662 A71-41571

Glycerin initiated spontaneous combustion in copper feedline for high pressure oxygen bottle carrier in military aircraft

[N70-777-BRE/LEE] p0162 N71-14792

## OXYGEN SYSTEMS

## U OXYGEN SUPPLY EQUIPMENT

## OZONE

Stratospheric ozone reduction through catalytic action of nitrogen oxides from SST exhaust, discussing degrading effect on atmospheric radiation shield

p0562 A71-36922

Depletion of atmospheric ozone by nitric oxide from SST exhausts

p0643 N71-33439

## P

## P-I-N DIODES

## U DIODES

## U P-I-N JUNCTIONS

## P-I-N JUNCTIONS

Microstrip p-i-n diode controlled L band digital phase shifter for aircraft-satellite communication

p0447 A71-31055

## P-3 AIRCRAFT

Computerized aerodynamic optimization of aircraft propellers

[AD-710356] p0034 N71-10122

Analysis of integrated high frequency antenna system for P-3C aircraft radio communications

[AD-718167] p0392 N71-23306

Tests for determining spectral signatures of integrated high-frequency antenna systems for P-3 aircraft

[AD-718054] p0398 N71-23609

## PACIFIC ISLANDS

## NT PHILIPPINES

## PACKINGS (SEALS)

Development of bearings, seals, and lubricants for air breathing turbojet engines

p0309 N71-19464

Performance tests of compressor seals and stator pivot seals used with air breathing propulsion systems - Part 2

[NASA-CR-72887] p0716 N71-37373

## PAD

Analysis of self-acting lift pad for gas-film seal of turboshaft

p0058 N71-12038

## PAINTS

Photochromic paints for nondestructive testing of aerospace materials and structures

p0283 A71-24102

Airfield tests of specially formulated marking paints for asphalt pavements

[AD-716755] p0335 N71-21523

Polyisocyanurate foam and intumescent paint for thermal protection of aircraft passengers in ground accident fires

p0581 N71-30758

## PANAVIA MILITARY AIRCRAFT

Panavia 200 multipurpose military aircraft, describing variable geometry design concept, performance characteristics, engines, armament and electronics

p0702 A71-44766

## PANEL FLUTTER

Skew panels with in-plane forces under yawned supersonic flow, calculating flutter by matrix displacement methods

p0011 A71-10939

- Flutter analysis of stressed flat simply supported skew panels in supersonic flow, using small deflection thin plate theory p0209 A71-21302
- Nonlinear panel flutter analysis and response under random excitation or nonlinear aerodynamic loading, using Rayleigh-Ritz approximation to Hamilton variational principle p0263 A71-22080
- Cylindrical shells panel flutter analysis for internal stress and supersonic flow, considering still air buckling data useful for determining buckling loads [AIAA PAPER 71-328] p0342 A71-25308
- Weight minimization of semiinfinite flat sandwich panel at constant dynamic pressure in supersonic flow subject to flutter constraint, using finite element model [AIAA PAPER 71-330] p0342 A71-25310
- Flutter analysis of clamped thin skew panels with midplane forces in supersonic flow, using Galerkin method p0357 A71-26766
- Computer program for aerodynamic forces on flexible plate undergoing transient motion in shear flow, applying to panel flutter p0366 A71-27559
- Supersonic flutter analysis of clamped skew panels with in-plane forces by Galerkin method, using two dimensional static approximation for aerodynamic loading p0439 A71-30607
- Structural and inertial nonlinearities influence on flat or curved panel flutter p0444 A71-30825
- Integrally stiffened five bay panel, calculating free vibration and random response to jet noise excitation [AIAA PAPER 71-585] p0482 A71-31532
- Probability theory of stresses during random vibrations of flat panel in acoustic field of jet engine exhaust p0487 A71-31704
- Aeroelastic stability of flat plates and shells, considering panel flutter p0499 A71-32987
- Response of, and acoustic radiation from panels excited by turbulent boundary layers [AD-710696] p0038 N71-10386
- Panel flutter and divergence as structural aeroelastic problems leading to fatigue failure [NASA-CR-111821] p0120 N71-13405
- Calculating flutter boundaries and estimating stresses in infinite spanwise array of panels using exact method of Zeydel [NASA-CR-1721] p0126 N71-14086
- Stability and postcritical response of infinite width panels on hinged supports due to aerodynamic loads at hypersonic speed [NASA-CR-115854] p0167 N71-15341
- Application of research in panel flutter and boundary layer thickness to space shuttle p0461 N71-24660
- Nonlinear panel flutter analyses by perturbation and harmonic balance methods [NASA-CR-111907] p0467 N71-25362
- Aluminum panel flutter tests at supersonic Mach numbers [NASA-CR-1837] p0521 N71-28161
- Supersonic panel flutter and aerodynamic load stress analysis of finite cylindrical shells based on Galerkin method and aeroelastic equilibrium equations [AD-722447] p0589 N71-31183
- PANELS**
- NT CURVED PANELS
- NT RECTANGULAR PANELS
- NT WING PANELS
- Ribbed aluminum panels airborne sound transmission loss, evaluating structural damping effects p0210 A71-21431
- Aircraft structural panels under cyclic static loads, examining fatigue life with probability theory, statistics and regression analysis p0542 A71-35312
- Finite element method for free vibrations and random response of integrally-stiffened panel [LR-544] p0402 N71-24298
- Modal analysis of response and fatigue of aluminum aircraft panels modal response p0688 N71-36273
- Reduction of resonant vibrations in integrally stiffened skin-stringer panels using viscoelastic materials [AD-727773] p0717 N71-37540
- Design data for regeneratively cooled panels from low cycle fatigue evaluation of Hastelloy X and Inconel 625 sheet and sandwich panel specimens [NASA-CR-1884] p0728 N71-38734
- PARABOLIC BODIES**
- Laminar incompressible boundary layer flow over thin Joukowski, parabolic and slender wedge airfoils, using small perturbation and quasi-similar theories p0281 A71-23957
- Separation point study of incompressible laminar boundary layers around parabolic bodies at angle of attack [AD-712084] p0053 N71-11519
- PARABOLOIDS**
- U PARABOLIC BODIES
- PARACHUTE DESCENT**
- Para-plane type parachute design with pilot chute controlled reefing for long range target p0131 A71-16129
- Gliding guided ribbon parachute for transonic speed deployment, investigating turn capability, opening reliability, structural integrity and effective drag p0296 A71-24868
- Dimensionless products associated with scale factor effects of parachute critical opening /squidding/ velocity p0599 A71-37293
- Flight dynamics of noise optimal flight profiles for V/STOL aircraft, minimization of gust effects on aircraft and nonlinear dynamic stability of parachute-load systems p0702 A71-44761
- Analysis of stresses and deflections in platforms used for airdrop operations [AD-711556] p0057 N71-11968
- Development of mathematical model for opening behavior of parachutes noting drag and velocity as functions of time [AD-719698] p0456 N71-24433
- Flight tests and evaluation of parachutes, parachute fabrics, and supporting equipment - Vol. 1 [AD-724500] p0640 N71-33180
- Guided parachute-payload system analog simulation device for pilot training in maneuvering remotely controlled parachute-payloads [SC-DR-710097] p0710 N71-36427
- PARACHUTE FABRICS**
- Dynamic decelerators using nylon tricot knit fabric and high elongation suspension lines for reduced peak force parachute deployment [AIAA PAPER 70-1185] p0081 A71-14273
- Flight tests and evaluation of parachutes, parachute fabrics, and supporting equipment - Vol. 1 [AD-724500] p0640 N71-33180
- PARACHUTES**
- NT DRAG CHUTES
- NT RIBBON PARACHUTES
- Para-plane type parachute design with pilot chute controlled reefing for long range target p0131 A71-16129
- Aerodynamic decelerator technology, emphasizing ribbon parachutes and flexible wings p0144 A71-17692
- Parachute weight, configuration and strength correlations for tradeoffs and design p0182 A71-18900
- Low speed wind tunnel stability tests of small guide surface, slotted solid, ring slot, cross and streamer decelerators, considering parachutes and drag measurement p0200 A71-20310

# PHOTOINTERPRETATION

# SUBJECT INDEX

## PHOTOINTERPRETATION

Statistical diameter size distribution of random circles on plane or spheres in space from satellite and aircraft measurements for aerial and cloud photography

p0359 A71-27100

Interpretation of color infrared photography of Florida tidewater coastline

[AD-727630] p0724 N71-37924

## PHOTOLUMINESCENCE

## NT X RAY FLUORESCENCE

## PHOTOMETRY

Photometric observations of auroral scattering by CV 990 aircraft

[NASA-CR-117466] p0374 N71-22135

## PHOTOMULTIPLIER TUBES

Ion acoustic waves propagation and structure measurements with metal electrode technique and continuous channel electron multiplier in plasma wind tunnel

p0291 A71-24517

## PHOTON ABSORPTION

## U ELECTROMAGNETIC ABSORPTION

## PHOTON BEAMS

## NT LIGHT BEAMS

## PHOTONS

## NT LIGHT BEAMS

## PHOTOSENSORS

## U RADIATION MEASURING INSTRUMENTS

## PHOTOTHERMOTROPISM

## U TEMPERATURE EFFECTS

## PHOTOTUBES

## NT PHOTOMULTIPLIER TUBES

## PHUGOID OSCILLATIONS

## U OSCILLATIONS

## U PITCH (INCLINATION)

## PHYSICAL PROPERTIES

Be mechanical and physical properties, corrosion behavior, toxicity, fabrication and application as aircraft and spacecraft structural material

p0015 A71-11539

Titanium alloys for drop and press forged airframe, engine, rocket and spacecraft components, presenting physical and mechanical properties for various alloys and applications

p0132 A71-16136

Electrical and physical nature of microbial membranes implicated in aircraft fuel quantity probe malfunction

[SAE PAPER 710439] p0406 A71-28321

Soviet book on experimental aerodynamics covering wind tunnels, shock tubes, liquid and gas physical properties, flow parameter measurement equipment, etc

p0422 A71-29524

## PHYSICIANS

Comparison of fatal aircraft accidents with medical personnel as pilots against aircraft accident fatalities among general aviation pilots

[FAA-AM-71-9] p0517 N71-27428

## PHYSIOLOGICAL EFFECTS

Sonic boom effects on human physiology and behavior and structures, based on theoretical studies and simulators

p0213 A71-21812

French shock tube test facility for reproducing and investigating effects of sonic booms on vision and physiological processes

p0502 A71-33350

Aircraft noise effects on hearing acuity and perceptual and intellectual judgment tasks

p0651 A71-40351

World championship gliding team medicophysiological problems during competition at Marfa, Texas, discussing climatic adaptation, nutrition, hypoxia and pilots general physical and psychomotor conditions

p0662 A71-41576

Analysis of aircraft structures which cause majority of injuries in aircraft accidents and recommendations for structural improvement to reduce accident severity

[FAA-AM-71-3] p0630 N71-32447

## PHYSIOLOGICAL FACTORS

Physiological factors in fatal aircraft accidents, discussing pilot incapacitation and transient functional disturbances

p0664 A71-41834

## PIAGGIO AIRCRAFT

Inflight simulation with high wing loading fighter aircraft approach using HFB-320 and Piaggio aircraft

[DLR-PB-71-06] p0622 N71-31789

## PIASECKI MILITARY AIRCRAFT

## U MILITARY AIRCRAFT

## PICKLING

## U CHEMICAL CLEANING

## PICKOFFS

## U SENSORS

## PICKUPS

## U SENSORS

## PICTURES

## U PHOTOGRAPHS

## PIEZOELECTRIC TRANSDUCERS

Engine vibration high temperature transducer, discussing piezoelectric materials properties and design considerations relative to temperature, pressure, acoustic noise, humidity environment

p0030 A71-12911

## PILOT ERROR

Aircraft spin tests preparation and evaluation, describing pilot errors

p0482 A71-31462

Epidemiology statistics of USAF spatial disorientation aircraft accidents, noting pilot training, flight environment and indoctrination remedy programs

p0651 A71-40359

Physiological factors in fatal aircraft accidents, discussing pilot incapacitation and transient functional disturbances

p0664 A71-41834

Corporate aircraft pilot ground and flight phase training, errors and accidents

p0694 A71-43388

Boeing 747 aircraft crash landing in Washington caused by pilot error

[NTSB-AAR-70-19] p0043 N71-10814

Investigating aircraft crash landing caused by engine failure and aircrew errors

[NTSB-AAR-70-17] p0227 N71-17063

Motion cues and pilot error in simulated instrument landing system approach

p0626 N71-31953

## PILOT PERFORMANCE

Avionics system maximizing pilot chances of surviving mission and destroying selected target by removing mental limitations

p0006 A71-10506

Electronic control indicator for human pilot capability enhancement using color coded cathode ray display, presenting information from seven different instruments

p0008 A71-10750

Aircraft flying qualities research program, discussing navy test pilot evaluations and longitudinal handling characteristics for simulated carrier landing task

[AIAA PAPER 69-897] p0027 A71-12678

Helicopter noise minimization by various piloting maneuvers, discussing takeoff and landing, transition to forward flight, route selection, etc

p0093 A71-15408

Rotorcraft ideal height-velocity boundary and critical decision point height prediction, discussing pilots optimal control under emergency conditions

p0094 A71-15414

VTOL handling qualities criteria for civil IFR qualifications, taking into account pilot abilities

p0096 A71-15427

V/STOL spray generation tests concerning pilot visibility impairment in low altitude overwater hover

p0098 A71-15444

Cockpit simulator motion effects on ILS approach pilot guidance errors, using Erdmann model

[DGLR-70-071] p0129 A71-15956

Frequency and amplitude during longitudinal control surface pumping by pilots in precise flight path handling for aircraft design

[AIAA PAPER 70-567] p0145 A71-17699

U.S. domestic ATC airspace enroute and terminal area navigation system effects on pilot workload, projecting future FAA requirements

p0201 A71-20347

- Glider flight in thermal air currents, discussing aircraft behavior, pilot sensory perceptions and reactions and use of variometers for ascent rate determination  
p0203 A71-20685
- Helicopter noise minimization by various piloting maneuvers, discussing takeoff and landing, transition to forward flight, route selection, etc  
p0207 A71-21049
- Navy pilots performance improvement through symbolic flight displays  
p0278 A71-23675
- Automatic landing systems independent monitor for L-1011 aircraft, providing pilot confidence under reduced visibilities  
[SAE PAPER 710443] p0407 A71-28324
- Commercial aircraft piloting in atmospheric turbulence, discussing aircraft characteristics, instrumentation, flying procedures, pilot training and kinesthetic cues  
p0427 A71-29782
- Controlled aircraft motion under strict kinematic constraints in terms of simple subsystems, noting pilots role in Newmark theory  
p0445 A71-31024
- Soviet book on aircraft automatic control systems covering linear theory, design, autopilot, man machine performance, operation modes, etc  
p0534 A71-34473
- Aircraft accident litigation related to wake turbulence concerning pilot or air traffic controller faults  
p0543 A71-35387
- Pilot workload reduction in steep approach landing of light aircraft from flight test data analysis  
[AIAA PAPER 71-904] p0595 A71-37155
- Flight investigation of turbulence effects on aircraft longitudinal flying qualities, evaluating pilot ratings for ILS approach task  
[AIAA PAPER 71-905] p0595 A71-37156
- All-weather operations, including pilot role, instrument landing systems and guidance aids  
[CASI PAPER 72/14] p0601 A71-37601
- Automation in third generation ATC requiring distributed management and spacing functions delegation to pilot  
[CASI PAPER 72/15] p0602 A71-37602
- Air safety standards and objectives, discussing human factors as accident causes, piloting aids and management  
p0614 A71-39395
- One man Jaguar aircraft navigation, weapon aiming system and pilot operational tasks, noting inertial platform alignment, displays and target attack modes  
p0617 A71-39825
- Aircraft noise effects on hearing acuity and perceptual and intellectual judgment tasks  
p0651 A71-40351
- Sleep related fatigue in pilot performance and flight safety, considering sleep lack and disruption and irregular duty patterns  
p0657 A71-40590
- Simulated airline pilot cerebral incapacitation etiology, incidence and detection, noting unimpaired crew members conduct and reaction times during approach for landing  
p0664 A71-41824

## PILOT SELECTION

Medical rejection statistics of applicants for

- BEA/BOAC pilot training, considering ophthalmic, ear, nose, throat and general health condition  
p0663 A71-41823
- Corporate aircraft 1970 accident statistics analysis stressing pilot selection, training and supervision  
p0692 A71-43227
- PILOT TRAINING**
- Pilot training flight simulators without visual or motion cues, discussing validity for aircraft handling qualities assessment and pilot role in simulation process  
[DGLR-70-070] p0130 A71-15968
- Link 747 simulator design and operation, describing cockpit layout, motion picture system and malfunction insertion and display unit  
p0156 A71-18665
- DC 10 flight crew individualized ground training program, emphasizing hands-on equipment and instruction hardware  
[SAE PAPER 710472] p0439 A71-30538
- Aircraft-simulating cockpit procedure trainer statistical data and development problems concerning safety, economy and efficiency performance  
p0489 A71-31883
- Pilot training efficiency increase through advanced simulation technology utilization, discussing computerized flight simulators, CRT display systems and automated briefings  
p0489 A71-31886
- DC 10 dispatch reliability, discussing failure mode/analysis and flight officers training/evaluation standardization lists for abnormal operation identification  
p0500 A71-33297
- Aircraft accidents due to engine-out simulation, discussing human factors, minimum control speed certification requirements and pilot flight training procedures  
[AIAA PAPER 71-793] p0508 A71-34025
- Category II operations at various airports, considering all-weather landing requirements of airborne equipment, maintenance standards, pilot training, etc  
[SAE PAPER 710442] p0535 A71-34499
- Link 747 simulator with six degrees of motion system for engineers and pilot training  
p0562 A71-36970
- Boeing 747 digital computer type flight simulator with four degrees of movement for engineer and pilot training  
p0562 A71-36971
- Medical rejection statistics of applicants for BEA/BOAC pilot training, considering ophthalmic, ear, nose, throat and general health condition  
p0663 A71-41823
- Corporate aircraft 1970 accident statistics analysis stressing pilot selection, training and supervision  
p0692 A71-43227
- Corporate aircraft pilot ground and flight phase training, errors and accidents  
p0694 A71-43388
- Routine unprotected exposure to acoustic noise within cockpits of trainer aircraft presenting potential hazardous stress  
[AD-717852] p0381 N71-22426
- Influence of lateral motion on effectiveness of flight simulators in training air transport pilots  
p0583 N71-30772
- Cockpit simulators without visual or motion cues in pilot training  
p0625 N71-31952
- Guided parachute-payload system analog simulation device for pilot training in maneuvering remotely controlled parachute-payloads  
[SC-DR-710097] p0710 N71-36427
- PILOTLESS AIRCRAFT**
- NT DRONE AIRCRAFT**
- Remotely piloted vehicles development and limitations, considering air superiority, weapons delivery, sensors and survivability  
p0552 A71-35899
- PILOTS**
- Comparison of fatal aircraft accidents with medical personnel as pilots against aircraft accident fatalities among general aviation pilots  
[FAA-AM-71-9] p0517 N71-27428
- PILOTS (PERSONNEL)**
- NT AIRCRAFT PILOTS**
- NT TEST PILOTS**
- World championship gliding team medicophysiological problems during competition at Marfa, Texas, discussing climatic adaptation, nutrition, hypoxia and pilots general physical and psychomotor conditions  
p0662 A71-41576
- Military pilot handling characteristics, discussing combat operations, accident prevention and blind landing  
p0669 A71-42239
- Aircraft accident investigation including types of aircraft, pilot certificates, and accidents  
[NSTB-BA-70-4] p0049 N71-11024
- Simulator study of lunar flying platform control by pilot body motion  
[NASA-TN-D-6016] p0164 N71-14981
- PINS**
- Service life of pin jointed connections with elastoplastic strains in bore walls  
p0084 A71-14606
- PIPE FLOW**
- Circular pipe gas laminar flow at constant wall temperature, determining heat exchange and drag by motion and energy equations integration in boundary layer approximations  
p0022 A71-12192
- Theoretical analysis and measurement of single-phase pressure losses and heat transfer for helical flow in tube  
[NASA-TN-D-6097] p0104 N71-12213
- PIPELINES**
- Glycerin initiated spontaneous combustion in copper feedline for high pressure oxygen bottle carrier in military aircraft  
[N70-777-BRE/LEE] p0162 N71-14792
- PIPER AIRCRAFT**
- Piper Cherokee aircraft air conditioning system, discussing various operating principles, design criteria, power drain, effects on aircraft performance and weight, system serviceability and control  
[SAE PAPER 710391] p0286 A71-24255
- PIPES (TUBES)**
- NT GAS PIPES**
- Wind tunnel aerodynamic stability tests on chimneys with pipes and helical winding stabilizers  
[NPL-AERO-1310] p0231 N71-17334
- Combined free and forced laminar convective heat transfer to nonNewtonian fluids flowing in constant wall temperature vertical tubes and controlling parameter analysis  
p0387 N71-22702
- Aerodynamic characteristics of vehicle models in aluminum tube  
p0588 N71-31108
- PISTON ENGINES**
- NT DIESEL ENGINES**
- Air cooled opposed 4, 6 and 8 cylinder light aircraft engines with or without turbosupercharging, considering horsepower improvement and torsional vibration control  
[SAE PAPER 700205] p0002 A71-10129
- Book on fixed and rotary winged aircraft air cooled piston engine design, performance and maintenance in business and military operators manual terminology  
p0138 A71-17125
- Gasoline icing inhibitors effect on light aircraft piston engine carburetor icing  
[SAE PAPER 710371] p0284 A71-24240
- Light aircraft piston engines design and maintenance, discussing engine design features, materials, lubrication, controlled flight operation and maintenance techniques  
[SAE PAPER 710381] p0285 A71-24246
- Antiwear property assessment of piston engine and aviation jet fuels under point contact conditions, recommending ball and cylinder test technique  
p0534 A71-34447
- Torsional natural frequencies in coupled turbine and reciprocating engine system driving common propeller, using matrix techniques  
[ASME PAPER 71-VIBR-83] p0651 A71-40319
- Mechanics of free piston engine, aspects of human factors engineering, and compressible boundary layer studies at high Reynolds numbers

- [DME/NAE-1971/1/] p0632 N71-32620  
Development history and application of free piston engine
- p0632 N71-32621  
Technical aviation handbook covering aircraft maintenance, navigation aids, airframes, lubricants, piston and gas turbine engines, and checkout procedures  
[AD-727195] p0720 N71-37613
- PISTON THEORY**  
Linear damping in piston type liquid damped accelerometers, using porous glass materials p0273 A71-23173
- PITCH (INCLINATION)**  
Aircraft propulsive thrust moment effect on phugoid motion, examining angle of attack and flight path variations with resulting instability p0068 A71-13340  
Light general aviation airplanes flying qualities in-flight simulation, considering longitudinal short period frequency and damping, pitch control sensitivity and lift curve slope [SAE PAPER 710373] p0285 A71-24242  
Equation error approach to parameter identification in third order pitch plane dynamics for high performance aerodynamically controlled aerospace vehicle p0356 A71-26418  
Airfoils unsteady stall by testing two dimensional model in harmonic pitching oscillation for helicopter rotor blades characteristics p0368 A71-27609  
Aircraft flight characteristics dependence on angle of attack, roll and pitch p0415 A71-29043  
Propeller vortex theory, calculating vortex streets pitch distributions and wake configuration p0436 A71-30443  
Handling qualities and control sensitivity of high performance helicopters, considering pitch and collective control [AHS PREPRINT 542] p0451 A71-31099  
Phugoid motion at constant angle of attack without thrust line displacement from aircraft center of gravity, noting longitudinal stability p0650 A71-40168  
Angle of attack instrumentation for evaluating aircraft lift performance and phugoid oscillations p0693 A71-43382
- PITCH ANGLES**  
U PITCH (INCLINATION)  
**PITCH ATTITUDE CONTROL**  
U LONGITUDINAL CONTROL  
**PITCHING MOMENTS**  
Direct lift control system for producing lift without pitching moments during aircraft approach and landing p0111 N71-12443  
Lift, pitching moments and damping of delta wings in slotted transonic wind tunnels with perforated walls [NPL-AERO-1307] p0227 N71-17085  
Pitching moment suppression on VTOL aircraft model by deflecting jets in wind tunnel test [NAL-TR-209] p0375 N71-22147  
Oscillatory pitching moment derivatives measurement on delta wings in incompressible flow [ARC-R/M-3628-PT-1-4] p0459 N71-24569  
Measurements of oscillatory pitching moments on round leading edged delta wing in incompressible flow noting vortex flow development p0459 N71-24570  
Aspect ratio effect on oscillatory pitching moment derivatives of slender sharp-edged delta wing in incompressible flow p0459 N71-24571  
Measurement of oscillatory pitching moment derivatives on sharp-edged delta wing at vortex breakdown angle of attack p0460 N71-24572  
Expressions for relating pressure field to total aerodynamic thrust and steady pitching and rolling moments experienced by helicopter rotor p0477 N71-26583  
Design, construction, and performance of water tunnel for two dimensional testing of pitching airfoils [D180-14130-1] p0723 N71-37827

# SUBJECT INDEX

**PLASTIC AIRCRAFT STRUCTURES**  
Polyimide/boron reinforced plastic structures  
fabrication, discussing use in leading edges  
[SME PAPER EM-70-133] p0013 A71-11263  
Nonmetallic aircraft construction materials,  
discussing wood epoxy and polyester resins  
p0023 A71-12299  
High strength polyimide resin composites, discussing  
commercial and aerospace applications, chemistry,  
void content, volatiles and moisture absorption  
p0024 A71-12487  
Carbon fiber-epoxy resin composites in aircraft  
industry, examining fatigue life, cost, specific  
moduli and mechanical properties  
p0024 A71-12488  
Carbon fibers for low weight aircraft plastic  
structural materials  
p0145 A71-17743  
Lightning protection for nonmetallic helicopter  
rotor blades  
p0194 A71-19939  
Composite plastic aircraft structures lightning  
protection, considering hazard to composite  
materials and use of metal filled or plasma  
sprayed coatings and metal foil coverings  
p0195 A71-19943  
Boron-epoxy structural skins design for F-14  
honeycomb horizontal stabilizer, using computer  
program  
p0344 A71-25420  
Graphite-epoxy composite skins for commercial  
aircraft flight spoiler, discussing multiangle ply  
design and fabrication  
p0362 A71-27413  
Materials and processing methods for rain erosion  
resistant ceramic coated plastic structures for  
supersonic aircraft, considering fiberglass  
reinforced polyimide radomes with alumina coating  
p0423 A71-29645

**PLASTIC COATINGS**  
Polyurethane coatings development for subsonic rain  
erosion protection for aircraft structures, using  
whirling arm apparatus with simulated rainfall  
p0283 A71-24101  
Adhesive and coating material formulations and  
manufacturing processes for lightweight  
low-permeability braces for use in high altitude  
decelerators  
[NASA-CR-111964] p0681 N71-35208  
Development of rain erosion resistant plastic  
coatings as high speed aircraft surface finish  
[AD-727750] p0725 N71-38133

**PLASTIC DEFORMATION**  
Stresses and deformations in multi-ply aircraft  
tires subject to inflation pressure loading  
[AD-711073] p0039 N71-10434  
Rotor-bearing system analysis to determine cause of  
brinelling failure of bearings from vibration  
tested PLV fans

## PLATE (METAL)

U METAL PLATES

## PLATE THEORY

Flutter analysis of plates with inplane boundary support flexibility exposed to transverse pressure loading or buckled by uniform thermal expansion  
p0011 A71-10940

Soviet papers on three dimensional structures covering strength and stability of compound curvature shells, bodies of revolution and multilayer plates  
p0445 A71-30888

Aeroelastic stability of flat plates and shells, considering panel flutter  
p0499 A71-32987

## PLATES

Plate critical surface temperature in case of stabilization by supersonic boundary layer cooling  
p0137 A71-16852

Continuous flow past plate located perpendicular to wall with inviscid incompressible fluid having linear variation of velocity with height  
p0205 A71-20828

## PLATES (STRUCTURAL MEMBERS)

NT ANISOTROPIC PLATES

NT ANNULAR PLATES

NT CORRUGATED PLATES

NT PERFORATED PLATES

NT POROUS PLATES

NT REINFORCED PLATES

Plane sandwich plates in supersonic gas flow, investigating aeroelastic stability, transverse shear flexibility and axial loads  
p0277 A71-23609

Nonlinear forced vibrations of aeroelastic plate in two dimensional supersonic flow under harmonic pressure near critical Mach number  
p0292 A71-24643

Plate and acoustic finite elements simulation of window-room system coupled transient response to sonic booms, discussing equations of motion and cavity depth effect  
p0364 A71-27481

Computer program for aerodynamic forces on flexible plate undergoing transient motion in shear flow, applying to panel flutter  
p0366 A71-27559

Flutter of buckled plate exposed to static pressure differential and streamwise applied in-plane load, comparing experimental results with stability boundary calculations  
p0367 A71-27584

Simply supported normal mode plate time response to traveling wave at oblique incidence, using numerical analysis  
p0430 A71-30068

Equations of motion for elastic plate foundation system under dynamic load applied to aircraft landing  
p0717 N71-37543

## PLATING

NT ELECTROPLATING

## PLENUM CHAMBERS

Plenum chamber with nozzle wind tunnel model, noting jet flow phenomena at various angles of attack  
p0296 A71-24865

Supersonic staggered gutter colander combustion system for plenum chamber burning on high bypass Pegasus turbofan engine of Harrier VTOL aircraft, noting performance improvement  
p0410 A71-28743

Inlet plenum chamber noise measurement comparison of 20 inch diameter fan rotors with aspect ratios of 3.6 and 6.6  
[NASA-TN-X-2191]  
p0312 N71-19707

## PLOTTERS

Cost effective high speed projectile trajectory plotting system for gunnery range instrumentation, applying to aircraft path recording during automatic landing control  
p0560 A71-36613

Digital computer and plotter for simulating flow about Joukowski airfoil  
[TECH-71-4]  
p0643 N71-33403

## PLOTING

Two shaft turbojet engine parameter plot techniques effectiveness, varying low pressure cascade rpm or

nozzle system passage cross sections

p0080 A71-14259

NASTRAN static, modal, and transient analyses

plotting techniques with delta wing examples  
p0688 N71-36299

## PLOTING INSTRUMENTS

U PLOTTERS

## PLUG NOZZLES

Maximum thrust plug nozzle design for fixed inlet geometry, using calculus of variations for optimum contour determination  
[AIAA PAPER 71-40]  
p0151 A71-18501

Flap and nacelle geometry effects on conical plug nozzle performance at subsonic and supersonic velocities  
[NASA-TN-X-2086]  
p0125 N71-14019

Cooling, coking, construction, and structural characteristics of jet fuel-cooled plug nozzle for afterburning turbojet  
[NASA-TN-X-2304]  
p0521 N71-28128

Plug nozzle configuration for jet noise suppression  
[AD-722851]  
p0620 N71-31698

## PLUGGING

Plug-in relay hazards and minimization for aircraft flight safety applications  
p0412 A71-28841

## PLUMES

NT ROCKET EXHAUST

Mach disk in underexpanded exhaust plume predicted by dividing flow field into subregions  
[AIAA PAPER 70-231]  
p0264 A71-22097

## PLUNGERS

Jet fuel dissolved oxygen concentration effects on plunger antiwear properties  
p0487 A71-31677

## PLUTONIUM

Aerial surveys for determining plutonium concentration using array of NaI detectors  
[EGG-1183-1517]  
p0687 N71-35980

## PLUVIOGRAPHS

U RECORDING INSTRUMENTS

## PNEUMATIC CONTROL

Fluidic pressure ratio control for vertical takeoff aircraft lift engine fuel system, describing breadboard circuit, test bed and flight standard  
p0203 A71-20587

Fabrication techniques of compact fluidic control equipment for aerospace engines  
p0055 N71-11654

## PNEUMATIC EQUIPMENT

Aerodynamics of pneumatic high lift devices  
p0318 N71-20053

## PNEUMATIC RESET

U PNEUMATIC CONTROL

## PODS (EXTERNAL STORES)

Medium strength corrosion resistant weldable Al-Mg alloy for aircraft jettisonable tanks, napalm containers and jet shroud pipes fabrication  
p0481 A71-31437

Fighter F-14 podded engine high variable sweep wing design including nozzle, nacelle, fuselage shift, aspect ratio and lift control improvements  
p0509 A71-34152

Wind tunnel investigation of jet transport airplane configuration with external flow jet flap and inboard pod-mounted engines - graphs  
[NASA-TN-D-7004]  
p0160 N71-14605

Wind tunnel testing of aerodynamic interactions between aircraft and jettisoned loads using trajectory analysis  
[ONERA-TP-849]  
p0251 N71-18464

## POINT MATCHING METHOD (MATHEMATICS)

U BOUNDARY VALUE PROBLEMS

## POINT SOURCES

Aerodynamic sound radiation from point force in accelerative circular motion, obtaining closed form for overall far field radiation  
p0140 A71-17162

Low profile optical system producing annular cone of radiation from point source for high speed aircraft beacon  
p0185 A71-19203

Sound radiation from time varying point force in accelerative motion, applying to fan or helicopter rotor noise at subsonic tip speeds  
p0357 A71-26702

## POINTING CONTROL SYSTEMS

Passive airborne computer augmented aircraft antenna pointing control system for communication

## POINTS (MATHEMATICS)

## SUBJECT INDEX

- satellites tracking  
[AIAA PAPER 71-233] p0188 A71-19710  
Sight line autopilot /SLAP/ for side-firing aircraft  
pointing accuracy improvement, using optimal  
regulator theory to generate control gains  
[AIAA PAPER 71-960] p0598 A71-37201

**POROUS PLATES**  
Air injection into turbulent boundary layer flow  
through porous plate, examining heat transfer and  
shielding efficiency p0500 A71-33035  
**POROUS WALLS**  
Heat exchange in dissociating partly ionized gas  
flow over critical point on permeable surface with  
injection into laminar boundary layer  
p0073 A71-13748  
Mathematical models for acoustic scattering by  
porous elliptic cylinder with nonlinear resistance  
[NASA-TM-X-67019] p0334 N71-21408  
Analysis of low cycle thermal fatigue in laminated  
porous wall turbine vanes  
[NASA-CR-72954] p0678 N71-34944  
Comparison of blockage corrections in porous tunnel  
wall to closed wall tunnel at subsonic Mach  
numbers  
[ARA-19] p0724 N71-37853  
**PORTABLE EQUIPMENT**  
Low cost go/no-go portable aircraft engine tester  
connected to engine mounted sensors p0434 A71-30327  
Procedures for evaluating effectiveness of self  
propelled and portable ground servicing units for  
Army aircraft  
[AD-719102] p0457 N71-24459  
Portable skid-mounted thermoelectric power source  
for radio beacon use during emergency  
[AD-721887] p0528 N71-28434  
Fabrication and field testing of lightweight,  
recoverable, air-transportable hangar  
[AD-727051] p0684 N71-35396  
Development and characteristics of lightweight,  
mobile structures for aircraft storage and  
maintenance  
[AD-727056] p0712 N71-36674  
**PORTS (OPENINGS)**  
Static pressure port errors in hypersonic turbulent  
flow, using approximate shear layer momentum  
balance for pressure increase derivation

- [AIAA PAPER 71-270] p0219 A71-21996  
**POSITION (LOCATION)**  
 Locating neutral layer and critical curvature radius in aircraft components waffle panels under elastoplastic bending p0413 A71-28940  
 Position locating system for remote aircraft using voice communication and digital signals [NASA-CASE-GSC-10087-2] p0125 N71-13958  
 Sonobuoy location [AD-713077] p0164 N71-14913  
**POSITION ERRORS**  
 Combined inertial and instrument landing aircraft navigation systems with reduced cross runway position and velocity errors, using optimal linear estimation p0439 A71-30606  
 Radio tracking of aircraft by two geostationary satellites, discussing measurement, navigation and position errors p0559 A71-36508  
 Aircraft position errors computation for ATC mathematical surveillance models, estimating collision risk [AIAA PAPER 71-927] p0597 A71-37173  
 Synthesis of aircraft across track errors using mathematical models with statistical parameters [REPT-E/C-2] p0635 N71-32885  
**POSITION INDICATORS**  
 NT PLAN POSITION INDICATORS  
 NT RADIO DIRECTION FINDERS  
 NT SPACECRAFT POSITION INDICATORS  
 Precision area navigation system, considering position and velocity continuous measurement in three dimensional space, system components and simulation program p0536 A71-34616  
 Describing angular position and velocity sensing apparatus [NASA-CASE-XGS-05680] p0239 N71-17585  
 Functions and development of Decca Navigation radio position fixing system p0635 N71-32892  
 Position fixing navigation aids for use in Army aircraft, surface vehicles, and waterborne vehicles [AD-724079] p0639 N71-33124  
**POSITIONING**  
 Dynamic positioning stationkeeping and stability criteria for formation flight systems extended to helicopter and V/STOL transports p0552 A71-35923  
 Aircraft lateral dynamics effect on positioning accuracy along straight flight path, using Loran C data p0610 A71-38864  
**POSITIONING DEVICES (MACHINERY)**  
 NT CAMS  
**POTENTIAL ENERGY**  
 NT ELECTRIC POTENTIAL  
**POTENTIAL FIELDS**  
 Finite supercavitating wings numerical calculation using acceleration potential method p0089 A71-15210  
**POTENTIAL FLOW**  
 Plane linear cascades of thin curved profiles, obtaining potential flow velocities and lifting force on leading edge p0003 A71-10339  
 Flat plate wake displacement sources in potential flow, considering high Reynolds numbers outside boundary layer p0137 A71-16960  
 Inlet turbulence interaction with rotor potential flow as noise source in axial flow fans, developing expression for sound power radiated p0140 A71-17163  
 Monograph on transonic shock free potential flow around quasi-elliptical airfoil sections, investigating flow stability under unsteady disturbances p0190 A71-19773  
 Potential flow past cylinder with sources and sinks singularities, deriving formulas for aerodynamic characteristics of infinite span wings with boundary layer control p0204 A71-20777  
 Steady nonrotational flow around rectilinear profile in finite width uniform current in linear theory, calculating fluid exerted forces p0279 A71-23822  
 Low speed airfoil characteristics calculation by digital computer, using Theodorsen conformal transformation method for potential flow pressure distribution [SAB PAPER 710389] p0286 A71-24253  
 Ideal incompressible holomorphic fluid plane irrotational motion velocity due to deformable constant area airfoil displacement p0290 A71-24453  
 Critical speeds for inviscid compressible potential flow past thin elastic cylindrical shells, using long wave approximation p0291 A71-24565  
 Airfoil profiles coupling method for determining complex potential of two dimensional ideal incompressible fluid flow due to arbitrary airfoil section movement near rectilinear wall p0299 A71-25015  
 Two dimensional subsonic irrotational isentropic flow around thick profiles, using coordinate perturbation method p0479 A71-31167  
 Supersonic potential flow at large distance from slender body of revolution at angle of attack, deriving nonlinear partial differential equations system p0479 A71-31170  
 Compressible transonic flow about two dimensional airfoils, developing inviscid nonlinear potential equations by relaxation procedures [AIAA PAPER 71-569] p0484 A71-31562  
 German monograph on incompressible potential flow field calculation about thick rectangular wings with control surfaces and ground effects p0494 A71-32307  
 Steady incompressible flow with potential vortex over flat surface under suction p0538 A71-34889  
 Small disturbance transonic flows potential equations numerical solutions, using mixed finite difference theory p0556 A71-36325  
 Subcritical nonlinear potential flows over two dimensional subsonic airfoils by multistrip method of integral relations p0556 A71-36330  
 Two dimensional jet flapped symmetric wing in subsonic flow, assuming irrotational flow inside jet bounded by vortex sheets p0651 A71-40172  
 Spanwise lift distribution over wings and wake formation in thin airfoils of finite aspect ratio in linear subsonic potential flow p0654 A71-40495  
 Straight line vortices in uniform two dimensional straining field, detailing irrotational strain and simple shear p0655 A71-40501  
 Incompressible potential cascade flow interaction, presenting approximate method based on blade profile flow expression by power series with distance between cascades as parameter p0658 A71-40685  
 Yawing moments of swept wings in asymmetric subsonic potential flow [NPL-AERO-NOTE-1084] p0170 N71-15703  
 Singularity method for calculation of potential flow around axisymmetric rings p0251 N71-18469  
 Numerical calculation of steady three dimensional potential flow around lifting nonplanar aerodynamic configurations based on surface distribution of quadrilateral vortex-rings [TT-7009] p0321 N71-20115  
 Finite-element potential flow modeling for predicting round lifting jet rolled up geometry and path convergent into cross-flowing mainstream as on VTOL or STOL aircraft [AD-718121] p0396 N71-23475  
 Numerical integration method based on potential flow theory to evaluate aerodynamic characteristics of thin supersonic wings [DLR-PB-71-01] p0398 N71-23597  
 Potential flow solution for STOL wing propulsion system presenting flow fields, pressure distribution, and lift coefficient for externally blown flap, high-lift configuration

## POTENTIAL PROBLEMS

## SUBJECT INDEX

[NASA-TN-D-6394] p0573 N71-29774  
Solutions of potential flow for two dimensional  
compressible flow for quasi-elliptical airfoil  
profiles noting pressure distribution  
[NLR-TR-69028-U] p0622 N71-31791  
Calculated values of air forces on oscillating thin  
wings obtained by linearized potential flow

## SUBJECT INDEX

## PRESSURE EFFECTS

- Measurements of sonic boom pressure distribution of bodies of revolution at Mach 2.96, 3.83, and 4.63 in Unitary Plan wind tunnel  
[NASA-TN-D-6195] p0372 N71-21961
- Estimating unsteady pressure distributions in T tail configuration from measured distribution and theory  
[NLR-TR-68048-L] p0389 N71-23131
- Low speed wind tunnel test of four ft diameter circular plate model to determine surface static pressure distributions for jet decay characteristics of cross flow  
[AD-720232] p0476 N71-26516
- Expressions for relating pressure field to total aerodynamic thrust and steady pitching and rolling moments experienced by helicopter rotor  
p0477 N71-26583
- Wind tunnel measurements of pressure distributions on wing having NACA 4415 airfoil sections with trailing-edge flaps set at 0 deg and 40 deg  
[NASA-TM-X-2225] p0521 N71-28077
- Atmospheric turbulence effects on sonic boom shock wave thickness  
p0523 N71-28367
- Acoustic wave front reflection from caustic for predicting sonic boom pressure distribution  
p0524 N71-28371
- Accuracy of shock pressure attenuation in near field sonic boom profiles  
p0527 N71-28391
- Chord and rotary wing span differential pressure distribution effects on high frequency aerodynamic noise propagation from helicopters  
[AD-721661] p0528 N71-28507
- Calculation of pressure distributions over wings with harmonic oscillating control surfaces using kernel function method  
p0568 N71-29346
- Asymptotic expansion techniques to define pressure loading effects on wings with unbalanced control surfaces  
p0569 N71-29348
- Pressure measurements of harmonically oscillating sweptback wing with two flaps in incompressible flow  
[DLR-PB-70-47] p0570 N71-29433
- Potential flow solution for STOL wing propulsion system presenting flow fields, pressure distribution, and lift coefficient for externally blown flap, high-lift configuration  
[NASA-TN-D-6394] p0573 N71-29774
- Total pressure, static pressure, surface shear stress, and yaw angle measurements of S curved ducted flow  
[IC-71-10] p0577 N71-30264
- Application of Fredholm integral equations of second kind for determining pressure distribution on cascade of thick airfoils  
[NASA-TT-P-702] p0579 N71-30488
- Approximative solution of nonlinear potential equation for squall disturbance in transonic range and pressure distribution on aircraft  
p0587 N71-31061
- Relation of Eulerian and Lagrangian structure of pseudosound pressure and velocity fields in turbulent shear flow to aerodynamic noise generation  
[NASA-CR-119359] p0589 N71-31211
- Solutions of potential flow for two dimensional compressible flow for quasi-elliptical airfoil profiles noting pressure distribution  
[NLR-TR-69028-U] p0622 N71-31791
- Pressure distribution near center line of trailing edges of delta wings and conical bodies at high supersonic speeds  
[ARC-CP-1153] p0635 N71-32868
- Transonic pressure distributions on 12 percent thick, uncambered airfoils with maximum thickness at 0.3 and 0.7 of chord  
p0645 N71-33615
- Pressure distributions on planar delta wings attached to cylindrical bodies in supersonic flow - theoretical results for sonic leading edge, angle of attack case  
[WRE-TN-HSA-186] p0646 N71-33699
- Pressure distribution analysis of sound inside duct of ducted propellers  
[NASA-TN-D-6345] p0673 N71-34009
- Comparisons of theoretical and experimental pressure distribution over wing-body model at high supersonic speeds  
[NASA-TN-D-6480] p0679 N71-35197
- Numerical analysis of pressure distribution in flow field due to diffraction of plane shock wave by thin wings  
p0680 N71-35203
- Thrust-minus-drag forces and pressure distributions of closely spaced twin-jet afterbodies with different inboard-outboard fairing and nozzle shapes  
[NASA-TM-X-2329] p0709 N71-36412
- Pressure distributions and drag coefficients of 18 constant length and volume slender bodies of revolution at zero incidence for Mach numbers 2.0 to 12.0 - graphs  
[NASA-TN-D-6536] p0709 N71-36416
- Methods for prediction of centerline shock layer thickness and pressure distribution on delta wing body configurations  
[NASA-TN-D-6550] p0709 N71-36418
- PRESSURE DRAG**  
NT INTERFERENCE DRAG  
NT SUPERSONIC DRAG  
NT WAVE DRAG
- Pitot type intake inlet additive drag in terms of capture area ratio, static and total pressure coefficients  
p0028 A71-12688
- Pressure drag and cross flow force coefficients of inclined circular cylinder in supercritical flow  
p0265 A71-22098
- Two dimensional analysis on jet exhaust into crosswind with mixing flow interference  
[AD-711578] p0046 N71-11006
- PRESSURE EFFECTS**  
Shock wave diffraction at sharp edges, discussing physical principles, angle and pressure ratio effects  
p0002 A71-10109
- Flutter analysis of plates with inplane boundary support flexibility exposed to transverse pressure loading or buckled by uniform thermal expansion  
p0011 A71-10940
- Circular cone with cross shaped wings in supersonic flow, determining flow characteristics, velocities and pressure  
p0021 A71-11958
- Aerodynamic sound generation dependence on convective derivative of hydrodynamic pressure within turbulence source region  
p0139 A71-17154
- High pressure ratio centrifugal compressors for small gas turbine engines, investigating power and specific fuel consumption variation with pressure and temperature  
p0284 A71-24218
- Aerodynamic infrasound, considering atmospheric pressure variations in seconds to minutes period range  
p0297 A71-24915
- Structures dynamic loading and damage by sonic booms, discussing structural response prediction by boom pressure wave model  
p0299 A71-25052
- Turbomachine blade cascades in supersonic flow, noting wave configurations, entropy and counter pressure variations  
p0363 A71-27475
- Incident sonic boom shock wave reflection factors off smooth surface, discussing pressure rise and flight near threshold Mach number  
p0440 A71-30610
- Sonic booms loudness as function of peak overpressures and rise times, using semiempirical formulae  
p0657 A71-40530
- Sonic boom and explosive shock wave effects on buildings and structural members  
p0050 N71-11035
- Impact cooling method for turbine rotor blades  
p0235 N71-17397
- Combustion of large magnesium particles during pressure change in ambient medium within range from 100 to 760 mm Hg  
[NASA-TT-P-13503] p0327 N71-20531
- Effect of circumferential, radial, and combined pressure distortions on stall margin of J-85

engine  
[NASA-TM-X-2239] p0329 N71-20766  
Turbulent boundary layers in compressible flow and their interactions with normal shock waves in zero and adverse pressure gradients

Wind tunnel pressure measuring techniques  
[AGARD-AG-145-70] p0165 N71-14988  
Technology review on wind tunnel pressure measuring techniques and equipment p0177 N71-16549  
Error analysis for pressure measurements on blowdown supersonic wind tunnel models  
[NPL-AERO-1306] p0227 N71-17081  
Base pressure measurements on XB-70 aircraft at Mach numbers from 0.4 to 3.0  
[NASA-TM-X-1612] p0229 N71-17132  
Pressure measurements of flow induced cavity resonance and effects of resonance suppressing devices  
[NASA-TN-D-6205] p0243 N71-17877  
Technique of extrapolating measured near-field overpressure data to larger altitude applied to wind tunnel overpressure data  
[NASA-TM-X-2219] p0253 N71-18559  
Wind tunnel investigation of lift-induced sonic boom characteristics of two simple wing models at Mach numbers from 2.3 to 4.63  
[NASA-TN-D-6201] p0388 N71-23125  
Unsteady pressure measurements on harmonically oscillating swept wing with two control surfaces

- in incompressible flow  
p0569 N71-29350
- Pressure measurements of harmonically oscillating sweptback wing with two flaps in incompressible flow  
[DLR-FB-70-47] p0570 N71-29433
- Surface pressure measurements and schlieren photographs of flow about Leveys shock free airfoil  
[ARL/AERO-325] p0642 N71-33402
- PRESSURE MICROPHONES  
U MICROPHONES
- PRESSURE OSCILLATIONS  
Supersonic and transonic flow including effects of pressure oscillations within cavity, predicting rectangular cavities drag from mathematical model  
p0010 A71-10931
- Pressure fluctuations on fixed blades of axial flow compressor, determining sensor dynamic characteristics  
p0012 A71-11024
- Turbulent boundary layer wall pressure fluctuations on hydrodynamically smooth and rough surfaces, investigating eddies, space-time decay rate and flow structure  
p0137 A71-16961
- Finite amplitude waves from supersonic jet, discussing pressure fluctuations measurement for explaining wave patterns visible on spark shadowgraphs  
[AIAA PAPER 71-151] p0154 A71-18593
- Fan-produced sound pressure fluctuation in very low speed subsonic wind tunnel test stream, noting resulting anemometer calibration errors  
p0437 A71-30526
- Turbopropulsion systems thrust augmentor combustion instability, discussing physical causes due to various pressure oscillation modes  
[AIAA PAPER 71-697] p0441 A71-30756
- Turbojet and turbofan augmentors combustion instability, discussing pressure oscillations elimination by screech liner and flameholder design  
[AIAA PAPER 71-698] p0442 A71-30757
- Acoustic radiation of supersonic jet toward nozzle exit section, plotting pressure pulsations vs active/passive pressure ratio  
p0554 A71-36122
- In-flight noise radiation by wing-mounted jet engines on aircraft fuselage based on correlation with turbulent boundary layer pressure fluctuations  
p0603 A71-37846
- Sweep frequency nozzle pressure oscillation effects on turbojet combustor dynamics  
[NASA-TN-D-6084] p0045 N71-10982
- Transonic wind tunnel investigation of flow characteristics and pressure fluctuation of space shuttle launch and reentry configurations  
p0462 N71-24663
- Hot-wire anemometer for wind tunnel turbulence measurement and wind tunnel oscillation reduction  
[DLR-FB-70-39] p0516 N71-27161
- Prediction formulations for transonic fluctuating pressure environments including protuberance induced turbulent boundary layer flows  
[NASA-CR-119947] p0712 N71-36677
- PRESSURE PROBES  
U PRESSURE SENSORS
- PRESSURE PULSES  
Plane compression waves propagation into constant state nonviscous fluid, considering shock formation of pressure pulses and overpressure as function of time  
p0195 A71-19961
- PRESSURE RECOVERY  
Cone shaped diffusers effectiveness, noting inlet conditions effect on pressure recovery coefficient  
p0136 A71-16750
- Conical diffusers outlet flow profile and performance, investigating swirling inlet flow effects on pressure recovery  
p0660 A71-40950
- PRESSURE REDUCTION  
Accelerated testing of jet fuel containment sealant, using reduced pressure and hybrid fluorocarbon silicone  
p0282 A71-24083
- Unsteady pressure gradient reduction effect on airfoil dynamic stall delay  
p0671 A71-42841
- Parameter effects on coalescence of nose and wing shocks in wing/body pressure signature for sonic boom reduction  
p0526 N71-28385
- Velocity profile control tests of diffuser wall bleed to control combustor inlet airflow distribution  
[NASA-TN-D-6435] p0586 N71-30817
- PRESSURE REGULATORS  
Pressure regulator design and construction, using high pressure fluidic proportional chain  
p0202 A71-20580
- Flow control system design for blowdown wind tunnels and disturbance effects on regulating accuracy  
[NAL-TN-22] p0383 N71-22476
- PRESSURE SENSORS  
Noncircular cross section static pressure probes theoretically insensitive to pitch, yaw and Mach number, testing performance  
p0073 A71-13730
- High performance fighter aircraft engine pressure ratio and turbine inlet temperature measurement, using fluidic sensors  
p0203 A71-20586
- In-flight profile drag measurement of gliders with total and static pressure sensors in boundary layer wake, using moments method  
p0278 A71-23667
- Cam profile selection for adjustment in computing-resolving unit of aneroid sensors of altimeters  
p0413 A71-28938
- High altitude balloons pressure-altitude transducer assembly, discussing electronic circuitry, calibration and temperature and vibration effects  
p0430 A71-30070
- Altimeter-airspeed and Mach number pressure transducer with diaphragm free of temperature and vibration effects  
p0433 A71-30322
- Miniature transducers design and fabrication for fluctuating pressure measurements in jet engine testing, noting frequency response and power dissipation  
p0434 A71-30324
- Fluctuating pressure measurements in jet engine testing, using miniature transducers with calibration and data acquisition equipment  
p0434 A71-30325
- Fluid amplifiers theory and use as temperature and pressure sensors, discussing applications in chemical and ammunition industries and jet aircraft control  
[IEEE PAPER 70-TP-120-IGA] p0691 A71-42921
- Flight assessment of trailing-cone static pressure probe at subsonic speeds  
[RAE-TR-69139] p0104 N71-12214
- Hypersonic wind tunnel test on conical and ogival nosed static pressure probes  
[ARL/A-327] p0399 N71-23778
- Pressure sensor network for measuring liquid dynamic response in flight including fuel tank acceleration, liquid slosh amplitude, and fuel depth monitoring  
[NASA-CASE-XLA-05541] p0475 N71-26387
- PRESSURE TRANSDUCERS  
U PRESSURE SENSORS
- PRESSURE WAVES  
U ELASTIC WAVES
- PRESSURE WELDING  
NT DIFFUSION WELDING  
Jet engine components inertia welding, discussing process, equipment, low weight-cost advantage and mechanical properties reproducibility  
[ASME PAPER 71-GT-33] p0350 A71-25970
- PRESSURIZED CABINS  
Fluidic cabin pressure automatic control systems for military and civil aircraft, discussing design, operation and performance  
p0432 A71-30308
- PRESSURIZED WATER REACTORS  
Semiscale blowdown and emergency core cooling project test report  
[IN-1393] p0230 N71-17190

NT ACCIDENT PREVENTION  
 NT CORROSION PREVENTION  
 NT FIRE PREVENTION  
 NT ICE PREVENTION

## PRIMERS (COATINGS)

Adhesive primers corrosion resistance test methods,  
 noting aircraft design implications

p0283 A71-24112

## PRINCETON SAILWINGS

## U SAILWINGS

## PRINTED CIRCUITS

NT LARGE SCALE INTEGRATION

## PRIVATE AIRCRAFT

U GENERAL AVIATION AIRCRAFT

## PRIVATE AVIATION

U CIVIL AVIATION

U GENERAL AVIATION AIRCRAFT

## PROBABILITY

U PROBABILITY THEORY

## PROBABILITY DISTRIBUTION FUNCTIONS

Relationship between small scale wind shears and  
 wind profile power spectra

[NASA-TN-X-64562] p0035 N71-10240

Scatter factor in statistical aircraft fatigue life  
 estimation

[ARL/SM-350] p0165 N71-15154

## PROBABILITY THEORY

ATC system improvement by procedural changes,  
 applying probability concepts to flight safety

p0018 A71-11699

Lightning stroke probability model for point  
 selection on aerospace vehicles

p0193 A71-19928

Probabilistic estimate of aerodynamic imbalance of  
 aircraft gas turbine rotors due to production  
 errors in compressor blade angle

p0222 A71-22045

Uncertainty factors in management decisions and  
 operations optimization in international air  
 transportation industry

p0287 A71-24265

Fatigue failure probabilistic model under variable  
 amplitude loading, considering relation between  
 safety factor and fatigue failure probability

p0346 A71-25492

Probabilistic methods for solving ATC and navigation  
 problems, considering stochastic processes theory

p0482 A71-31463

Probabilistic approach to prolonged lifetime design  
 and static strength of structures of monocoque and  
 multispar wings, using fatigue characteristics of  
 individual elements

p0504 A71-33604

Characteristic coefficients technique for  
 probability models of wind profiles in missile  
 design and environment analysis

[AD-713522] p0165 N71-15215

## PROBES

HF rake probes with high temperature integrated  
 sensor for inflight aircraft engine intake air  
 flow distortion measurements

p0433 A71-30321

Wire and probe support interference on hypersonic  
 wakes of magnetically suspended round based  
 conical body

[ARC-CP-1133] p0331 N71-20848

## PROBLEM SOLVING

NT ASYMPTOTIC METHODS

NT ITERATIVE SOLUTION

Control problems in airline operations particularly  
 air cargo handling

p0128 N71-14430

Asymptotic expansion techniques to define pressure  
 loading effects on wings with unbalanced control  
 surfaces

p0569 N71-29348

Numerical method for evaluating discontinuous  
 downwash distribution for steady flow over swept  
 and rectangular wings

p0569 N71-29349

## PROCEDURES

NT FINITE ELEMENT METHOD

NT OPTICAL CORRECTION PROCEDURE

Standard equipment and procedures for aircraft gas  
 turbine engine exhaust smoke measurement

[ASME PAPER 71-GT-88] p0353 A71-25995

## PROCUREMENT

Flight simulators procurement and commissioning,  
 discussing difficulties due to different aircraft  
 configurations, advantages of equipment and  
 procedures standardization, etc

p0001 A71-10015

Cost effectiveness of reliability screening program  
 from parts procurement through system test, using  
 experience with attack radar for F-111 aircraft

p0357 A71-26683

## PRODUCT DESIGN

U PRODUCT DEVELOPMENT

## PRODUCT DEVELOPMENT

NT WEAPONS DEVELOPMENT

M49 Larzac turbofan engine, describing design,  
 development, performance data, manufacturing  
 techniques, operation and maintenance

p0026 A71-12607

BD-1 Yankee aircraft development, design and  
 construction

p0184 A71-19084

Vertical straight lift turbojet engine design and  
 development, presenting component materials  
 properties/weights, endurance tests and  
 performance data

[ASME PAPER 71-GT-75] p0352 A71-25989

Air Force development programs with graphite  
 reinforced composites, discussing matrix materials  
 and cost and weight savings

[ASME PAPER 71-DE-13] p0361 A71-27323

Olympus 593 pure jet twin shaft engine development  
 program for Concorde, discussing engine evolution,  
 design considerations and flight development

[SAE PAPER 710422] p0405 A71-28309

Commercial aircraft powerplant development,  
 discussing engine and components test programs and  
 techniques

[SAE PAPER 710449] p0407 A71-28327

DC-10 wide body tri-jet aircraft design and  
 development, considering sizing, number of engines  
 and thrust optimization and selection of cruise,  
 approach and stall speeds

[AIAA PAPER 71-780] p0535 A71-34525

Theory, calculation, and design of centrifugal  
 compressor machines

[AD-717878] p0392 N71-23297

Design, development, and flight testing of fire  
 suppressant void filler foam kits for lower  
 hemisphere of fuel tanks in various tactical army  
 aircraft

[AD-719711] p0518 N71-27679

Aircraft tracking and guidance facility using FPS-16  
 radar supplemented by laser tracker permanently  
 mounted on antenna

[NASA-CR-111931] p0677 N71-34240

## PRODUCTION ENGINEERING

NT PRODUCTION PLANNING

Soviet book on aircraft construction technology  
 covering parts fabrication, protective coatings,  
 production automation, etc

p0081 A71-14399

Mathematical model of small scale versatile aircraft  
 component production process, developing computer  
 production optimization algorithm

p0156 A71-18715

High temperature steel and alloys metallurgical  
 processes for stationary and aircraft gas turbine  
 engine components, discussing production-quality  
 control-research interrelationship

p0274 A71-23301

Quality assurance in Ti and Ti alloys processing,  
 discussing smelting, ingot homogenization staging,  
 costs and facilities

p0275 A71-23303

Contoured silicone internal pressure bag mandrels  
 for helicopter rotor blades fabrication

p0283 A71-24096

Metal matrix composite fabrication procedures for  
 gas turbine engine fan blades, stressing diffusion  
 bonding process susceptibility to blades volume  
 producibility

[ASME PAPER 71-GT-46] p0351 A71-25979

Complex structural aircraft components manufacture,  
 using group technology principle based on  
 subdivision of parts classes

p0432 A71-30267

Multilevel supply system operationally ready  
 aircraft number evaluator based on item stock  
 levels, demand rates and repair/resupply times

- p0496 A71-32700  
Aircraft industrial cleaning agents, processes and techniques applied to components in course of manufacturing and assembly phases, emphasizing emulsion and alkaline methods  
[ASM PAPER C70-4.3] p0504 A71-33542  
Modular manufacturing for F-14 aircraft at low cost using end product configuration reducing final assembly p0510 A71-34157  
Aircraft jet engine application of electric discharge machining for repetitive continuous production, considering automated closed cycle equipment  
[SME PAPER MR-71-143] p0560 A71-36658  
Semifinished product production technology influence on heat resistant alloys mechanical properties, considering forging, rolling, casting, melting, diffusion welding and powder metallurgy p0561 A71-36725  
Advanced technology for production of aerospace engines - conference  
[AGARD-CP-64-70] p0053 N71-11626  
Manufacturing technology and production engineering methods in aerospace industry p0054 N71-11627  
Manufacturing and advancement technology for turbine engine coatings p0054 N71-11635  
Automation of technological processes in aircraft engine production  
[AD-714858] p0242 N71-17832  
Engineering aspects and manufacturing of gas turbine engines for helicopters and ground transport vehicles p0512 N71-26956
- PRODUCTION METHODS**  
U PRODUCTION ENGINEERING  
**PRODUCTION PLANNING**  
Production and efficiency of small gas turbine engine for helicopter and surface vehicles  
[AGARD-LS-46-71] p0511 N71-26951  
**PRODUCTIVITY**  
Negotiations of BEA/BOAC productivity agreements in aircraft industry p0552 A71-35924
- PROFICIENCY MEASUREMENT**  
U HUMAN PERFORMANCE  
U PERFORMANCE TESTS  
**PROFILES**  
Steady nonrotational flow around rectilinear profile in finite width uniform current in linear theory, calculating fluid exerted forces p0279 A71-23822
- PROGRAM MANAGEMENT**  
U PROJECT MANAGEMENT  
**PROGRAMS**  
NT APOLLO PROJECT  
NT DEFENSE PROGRAM  
NT EARTH RESOURCES PROGRAM  
NT EUROPEAN SPACE PROGRAMS  
NT NASA PROGRAMS  
NT SPACE PROGRAMS  
**PROJECT MANAGEMENT**  
F-15 air superiority fighter, describing military requirements, program management and procedures in terms of speed, maneuverability, acceleration and weaponry p0183 A71-19078  
Integrated project information and simulation system for management of aerospace vehicle development, discussing simulation models application  
[AIAA PAPER 71-238] p0188 A71-19714  
Aircraft industry materials development, discussing innovations in governmental programs management, procurement specifications and Department of Defense contracting procedures p0368 A71-27677  
Costs-reliability relationships in helicopter development testing and demonstration, emphasizing decision making in program management  
[SAE PAPER 710452] p0407 A71-28330  
Criteria for converting aeronautical project operational targets into actual requirements and technical specifications, emphasizing cost effectiveness p0444 A71-30824  
Administrative techniques of cost/weight tradeoff program for jet transport airplane
- [SAE PAPER 899] p0550 A71-35812  
International cooperation in aerospace projects, discussing Concorde program organization p0665 A71-42011  
Systems maintenance program evaluation of Eastern Region air transportation facilities p0033 N71-10114  
Army aircraft modification program management review and recommendations p0036 N71-10287
- PROJECT PLANNING**  
Manual for development of needs estimates and capital improvement programs for airports and other intercity terminals for 1970 to 1990  
[OMB-04-S71002] p0723 N71-37824  
**PROJECTILE CRATERING**  
Combat aircraft vulnerability to projectile impact predicted by model giving target penetration, damage size and structural response  
[AIAA PAPER 71-777] p0507 A71-34013  
**PROJECTILE PENETRATION**  
U TERMINAL BALLISTICS  
**PROJECTILES**  
NT HYPERVELOCITY PROJECTILES  
Trajectories prediction for subsonic spin stabilized projectiles via water tunnel tests, considering blunt nose and tail and rounded nose right circular cylinders  
[AIAA PAPER 71-296] p0220 A71-22016  
Roll moment of inertia to static margin ratio effect on yaw of repose angle magnitude in ballistic match of projectiles p0429 A71-29890
- PROJECTORS**  
High aperture wide angle lens design for compact electro-optical systems of airborne moving map projection navigational instruments p0560 A71-36605  
Optical projector system for establishing optimum arrangement of instrument displays in aircraft, spacecraft, other vehicles, and industrial instrument consoles  
[NASA-CASE-XNP-03853] p0371 N71-21882
- PROJECTS**  
NT APOLLO PROJECT  
NT ORBITER PROJECT  
**PROPAGATION (EXTENSION)**  
NT CRACK PROPAGATION  
**PROPAGATION MODES**  
Simply supported normal mode plate time response to traveling wave at oblique incidence, using numerical analysis p0430 A71-30068
- PROPELLANT ADDITIVES**  
Hydrocarbon fuel ignitability, investigating molecular structural characteristics and homogeneous additives effect  
[WSS/CI PAPER 70-19] p0144 A71-17661
- PROPELLANT COMBUSTION**  
Acoustic liner design for propellant combustion instability and jet aircraft noise suppression, discussing cross flow and oscillatory pressure effects  
[AIAA PAPER 71-757] p0443 A71-30791
- PROPELLANT EVAPORATION**  
Air flow velocity, altitude, fuel-air ratio, fuel flow velocity, and pressure effects on fuel temperature before and after preevaporation in ramjet engines  
[NASA-TT-F-13605] p0402 N71-24053
- PROPELLANT OXIDIZERS**  
U ROCKET OXIDIZERS  
**PROPELLANT PROPERTIES**  
Book on aviation fuels covering gasoline and turbine fuel properties, handling problems and future fuels p0081 A71-14298
- PROPELLANT SPRAYS**  
Gas turbine engine combustion chamber start-up and burning performance, considering air injection and propellant atomization p0414 A71-28968  
Gas turbine engine startup igniter with modified propellant atomizer enhanced by air injection p0414 A71-28969
- PROPELLANT STORAGE**  
Jet fuels thermal stability and corrosive properties during prolonged storage p0186 A71-19492

- Combustion research laboratory at Purdue University consisting of buildings, housing test cells, data acquisition system, propellant storage and instrument service area p0267 A71-22727
- PROPELLANT TANKS**  
Bibliography on fuel- and propellant-tanks [AD-723920] p0627 N71-32074
- PROPELLANTS**  
NT GELLED PROPELLANTS  
NT SLURRY PROPELLANTS  
NT SOLID ROCKET PROPELLANTS  
German monograph on high energy propellant- oxidizer systems changes of state under high temperature conditions with chemical relaxation taken into account p0138 A71-17106
- PROPELLER BLADES**  
Density gradient visualization with schlieren optical system, discussing propeller aerodynamics p0283 A71-24103  
Propeller blade profile thickness distribution for given pressure distribution, deriving integral equation with singular kernel function via source-sink and vorticity distribution linearized theory p0298 A71-24945  
Aerodynamic design of VTOL propellers, demonstrating possibility of cyclic control of XC-142 experimental propeller [DGLR-71-017] p0498 A71-32784  
Propeller blade structures for high speed tilt wing turboprop V/STOL aircraft, considering materials selection, weight control, cyclic pitch control, noise reduction, etc [DGLR-71-018] p0498 A71-32785  
Dirichlet problem in hodograph plane of compressible fluid flow from aircraft, helicopter blades or turbine blade airfoils p0544 A71-35470  
Low noise turbofan engine without aerodynamic blade loading [NASA-TN-D-6080] p0056 N71-11882  
Integrating matrix method for determining natural lateral vibration data on rotating twisted propeller blade [NASA-TN-D-6064] p0116 N71-13023  
Aerodynamic characteristics of wings, propeller blades, and entire aircraft at various velocities including flow viscosity and compressibility - textbook [AD-723542] p0625 N71-31932  
Performance and acoustic near field measurements on variable camber propeller having STOL applications [AD-724145] p0635 N71-32927
- PROPELLER DRIVE**  
NT HELICOPTER PROPELLER DRIVE  
Propeller-driven short haul tilt wing aircraft noting aerodynamic noise p0377 N71-22191
- PROPELLER EFFICIENCY**  
Propeller driven VTOL aircraft performance improvement, comparing variable camber/diameter counterrotating and blowing device equipped propellers [DGLR-71-023] p0498 A71-32786  
Computerized aerodynamic optimization of aircraft propellers [AD-710356] p0034 N71-10122
- PROPELLER FANS**  
Fan propulsion power plants with mechanical and gas dynamical energy distribution systems for commercial VTOL aircraft p0271 A71-22964  
Prop-fan propulsion system for V/STOL short haul transport aircraft, discussing performance, noise and weight characteristics [SAE PAPER 710470] p0409 A71-28338  
Noise research facility for fan and multistage compressor sound radiation, discussing anechoic chamber, power drive, test control, recording and real time analysis system p0503 A71-33418  
Balanced measured thrust performance of various axial fan configurations in 90 deg cross flow in V/STOL propulsion tunnel [NRC-11740] p0311 N71-19635  
Acoustic measurements on prop-fan model propulsion system - Vol. 2, appendices [NASA-CR-111842-2] p0470 N71-25784  
Acoustic measurements on prop-fan model propulsion system [NASA-CR-111842-1] p0470 N71-25785
- PROPELLER SLIPSTREAMS**  
V/STOL aircraft wing-propeller interaction, using mean flow deflection angle in lift and drag characteristics prediction p0086 A71-14988  
Aerodynamics of wing immersed in propeller slipstreams, presenting calculation method for lift, drag, pitching moment, normal force distribution and wake characteristics [DGLR-70-057] p0129 A71-15947  
Wing flap slipstream deflection correction method for evaluation of propeller power effect on lift and drag coefficients of Arava twin engine STOL aircraft p0339 A71-25164  
Propeller vortex theory, calculating vortex streets pitch distributions and wake configuration p0436 A71-30443  
Interference analysis of wing with overlapping multipropellers in uniform velocity stream confined in elliptical cross section cylinder [ATAA PAPER 71-614] p0486 A71-13583
- PROPELLER SYNCHRONIZERS**  
U PROPELLERS  
**PROPELLERS**  
NT PROPELLER FANS

**PROPULSION SYSTEM CONFIGURATIONS**  
German monograph on systems analysis of future jet and fan propulsion systems for VTOL commercial aircraft weight and cost reduction p0002 A71-10115  
V/STOL aircraft in civil air transportation, discussing safety, reliability, maintainability and propulsion system concepts

- p0071 A71-13576  
Aircraft propulsion, discussing piston, turbojet, turboprop and turbofan engines in terms of thrust to weight ratio, specific fuel consumption and propulsive efficiency
- p0085 A71-14977  
Composite propulsion systems including Turbo-Ram-Scramjet, Ejector Ramjet, Hyperjet and Bi-liquid Ramjet Rocket
- p0089 A71-15285  
Ground effect vehicles limiting volumetric dissipation from air cushion and propulsion systems with fluid boundary by Coanda effect
- p0192 A71-19923  
Lift fan propulsion for civil VTOL transports, considering applicability, attitude control, system design, fan transition and cross flow noise
- p0202 A71-20373  
Composite rocket cum hypersonic airbreathing propulsion reducing space exploration program cost
- p0209 A71-21301  
Air cushion vehicle technology, considering economics, propulsion, structures, controllability, flexible skirt systems and R and D
- p0212 A71-21713  
Aladin 2 French STOL project, consisting of suitably flapped wings with multiple propulsion units with fishtail exhaust nozzles inside rectangular ejectors
- p0288 A71-24283  
Propulsion system and fuel regulator design effect on thrust change during air ejection for VTOL aircraft stabilization in hovering flight
- p0293 A71-24753  
Supersonic transport inlet-engine-airframe compatibility programs, noting exhaust nozzle installation effects, distortions and noise
- p0295 A71-24854  
[AIAA PAPER 68-993]  
Helicopter jet propulsion systems, considering turbocompressors, gas generators, turbine air jet systems, pulsed jet engines, ramjet engines and rocket engines
- p0341 A71-25259  
Lightweight high performance regenerative gas turbine designs for aircraft propulsion, comparing various compressor, turbine, combustor and recuperator arrangements
- p0351 A71-25983  
[ASME PAPER 71-GT-67]  
Convertible fan/shaft engine for V/STOL tactical and transport aircraft, detailing mechanical arrangement, design and performance
- p0353 A71-26054  
Prop-fan propulsion system for V/STOL short haul transport aircraft, discussing performance, noise and weight characteristics
- p0409 A71-28338  
[SAE PAPER 710470]  
Propulsion, guidance and stability of ground effect vehicle with perimetric Coanda fluid boundary
- p0419 A71-29308  
Wind tunnel force test program design for jet aircraft configurations, including propulsion system simulation
- p0439 A71-30605  
VTOL turboshaft engine powered propulsion system development, detailing design requirements, program planning, component research and system integration
- p0452 A71-31109  
[AHS PREPRINT 562]  
STOL commercial aircraft propulsion systems, considering two stream augmentor wing engine and high bypass ratio three stream engine
- p0480 A71-31325  
[AIAA PAPER 71-746]  
Propeller blade structures for high speed tilt wing turboprop V/STOL aircraft, considering materials selection, weight control, cyclic pitch control, noise reduction, etc
- p0498 A71-32785  
[DGLR-71-018]  
Gas turbine design advances for helicopter powerplants, illustrating by Turbomeca engines
- p0502 A71-33416  
VTOL transport optimal airframe/propulsion systems design, discussing thrust requirements, performance, control, cruise functions, fuel consumption and fan characteristics
- p0533 A71-34225  
[AIAA PAPER 71-744]  
Supersonic aircraft propulsion by external heat addition, discussing numerical method for suitable caret wing design
- p0543 A71-35398  
Propulsion systems trends for 1980s, discussing environmental noise levels, stoichiometric gas turbine engines for military aircraft, high bypass ratio engines for V/STOL aircraft, etc
- p0546 A71-35625  
Civil aircraft future propulsion requirements, considering larger engine sizes, higher takeoff thrusts and lower noise levels
- p0601 A71-37600  
[CASI PAPER 72/10]  
Book on aircraft propulsion covering design, dynamics, control, installation, gas turbine, ramjet, rocket and piston engines, compressors, combustion and energy cycles, etc
- p0669 A71-42427  
Theoretical calculations for predicting performance of solid fuel charges for ramjet engines
- p0161 N71-14619  
[FOA-2-C-2331-46]  
Propulsion technology for STOL and V/STOL commercial aircraft
- p0308 N71-19456  
Interaction of nacelle-mounted supersonic propulsion system with simulated wing boundary layer
- p0316 N71-19853  
[NASA-TN-X-2184]  
Supersonic inlet engine control using engine speed as primary variable for controlling normal shock position
- p0328 N71-20674  
[NASA-TN-D-6021]  
Measurement of turbojet engine exhaust nozzle performance as affected by installation parameters using load cells and calibrated engines on F-106 aircraft
- p0400 N71-23822  
[NASA-TN-X-67816]  
Future technology trends in air breathing propulsion systems for aircrafts
- p0531 N71-28947  
[NASA-TN-X-67871]  
Potential flow solution for STOL wing propulsion system presenting flow fields, pressure distribution, and lift coefficient for externally blown flap, high-lift configuration
- p0573 N71-29774  
[NASA-TN-D-6394]  
Flight test investigation of effects of variable geometry plug nozzles installed on F-106b aircraft
- p0578 N71-30283  
[NASA-TN-X-2295]  
Design, development, and characteristics of pulsejet engines without flap valves
- p0587 N71-31102  
High lift aerodynamic and propulsion system configurations for short takeoff aircraft design - bibliographies

U P-3 AIRCRAFT

## Q

- Q SWITCHED LASERS  
Q-switched ruby laser holography with optical equipment to compensate for spatial and temporal incoherence for contouring, aerodynamic visualization, and nondestructive testing  
[NASA-CR-114291] p0334 N71-21320
- QH-50 HELICOPTER  
Investigation of adverse effects of producing QH-50 helicopters prior to completion of development and flight tests  
p0578 N71-30301
- QUADRATIC EQUATIONS  
Flutter suppression with dissipated energy reduced to quadratic form for control surfaces  
[NASA-TN-D-6199] p0388 N71-23091
- QUALITY CONTROL  
Soviet book on bolting and coupling elements threads used in aircraft industry covering configurations selection, cutting, tolerance requirements and quality control  
p0028 A71-12723

Aviation products liability and warranty law, noting reliability trends and quality control methods  
p0061 A71-12971

Corrosion damage relationship to military aircraft accidents, discussing quality control, material selection and manufacturing processes  
p0141 A71-17415

High temperature steel and alloys metallurgical processes for stationary and aircraft gas turbine engine components, discussing production-quality control-research interrelationship  
p0274 A71-23301

Quality assurance in Ti and Ti alloys processing, discussing smelting, ingot homogenization staging, costs and facilities  
p0275 A71-23303

Traversing Infrared Inspection System for C-5 aircraft fail-safe strap panels of bonded Ti-Al laminates, discussing design and application  
[ASME PAPER 71-DE-37] p0361 A71-27327

X ray fluorescence analysis for quality control of gas turbine aircraft engine parts during manufacture and overhaul  
p0054 N71-11641

Residual stress measurements and heat treatments for electron beam welding of rotating turbine engine parts  
p0055 N71-11644

**QUARTZ LAMPS**  
Aircraft flash light designs, discussing tandem oscillating lights, fixed lamp rotating reflectors and lamps, xenon flashtube, quartz-iodine lamp and flash frequencies  
p0661 A71-41494

**QUEUEING THEORY**  
Queueing theory approach to communication satellite network design, applying to ocean air traffic control and worldwide military broadcast systems  
p0539 A71-35106

## R

**RADAR ALTIMETERS**  
U RADIO ALTIMETERS

**RADAR ANTENNAS**  
Soviet book on antenna radomes of flight vehicles covering electromagnetic wave transmission through dielectric media, fabrication, construction materials, etc  
p0014 A71-11322

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques  
p0359 A71-27016

High speed airborne scanning navigational radar antenna with matched patterns, using offset horn fed reflector and polarization modes for improved visual display  
p0446 A71-31036

Structural design, mechanical stability and aircraft compatibility for airborne side-looking radar antennas, using end fed slotted waveguide arrays  
p0446 A71-31041

Infrared and thermal evaluation of tactical aircraft phased array radar antenna design with cooling air distribution for steady state operating temperature maintenance  
p0652 A71-40434

**RADAR APPROACH CONTROL**  
Airborne radar as helicopter approach aid  
p0095 A71-15425

V/STOL microwave scanning beam approach and landing system, describing ground and airborne station equipment and operation  
p0211 A71-21680

**RADAR BACKSCATTER**  
U BACKSCATTERING  
U RADAR SCATTERING

**RADAR BEACONS**  
Radarscope net for target azimuth and distance and for direct altitude readout through beacon numerics  
p0413 A71-28886

Performance prediction model for electromagnetic compatibility of ATC radar beacon system, testing interrogator-transponder links along air route  
p0608 A71-38435

Investigation of transponder reply fadeout in vicinity of O'Hare Airport, Chicago, Illinois  
[FAA-RD-70-75] p0169 N71-15498

Nonsynchronous interrogation repetition frequency selection methods applied to radar beacon systems  
[AD-715335] p0242 N71-17766

Survey of air traffic control radar beacon system operational problems  
p0247 N71-18116

Development of improved surveillance and communication subsystems for automated air traffic control system  
[AD-716816] p0330 N71-20774

Analysis of two plans for assigning identity codes to aircraft by digital computer simulation of peak IPR traffic conditions  
[NBS-TN-568] p0631 N71-32456

Range and azimuth resolution characteristics and aircraft separation measurement capability of radar beacon-digitizer subsystem  
[FAA-NA-71-16] p0715 N71-37038

**RADAR CHAFF**  
U CHAFF

**RADAR CORNER REFLECTORS**  
Multiple planar Luneberg lens circular array for airborne electronically scanned X band narrow beam antenna mounted under aircraft nose or fuselage  
p0446 A71-31038

**RADAR CROSS SECTIONS**  
Flexible trailing wire effect on aerodynamic characteristics and radar cross sections of hypervelocity cone  
[AD-712509] p0103 N71-12205

**RADAR DATA**  
Acquisition and processing of aircraft search radar data obtained by track-while-scan technique, using off-line digital computer  
p0015 A71-11392

Data communication role in National Airspace System, concerning radar and flight data acquisition, intersystem transfer and voice control  
[AIAA PAPER 71-248] p0189 A71-19722

National Aviation System stage A ATC displaying digitized radar data positions together with automatic track positions  
p0663 A71-41634

Digital radar data transmission system for use in air traffic control  
p0124 N71-13840

Computerized radar plot extractor module for automatic air traffic control  
p0125 N71-13936

**RADAR DETECTION**  
Airborne ECM receiver, determining conditions for detecting victim radar signal before signal reflection from aircraft  
p0479 A71-31207

Civil and military aviation operational problems, including cloud masses and CAT detection, landing aids and radar navigation  
p0491 A71-31917

Feasibility and design criteria of laser Doppler system for detecting and mapping turbulence levels and wind or velocity profiles in various applications  
[NASA-CR-103105] p0402 N71-24081

Meteorological radar for detection of thunderstorms, hail, and turbulence hazardous to aviation noting echo interpretation and radar transmission  
[WHO-264-TP-148] p0456 N71-24394

**RADAR DIRECTION FINDERS**  
U RADIO DIRECTION FINDERS

## RADAR DISPLAYS

Terrain-following radar for TSR-2 aircraft, discussing reliability trials and improvement

p0186 A71-19557

Radar analog simulators for Polish air traffic controllers training, describing optical and electronic equipment

p0270 A71-22950

Cost effectiveness of reliability screening program from parts procurement through system test, using experience with attack radar for F-111 aircraft

p0357 A71-26683

Helicopter radar equipment for obstacle avoidance in all-weather low altitude flight, describing components installation, cockpit display and controls

p0491 A71-31919

Airborne traffic situation display for use with national airspace/automatic radar control terminal system, using computer selected message, map and heading data

[AIAA PAPER 71-929] p0597 A71-37175

Solid state airborne weather radar for civil aviation, discussing design, weight and power requirement reduction

p0698 A71-44273

Computerized optimization of airport radome design

p0124 N71-13913

Turbulence measurements in and near thunderstorms correlated with aircraft stability measurements from ground based radar

[NRC-11703] p0165 N71-15152

Flight evaluation of AN/APN 191 radar altimeter

[AD-714638] p0172 N71-15923

System description of field test model of ARTS 2 modular alphanumeric nontracking ATC system

p0255 N71-18815

Operational evaluation of capability of bright radar microwave remoting system to provide useful radar data in satellite control tower

[FAA-RD-71-48] p0646 N71-33788

Computer simulation of aircraft collision-hazard warning radar techniques in terminal area

p0677 N71-34170

All weather landing system design, development, and field and flight testing

p0686 N71-35777

C band radar transmitter for airborne radar system

[AD-727086] p0721 N71-37707

## RADAR IMAGERY

Application of aerial reconnaissance and remote sensor techniques to development of master engineering soil plans

[PB-199422] p0685 N71-35447

## RADAR MAPS

## NT RADAR IMAGERY

## RADAR MEASUREMENT

Thin CAT layer detection in lower stratosphere by L band radar complemented by radiosonde and U-2 aircraft probes

p0007 A71-10567

Clear air turbulence due to large amplitude Kelvin-Helmholtz billows, noting simultaneous measurements by instrumented aircraft and radar

p0088 A71-15043

Simultaneous radar and instrumented aircraft observations in clear air turbulent layer for eddy dissipation rates calculation

p0612 A71-39207

## RADAR NAVIGATION

ATC automated systems, discussing National Airspace System En Route Stage A and Advanced Radar Terminal System

[AIAA PAPER 71-244] p0188 A71-19719

Terrain following radar for airborne guidance of low flying military aircraft

p0358 A71-26881

Radar avoidance action logic for converging aircraft safe passage, discussing near miss and collision situations

p0367 A71-27600

Air navigation techniques history, considering radio, radar, loran Doppler and inertial navigation

p0440 A71-30712

Radio and radar air navigation for civil aviation, discussing Doppler effect, inertia and satellite systems

p0599 A71-37344

Evaluation of systems, procedures, and instrumentation for air traffic control

[AD-711662] p0043 N71-10737

Cockpit display of automatic radar control systems data

[AD-716425] p0315 N71-19848

Bibliography on radar and radio navigation

[DLR-MITT-70-21] p0513 N71-26970

Testing ASMI/transponder for moving emergency service vehicles on airfields during poor visibility conditions

p0571 N71-29553

## RADAR OBSERVATION

## U RADAR TRACKING

## RADAR RANGE

Three dimensional ATC radar supplying simultaneous range, azimuth and elevation information for indefinite number of targets by continuous searching

p0491 A71-32167

## RADAR RECEIVERS

Airborne ECM receiver, determining conditions for detecting victim radar signal before signal reflection from aircraft

p0479 A71-31207

## RADAR REFLECTIONS

## U RADAR ECHOES

## RADAR REFLECTORS

Nonexpanding reflecting balloon for radar measurement of stratospheric circulation

[NLL-M-20326-/5828.4F/] p0401 N71-23934

## RADAR RESOLUTION

Echoing area relation to radar range resolution cell size and aircraft dimensions, using mathematical model

p0017 A71-11643

Air traffic control radar separation by pulse repetition frequency discrimination for double and triple stagger configurations

p0133 A71-16347

Range and azimuth resolution characteristics and aircraft separation measurement capability of radar beacon-digitizer subsystem

[FAA-NA-71-16] p0715 N71-37038

## RADAR SCANNING

Acquisition and processing of aircraft search radar data obtained by track-while-scan technique, using off-line digital computer

p0015 A71-11392

Stochastic model for analysis of track-while-scan technique for aircraft search radar, based on Kalman filter theory

p0015 A71-11393

## RADAR SCATTERING

Effect of decreasing altitude on statistics of radar backscatter from random rough surface

[NASA-CR-114803] p0162 N71-14755

## RADAR TARGETS

Coherent laser synthetic aperture radar at microwave frequencies for airborne ground point target mapping

p0021 A71-12044

Three dimensional ATC radar supplying simultaneous range, azimuth and elevation information for indefinite number of targets by continuous searching

p0491 A71-32167

## RADAR TRACKING

Stochastic model for analysis of track-while-scan technique for aircraft search radar, based on Kalman filter theory

p0015 A71-11393

Statistical connection strategies for automatic multiradar air traffic surveillance using track

- computer  
p0081 A71-14395  
SAGE/Buic vs Kalman filters for aircraft tracking, determining accuracy by radar model  
[AIAA PAPER 71-58] p0152 A71-18517  
Computer-based aircraft tracking with aid of twin radar air traffic control system, discussing components and operation  
p0562 A71-36993  
Radar observation of convective process in clear air, presenting turreted top cell contour tracings from PPI sequence  
p0691 A71-43088  
Experimental design of three dimensional air traffic control radar tracking system  
p0034 N71-10164  
Severe thunderstorm radar tracking and related weather events hazardous to aviation operations  
[ESSA-TM-ERLTM-NSSL-46] p0042 N71-10720  
Radar observations of bird migrations to reduce risk of bird-aircraft collisions

Statistical comparison of computer logics for controlled radar tracking of air traffic  
p0125 N71-13935  
Improved surveillance and communication capability of air traffic control  
[AD-721463] p0530 N71-28685  
Aircraft tracking and guidance facility using PPS-16 radar supplemented by laser tracker permanently mounted on antenna  
[NASA-CR-111931] p0677 N71-34240
- RADAR TRANSMISSION**  
Performance levels prediction for airborne solid state phased array radar transmission sources, considering TRAPATT devices  
p0663 A71-41630
- RADARSCOPES**  
NT PLAN POSITION INDICATORS  
Radar scope net for target azimuth and distance and for direct altitude readout through beacon numerics  
p0413 A71-28886  
ATC radar display systems mapping techniques using vectors and optical projections  
p0430 A71-30014  
ATC display devices with computer-derived alphanumeric labels on radar screen, examining feasibility and effectiveness  
p0649 A71-40118  
Performance of engineering model microwave radio relay system for remote radar display  
[FAA-NA-70-52] p0105 N71-12386  
Design of digital moving target indicator for air traffic control radar system  
p0125 N71-13926
- RADIAL DISTRIBUTION**  
Temperature field profiling along radius in front of gas turbine stage, applying to regeneratively cooled turbine engine  
p0703 A71-45011
- RADIAL FLOW**  
Compressible flow similarity parameters, establishing dimensionless relations for radial turbomachines design  
p0075 A71-13830  
Radial flow energy losses in rotating cylindrical cascade of inward-flow turbine wheel, determining profile losses and exit blade angle  
p0222 A71-22044  
Axial-radial and radial compressor stage optimum exit blade angle, considering flow rate control by variable pitch nozzle guide vanes  
p0222 A71-22049  
Unsteady inward and outward velocities of subsonic radial air flow between two disks, using hot-wire anemometer and cylindrical wave equation  
p0281 A71-24000  
High pressure ratio radial outflow compressor analysis, design, construction and testing  
p0284 A71-24217  
Flow variation effect on velocity and flow angle distribution at exit of shrouded radial flow impeller with backward swept blades, using streamline curvature method  
[ASME PAPER 71-GT-15] p0349 A71-25961  
Two dimensional flow in radial turbomachine bladed impeller, comparing numerical solution based on potential theory with experimental results
- [ASME PAPER 71-GT-20] p0349 A71-25964  
Quasi-three dimensional method for radial flow compressor blade loadings computation, presenting combined meridional plane and blade to blade solutions for adaptation to computer  
[ASME PAPER 71-GT-60] p0351 A71-25982  
Gas flow behind cylindrical nozzles at roots and along periphery for narrow blades, using radial equilibrium equation  
p0505 A71-33617  
Overall performance of 6-inch radial-bladed centrifugal compressor with various diffuser vane setting angles  
[NASA-TM-X-2107] p0104 N71-12208  
Design and component testing of cooled radial gas turbine engine  
p0232 N71-17381  
Quasi-three dimensional surface velocities and choking flow for turbomachine blade rows calculated by FORTRAN program  
[NASA-TM-D-6177] p0389 N71-23126
- RADIAL VELOCITY**  
Nonlinear limit rotation velocity and circulation induced by wheel in axial flow turbomachine for incompressible ideal fluid, using iterative numerical algorithm  
p0369 A71-27715
- RADIANT COOLING**  
Nongray absorption and radiation cooling on smooth symmetric blunt bodies included in modified Maslen flow field method for radiation and large blowing  
[AIAA PAPER 69-637] p0134 A71-16566
- RADIANT FLUX DENSITY**  
NT LUMENS  
Convective flow at stagnation point relation to radiation flux decrease as result of absorption in cold boundary layer  
p0541 A71-35259
- RADIANT INTENSITY**  
U RADIANT FLUX DENSITY
- RADIATION ABSORPTION**  
NT ATMOSPHERIC ATTENUATION  
NT ELECTROMAGNETIC ABSORPTION  
Nongray absorption and radiation cooling on smooth symmetric blunt bodies included in modified Maslen flow field method for radiation and large blowing  
[AIAA PAPER 69-637] p0134 A71-16566  
Interaction between radiation from shock wave region and oncoming cold air flow in hypersonic flow past blunt body  
p0189 A71-19730
- RADIATION DETECTORS**  
Sound radiation and pressure fields inside vibrating turbomachine blades, using miniaturized microphones and compact capacitive detectors  
p0436 A71-30517  
Aerial surveys for determining plutonium concentration using array of NaI detectors  
[EGG-1183-1517] p0687 N71-35980
- RADIATION DISTRIBUTION**  
NT ANTENNA RADIATION PATTERNS  
NT DIFFRACTION PATTERNS  
Helicopter in-flight noise radiation pattern and spectra measurements for various operating parameters  
p0093 A71-15406  
Low profile optical system producing annular cone of radiation from point source for high speed aircraft beacon  
p0185 A71-19203  
Jet aircraft sound spectrum on ground and in air, comparing calculation with experiment  
p0437 A71-30524
- RADIATION DOSAGE**  
Jet aircraft measurements of galactic cosmic radiation dose and comparison with theoretical values for supersonic flights  
[UCRL-20209] p0728 N71-38552
- RADIATION EFFECTS**  
Atmospheric wind, temperature, turbulence, hydrometeors, ozone, cosmic radiation and radio activity effects on commercial SST Concorde flight  
p0659 A71-40829
- RADIATION EXPOSURE**  
U RADIATION DOSAGE
- RADIATION FIELDS**  
U RADIATION DISTRIBUTION
- RADIATION HAZARDS**  
Radiological risks of cosmic radiation during high

# SUBJECT INDEX

# RADIO FREQUENCY INTERFERENCE

altitude supersonic flights, considering galactic, solar and incident particles in aircraft atmosphere p0064 A71-13099

Radiation hazards of supersonic transport, and tidal characteristics of Saint Lawrence River [AD-710638] p0039 N71-10390

Experimental and theoretical study of biologically important radiation components and dose equivalents due to galactic and solar rays at SST in high atmosphere - summary p0584 N71-30779

 NT INFRARED DETECTORS  
 NT INFRARED INSTRUMENTS  
 NT INFRARED SCANNERS  
 NT MICROWAVE RADIOMETERS  
 NT RADIATION DETECTORS  
 NT SPECTROPHOTOMETERS  
 NT SPECTRORADIOMETERS  
 Development of radiotracer method for detecting contribution of selected components to storage instability of jet engine fuels [BM-RI-7493] p0327 N71-20505

**RADIATION METERS**  
 U RADIATION MEASURING INSTRUMENTS  
**RADIATION NOISE**  
 U ELECTROMAGNETIC NOISE  
**RADIATION PRESSURE**  
 NT LUMENS  
 NT SOUND PRESSURE  
 Photoelectric, bolometric and photographic recording assembly for measurement of light pressure and aerodynamic forces on complex shape body in free molecular flow p0415 A71-29155

**RADIATION SOURCES**  
 NT POINT SOURCES  
 Supersonic jet noise problem, discussing eddy- Mach wave radiation source mechanism from nonlinear streamwise development of inviscid instability waves in turbulent mixing layer [AIAA PAPER 71-150] p0154 A71-18592

**RADIATION SPECTRA**  
 NT ABSORPTION SPECTRA  
 NT EMISSION SPECTRA  
 NT LINE SPECTRA  
 NT VIBRATIONAL SPECTRA  
 Acoustic radiation spectra from turbulent jets, assuming approximate Gaussian statistics and second order velocity correlation space-time characteristics obtainable from frozen flow p0195 A71-19959

**RADIO ALTIMETERS**  
 Frequency modulated radio altimeters, discussing problems of altitude measurement independent of airplane motions in pitch and roll and immunity to fog effects p0491 A71-31918

Flight evaluation of AN/APN 191 radar altimeter [AD-714638] p0172 N71-15923

**RADIO ANTENNAS**  
 Airborne blade antenna tunable for 26-100 MHz by individual bands, using binary related inductors switched by miniature high vacuum relays p0446 A71-31044

Light aircraft notch antenna for efficient radiation at HF band lower end and minimal interference with aircraft structure p0447 A71-31053

**RADIO BEACONS**  
 Single seater turbojet aircraft landing via automatic band switch for ARK-5 and ARK-10 radio compass p0604 A71-38017

Portable skid-mounted thermoelectric power source for radio beacon use during emergency [AD-721887] p0528 N71-28434

**RADIO BROADCASTING**  
 U BROADCASTING  
**RADIO COMMUNICATION**  
 NT RADIO RELAY SYSTEMS  
 NT RADIO TELEMETRY

Airborne radio communication systems, stressing electronic equipment design reliability p0358 A71-26880

ATS 1 and 3 satellite VHF transponders for ships and aircraft location, communication and remote sensing, discussing performance test results p0445 A71-30898

Helicopter aerial design problems, considering antenna multiplicity use of nonmetallic structures and complexity of airborne radio systems p0447 A71-31048

Airborne communications with AN/ARC-154 transceiver in single radio, discussing extended frequency coverage, multimode operation, navigation and input/output provisions p0548 A71-35758

Analysis of integrated high frequency antenna system for P-3C aircraft radio communications [AD-718167] p0392 N71-23306

Calculation of divergence factor of earth surface reflected signals on aircraft radio communication, and multipath transmission between two aircraft [RAE-TR-70210] p0570 N71-29438

Fundamental characteristics of analog and digital modulation used in ATC communication system [ESSA-TM-ERL-ITS-232] p0571 N71-29555

**RADIO CONTROL**  
 Telecontrolled Rotormobile flying crane with jet powered lifting rotor for carrying heavy loads over short distances p0290 A71-24420

Radio controlled small aircraft as measurement platform for meteorological sensors, discussing development and performance from field tests p0542 A71-35334

Soviet book on radio control of various flight vehicles covering closed loop synthesis, missile guidance, spacecraft trajectory correction and air traffic control p0543 A71-35403

Aircraft, missile, and spacecraft radio control systems analysis and network synthesis [JPNS-53789] p0633 N71-32694

**RADIO DIRECTION FINDERS**  
 Theoretical principles of radio direction finding and operation of radio direction finders [AD-714509] p0178 N71-16616

 NT TRANSMITTER RECEIVERS  
**RADIO WAVES**  
 NT SUBMILLIMETER WAVES  
**RADIOACTIVE ISOTOPES**  
 NT PLUTONIUM  
**RADIOACTIVE WASTES**  
 Aerial surveys for determining plutonium concentration using array of NaI detectors [EGG-1183-1517] p0687 N71-35980
- RADIOGRAPHY**  
 Radiographic nondestructive testing method on titanium billets for engine disk forging p0054 N71-11639
- RADIOMETERS**  
 NT INFRARED DETECTORS  
 NT INFRARED SCANNERS  
 NT MICROWAVE RADIOMETERS  
 NT SPECTRORADIOMETERS  
**RADIOSONDES**  
 NT RAWINSONDES  
 Reverse flow temperature probe design and calibration for vertical soundings from aircraft, comparing to radiosonde method p0020 A71-11822
- Mountainous region vertical air flow research, describing superpressure balloon and precise pressure radiosonde system p0024 A71-12420
- Stokes flow parachute extremely lightweight decelerator for increasing altitude and rocket-borne radiosondes atmospheric data sampling quality [AIAA PAPER 71-401] p0341 A71-25277
- Relation between turbulence in stratosphere causing aircraft buffeting, and vertical distribution of meteorological parameters calculated from radiosonde data [NASA-TT-F-13981] p0707 N71-36398
- RADIOTELEPHONES**  
 Aeronautical electronic equipment, discussing static transformer, radiotelephone sets, angle of approach meter, etc

p0062 A71-13018

**RADOME MATERIALS**

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques

p0359 A71-27016

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating

p0423 A71-29645

**RADOMES**

Soviet book on antenna radomes of flight vehicles covering electromagnetic wave transmission through dielectric media, fabrication, construction materials, etc

p0014 A71-11322

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating

p0423 A71-29645

Radome lightning protection systems involving electrostatic shield, considering effect on electromagnetic characteristics and radiation patterns of nearby antennas

p0608 A71-38450

Computerized optimization of airport radome design

p0124 A71-13913

**RAIL TRANSPORTATION**

Integrated short-haul interurban transportation system, considering combination of conventional jet aircraft, STOL aircraft and high-speed ground transportation

[AIAA PAPER 71-508]

p0422 A71-29550

Traveler service problems in domestic intercity air, bus, and rail transportation

[PB-193300]

p0034 A71-10116

Rapid rail transit service to airports

p0034 A71-10167

Selected tabulations from Cleveland Hopkins Airport user surveys before and after rail transit service

p0038 A71-10360

Statistical analysis of direct rail rapid transit system impact on transportation to Cleveland airport

p0038 A71-10370

File formats and code descriptions for analysis of direct rail rapid transit system impact on transportation to Cleveland airport

p0038 A71-10371

High speed access system evaluation for transportation from jetport to Miami with cost estimates and network descriptions

[PB-192842]

p0039 A71-10417

Impact of rapid rail transient service from central business district to airport

p0040 A71-10440

Bibliography on control and prevention of icing in transportation systems

[AD-711534]

p0043 A71-10735

Data processing and impact analysis on rapid rail access system for airport

[PB-195047]

p0226 A71-16988

Data recordings and computer codes for airport rapid transit access system study

[PB-195048]

p0226 A71-16989

Rapid transit railway effect on airport passenger traffic

[PB-195046]

p0226 A71-16992

Public transportation in airport access systems

p0257 A71-18951

Mass transport systems for airport access

p0257 A71-18952

Public transportation requirements for Heathron Airport

p0257 A71-18954

Cleveland rapid rail transport system to Hopkins International Airport

p0258 A71-18956

Existing access systems for Logan International Airport, and plans for improvement

p0258 A71-18957

Feasibility of rail access to Friendship

International Airport from Wash., D.C. and Baltimore, Md.

[PB-196023]

p0307 A71-19434

Economic analysis of intercity short-haul business passenger travel

[NASA-TN-X-2228]

p0321 A71-20114

Aviation and surface transportation safety for 1970 with related accident investigations and recommendations

[AR-4]

p0464 A71-24925

Investigation of aerodynamic forces imposed on vehicles proposed for operation in improved urban transportation system

p0473 A71-26129

Noise reduction laws for air, rail, and highway transportation including legal liability in US

[OST-ONA-71-1-VOL-7]

p0648 A71-33938

**RAIN**

Calibration and charting at rain simulation facility for rain erosion tests

[AD-714554]

p0175 A71-16252

Precipitation detector and mechanism for stopping and restarting machinery at initiation and cessation of rain

[NASA-CASE-XLA-02619]

p0475 A71-26334

**RAIN EROSION**

**U WATER EROSION**

**RAIN IMPACT DAMAGE**

Polyurethane coatings development for subsonic rain erosion protection for aircraft structures, using whirling arm apparatus with simulated rainfall

p0283 A71-24101

**RAINDROPS**

Ice formation and prevention on helicopters, taking into account presence of big drops of undercooled rain

p0613 A71-39374

International conference on rain erosion and associated phenomena

[AD-715100]

p0243 A71-17906

**RAINSTORMS**

**NT THUNDERSTORMS**

**RAMJET ENGINES**

**NT PULSEJET ENGINES**

**NT SUPERSONIC COMBUSTION RAMJET ENGINES**

**NT TURBORAMJET ENGINES**

Supersonic and subsonic combustion modes in constant area ramjet combustors, deriving dimensionless parameter for varying flow ratios as combustion stability criterion

[ASME PAPER 70-WA/AV-4]

p0078 A71-14148

Supersonic combustion ramjet engine with liquid fuel injection, considering atomization process and ignition criteria

p0133 A71-16531

German monograph on ignition and combustion processes in rapidly flowing gas mixtures covering supersonic flow, ramjet parameters, flow heating, etc

p0137 A71-16900

Hypersonic ramjet reaction mechanisms for H combustion, discussing computational models, operation principles and atomic, radical and molecular collisions

p0141 A71-17410

Book on aircraft propulsion covering design, dynamics, control, installation, gas turbine, ramjet, rocket and piston engines, compressors, combustion and energy cycles, etc

p0669 A71-42427

Hypersonic ramjet technology review

[PB-193911]

p0127 A71-14199

Calculating changes in shape of solid fuel charges for ramjet engines after hardening in steel and Durestos casings

[FOA-2-C-2337-46]

p0160 A71-14618

Theoretical calculations for predicting performance of solid fuel charges for ramjet engines

[FOA-2-C-2331-46]

p0161 A71-14619

Effect of tailpipe length on combustor stability in ramjet combustors

p0241 A71-17725

Supersonic combustion and burning rates of stoichiometric hydrogen mixtures in ramjet engines

[AD-716855]

p0336 A71-21634

Air flow velocity, altitude, fuel-air ratio, fuel flow velocity, and pressure effects on fuel temperature before and after prevaporization in ramjet engines

[NASA-TT-F-13605]

p0402 A71-24053

Modified wind tunnel tests of supersonic combustion chamber for hydrogen burning ramjet

- [ONERA-TP-924] p0647 N71-33841
- RAMS (PUMPS)**
- Flexible ram air inflated keel and leading edge parawing design optimization for increased stability and reliability, introducing semirigid member concept [AIAA PAPER 71-986] p0700 A71-44582

# REACTOR FUELS

# SUBJECT INDEX

## REACTOR FUELS

### U NUCLEAR FUELS

### REACTOR SAFETY

Nuclear powered long distance aircraft engines, discussing high burnup fuel, weight factors and safety problems

p0145 A71-17694

Nuclear surface effect vehicle and subsonic aircraft for transoceanic cargo shipping, discussing mobile reactor safety tests under high speed impact conditions

[AIAA PAPER 70-1221] p0268 A71-22779

Air breathing nuclear propulsion, considering reactor safety in air cushion vehicles and aircraft

p0429 A71-29930

Semiscale blowdown and emergency core cooling project test report

[IN-1393] p0230 A71-17190

### READERS

Automatic data processing systems for air traffic control, health services, operations research, management planning, information systems, and reading machines

p0722 A71-37742

### READING MACHINES

### U READERS

### READJUSTMENT

### U ADJUSTING

### REAL GASES

German monograph on centered two dimensional nonequilibrium hypersonic expansion flow, considering real gas flow with chemical reactions

p0131 A71-16124

Elliptical cones at large angle of attack, calculating three-component real gas properties effects on aerodynamic characteristics

p0417 A71-29191

Higher pressure ratios trend in aircraft gas turbines leading to higher exit temperatures from compressor, noting real gas effects

p0651 A71-40170

Real gas effects on drag and trajectories of nonlifting conical shell during Mars atmospheric entry

[NASA-TN-D-6240] p0244 A71-18015

### REAL TIME OPERATION

Real time six degree of freedom aircraft flight digital simulation using SL-1 continuous system simulation language

p0019 A71-11786

Real time missile radio telemetry data transmission to ground station, using instrumented aircraft

p0089 A71-15321

Cathode ray tubes as real time display device in various types of professional equipment, describing functional performance and related tube design aspects

p0141 A71-17319

Development program for multiple access real time tactical information distribution system, designing and constructing tactical air control system test facility

[AIAA PAPER 71-243] p0188 A71-19718

Real time remote test site computation and display of complex engine inlet distortion parameters from dynamic pressure signal, using analog computer

p0267 A71-22726

Digital simulation facility for airborne collision avoidance system effects on ATC terminal automation, discussing operation, hardware and software equipment

p0293 A71-24774

Complex real time hybrid computer simulator for captive two blade rotor platform dynamic problem solving

p0348 A71-25847

Flight test completed on onboard real time engine performance monitoring system, discussing thermodynamic analysis technique

[ASME PAPER 71-GT-77] p0352 A71-25991

MAC malfunction detection, analysis and recording system applications in commercial airlines, emphasizing real time response for maintenance function

[SAE PAPER 710425] p0405 A71-28311

DC 10 flight test program improvement using data acquisition/processing with real time monitoring, instrument landing and laser tracking

[AIAA PAPER 71-788]

p0508 A71-34018

Real time reconnaissance cockpit display system for airborne sensor systems, providing night combat imagery

p0549 A71-35772

### REATTACHED FLOW

Turbulent separation and reattachment at turbomachine blade trailing edge at supersonic speeds, discussing various flow models

p0066 A71-13142

Leading edge bluntness and boundary layer displacement effects on attached and separated laminar boundary layers in high temperature hypersonic flow over compression corner

[AIAA PAPER 68-68] p0070 A71-13437

Flow separation and reattachment in confined jet mixing of air with secondary flow in duct

[ASME PAPER 70-PE-8] p0072 A71-13703

Interaction theory for supersonic separated and reattaching turbulent boundary layers, comparing to real flow past compression ramp

[AIAA PAPER 71-128] p0153 A71-18572

Backward facing step in confined supersonic two dimensional flow, investigating turbulent shear layer reattachment

p0292 A71-24622

Interaction theory for supersonic separated and reattaching turbulent boundary layers, comparing to real flow past compression ramp

[AIAA PAPER 71-128] p0346 A71-25476

Heat transfer to airfoil in oscillating flow at large angles of attack, showing vortex shed reattachment and Nusselt numbers increase

[ASME PAPER 71-GT-18] p0349 A71-25963

Reattachment angle of supersonic laminar mixed boundary layer, using revolution model with Reynolds number allowance

p0354 A71-26194

Attached and separated laminar boundary layer characteristics over high cooled, curved compression surfaces in hypersonic airflow

p0315 A71-19837

### RECEIVERS

NT RADIOTELEPHONES

Thermal performance analysis of solar Brayton heat receiver in transferring heat to working gas of Brayton engine

[NASA-TN-D-6268] p0335 A71-21512

### RECEIVING SYSTEMS

U RECEIVERS

### RECEPTACLES (CONTAINERS)

U CONTAINERS

### RECIPROCATING ENGINES

U PISTON ENGINES

### RECIRCULATIVE FLUID FLOW

Supersonic jet-bound subsonic wake interactions, determining recirculation zone boundaries

p0136 A71-16848

### RECOGNITION

NT SPEECH RECOGNITION

NT TARGET RECOGNITION

### RECOMMENDATIONS

Actions and recommendations of Ninth Meeting of Airworthiness Committee

### RECONNAISSANCE

NT AERIAL RECONNAISSANCE

## RECONNAISSANCE AIRCRAFT

NT EARTH RESOURCES SURVEY AIRCRAFT

NT MIRAGE 3 AIRCRAFT

NT OV-10 AIRCRAFT

NT TSR-2 AIRCRAFT

NT WEATHER RECONNAISSANCE AIRCRAFT

Navigator role in TACAN of reconnaissance and fighter aircraft, noting Weapon System Officer functions

p0006 A71-10503

Statistical diameter size distribution of random circles on plane or spheres in space from satellite and aircraft measurements for aerial and cloud photography

p0359 A71-27100

Tethered, ground supplied, rotor-borne, self stabilized surveillance platform /Kiebitz/ system, discussing reconnaissance tasks, fire and communication control and data acquisition transmission and evaluation

p0479 A71-31212

## RECONNAISSANCE DRONE AIRCRAFT

U DRONE AIRCRAFT

U RECONNAISSANCE AIRCRAFT

## RECORDING

NT DATA RECORDING

NT DATA SMOOTHING

NT MAGNETIC RECORDING

NT PHOTOGRAPHIC RECORDING

## RECORDING INSTRUMENTS

NT FLIGHT LOAD RECORDERS

NT FLIGHT RECORDERS

NT PLOTTERS

Photoelectric, bolometric and photographic recording assembly for measurement of light pressure and aerodynamic forces on complex shape body in free molecular flow

p0415 A71-29155

Concorde SST flight test equipment installation with PCM recording and visual instruments

p0430 A71-30055

Developing aircraft ride criteria and/or acceptable vibration levels and problems in measuring and recording low level vibration environment

p0584 N71-30781

Airborne audio-video recording system designs and requirements

[AD-727025]

p0684 N71-35280

## RECOVERABLE SPACECRAFT

NT AEROSPACEPLANES

NT APOLLO SPACECRAFT

NT REUSABLE SPACECRAFT

NT SPACE SHUTTLES

## RECOVERY TEMPERATURE

U SKIN TEMPERATURE (NON-BIOLOGICAL)

## RECTANGULAR GUIDES

Large aspect ratio rectangular duct with nonuniform surface texture, investigating turbulent flow, maximum velocity positions and zero shear stress

p0181 A71-18772

## RECTANGULAR PANELS

Structural response and acoustic transmission characteristics of glass pane and standard wood frame construction wall panels subjected to sonic booms

[NASA-CR-111925]

p0631 N71-32488

## RECTANGULAR PLANFORMS

NT RECTANGULAR PANELS

NT RECTANGULAR PLATES

NT RECTANGULAR WINGS

Lifting rectangular thin airfoil in symmetrical incompressible steady uniform orthogonal flow at small angle of attack, deriving Weissinger integral equation

p0695 A71-43487

Numerical evaluation of downwash integral for wing loading of lifting rectangular planform

[NPL-MA-90]

p0457 N71-24483

Sonic boom in near field and far field of nonlifting rectangular wing

p0525 N71-28379

Computer program for numerical integration of downwash subsonic flow about rectangular planforms, for different aspect ratios

[NPL-MA-99]

p0708 N71-36405

## RECTANGULAR PLATES

Compressible viscous gas supersonic flow, observing near wake region behind perpendicular trailing face of rectangular plate with motion, state,

energy and continuity equations

p0649 A71-40081

## RECTANGULAR WIND TUNNELS

Return circuit rectangular wind tunnel design, construction, instrumentation and calibration, discussing drive, jet inclination, velocity distribution, etc

p0209 A71-21305

Rectangular wind tunnel study of suction effect on velocity profiles and characteristics of turbulent boundary layer

p0616 A71-39788

Wall interference for static stability tests in closed rectangular test sections and in ground effect

[NASA-TR-R-364]

p0684 N71-35386

## RECTANGULAR WINGS

Thin rectangular wing load distribution in nonstationary incompressible flow, using downwash integral equation Fourier transform

p0270 A71-22946

Gust transfer functions relating lift and moments to upwash in single sinusoidal wave for large aspect ratio rectangular wings in turbulent incompressible flow

p0439 A71-30604

German monograph on incompressible potential flow field calculation about thick rectangular wings with control surfaces and ground effects

p0494 A71-32307

Straight or moderately sweptback wings tip shape effect on vortex sheet roll, using detachment laws

p0615 A71-39418

Subsonic force effect calculations on rectangular wings, using downwash velocity potential method

p0702 A71-44613

Transient pressures and aerodynamic coefficients of rectangular wings in subsonic flow using linear equations

[ONERA-NT-163]

p0119 N71-13402

Transonic flutter and buffeting for elastic wind tunnel models of straight wing proposed for space shuttles

p0461 N71-24659

Flow field approximation for sonic boom shock wave generation by thin nonlifting rectangular wing

p0524 N71-28372

Numerical method for evaluating discontinuous downwash distribution for steady flow over swept and rectangular wings

p0569 N71-29349

Lift force distribution calculation technique for wings with jet flaps including rectangular and swept wing examples

[NASA-TT-P-13714]

p0586 N71-30852

Theoretical and experimental determination of lift and pitching moment distribution on jet flap wings of rectangular design with various aspect ratios

[NASA-TT-P-13715]

p0647 N71-33803

## RECTIFICATION

Applications of electrolyte rectification in

aeronautics industry

p0054 N71-11637

## RECTIFIERS

NT AVALANCHE DIODES

NT THYRISTORS

## RECURSION FORMULAS

U RECURSIVE FUNCTIONS

## RECURSIVE FUNCTIONS

Analog recursive computer with serial digital program for arithmetic unit and storage system control

p0360 A71-27150

## REDUNDANCY ENCODING

Random access signaling system application to aircraft control, discussing signal redundancy requirement for access capability optimization based on radio environment model

p0550 A71-35783

## REDUNDANT COMPONENTS

Third Chance flight control system, discussing aircraft control capability with backup hydraulic system after loss of dual main hydraulic systems due to combat damage

p0420 A71-29382

Aircraft ILS signal reception system, obtaining category III reliability performance by circuit redundancy and automatic incoming information surveillance

# REDUNDANT STRUCTURES

- Polyimide/boron reinforced plastic structures fabrication, discussing use in leading edges [SME PAPER EM-70-133] p0013 A71-11263
- Carbon fiber reinforced epoxy composites, evaluating application as helicopter tail rotor blade material p0024 A71-12477
- High strength polyimide resin composites, discussing commercial and aerospace applications, chemistry, void content, volatiles and moisture absorption p0024 A71-12487
- Carbon fiber-epoxy resin composites in aircraft industry, examining fatigue life, cost, specific moduli and mechanical properties p0024 A71-12488
- Aluminum reinforced epoxy model making, testing and stress analysis for aircraft structures, including creep, photoelastic coating and strain gage effects p0132 A71-16346
- High modulus boron-epoxy composite aircraft structures adhesive bonding, discussing mechanical properties, manufacturing techniques and quality control [SAE PAPER 710110] p0143 A71-17624
- Carbon fibers for low weight aircraft plastic structural materials p0145 A71-17743
- Lightning protective coatings for boron and graphite fiber reinforced plastics p0195 A71-19944
- Mechanical properties of plastic composites with boron, beryllium, silicon carbide and graphite fiber reinforcement [PLASTICS INST. PAPER 29] p0206 A71-20917
- Surface treatment effects on high shear strength adhesive bonding of fiber reinforced plastics to metal substructures p0282 A71-24069
- Filamentary composites for primary aircraft structural applications, emphasizing boron-epoxy material p0293 A71-24770

Glass fiber reinforced plastics aerospace applications covering radomes, dielectric panels, aircraft ducting, secondary structures, furnishings, mouldings and tooling p0347 A71-25652

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques p0359 A71-27016

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating p0423 A71-29645

Monograph on fiber-resin composites covering glass, boron and carbon fibers and epoxy matrix materials tensile and thermoelastic properties p0534 A71-34469

Boron-epoxy composite wing box beam design, describing preliminary weight estimation from layouts [SAWE PAPER 891] p0551 A71-35815

Carbon fiber reinforced plastics, considering aerospace and medical applications p0658 A71-40702

Design and fabrication of plane and trapezoidal fiber glass wings with laminar profiles [AD-716526] p0311 N71-19574

**REINFORCED PLATES**

Integrally stiffened five bay panel, calculating free vibration and random response to jet noise excitation [AIAA PAPER 71-585] p0482 A71-31532

Eccentrically stiffened thin cylindrical panels instability under uniform axial compression, uniform hoop compression and uniform shear p0509 A71-34150

Fatigue crack propagation in Al alloy panels stiffened with bolted and integral stringers, determining stress intensity factor/crack growth rate relationship p0539 A71-35156

Damage tolerant aircraft structures material toughness and residual strength, presenting fracture test results on precracked panels reinforced with crack stoppers p0539 A71-35157

**REINFORCEMENT (STRUCTURES)**

Optimal cross sectional dimensions of thin walled longeron beams and ribs of skin reinforced delta wings minimizing weight p0025 A71-12562

Airport runway surface strengthening, discussing overlaying additional rigid or flexible layers, replacing used sections and reinforcement problems p0293 A71-24756

Material properties, impregnation, shaping, hardening and structural design in mass production of reinforced laminates for aircraft construction p0359 A71-26954

Buckling for thin stress walled open sections on elastic foundation with constrained direction reinforcement p0663 A71-41693

Torsional stress analysis of multiweb wing structures p0330 N71-20768

Fatigue crack length relationship with aircraft inspection intervals and structural reinforcement, high strength materials, and aircraft usage effects p0584 N71-30783

Adhesive and coating material formulations and manufacturing processes for lightweight low-permeability braces for use in high altitude decelerators [NASA-CR-111964] p0681 N71-35208

**REINFORCING FIBERS**

**NT CARBON FIBERS**

Fiber reinforced composites application in aerospace and aircraft, discussing boron and graphite and cost effectiveness p0014 A71-11277

Carbon fiber-epoxy resin composites in aircraft industry, examining fatigue life, cost, specific moduli and mechanical properties p0024 A71-12488

Carbon fiber reinforced plastics and metals structural components design, discussing properties, processing and applications p0030 A71-12910

Carbon fibers for low weight aircraft plastic structural materials p0145 A71-17743

Plane and spatial load transfer and diffusion in linear elastostatics, noting application to aircraft and civil engineering structures and fiber reinforced materials p0148 A71-18222

Lightning protective coatings for boron and graphite fiber reinforced plastics p0195 A71-19944

Filament winding manufacturing methods using unidirectional glass reinforcements for design and fabrication of aircraft wing structure [SME PAPER EM-70-406] p0202 A71-20546

Mechanical properties of plastic composites with boron, beryllium, silicon carbide and graphite fiber reinforcement [PLASTICS INST. PAPER 29] p0206 A71-20917

Cost aspects of carbon fiber reinforced composites in aircraft structures, suggesting increased aviation market for carbon fiber [PLASTICS INST. PAPER 46] p0206 A71-20929

Composite materials for compressor blades in aircraft engines, considering boron and carbon fiber reinforced materials p0274 A71-23286

Filamentary composites for primary aircraft structural applications, emphasizing boron-epoxy material p0293 A71-24770

Representative Thornel fiber aircraft fuselage component nondestructive testing and repair, and Thornel fiber, polysulfone and polyamide-imide composites fabrication and evaluation p0344 A71-25427

Prototype graphite fiber/plastic fuselage component design, test and performance prediction, using structural analysis methods p0344 A71-25428

Glass fiber reinforced plastics aerospace applications covering radomes, dielectric panels, aircraft ducting, secondary structures, furnishings, mouldings and tooling p0347 A71-25652

Ti, B and graphite fiber composites application to aircraft design, discussing mechanical properties and market competition p0368 A71-27676

Filamentary composite reinforced metal aircraft structures, considering boron/epoxy in combination with aluminum p0404 A71-28168

Mechanical properties of composites consisting of Al matrix reinforced by boron fibers, considering high temperature creep, corrosion and thermal shock resistivity p0436 A71-30473

Monograph on fiber-resin composites covering glass, boron and carbon fibers and epoxy matrix materials tensile and thermoelastic properties p0534 A71-34469

Carbon fiber reinforced plastics, considering aerospace and medical applications p0658 A71-40702

Thermal fatigue behavior of fiber reinforced nickel alloy gas turbine blades p0234 N71-17390

**RELAXATION (MECHANICS)**

Small perturbations of stationary parallel flow with relaxation, considering boundary conditions around slender wings, partial differential equations and similarity law p0616 A71-39569

**RELAXATION METHOD (MATHEMATICS)**

System of nonlinear equations of motion for isentropic, compressible fluid solved by cyclic relaxation method for subsonic and transonic regimes p0530 N71-28688

**RELEASES**

Optimal bomb release intervals from B-52 aircraft bombing system p0305 N71-19383

**ROCKET COMBUSTORS**  
U COMBUSTION CHAMBERS  
**ROCKET ENGINE CONTROL**  
Soviet book on aircraft and rocket engines control automation, discussing nuclear power plant/fuel systems design and control simulation methods  
p0355 A71-26403
- ROCKET ENGINE DESIGN**  
Plastics and metals as construction materials in aircraft, missile and rocket design  
p0196 A71-20044  
Design and development of air breathing engine system for space shuttle vehicle  
p0572 N71-29607
- ROCKET ENGINE NOISE**  
Optimal digital controller based on linear approximation of acoustical test facility, for determining effects of supersonic rocket engine noise on vehicle surface  
[NASA-CR-115073] p0580 N71-30741
- ROCKET ENGINES**  
NT BOOSTER ROCKET ENGINES  
NT RETROCKET ENGINES  
Thrust measurement of aircraft and rocket propulsion systems, comparing cost and characteristics of mechanical, electrical and hydraulic systems  
p0359 A71-26991  
Book on aircraft propulsion covering design, dynamics, control, installation, gas turbine, ramjet, rocket and piston engines, compressors, combustion and energy cycles, etc  
p0669 A71-42427
- ROCKET EXHAUST**  
Slender cone at Mach 10 with underexpanded exhaust plume, determining flow field interactions separation pattern and aerodynamic coefficients  
[AIAA PAPER 71-562] p0493 A71-32280
- ROCKET FUEL TANKS**  
U PROPELLANT TANKS  
**ROCKET LAUNCHERS**  
External store interference caused by rocket launcher pod positioning on aircraft wing  
p0306 N71-19387
- ROCKET LAUNCHING**  
Rocket/launcher aerodynamic interference effects investigation by wind tunnel simulation, determining interference coefficients for rockets ballistic dispersion calculations  
[AIAA PAPER 71-269] p0218 A71-21995  
Historical development, limits, and future trends in rocket technology  
[NASA-TT-F-13436] p0109 N71-12416

## ROCKET LININGS

Numerical method for calculating optimal lining impedance for inlet duct of jet engine  
[NASA-CR-1832] p0632 N71-32563

## ROCKET NOZZLES

Aerodynamic characteristics, rocket nozzles, spacecraft propulsion, antenna design, and internal combustion engines  
[NASA-CR-119315] p0588 N71-31106

## ROCKET OXIDIZERS

German monograph on high energy propellant- oxidizer systems changes of state under high temperature conditions with chemical relaxation taken into account  
p0138 A71-17106

## ROCKET PLANES

NT X-15 AIRCRAFT

## ROCKET PROPELLANT TANKS

U PROPELLANT TANKS

## ROCKET PROPELLANTS

NT SLURRY PROPELLANTS

NT SOLID ROCKET PROPELLANTS

## ROCKET SONDES

U SOUNDING ROCKETS

## ROCKET TEST FACILITIES

Modal characteristic pick-up system for vibration tests of rockets or aircraft on ground using small size accelerometers with individual electronic circuit  
p0369 A71-27719

## ROCKET THRUST

NT RETROTHRUST

## ROCKET VEHICLES

NT NIKE-CAJUN ROCKET VEHICLE

NT SOUNDING ROCKETS

Supersonic aerodynamic characteristics of rocket vehicle model with low aspect ratio wing and tail surfaces  
[NASA-TM-X-2159] p0323 N71-20181

## ROCKET-BORNE INSTRUMENTS

Stokes flow parachute extremely lightweight decelerator for increasing altitude and rocket-borne radiosondes atmospheric data sampling quality  
[AIAA PAPER 71-401] p0341 A71-25277

## RODS

Boundary layer development on slender rod in axial shear flow for different profiles  
p0135 A71-16711

## ROGALLO WINGS

U FLEXIBLE WINGS

U FOLDING STRUCTURES

## ROLL

Aircraft flight characteristics dependence on angle of attack, roll and pitch  
p0415 A71-29043

Roll moment of inertia to static margin ratio effect on yaw of repose angle magnitude in ballistic match of projectiles  
p0429 A71-29890

Single degree of freedom roll response due to vertical random two dimensional vertical gusts  
[NASA-CR-111966] p0710 N71-36421

## ROLL CONTROL

U LATERAL CONTROL

## ROLLER BEARINGS

High traction fluid effect on high speed roller bearing cage skidding, comparing with military specification oil  
[ASME PAPER 70-LUB-E] p0072 A71-13707  
Tapered roller bearing lubrication, considering application to CH-47 Boeing helicopter transmission  
p0541 A71-35300

Closure technique for retention of grease in large bearings on F-4C aircraft wheels  
[AD-723679] p0621 N71-31744

## ROLLING CONTACT BEARINGS

U ANTI-FRICTION BEARINGS

## ROLLING CONTACT LOADS

Test time and contact stresses effect on jet fuels antiwear properties under rolling friction  
p0025 A71-12570  
Device for jet fuels antiwear properties measurement under rolling friction  
p0186 A71-19493

## ROLLING MOMENTS

Angle of attack effects on induced rolling moment of low aspect ratio missile at transonic speed

Expressions for relating pressure field to total aerodynamic thrust and steady pitching and rolling moments experienced by helicopter rotor  
p0302 N71-19363  
p0477 N71-26583

## ROOFS

Wind pressure and cross flow velocity profiles for short takeoff aircraft building roof airports  
p0583 N71-30776

## ROOM TEMPERATURE

Room temperature ultrasonic frequency fatigue behavior of Ni-base superalloy single crystals  
p0535 A71-34493

## ROOMS

Transmission of sonic booms into rooms through open windows  
p0121 N71-13413

## ROOTS OF EQUATIONS

Time vector method extension to equations of motion with real roots, noting applications to aircraft flight control problems  
p0147 A71-18049

Simulation margins and independent variable sensitivity of in-flight simulators using root locus analysis  
p0626 N71-31958

## ROTARY DRIVES

U MECHANICAL DRIVES

## ROTARY GYROSCOPES

NT FLUID ROTOR GYROSCOPES

Turn rate gyro installation angle and airspeed effects on instrument reliability, presenting in-flight investigation results relative to turn rate information usefulness under various flight conditions  
[SAE PAPER 710380] p0285 A71-24245

Rotor asymmetry effect on errors of two degrees of freedom gyro mounted on dynamic platform  
p0546 A71-35608

Helicopter gyro displacement measurements at differing flying conditions  
[FOA-2-C-2356-49-/72/] p0477 N71-26567

## ROTARY STABILITY

NT GYROSCOPIC STABILITY

Helicopter rotor system vibratory and mechanical stability characteristics, investigating anisotropically mounted flexible swash plate and blade out of track effects  
[AHS PREPRINT 511] p0449 A71-31082

AH-56A compound helicopter rigid rotor stability and handling qualities, using flight, whirl tower and wind tunnel tests  
[AHS PREPRINT 574] p0453 A71-31115

Hingeless rotor stability characteristics at high advance ratios, examining equations of motion and time variant aerodynamic coefficients  
[AIAA PAPER 71-580] p0484 A71-31569

Low speed wind tunnel stability tests and flutter analysis of flapped rotary wings  
[NAL-TN-18] p0519 N71-27756

- STOL aircraft electric power variable frequency generation and high voltage DC distribution with secondary square wave AC distribution [SAE PAPER 710444] p0407 A71-28325
- Military/commercial STOL transport design, discussing performance, payload and equipment requirements with emphasis on production cost benefits [SAE PAPER 710468] p0408 A71-28336
- STOL aircraft/engine integrated systems for medium distance air transportation, discussing tradeoff factors involving performance, noise, weight and cost [SAE PAPER 710469] p0408 A71-28337

# SUBJECT INDEX

# SHORT TAKEOFF AIRCRAFT CONTD

- Integrated short-haul interurban transportation system, considering combination of conventional jet aircraft, STOL aircraft and high-speed ground transportation  
[AIAA PAPER 71-508] p0422 A71-29550
- Two dimensional flow research on high lift airfoils for STOL aircraft, using vorticity distribution and wind tunnel wall blowing techniques  
p0429 A71-29910
- Civil aviation customer /operator, passenger and community/ needs, describing STOL and V/STOL aircrafts  
p0431 A71-30162
- VTOL and STOL aircraft comparative study covering site area, cost and noise and toxic gas production  
p0431 A71-30163
- Air transport development trends, considering increased speed and capacity, STOL aircraft, urban service, and European cooperation for manufacturing  
p0432 A71-30302
- STOL vehicle and systems air transportation expansion by reducing trip time, congestion, noise exposures and pollution for DOT, DOD and NASA roles  
[SAE PAPER 710464] p0438 A71-30535
- Commercial vs military design criteria for STOL transport aircraft, noting landing and takeoff distances and noise levels  
[SAE PAPER 710465] p0438 A71-30536
- STOL aerodynamics of leading edge high lift devices on thick profiles, externally blown flaps, boundary layer control and jet flap effect  
p0479 A71-31214
- STOL commercial aircraft propulsion systems, considering two stream augmentor wing engine and high bypass ratio three stream engine  
[AIAA PAPER 71-746] p0480 A71-31325
- Aladin II four-jet engined STOL intercity transport aircraft, noting low noise characteristics and passenger capacity  
p0481 A71-31412
- Three dimensional jet flap and lifting line/ surface theories application to STOL aerodynamic systems with externally blown flaps and augmentor wing  
[AIAA PAPER 71-578] p0484 A71-31568
- Quiet turbofan STOL feasibility, discussing structural, propulsive and technical aspects, economy, passenger comfort and performance estimates  
p0487 A71-31605
- STOL jet aircraft noise reduction by using engines with moderate dilution rate  
p0489 A71-31882
- STOL aircraft flight characteristics in proximity to ground, comparing analytical results with wind tunnel test data  
[AIAA PAPER 71-579] p0493 A71-32281
- Life cycle cost optimization of STOL aircraft and tracked air cushion vehicles for operating transportation system  
p0501 A71-33306
- Canadian R and D on fixed wing civil STOL aircraft, discussing augmentor wing concept using jet powered lift augmentor system  
p0503 A71-33470
- Twin turboprop STOL aircraft lateral directional oscillation traced to rudder vibration due to aerodynamic hinge moments interaction with friction  
[AIAA PAPER 71-792] p0508 A71-34019
- Low disk-loading prop rotor application to propeller and fanjet STOL and fanjet VTOL short haul aircraft  
[AIAA PAPER 71-781] p0534 A71-34481
- STOL aircraft guidance capability with onboard digital computer, maintaining time of arrival envelope at way points along complex flight paths  
[AIAA PAPER 71-770] p0545 A71-35528
- Passenger travel demand model for STOL transportation in underdeveloped areas  
p0557 A71-36348
- Aircraft control design by implicit model- following technique with optimal feedback sampled data and continuous control algorithm, exemplifying STOL aircraft landing approach control  
[AIAA PAPER 71-956] p0597 A71-37197
- Airport system utilization, discussing aircraft noise, ATC, STOL development and passenger handling capacity problems  
[CASI PAPER 72/3] p0600 A71-37594
- Costs/benefits strategy for investment in STOL fleets reducing delay and airport congestion, using heuristic computer model  
p0606 A71-38029
- VTOL and fan lift STOL aircraft, discussing simulation and head-up displays for roll demand, vertical speed and ILS beam  
p0650 A71-40134
- Modular step scan microwave aircraft landing system /TALAR/ design and operation, noting short takeoff and landing  
p0667 A71-42088
- Takeoff and landing performance evaluation for commercial STOL aircraft, noting high bypass ratio turbofans and high lift systems use  
p0669 A71-42286
- Canadian STOL program, discussing Quebec- Windsor corridor passenger traffic  
[AIAA PAPER 71-982] p0700 A71-44578
- STOL aircraft system, discussing ground installations, runways, three dimensional area navigational aids, noise reduction, air traffic and short haul productivity  
[AIAA PAPER 71-983] p0700 A71-44579
- Performance prediction and evaluation of propulsion-augmented high lift systems for STOL aircraft, considering weight, thrust and wing loading  
[AIAA PAPER 71-990] p0700 A71-44585
- AIAA members comments on STOL, VTOL and V/STOL aircraft merits and developments  
[AIAA PAPER 71-1015] p0701 A71-44596
- STOL aircraft flight control problems, discussing Mach trim, artificial feel, stability, feedback system responses and lateral/directional laws  
[AIAA PAPER 71-993] p0704 A71-45297
- Wind tunnel investigation of jet transport airplane configuration with high thrust-weight ratio and external flow jet flap - graphs  
[NASA-TN-D-6058] p0040 N71-10495
- Various vertical takeoff and landing and short takeoff modal configurations for air transportation  
[PB-190940] p0049 N71-11027
- Air mode service analysis in Northeast Corridor  
[PB-190935] p0049 N71-11029
- Determination of low speed longitudinal aerodynamic characteristics of four engine externally blowing jet-flap STOL aircraft  
[NASA-TN-D-7034] p0107 N71-12239
- Assessment of STOL technology for establishment of Canadian transport system  
[UTIAS-162] p0162 N71-14701
- Flight characteristics of jet-flap STOL transport aircraft during approach and landing  
[NASA-TN-D-6225] p0236 N71-17433
- Proposed STOL operations in Northeast Corridor with respect to air traffic control  
p0244 N71-17963
- Feasibility of inter-metropolitan transport system using Breguet 941 STOL aircraft  
[REPT-50] p0247 N71-18104
- Propulsion technology for STOL and V/STOL commercial aircraft  
p0308 N71-19456
- Flight testing military transport aircraft for handling and performance in STOL applications  
p0319 N71-20060
- Lift augmentation devices effect on STOL engine - Part 1, interface problems between engine and airframe  
p0319 N71-20061
- Lift augmentation devices effect on STOL engine - Part 2, thermodynamic problems  
p0319 N71-20062
- Optimizing propulsive/lift system for turbofan STOL aircraft considering cost effectiveness  
p0319 N71-20063
- Low speed wind tunnel tests of ground proximity effects on static longitudinal characteristics and boundary layer control of short takeoff aircraft  
[NAL-TR-201] p0321 N71-20106
- Aerodynamic characteristics of slender delta wing aircraft and response to vertical and lateral gusts during landing approach  
[RAE-LIB-TRANS-1524] p0333 N71-21223

- Evaluation of short takeoff aircraft for commercial shuttle flight applications to reduce traffic congestion in San Francisco, California area  
p0371 N71-21874
- Effect of engine position and high lift devices on aerodynamic characteristics of external flow, jet flap STOL model - graphs  
[NASA-TN-D-6222] p0388 N71-23124
- Accident investigations, flight control systems, and operational recordings for improved aircraft flight mechanics  
[AGARD-CP-76-71] p0393 N71-23410
- Design modifications on short takeoff Bronco aircraft resulting from combat operations tests  
p0394 N71-23416
- Operational performance and handling safety requirements for single engine boundary layer controlled aircraft in STOL mode  
p0394 N71-23419
- Low wing loading STOL transport ride smoothing using Boeing aircraft  
[NASA-CR-111819] p0460 N71-24586
- Stability, control, and handling quality characteristics of STOL and V/STOL airplanes  
p0463 N71-24702
- Flight tests for controlling slope approach of short takeoff aircraft  
[ARC-CP-1138] p0465 N71-25050
- Wind tunnel tests to determine low-speed aerodynamic characteristics of large-scale STOL transport model with augmented jet flap  
[NASA-TM-X-62017] p0474 N71-26183
- Static tests of augmentor-wing flap system for modified C-8A jet STOL research airplane using 0.7 scale model  
[NASA-CR-114315] p0476 N71-26416
- Noise data with models of both internally and externally blown jet flaps designed for STOL aircraft  
[NASA-TM-X-67850] p0518 N71-27673
- Potential flow solution for STOL wing propulsion system presenting flow fields, pressure distribution, and lift coefficient for externally blown flap, high-lift configuration  
[NASA-TN-D-6394] p0573 N71-29774
- Wind tunnel investigation of static longitudinal aerodynamic characteristics of semispan swept wing for STOL jet transport with deflected thrust and boundary layer control  
[NASA-TN-D-6256] p0577 N71-30282
- Safety characteristics for powered lift of commercial STOL aircraft  
p0583 N71-30773
- Wind pressure and cross flow velocity profiles for short takeoff aircraft building roof airports  
p0583 N71-30776
- Comparison test to evaluate perceived noise level for STOL and other aircraft sounds  
[WR-70-9] p0587 N71-31075
- Flutter analysis and reduction in short takeoff aircraft with tilt wings  
[AD-723321] p0625 N71-31934
- Flight simulation of short takeoff aircraft and Dornier-31 aircraft, and results using cockpit simulator with 6 degrees of freedom for DO-31  
p0626 N71-31956
- Evaluation of performance, stability, and control characteristics of XV-11 A short takeoff aircraft  
[AD-724124] p0634 N71-32818
- Performance and acoustic near field measurements on variable camber propeller having STOL applications  
[AD-724145] p0635 N71-32927
- High lift aerodynamic and propulsion system configurations for short takeoff aircraft design - bibliographies  
[AD-724186] p0638 N71-33015
- Test data reduction and prediction techniques for high lift aerodynamic and propulsion system configurations for short takeoff aircraft design - bibliographies  
[AD-724185] p0638 N71-33016
- PA-200XS experimental aircraft for investigating operational problems of STOL type aircraft  
[NAL-TR-229] p0673 N71-34005
- Wind tunnel investigation of external-flow jet-flap transport configuration having full-span tripple-slotted flaps - graphs  
[NASA-TN-D-6391] p0676 N71-34028
- Technology of thrust reversers with particular application to STOL aircraft  
[AR-1] N71-34259
- Potential impact of advanced technology in 1985 on four types of general aviation aircraft including STOL V/STOL, and helicopters  
[NASA-CR-114339] p0681 N71-35210
- Noise reduction effectiveness of mixer nozzle for increasing lift capability in STOL aircraft  
[NASA-TM-X-67938] p0710 N71-36424
- Wind tunnel tests of stability and control characteristics of large scale model representative of propeller-driven STOL transport aircraft  
[NASA-TN-D-6393] p0711 N71-36435
- Wind tunnel tests of propeller driven, deflected slipstream, short takeoff aircraft model to determine longitudinal and lateral-directional stability when in ground effect  
[NASA-TM-X-2313] p0711 N71-36436
- Planning short-haul intercity commercial air transportation with STOL aircraft  
[WRCN-2] p0719 N71-37605
- Noise characteristics of model STOL wing with externally blown flaps in vicinity of aircraft propulsor  
[NASA-CR-111956] p0727 N71-38283
- SHORT WAVE RADIATION**  
**NT SUBMILLIMETER WAVES**  
**SHROUDED BODIES**  
**U SHROUDS**  
**SHROUDED PROPELLERS**  
Lift characteristics of semicircular channel wing with pusher propeller at trailing edge, comparing theoretical, wind tunnel and flight test results  
p0295 A71-24857
- Numerical solution of Fredholm equation for air duct vortices of shrouded propeller with tip clearance  
[DLR-FB-71-15] p0622 N71-31788
- Pressure distribution analysis of sound inside duct of ducted propellers  
[NASA-TN-D-6345] p0673 N71-34009
- SHROUDED TURBINES**  
Shrouded aircraft engine turbine blades vibration stresses found minimum by setting up paired blades with fixed tension along shroud  
p0266 A71-22595
- SHROUDS**  
Jet noise suppression by impedance shroud  
[AD-712406] p0107 N71-12240
- Shrouded step pads for separating seal surfaces  
[NASA-TN-D-6384] p0715 N71-36830
- SHUNTS**  
**U BYPASSES**  
**U CIRCUITS**  
**SIDE-LOOKING RADAR**  
**NT RADAR IMAGERY**  
Structural design, mechanical stability and aircraft compatibility for airborne side-looking radar antennas, using end fed slotted waveguide arrays  
p0446 A71-31041
- Pulse compression and optical data correlation in side-looking radar, considering Doppler effect  
p0496 A71-32650
- SIDESLIP**  
Systems analysis application to stability of aerodynamic cross coupling in flight vehicle motions with steady sideslip, using feedback and root locus techniques  
p0028 A71-12687
- Automatic control system for fighter aircraft sideslip correction, using rudder position sensor, transverse accelerometer and high pass filter for anticipatory sideslip reduction  
p0288 A71-24288
- Digital simulation for predicting static directional aerodynamic forces and moments characteristics of air cushion vehicle configuration through 180 degrees of sideslip  
[ATAA PAPER 71-907] p0596 A71-37158
- SIEBEL AIRCRAFT**  
Nonsteady flight test program on Siebel 204 D-1 aircraft for determining lateral directional stability and control derivatives  
[NLR-TR-70038-U] p0515 N71-27109
- SIGHT**  
**U VISUAL PERCEPTION**  
**SIGNAL ANALYSIS**  
Beam direction weight center of signal spectrum and

- effective antenna centers of airborne Doppler velocimeter in horizontal flight p0609 A71-38496
- SIGNAL DETECTION**  
 NT CORRELATION DETECTION  
 Position locating system for remote aircraft using voice communication and digital signals [NASA-CASE-GSC-10087-2] p0125 W71-13958
- SIGNAL ENCODING**  
 Sensing and communications technologies for short wayside headways, considering applicable equipment for personal rapid transit systems, modulation, coding and data transmission techniques p0435 A71-30337
- SIGNAL FADEOUT**  
 U SIGNAL FADING
- SIGNAL FADING**  
 Investigation of transponder reply fadeout in vicinity of O Hare Airport, Chicago, Illinois [FAA-RD-70-75] p0169 N71-15498  
 Effects of aircraft system noise and signal fading on pilot performance during IFR approach based on computerized simulation of XV-5 aircraft and UH-1 helicopter [AD-724336] p0638 N71-33076
- SIGNAL PROCESSING**  
 Kalman filter application as observer of observable signals derivatives, using gain matrix to minimize variance estimate for instrument landing systems p0209 A71-21343  
 Real time remote test site computation and display of complex engine inlet distortion parameters from dynamic pressure signal, using analog computer p0267 A71-22726  
 Digital simulation and implementation techniques for Doppler radar altimeter signal processing [NASA-CR-1776] p0712 N71-36548
- SIGNAL RECEPTION**  
 NT SYMBOLS  
 Aircraft ILS signal reception system, obtaining category III reliability performance by circuit redundancy and automatic incoming information surveillance p0490 A71-31912
- SIGNAL REFLECTION**  
 Airborne ECM receiver, determining conditions for detecting victim radar signal before signal reflection from aircraft p0479 A71-31207  
 Landing systems signal reflection interference on correlation protected instrument landing system beams [RAE-TR-70141] p0393 N71-23361  
 Calculation of divergence factor of earth surface reflected signals on aircraft radio communication, and multipath transmission between two aircraft [RAE-TR-70210] p0570 N71-29438
- SIGNAL TRANSMISSION**  
 NT AUTOMATIC PICTURE TRANSMISSION  
 NT DATA TRANSMISSION  
 NT IONOSPHERIC PROPAGATION  
 NT MICROWAVE TRANSMISSION  
 NT MULTIPATH TRANSMISSION

Spanwise distribution of induced drag in subsonic flow by vortex lattice method, noting applicability to rotary derivatives in stability analysis p0028 A71-12691  
Time vector method for aircraft flight test data evaluation, discussing control deflections effects on phugoid motion, lateral stability derivatives and error estimation p0069 A71-13341  
Nonlinear aerodynamic moments for arbitrary motions of bodies of revolution in free flight [AIAA PAPER 70-205] p0069 A71-13435  
Nonlinear aerodynamic moment system for nonaxisymmetric bodies free flight motion analysis, taking into account interactions excluded in classical treatment [AIAA PAPER 71-275] p0219 A71-22000  
Rotor stability derivatives determination from instrumented OH-6A prototype helicopter wind

tunnel tests, comparing data with analytical results obtained by digital computing technique [AHS PREPRINT 543] p0451 A71-31100

Twin turboprop STOL aircraft lateral directional oscillation traced to rudder vibration due to aerodynamic hinge moments interaction with friction [AIAA PAPER 71-792] p0508 A71-34019

Digital simulation for predicting static directional aerodynamic forces and moments characteristics of air cushion vehicle configuration through 180 degrees of sideslip [AIAA PAPER 71-907] p0596 A71-37158

Soviet book on practical aerodynamics of aircraft with turboprop engines covering piloting, forces and moments, stability, controllability, takeoff, landing, etc p0609 A71-38534

Unsymmetrical nose bluntness effect on stability derivatives of slender cone at Mach 14 [AD-711921] p0046 N71-11008

Data reduction techniques for deriving aerodynamic forces and moments in absence of support interference [NASA-CR-111844] p0388 N71-23122

Effects of aeroelasticity on static longitudinal aerodynamic derivatives p0463 N71-24707

## STABILITY TESTS

## NT FLIGHT STABILITY TESTS

## NT WIND TUNNEL STABILITY TESTS

Stability of equilibrium state of rotor in pressurized gas bearing [AD-722828] p0589 N71-31213

## STABILIZATION

## NT SPIN STABILIZATION

C-5 military transport stability augmentation for pitch and yaw inertia at low speed, using pilot evaluation on cockpit simulator p0028 A71-12684

Plate critical surface temperature in case of stabilization by supersonic boundary layer cooling p0137 A71-16852

Theory of controllability for parabolic and second order hyperbolic systems and for hereditary differential systems applied to stabilization of high speed aircraft in gust load disturbances [AD-722072] p0570 N71-29430

## STABILIZERS

Lockheed L-1011 development, discussing flying stabilizer design, direct lift control and autoland system [AIAA PAPER 71-782] p0545 A71-35532

## STABILIZERS (AGENTS)

Soviet book on automotive and jet aircraft engine fuel chemical stabilizers under storage, transit and operational conditions, examining additives in relation to stability ratings p0142 A71-17433

## STABILIZERS (FLUID DYNAMICS)

## NT HORIZONTAL TAIL SURFACES

Performance characteristics of horizontal and vertical stabilizers at medium Reynolds number from wind tunnel measurements, considering air foil and flap effects p0149 A71-18249

Computer program for structural design optimization of horizontal stabilizer of supersonic aircraft p0118 N71-13137

Mechanical stabilization system for VTOL aircraft [NASA-CASE-XLA-06339] p0122 N71-13422

Wind tunnel aerodynamic stability tests on chimneys with pipes and helical winding stabilizers [NPL-AERO-1310] p0231 N71-17334

Feasibility of boron-epoxy reinforced aluminum alloy for horizontal stabilizer structure of DC 8 aircraft and recommendations for demonstration program [NASA-CR-111913] p0517 N71-27664

Combustion physics of gas jet in turbulent wake behind stabilizer [AD-721026] p0519 N71-27987

NASTRAN application to static stress and dynamic modal problems of horizontal stabilizer of F-14A aircraft p0687 N71-36269

## STAGNATION

## U STAGNATION POINT

## STAGNATION FLOW

Binary laminar boundary layer in hypersonic axisymmetric stagnation point flow with temperature dependent material properties, presenting exact and approximate calculation methods p0543 A71-35422

Enthalpy and wall heat flux calculations for stagnation region aft of blunt axisymmetric bodies in hypersonic axial flow [AD-717418] p0374 N71-22087

## STAGNATION POINT

Plane ideal incompressible fluid jet impact on curvilinear surface, considering flow characteristics near stagnation point p0084 A71-14592

Blunt body stagnation point heat transfer in hypersonic flow, describing gas dynamic equations flow field viscosity and conductivity p0100 A71-15490

Nonequilibrium multicomponent ionization calculations for stagnation merged shock layer of hypersonic blunt body by successive accelerated replacement [AIAA PAPER 69-655] p0191 A71-19890

Circular stagnation line position on axisymmetric blunt bodies with circular sharp edge p0278 A71-23672

Two dimensional laminar boundary layer equation local drag coefficient from one and two term Merk expansion in regions upstream of stagnation point p0359 A71-27051

Equilibrium air boundary layer flows at three dimensional stagnation points, discussing flow characteristics and real gas heat transfer parameters [AIAA PAPER 70-809] p0367 A71-27582

Convective flow at stagnation point relation to radiation flux decrease as result of absorption in cold boundary layer p0541 A71-35259

## STAGNATION PRESSURE

Stagnation pressure changes in unsteady flow downstream of turbomachine blades with fluctuating circulation related to vortex sheets p0541 A71-35279

Ablation performance of glasslike carbons, pyrolytic graphite, and artificial graphite in stagnation pressure range 0.035 to 15 atm [NASA-TN-D-7005] p0127 N71-14138

Flow meter for measuring stagnation pressure in boundary layer around high speed flight vehicle [NASA-CASE-XPR-02007] p0463 N71-24692

## STAGNATION REGION

## U STAGNATION POINT

## STAGNATION TEMPERATURE

Maximum stagnation temperature on swept wing leading edge for equilibrium glide entry of space shuttle p0182 A71-18902

Shielded fine wire probe for total temperature rapid measurement in high speed flows, discussing construction and theoretical considerations p0347 A71-25528

## STAINLESS STEELS

## NT AUSTENITIC STAINLESS STEELS

Additions of nickel and niobium to improve ductility of APC-77 steel for rivet material [AD-716677] p0313 N71-19735

Elevated temperature effects on fatigue life of tensile stressed titanium alloys, aluminum alloys, and stainless steels [NASA-TN-D-6145] p0374 N71-22076

## STALL

#### NT PROBABILITY DISTRIBUTION FUNCTIONS

- Pattern of accident distribution for V/STOL aircraft in United States of America  
p0395 N71-23426

- Synthesis of aircraft across track errors using mathematical models with statistical parameters  
[REPT-E/C-2] p0635 N71-32885

### STATISTICAL PROBABILITY

#### U PROBABILITY THEORY

### STATISTICS

- FAA statistical handbook of aviation 1958-1968  
p0038 N71-10372

### STATOR BLADES

- Axial flow compressors radiated sound reduction by segmented stator blades  
p0068 A71-13283
- Large axial compressor flow straightening stator blades unsteady pressure measurements with short response time detectors  
p0363 A71-27469
- Turbomachinery rotor and stator row aerodynamic interaction, describing discrete tone noise generation from far field measurements  
p0491 A71-32134
- Noise generation due to inlet free stream turbulence incident on isolated stators and rotors, using flat plate cascade blade row model  
p0559 A71-36498
- Segmented stator vanes performance in axial flow compressor, noting radiated sound reduction  
p0611 A71-39093
- Cold air tests on axial flow turbine with transpiration cooled discrete hole stator blades to determine coolant flow ejection effect on turbine aerodynamic performance  
[NASA-TM-X-2133] p0046 N71-11010
- Testing low reaction jet turbine stator blades in six-blade annular cascade  
[NASA-CR-1675] p0106 N71-12227
- Determining feasibility of increasing stator blade loading of single stage compressor rig by bleeding or blowing suction surface boundary layer  
[NASA-CR-54573] p0255 N71-18749
- Analytical investigation of effects of geometric changes on flow characteristics of tandem bladed compressor stators  
[NASA-TN-D-6264] p0335 N71-21508
- Cold-air tests to determine performance characteristics of single-stage turbine with stator blades employing transpiration coolant ejection through wire mesh shell  
[NASA-TM-X-2176] p0401 N71-23980
- Test description and results for high Mach number transonic fan stages to determine range and distortion tolerance for various rotor tip casing treatment configurations  
[NASA-CR-82862] p0468 N71-25460
- Tabulations of blade element and circumferential distortion flow data in tests of high Mach number transonic fan stages with various rotor tip casing treatment configurations  
[NASA-CR-82867] p0468 N71-25461

# STEADY FLOW

Wing computation in steady or unsteady supersonic flow, using network, inverse discrete and numerical inversion methods

- p0064 A71-13129
- Aerodynamic characteristics of aircraft in steady and unsteady supersonic flow by analog electrical method, including wing-fuselage interactions  
p0064 A71-13130
- Steady supercritical planar inviscid transonic flows over lifting airfoils, generating unsteady flow by impulsively imposing airfoil boundary condition  
[AIAA PAPER 70-47] p0069 A71-13433
- Analog and digital methods for interactions between aircraft lifting elements in steady or unsteady supersonic flow  
[ONERA-TP-850] p0090 A71-15358
- Tail assembly load distribution in steady uniform flow for nonzero angles of attack, using slender body theory  
p0090 A71-15367
- Steady two dimensional ideal gas flow past blunt body at incident infinite Mach number, obtaining gas dynamic variable asymptotic expansions as kappa approaches infinity  
p0100 A71-15553
- Far and near field solutions of plane steady transonic flow past thin airfoil including imbedded shock waves, using small disturbance theory  
[AIAA PAPER 70-188] p0134 A71-16565
- Rarefied gas steady and unsteady motions, proposing approximate method for various problems  
p0265 A71-22372
- Combustion reactions development with velocity gradient downstream steady shock wave, considering aerodynamic field in supersonic wind tunnel  
p0279 A71-23813
- Steady nonrotational flow around rectilinear profile in finite width uniform current in linear theory, calculating fluid exerted forces  
p0279 A71-23822
- Vortex layer near circular cone surface in supersonic axisymmetric steady flow of homogeneous inviscid gas  
p0289 A71-24372
- Steady three dimensional subsonic nonviscous flow through turbomachine with arbitrary hub and shroud shapes and finite blade number, using iterative blade to blade procedure  
[ASME PAPER 71-GT-2] p0348 A71-25948
- Steady transonic flow through two dimensional gas turbine cascades predicted with time dependent formulation of flow equations, giving airfoil surface pressure distributions  
[ASME PAPER 71-GT-89] p0353 A71-25996
- Steady supersonic isoenergetic flow of thermally and calorically perfect gas past circular cones at zero angle of attack, using dimensional perturbation method  
p0358 A71-26939
- Three dimensional steady separated liquid and gas flows past low aspect ratio bodies, deriving similarity laws for reduction to two dimensional problem  
p0415 A71-29169
- Small disturbance equations for steady transonic flows past thin lifting airfoils and slender bodies  
[AIAA PAPER 71-566] p0484 A71-31560
- Shearing flows in steady vortex around airfoil in perturbed velocity, considering aerodynamic forces torque  
p0489 A71-31903
- Steady incompressible flow with potential vortex over flat surface under suction  
p0538 A71-34889
- Two dimensional steady viscous gas transonic flow Navier-Stokes equations, establishing uniqueness of solutions to boundary value problems  
p0547 A71-35646
- Small perturbations of stationary parallel flow with relaxation, considering boundary conditions around slender wings, partial differential equations and similarity law  
p0616 A71-39569
- Lifting rectangular thin airfoil in symmetrical incompressible steady uniform orthogonal flow at small angle of attack, deriving Weissinger

## STEADY STATE

- integral equation p0695 A71-43487
- Approximate solution for position and strength of shock waves about cones in steady supersonic flow p0702 A71-44624
- Numerical analysis of low frequency subsonic lifting surface theory noting wing oscillations in steady flow [ARC-R/M-3634] p0249 N71-18425
- Numerical method for evaluating discontinuous downwash distribution for steady flow over swept and rectangular wings p0569 N71-29349

## STEADY STATE

- Transient and steady state flexible rotor dynamics analysis [ASME PAPER 71-VIBR-92] p0651 A71-40325
- Mixed and unmixed turbofan engines transient and steady state off-design characteristics, investigating effects of fuel flow rate, nozzle area, inlet pressure, ambient temperature and air bleed p0670 A71-42836
- Pressure field steady state calculations for sonic boom signal transmission into rooms through open windows [NASA-CR-111786] p0323 N71-20183

## STEADY STATE FLOW

## U EQUILIBRIUM FLOW

## STEAM FLOW

- Results of two-phase blowdown experiments with straight tube test section and steam-water mixtures [AECL-3664] p0248 N71-18161

## STEAM TURBINES

- Cyclic thermal cracking and fatigue analysis in large steam turbine rotors with three dimensional temperature and triaxial stress computation [ASME PAPER 70-PWR-1] p0198 A71-20198
- Stream lines construction in meridional plane of blade nozzle annular cascades of steam and gas turbines in subsonic and supersonic flow p0534 A71-34446

## STEEL STRUCTURES

- Structural efficiency improvement by materials selection for airframe structures, discussing Al, Ti-Al-V and steel panels p0212 A71-21685
- Light aircraft steel landing gear springs structural design at Cessna, considering certification requirements [SAE PAPER 710400] p0287 A71-24262

## STEELS

- NT AUSTENITIC STAINLESS STEELS
- NT CARBON STEELS
- NT CHROMIUM STEELS
- NT HIGH STRENGTH STEELS
- NT STAINLESS STEELS
- Low alloy steels and superalloys inertia welding in gas turbine field, discussing microstructure tensile strength and stress rupture [ASME PAPER 71-GT-21] p0349 A71-25965
- Jet fuels deoxygenation effects on steels antiwear properties and critical loading under vibrational and gliding friction p0368 A71-27662
- Gas turbine engine steels and Ni alloys heat resistance, examining fatigue life and creep properties at various temperatures and test durations p0543 A71-35453

## STEEP GRADIENT AIRCRAFT

## U V/STOL AIRCRAFT

## STEERABLE ANTENNAS

- Planar microwave array antenna for scan requirement, discussing tilt angle and element arrangement optimization [AIAA PAPER 70-191] p0221 A71-22030
- L band aircraft antenna array consisting of circularly polarized elements and static electronic steering circuits for synchronous satellites radio links p0447 A71-31074
- Dioscures communication satellite system for air traffic control and navigation, discussing aircraft antenna beam electronic scanning by computerized control p0537 A71-34681

## SUBJECT INDEX

## STEERING

- Aircraft steering system design, considering oversteering effects in nose wheels, torque for reaction moment balance and tire behavior p0500 A71-33225

## STEFAN-BOLTZMANN LAW

- Aircraft ice protection problems, considering one dimensional Stefan method for cyclic deicing system p0537 A71-34850

## STELLAR DOPPLER SHIFT

## U DOPPLER EFFECT

## STELLAR INERTIAL NAVIGATION

## U INERTIAL NAVIGATION

## STELLAR REFRACTION

## U ATMOSPHERIC REFRACTION

## STERILIZATION EFFECTS

## NT CORROSION

## NT DECONTAMINATION

## STERNS

## U AFTERBODIES

## STIFF STRUCTURES

## U RIGID STRUCTURES

## STIFFNESS

- NASTRAN computer program differential stiffness and static load analysis methods compared for aircraft tandem side opening canopies p0687 N71-36260

## STIMULATED EMISSION DEVICES

## NT CARBON DIOXIDE LASERS

## NT GAS LASERS

## NT LASERS

## NT PULSED LASERS

## NT Q SWITCHED LASERS

## NT RUBY LASERS

## STIMULATION

## NT AUDITORY STIMULI

## STOCHASTIC PROCESSES

## NT RANDOM PROCESSES

- Stochastic model for analysis of track-while-scan technique for aircraft search radar, based on Kalman filter theory p0015 A71-11393

- Probabilistic methods for solving ATC and navigation problems, considering stochastic processes theory p0482 A71-31463

- Stochastic optimal control theory application to airplane rescheduling model, obtaining dynamic programming algorithm for optimal landing and takeoff rules p0697 A71-44104

- Development and characteristics of electronic equipment for digital processing of stochastic signals for military aircraft avionics systems [AD-719822] p0465 N71-24954

## STOICHIOMETRY

- Supersonic combustion and burning rates of stoichiometric hydrogen mixtures in ramjet engines [AD-716855] p0336 N71-21634

## STOKES FLOW

- Stokes flow parachute extremely lightweight decelerator for increasing altitude and rocket-borne radiosondes atmospheric data sampling quality [AIAA PAPER 71-401] p0341 A71-25277

## STOL AIRCRAFT

## U SHORT TAKEOFF AIRCRAFT

## STOPPING

- Boeing 737 aircraft takeoff and landing performance, emphasizing high lift systems and stopping capability p0184 A71-19083

- Aircraft accelerate-stop factors and regulations, pilot reaction times and accidents during takeoff p0693 A71-43380

- Comparison of aircraft and surface vehicle stopping performance under varying runway conditions [NASA-TN-D-6098] p0107 N71-12235

- Developing basic methodology for predicting aircraft stopping distance on wet runway using computerized simulation [FAA-NA-70-5] p0320 N71-20068

## STORABLE PROPELLANTS

## NT AIRCRAFT FUELS

## STORAGE BATTERIES

## NT SILVER ZINC BATTERIES

- Soviet book on airplane and helicopter electrical power supply systems covering storage batteries, DC generators, alternators, voltage regulators,

- current and frequency control, etc  
p0422 A71-29525
- STORAGE STABILITY**  
Test procedures to determine ability of aircraft equipment and armament to withstand storage and operate effectively in tropic environment  
[AD-720570] p0474 N71-26194
- STORMS**  
NT STORMS (METEOROLOGY)  
NT THUNDERSTORMS  
**STORMS (METEOROLOGY)**  
NT THUNDERSTORMS  
Testing armored T-28B for exploring severe hail storms  
[MBI-69-FR-841] p0529 N71-28646
- STRAIGHT WINGS**  
U RECTANGULAR WINGS
- STRAIN DISTRIBUTION**  
U STRESS CONCENTRATION
- STRAIN FATIGUE**  
U FATIGUE (MATERIALS)
- STRAIN GAGE BALANCES**  
Frequency response of five component strain gage oscillating balance for dynamic wind tunnel stability testing  
p0434 A71-30333
- STRAIN GAGES**  
Wind tunnel apparatus for reproducing coning and spinning motions of bodies of revolution, using six-component strain gage balance for aerodynamic forces  
p0010 A71-10930  
Boeing 747 flight loads measurements, describing aircraft instrumentation with strain gages and pressure pickups  
p0073 A71-13766  
Bonded and weldable strain gages for aircraft flight loads measurements at high temperatures, discussing installation, calibration and performance tests  
p0074 A71-13781  
High temperature dynamic strain gage test equipment for evaluating precision, life and environmental limitations  
p0267 A71-22719  
Strain level counter monitoring aircraft structural fatigue, describing system components consisting of sensors in critical structure areas and indicator unit with visual display  
p0267 A71-22725  
Static strain measurements on Ti specimen subjected to different conductive heating rates, testing various gages  
p0428 A71-29833  
Aircraft flight load measurements in high temperature environment, determining optimal strain gage installation and calibration  
p0440 A71-30681  
Strain gage torque meter as primary power indicating instrument in helicopter transmission systems, providing advantages for helicopter designer and operator  
[ANS PREPRINT 563] p0453 A71-31110  
Strut pressure and axle strain gage systems testing for balance and weighing onboard De Havilland C-7A aircraft  
[SAWE PAPER 881] p0552 A71-35827
- STRAIN RATE**  
Moire effect analysis of stress and strain of machine parts and structural elements  
[AD-717826] p0376 N71-22168
- STRAIN SOFTENING**  
U PLASTIC DEFORMATION
- STRAPDOWN INERTIAL GUIDANCE**  
Strapdown inertial guidance and software technologies for cosmic speed aerospace vehicles and low speed air, marine and ground transport  
p0089 A71-15301  
Strapdown inertial navigator alignment by digital filtering techniques, discussing application to aircraft and spacecraft  
p0208 A71-21170
- STRAPS**  
Traversing Infrared Inspection System for C-5 aircraft fail-safe strap panels of bonded Ti-Al laminates, discussing design and application  
[ASME PAPER 71-DB-37] p0361 A71-27327
- STRATEGY**  
Efficient evasion strategies for vehicle pursuit-
- evasion games with imperfect information, using computer solution  
p0141 A71-17331
- STRATIFICATION**  
NT ATMOSPHERIC STRATIFICATION
- STRATIFIED FLOW**  
Incompressible two dimensional inviscid stably stratified fluid flow over vertical step in channel bounded by rigid horizontal lid  
p0078 A71-14201  
Laminar mixing region stratified free shear layer stability between two uniform streams from numerical solution of linear sixth order equation for disturbance amplitude function  
p0269 A71-22851  
Symmetrical airfoil in stratified fluid flow determining camber and incidence effects  
p0291 A71-24589
- STRATOPORTRESS AIRCRAFT**  
U B-52 AIRCRAFT
- STRATOSPHERE**  
Thin CAT layer detection in lower stratosphere by L band radar complemented by radiosonde and U-2 aircraft probes  
p0007 A71-10567  
Commercial SST environmental effects on stratospheric air, water vapor content and earth surface temperature  
p0013 A71-11178  
Atmospheric turbulence at cruise altitudes of supersonic transport aircraft, considering gusts probability, thunderstorms and mountain waves  
p0065 A71-13137  
Rawinsonde reported extreme wind speed in arctic stratosphere at SST altitudes  
p0135 A71-16700  
Mesosphere and stratosphere data from high level observations for supersonic transport and reentering space vehicle operations  
p0212 A71-21724  
Supersonic transport air traffic meteorology, considering high altitude and flight velocities, applications technology satellites for lower stratosphere thunderstorms, clear air turbulence, etc  
p0272 A71-23070  
Stratospheric air flow patterns and CAT measurements onboard aircraft over and downwind of Western U.S. mountain terrain  
p0425 A71-29755  
Atmospheric models of partially trapped waves propagation in layer above tropopause with large stratospheric Scorer parameter  
p0425 A71-29763  
Stratospheric turbulence correlation to mesoscale horizontal temperature gradient at altitudes flown by SST from Coldscan program  
p0425 A71-29767  
Stratospheric turbulence induced aircraft buffeting dependence on horizontal temperature and wind distribution  
p0481 A71-31366  
Nitrous oxide dissociation as natural source of stratospheric nitric oxide, noting estimates use as yardstick for artificial source  
p0693 A71-43347  
Stratospheric turbulence and horizontal temperature measured at supersonic transport altitudes by B-57F aircraft  
[LR-542] p0333 N71-21284  
Nonexpanding reflecting balloon for radar measurement of stratospheric circulation  
[NLL-M-20326-/5828.4F/] p0401 N71-23934  
Clear air turbulence in stratosphere and effects on weather formation, atmospheric physics, and supersonic flights  
[JPRS-53133] p0469 N71-25746  
XB-70 aircraft for investigating and predicting XB-70 aircraft for investigating and predicting mountain waves.  
[NASA-CR-1878] p0591 N71-31351  
Meteorological flight search for clear air turbulence in stratosphere above Australia, 1966  
p0645 N71-33671  
Global stratospheric dispersion of supersonic transport exhaust  
[D180-12981-1] p0675 N71-34021  
Relation between turbulence in stratosphere causing aircraft buffeting, and vertical distribution of

- meteorological parameters calculated from  
radiosonde data  
[NASA-TT-F-13981] p0707 N71-36398  
Horizontal temperature and wind distribution effects  
on aircraft buffeting in stratosphere  
[NASA-TT-F-13978] p0718 N71-37600
- STRATOSPHERE RADIATION**  
Commercial aviation stratospheric water vapor  
injections influence on radiation budget, ozone,  
polar night cloudiness and potential climatic  
effects  
p0214 A71-21822
- STRATOTANKER AIRCRAFT**  
U C-135 AIRCRAFT
- STRATUS CLOUDS**  
Aircraft hazards due to frequent low cloud  
occurrences at Kenya airport, forecasting weather  
with statistical analysis and radiosounding  
p0415 A71-29106
- STREAM FUNCTIONS (FLUIDS)**  
Constant curvature wing contours in transonic flow,  
determining stream function by approximation  
p0148 A71-18227  
Multilink approximation of Chaplygin function in  
subsonic and supersonic flow regions, deriving  
coupling conditions relative to modified stream  
function at approximation nodes  
p0198 A71-20090  
Impeller blade loading vorticity on stream surface  
of revolution for mixed flow compressor, using  
annular cascade theory  
[ASME PAPER 71-GT-17] p0349 A71-25962  
Lift and particle displacement around lifting body  
with stream function as fluid motion equation  
integral  
p0367 A71-27577
- STREAMLINE FLOW**  
U LAMINAR FLOW
- STREAMLINED BODIES**  
NT FAIRINGS  
Singularity carrier auxiliary curves in airfoil  
cascade design, formulating and proving existence  
theorem  
p0133 A71-16397
- STREAMLINING**  
Inviscid ideally conducting fluid flow past thin  
foil in transverse magnetic field, using small  
parameter method  
p0026 A71-12629
- STREAMS**  
NT GAS STREAMS
- STREETS**  
Aircraft noise propagation in city streets due to  
intertown V/STOL and helicopter ports, using small  
scale models  
p0613 A71-39264
- STRENGTH OF MATERIALS**  
U MECHANICAL PROPERTIES
- STRESS (PHYSIOLOGY)**  
Routine unprotected exposure to acoustic noise  
within cockpits of trainer aircraft presenting  
potential hazardous stress  
[AD-717852] p0381 N71-22426
- STRESS ANALYSIS**  
Stress analysis of DC 10 nose landing gear unit,  
using photoelastic coating technique  
p0101 A71-15669  
Aluminum reinforced epoxy model making, testing and  
stress analysis for aircraft structures, including  
creep, photoelastic coating and strain gage  
effects  
p0132 A71-16346  
Shrouded aircraft engine turbine blades vibration  
stresses found minimum by setting up paired blades  
with fixed tension along shroud  
p0266 A71-22595  
Automated optimal weight fully stressed large scale  
structural design of aircraft, using matrix-  
mathematical programming technique  
[AIAA PAPER 71-361] p0343 A71-25340  
Helicopter power transmission failure modes,  
presenting field experiences correlation with  
conventional design stress analysis and bench test  
data  
[SAE PAPER 710454] p0408 A71-28331  
Neuber elastoplastic analysis of residual notch  
stresses for improved cumulative damage  
predictions applied to aluminum alloy under  
overload
- [AIAA PAPER 71-776] p0507 A71-34012  
Buckling for thin stress walled open sections on  
elastic foundation with constrained direction  
reinforcement  
p0663 A71-41693  
Calculating flutter boundaries and estimating  
stresses in infinite spanwise array of panels  
using exact method of Zeydel  
[NASA-CR-1721] p0126 N71-14086  
Heat transfer and thermal stress calculations for  
gas turbine rotor blade design  
p0235 N71-17401  
Analysis of elastic strength of marine propellers by  
finite element method  
[AD-716463] p0316 N71-19856  
Torsional stress analysis of multiweb wing  
structures  
p0330 N71-20768  
Moire effect analysis of stress and strain of  
machine parts and structural elements  
[AD-717826] p0376 N71-22168  
Fatigue and fracture mechanics of airframes and  
materials including structural design and stress  
analysis techniques  
[AD-719756] p0466 N71-25092  
Supersonic panel flutter and aerodynamic load stress  
analysis of finite cylindrical shells based on  
Galerkin method and aeroelastic equilibrium  
equations  
[AD-722447] p0589 N71-31183
- STRESS CALCULATIONS**  
U STRESS ANALYSIS
- STRESS CONCENTRATION**  
Stress concentration correcting factors for fillets  
in landed aircraft structures  
p0276 A71-23539  
Loads on compressor, ventilator and turbine rotor  
disks having large central holes, giving formulas  
for stress distributions  
p0359 A71-26952  
Probability theory of stresses during random  
vibrations of flat panel in acoustic field of jet  
engine exhaust  
p0487 A71-31704  
Aircraft structures fatigue properties, discussing  
stresses, life estimates, safety factors and  
descriptive curves  
p0501 A71-33343  
Viscous stresses distribution in isothermal  
incompressible turbulent boundary layer with  
positive pressure gradient by diffusers in open  
jet wind tunnel  
p0533 A71-34209  
Constrained torsion of spar box fastened along  
isolated parts of wing span, noting structural  
failure due to tangential stress distribution  
p0542 A71-35313  
Calculations and measurements of strain distribution  
and deflection on model swept wings  
[NAL-TR-195] p0057 N71-11950  
Center of gravity vertical acceleration and wing  
stresses of Boeing 720-B aircraft  
[TB-87-1970] p0229 N71-17119
- STRESS CORROSION**  
Ti alloy hot salt stress corrosion under simulated  
engine environmental conditions, presenting  
threshold data based on residual tensile ductility  
p0029 A71-12885  
Ti alloys in aircraft industry, considering jet  
engines applications and structural stability  
improvements related to fracture toughness,  
fatigue and stress corrosion  
p0274 A71-23292
- STRESS CYCLES**  
Flight mission severity in cumulative damage /low  
cycle fatigue and creep stress rupture/ not  
detected by usual nondestructive testing in  
aircraft gas turbine industry  
p0501 A71-33298  
Total fatigue damage estimates from ground and  
flight loads on fixed-wing light aircraft  
subjected to agricultural operations  
[LTR-ST.422] p0106 N71-12233  
Aluminum alloy stress cycles and fatigue life of  
airframe materials  
[PB-78-1969] p0238 N71-17524
- STRESS DISTRIBUTION**  
U STRESS CONCENTRATION

**STRESS MEASUREMENT**

Jet engine rotor strain and temperature data transmission, examining special purpose telemeters design

p0187 A71-19628

Nonstationary stress modeling in aircraft structures using random pulse generator applied to jet landing gear break strut fatigue test

p0298 A71-24954

Surface strain measurements in turbine blades by time average holographic interferometry, reviewing resonant modes and holographic fringe patterns [ASME PAPER 71-GT-84]

Aircraft structure fatigue life improvement via material stress coining inside and around holes and slots

p0003 A71-10170

**STRESS RUPTURE STRENGTH****U CREEP RUPTURE STRENGTH****STRESS-STRAIN DIAGRAMS**

Numerical stress-strain calculation for design of high pressure fiberglass-reinforced plastic balloons

p0012 A71-11048

Linear radial loads effect on stress and strain of hyperboloidal rotor disk applied to aircraft engine compressors with two stream flow of working medium

p0535 A71-34597

**STRESS-STRAIN DISTRIBUTION****U STRESS CONCENTRATION****STRESS-STRAIN RELATIONSHIPS****U STRESS-STRAIN DIAGRAMS****STRESSED-SKIN STRUCTURES**

Optimal weight of aerodynamic heat protection layers of stressed skin and optimal efficiency of cooling system for hypersonic aircraft compartments

p0205 A71-20836

Computer based methods in man machine interaction for dynamic structural design optimization of stressed-skin structures and structural members [AGARD-CP-36-70]

p0117 N71-13126

**STRESSES****NT CRITICAL LOADING****NT RESIDUAL STRESS****NT SHEAR STRESS****NT THERMAL STRESSES****NT TORSIONAL STRESS****NT VIBRATIONAL STRESS**

Aircraft tires mechanical data from small models, discussing mechanical properties, tire stresses and tire temperatures [AIAA PAPER 71-346]

p0343 A71-25325

**STRETCHING**

Snatch force during lines-first deployment of aerodynamic decelerator, including effects of canopy skirt acceleration and suspension wave propagation characteristics [AIAA PAPER 70-1171]

p0269 A71-22915

**STRINGERS**

Parametric study of natural frequencies of skin stringer structures [AD-711383]

p0043 N71-10734

**STROBOSCOPES**

Strobe lighting for aircraft midair collision hazard reduction, comparing Collision Avoidance System and Pilot Warning Indicator effectiveness

p0661 A71-41493

**STROUHAL NUMBER**

Unsteady flow downwash behind finite span slender wing during supersonic motion at finite Strouhal numbers

p0368 A71-27697

**STRUCTURAL ANALYSIS****NT DYNAMIC STRUCTURAL ANALYSIS****NT ENERGY METHODS****NT EQUILIBRIUM METHODS****NT FLUTTER ANALYSIS****NT MATRIX METHODS**

Papers on LMS technology for aircraft structural mode control covering B-52 and C-5A aircraft

p0017 A71-11658

Photochromic paints for nondestructive testing of aerospace materials and structures

p0283 A71-24102

Wing-fuselage-tail interacting low speed flutter, considering mechanical tuning and aerodynamic interference couplings

[AIAA PAPER 71-326]

p0341 A71-25306

Computer aided aircraft design, analysis and production, discussing Numerical Master Geometry program developed by British Aircraft Corporation

p0616 A71-39543

Analysis of self-acting lift pad for gas-film seal of turboshaft

p0058 N71-12038

Airdrop impact load effect on complex structures [AD-711555]

p0127 N71-14163

Programming documentation for extended capability of FORTRAN-FORTRAN matrix abstraction technique of structural analysis

[AD-713840]

p0157 N71-14537

Engineering users data for extended capability of FORTRAN-FORTRAN matrix abstraction technique of structural analysis

[AD-713727]

p0157 N71-14538

Aerodynamic heating and structural analyses for radiatively cooled delta wing of hypersonic aircraft

[NASA-TN-D-6138]

p0245 N71-18025

Finite element analysis of structures in plastic range

[NASA-CR-1649]

p0260 N71-19276

Calculations on plasticity and creep properties of elementary structures

[SC-T-70-4047]

p0317 N71-19921

Hydroelasticity, aeroelasticity, and dynamic stability of bars, plates, shells, and beams of various structural elements.

[AD-716938]

p0330 N71-20811

Koiter method for asymptotic analysis of postbuckling behavior reformulated in finite element notation

[AD-717740]

p0383 N71-22485

Optimization of payload for space shuttle by reducing structural loading and weight

[AD-717740]

p0462 N71-24664

Development of power spectral density method for determining gust criteria for airplane structural strength based on discrete gusts

[NAL-TR-233]

p0644 N71-33547

Experimental aeroelastic analysis to determine airworthiness of T-tail configuration of F-28 aircraft

p0673 N71-34002

Structural analysis of tail cone of CH-54B helicopter reinforced with boron/epoxy stringers

[NASA-CR-111930]

p0674 N71-34014

Analysis of feasibility of designing transport aircraft to carry up to 1,000 passengers and methods for predicting aircraft performance

[CRANFIELD-AERO-3]

p0674 N71-34018

Numerical analysis of derivatives of flutter velocity of aircraft structures to determine optimization of complex structures

[NASA-CR-111955]

p0679 N71-35126

Assessment of nonlinear response of aeronautical structures with nonideal characteristics under vibration conditions

[ARL/SM-355]

p0679 N71-35134

Survey of NASTRAN applications in static and dynamic structural analysis problems

[NASA-TM-X-2378]

p0687 N71-36253

NASTRAN application to static stress and dynamic modal problems of horizontal stabilizer of F-14A aircraft

p0687 N71-36269

Comparing and integrating NASTRAN with other finite element computer programs

p0688 N71-36284

NASTRAN static, modal, and transient analyses plotting techniques with delta wing examples

p0688 N71-36299

Chemical and structural analysis techniques for materials suitable for aircraft structures

[AD-727017]

p0689 N71-36323

Structural analysis of corrugated aircraft wing skin panels to determine effects of corrosion damage

[AD-728009]

p0721 N71-37619

**STRUCTURAL BEAMS****U BEAMS (SUPPORTS)****STRUCTURAL DESIGN**

Air cushion vehicle technology, considering

economics, propulsion, structures, controllability, flexible skirt systems and R and D  
[SAE PAPER 710183] p0212 A71-21713

Complex airframe design for economic and safe operation and long life using fatigue and fracture mechanics  
[AIAA PAPER 70-512] p0221 A71-22025

Floating airport structural design, using hollow concrete blocks filled with polystyrene foam as runway basic unit  
p0270 A71-22949

Aircraft wings automated preliminary structural design and weight determination procedures based on external shape, aerodynamic loads and fuel mass interaction  
p0273 A71-23274

Soviet book on aircraft preliminary design specifications as function of performance, aerodynamic and structural parameters, discussing tradeoffs in operational requirements for specific configurations  
p0281 A71-24012

Variable weight composite materials for aircraft optimal adhesive bonding structural designs, discussing C-5A tow weight saving Ti honeycomb applications  
p0282 A71-24084

Light aircraft steel landing gear springs structural design at Cessna, considering certification requirements  
[SAE PAPER 710400] p0287 A71-24262

Ti intermediate diagonal tension field shear beam analysis and design for Boeing SST, using Rayleigh-Ritz method  
[AIAA PAPER 71-340] p0342 A71-25319

Stability analysis and design optimization with dynamics and aeroelastics constraints for helicopter rotor blade minimum weight with bending torsion flutter and favorable frequency placements  
[AIAA PAPER 71-388] p0344 A71-25352

Prototype graphite fiber/plastic fuselage component design, test and performance prediction, using structural analysis methods  
p0344 A71-25428

Concorde aircraft construction methods, materials and design  
p0358 A71-26882

Automated low cost structural-mechanical design and optimization of wing pivot systems for variable geometry aircraft  
[AIAA PAPER 71-404] p0362 A71-27410

Materials and structural design development by high velocity impact testing due to transport and subsonic military aircraft susceptibility to bird collision damage  
p0423 A71-29642

Aircraft structural design requirements based on statistical analysis of air turbulence intensity and gust loads records from large number of research flights  
p0427 A71-29784

L-1011 Tristar antenna arrangement test results, considering weight, aerodynamic and structural design requirements  
p0447 A71-31060

TU-144-Concorde differences, discussing design philosophy engine mounting and thrust, wing span and profiles, gross weight, fuselage cross sections landing gear, droop nose, etc  
p0488 A71-31873

Probabilistic approach to prolonged lifetime design and static strength of structures of monocoque and multispar wings, using fatigue characteristics of individual elements  
p0504 A71-33604

Advanced composites as future aircraft structural materials, discussing design concepts, service experience, manufacturing methods and quality assurance  
[AIAA PAPER 71-779] p0507 A71-34014

Aircraft structural parameters optimization satisfying flutter velocity constraint and minimum mass, applying to box beam design  
p0537 A71-34874

Experimental research at Building Research Station on outdoor sound propagation for building design in relation to aircraft and road traffic noise  
p0540 A71-35237

Design and performance of flexible nozzle supersonic wind tunnel model  
[TAE-86] p0040 N71-10478

Design and performance of gas-film and oil-film lubricated self sealing mainshaft seals for gas turbine engines  
[NASA-CR-72737] p0057 N71-12035

Design of self-acting gas-film seal for turboshaft of gas turbine engine  
p0057 N71-12036

Design of oil-film seal for turboshaft of gas turbine engine  
p0057 N71-12037

Graphic illustration of lifting body design  
[NASA-CASE-FRC-10063] p0105 N71-12217

Computer based methods in man machine interaction for dynamic structural design optimization of stressed-skin structures and structural members  
[AGARD-CP-36-70] p0117 N71-13126

Application of aeroelastic constraints in structural optimization of aircraft design  
p0117 N71-13131

Computer system for optimal design of aircraft structures  
p0118 N71-13132

Finite element method for dynamic structural analysis in vertical takeoff aircraft design  
p0118 N71-13134

Static strength, stiffness, fatigue, and damage resistance of materials in design optimization for shell structure  
p0118 N71-13143

Design and materials engineering for aircraft turbine engines  
[NASA-TT-P-13398] p0127 N71-14188

Critical buckling data for design of skew plates subjected to loads  
[AE-248-S] p0165 N71-15151

Wind effect criteria for structural design and engineering of buildings  
p0166 N71-15301

Aeroelastic wind effects for dynamic design of tall buildings  
p0166 N71-15311

Heat transfer prediction for turbine blade design  
p0232 N71-17374

Efficiency of air cooling blade design for Olympus 593 gas turbine engine  
p0232 N71-17376

Boundary layer optimization for small turbine blade design with cusped trailing edge  
p0232 N71-17380

Heat transfer and thermal stress calculations for gas turbine rotor blade design  
p0235 N71-17401

Design optimization for cylindrical shell subjected to reentry loads and heating  
p0244 N71-18022

Design, construction, operation, and management of military airports  
[AD-716603] p0312 N71-19702

Mathematical programming techniques applied to aerospace structural design - algorithmic tools, applications, and literature review  
[AGARD-AG-149-71] p0322 N71-20128

Basic concepts of mathematical programming applied to structural design of aerospace vehicles  
p0322 N71-20129

Flying safety factors in close to ground operational design of XH-51 helicopter  
p0396 N71-23430

Fatigue and fracture mechanics of airframes and materials including structural design and stress analysis techniques  
[AD-719756] p0466 N71-25092

Impact response modeling for design of weapon container  
[SC-RR-70-8801] p0519 N71-27986

Use of NASTRAN as analysis tool in structural design optimization process applied to aircraft fuselage type structure  
p0638 N71-36280

Development and characteristics of lightweight, mobile structures for aircraft storage and maintenance  
[AD-727056] p0712 N71-36674

STRUCTURAL DYNAMICS  
U DYNAMIC STRUCTURAL ANALYSIS

## STRUCTURAL ENGINEERING

Municipal airport rigid pavements design considering supporting effects of soil subgrade, asphaltic concrete subbase and pavement strength  
p0022 A71-12165

Flexible pavements design for giant transports considering load repetitions, total systems, environmental effects, etc  
p0022 A71-12166

Rigid and flexible pavement design and construction in Europe, discussing unreinforced and crack reinforced slabs and CBR method  
p0022 A71-12167

Aircraft pavements in UK, discussing reinforced and unreinforced concrete, tar-bound bases and surface coatings  
p0022 A71-12168

Runways, aprons and taxiways strengthening to accommodate higher tire pressures and landing speeds, heavier aircraft and surface riding requirements  
p0022 A71-12169

Aircraft pavements design and construction problems regarding adverse soil conditions  
p0022 A71-12170

Structural efficiency improvement by materials selection for airframe structures, discussing Al, Ti-Al-V and steel panels  
p0212 A71-21685

Wind effect criteria for structural design and engineering of buildings  
p0166 N71-15301

Test facilities on structural engineering at PFA, Sweden  
[PFA-MEMO-61] p0569 N71-29378

**STRUCTURAL FAILURE**

Transmission impending failure detection via lubricating oil monitoring for metal particle content  
p0094 A71-15415

Bent structure failure under pulse floor acceleration shocks, concerning aircraft seat damage during crash landing  
p0204 A71-20747

Materials failure role in Canadian civil aircraft accidents, discussing organized investigation and data flow  
p0211 A71-21679

Structure service life and storage failure probability calculation with current load measurements and laboratory fatigue testing  
p0418 A71-29231

Structural fatigue in aircraft design, discussing twin engine transport tests, crack propagation rate, residual strength, etc  
p0421 A71-29434

Atmospheric turbulence prediction, discussing gust sensitive aircraft design for structural overload and fatigue failure decreases  
[AIAA PAPER 71-775] p0507 A71-34011

Constrained torsion of spar box fastened along isolated parts of wing span, noting structural failure due to tangential stress distribution  
p0542 A71-35313

Electron fractography for high strength steel to determine fatigue life of military aircraft parts  
[NLR-TR-69043-U] p0119 N71-13364

Aircraft design concepts for prevention of structural failure including stress analysis  
[AD-723317] p0619 N71-31683

Carbon fiber reinforced plastics and metals structural components design, discussing properties, processing and applications  
p0030 A71-12910

Aircraft structural elements thermal behavior under aerodynamic heating with linear dependence on initial temperature  
p0364 A71-27493

Wing structural elements ballistic damage tolerance and residual fracture strength characteristics, discussing projectile velocity, impact angle and target thickness effects  
p0540 A71-35161

Sonic boom and explosive shock wave effects on buildings and structural members  
p0050 N71-11035

Computer based methods in man machine interaction for dynamic structural design optimization of stressed-skin structures and structural members  
[AGARD-CP-36-70] p0117 N71-13126

Computer simulation of random response induced by complex, ergodic, Gaussian excitation as function of response spectral densities  
[AD-713141] p0168 N71-15393

Conference on prevention of mechanical failures including bearing failures, spectrographic oil analysis, failure mechanisms of helicopter transmissions, and related problems  
[AD-721359] p0520 N71-28057

Notch sensitivity of flat plates used as structural members in aircraft wings tested on load testing machine  
[TB-89] p0580 N71-30675

Electrical analog for sonic boom indoor pressure wave effect on structural members  
[UTIAS-TN-158] p0648 N71-33964

Reference text on design of aviation structural elements  
[AD-726586] p0682 N71-35220

**STRUCTURAL RELIABILITY**

Complex airframe design for economic and safe operation and long life using fatigue and fracture mechanics  
[AIAA PAPER 70-512] p0221 A71-22025

Combat aircraft vulnerability to projectile impact predicted by model giving target penetration, damage size and structural response  
[AIAA PAPER 71-777] p0507 A71-34013

Diffusion bonding as economical fabrication process for aerospace applications involving Ti alloys, emphasizing mechanical properties and structural reliability improvement  
[SME PAPER AD-71-245] p0560 A71-36661

Method for arranging filamentary, load bearing material to approximate stress condition in gas envelope of free floating balloon for maximizing structural efficiency  
[AD-713188] p0163 N71-14811

Conference on prevention of mechanical failures including bearing failures, spectrographic oil analysis, failure mechanisms of helicopter transmissions, and related problems  
[AD-721359] p0520 N71-28057

Analytical procedures for predicting coupled fluid structural responses of aircraft hydraulic systems  
p0688 N71-36276

## STRUCTURAL RIGIDITY

## U STRUCTURAL STABILITY

## STRUCTURAL STABILITY

## NT SHELL STABILITY

LAMS flight control systems for turbulence induced fatigue damage reduction in B-52 and C-5A aircraft, using mathematical models  
p0017 A71-11660

Aircraft light alloys fatigue characteristics for component endurance evaluation  
p0136 A71-16757

Aircraft turbine engines strength and gas dynamic characteristics improved by vibration decrease using elastic elements  
p0212 A71-21710

Beams torsional rigidity under thermal stress due to arbitrary temperature distribution  
p0265 A71-22103

Ti alloys in aircraft industry, considering jet engines applications and structural stability

improvements related to fracture toughness, fatigue and stress corrosion p0274 A71-23292

Plane sandwich plates in supersonic gas flow, investigating aeroelastic stability, transverse shear flexibility and axial loads p0277 A71-23609

Torsional-flexural stability of stiffened Ti panels for application to supersonic transport, using small deflection energy methods [AIAA PAPER 71-338] p0342 A71-25317

Inflation of initially spherical balloon of elastic rubber-like material, discussing tensile instability p0345 A71-25445

Elastic structures stability under randomly fluctuating external loads based on statistical methods p0499 A71-32988

Eccentrically stiffened thin cylindrical panels instability under uniform axial compression, uniform hoop compression and uniform shear p0509 A71-34150

Soviet papers on thin walled aircraft structures strength and stability covering bending theory, circular cylindrical shells, thermal stresses of rectangular plates, etc p0541 A71-35301

Light alloys fatigue characteristics for aircraft components endurance evaluation p0544 A71-35456

Rotor blade stability, calculating unsteady local lift and effects of blade profile camber and steady angle of attack p0544 A71-35468

Application of corrugated core sandwich structures to powerplant components p0054 N71-11636

Hydroelasticity, aeroelasticity, and dynamic stability of bars, plates, shells, and beams of various structural elements. [AD-716938] p0330 N71-20811

Conference on fatigue life in helicopter components [DLR-MTT-70-01] p0455 N71-24385

Rotary wing structural stability of Dornier high temperature gas jet helicopter p0456 N71-24387

Evaluation of helicopter flight loading and structural stability p0456 N71-24389

Structural stability tests of helicopter components p0456 N71-24390

**STRUCTURAL STRAIN**

Strain level counter monitoring aircraft structural fatigue, describing system components consisting of sensors in critical structure areas and indicator unit with visual display p0267 A71-22725

Aircraft fuselage antisymmetric loading strain effects on small aspect delta wing performance p0704 A71-45018

Moire effect analysis of stress and strain of machine parts and structural elements [AD-717826] p0376 N71-22168

**STRUCTURAL VIBRATION**

NT BENDING VIBRATION

NT FLUTTER

NT PANEL FLUTTER

NT SUBSONIC FLUTTER

Aircraft fuselage vibration response to turbulent boundary layers, measuring structural wavelengths and phase velocities as functions of frequency [ASME PAPER 70-WA/DE-10] p0078 A71-14144

Nonlinear partial differential equation solution for natural free-free vibrations of beam structures [ASME PAPER 70-WA/APM-55] p0078 A71-14172

Analog periodometer with short response time for helicopter blade vibration studies p0135 A71-16736

Fluctuating circulation, lift and flow induced structural vibrations of two dimensional bodies, including vortex shedding on sluice gates p0187 A71-19592

Helicopter vibrational behavior prediction in flight with known aerodynamic loads, using branch modes method

p0277 A71-23606

Al alloys one step fatigue tests under combined high temperature and structural vibration conditions p0294 A71-24821

Automated modal data acquisition and processing system /MODAPS/ for real-time modal vibration testing of complex aerospace vehicle structures, describing features, capabilities and utilization p0435 A71-30341

Parametric and autoparametric instability of aircraft structures p0669 A71-42240

Parametric study of natural frequencies of skin stringer structures [AD-711383] p0043 N71-10734

Wind loading moments produced on scale models of tall buildings in wind tunnel tests p0166 N71-15306

Fuel tank vapor space characteristics for simulated helicopter fuel tank and evaluation of existing potential hazard from vibration environment [AD-875901] p0329 N71-20702

Handbook for summing two harmonics [AD-717201] p0337 N71-21803

Systems analysis of directional control, rotary wing vibratory loads, lift sharing, and fuselage vibration and damping during helicopter maneuvers p0583 N71-30775

**STRUCTURAL WEIGHT**

German monograph on systems analysis of future jet and fan propulsion systems for VTOL commercial aircraft weight and cost reduction p0002 A71-10115

Optimal cross sectional dimensions of thin walled longeron beams and ribs of skin reinforced delta wings minimizing weight p0025 A71-12562

Subsonic aircraft size effect in conventional design, discussing increased weight increments and economic gain rate [AIAA PAPER 70-940] p0026 A71-12676

Aircraft generator service life improvement and weight minimization by close coupling with drive and heat producing components cooling with oil spray and mist p0149 A71-18463

Variable weight composite materials for aircraft optimal adhesive bonding structural designs, discussing C-5A tow weight saving Ti honeycomb applications p0282 A71-24084

Weight minimization of semiinfinite flat sandwich panel at constant dynamic pressure in supersonic flow subject to flutter constraint, using finite element model [AIAA PAPER 71-330] p0342 A71-25310

Optimum vertical surface configuration for STOL transports, considering structural weight and performance requirements [AIAA PAPER 71-769] p0506 A71-34006

Aircraft structural parameters optimization satisfying flutter velocity constraint and minimum mass, applying to box beam design p0537 A71-34874

High modulus graphite composites application for structural weight reduction and stiffness requirement without strength loss p0540 A71-35202

High voltage DC electric power transmission systems with ground return, reducing aircraft wiring weight and energy dissipation p0549 A71-35771

Integrated drive generator for aircraft electrical power systems, improving weight, life and reliability p0549 A71-35781

Administrative techniques of cost/weight tradeoff program for jet transport airplane [SAWE PAPER 899] p0550 A71-35812

Statistical analysis of error sources and magnitudes in Boeing 747 weight values obtained by onboard aircraft weighing system and by manual calculations [SAWE PAPER 897] p0551 A71-35813

Composite materials effect on supersonic aircraft weight, design and performance [SAWE PAPER 888] p0551 A71-35818

Weight reduction potential of composite materials in aerospace structures, proposing weight estimation

- technique  
[SAE PAPER 887] p0551 A71-35819
- Design, analysis and testing of F-111 complex  
fuselage full scale section of composite  
materials, noting weight savings  
[SAE PAPER 889] p0552 A71-35825
- Composite structures development, discussing wing,  
fuselage, aeropropulsion and missile development,  
weight savings of hardware and fighter empennage  
applications  
[AIAA PAPER 71-367] p0555 A71-36275
- Aircraft electronic or fly by wire control systems,  
discussing aircraft design fuel-structure weight  
reduction cycle and control system redundancy  
requirements  
[AIAA PAPER 71-959] p0598 A71-37200
- Real weight formula for shell fuselages based on  
theoretical similarity considerations  
p0615 A71-39411
- Civil transport aircraft and equipment maintenance  
and reliability problems solutions with best time,  
cost and weight compromises  
p0702 A71-44765
- Ideal weight of axisymmetric fuselage shells, taking  
into account load distribution and cabin  
pressurization  
p0704 A71-45180
- Components for low weight/small volume aircraft gas  
turbine engines  
p0512 N71-26955
- STRUTS**
- Analytical nonlinear landing gear model of flexible  
aircraft and strut lockup-breakout interaction  
using digital simulation language /DSL/  
[SAE PAPER 710401] p0287 A71-24263
- Thermal performance of hypersonic engine struts  
[NASA-CR-111812] p0126 N71-14045
- SUBASSEMBLIES**
- Experimental flight mechanics in terms of data  
processing quality, discussing subsystems control  
p0280 A71-23928
- SUBCIRCUITS**
- U CIRCUITS**
- U SUBASSEMBLIES**
- SUBCRITICAL FLOW**
- Subcritical nonlinear potential flows over two  
dimensional subsonic airfoils by multistrip method  
of integral relations  
p0556 A71-36330
- Subcritical flows over two dimensional airfoils by  
multistrip method of integral relations  
[RE-393J] p0042 N71-10581
- Pressure distributions calculated with Sells method  
on series of quasi-elliptical symmetrical airfoils  
in subcritical flow  
[NRC-11693] p0160 N71-14612
- Approximation of pressure distribution on wing-body  
configurations at subcritical speeds

Minimum drag surface shape of thick lifting delta  
wing integrated with conical fuselage for  
supersonic cruising speed  
p0369 A71-27716

Minimum drag wing-fuselage combination for  
supersonic speeds and prescribed lifting force,  
longitudinal moment and volume, using method of  
successive approximations  
p0416 A71-29182

## SUBJECT INDEX

## SUPersonic BOUNDARY LAYERS

- Energy state approximation and supersonic aircraft minimum fuel fixed range trajectory optimization, noting not convex velocity set  
p0439 A71-30609
- Altitude, bank angle and thrust program for minimizing time required by supersonic aircraft to turn through specified heading angle and reach required energy  
[AIAA PAPER 71-796] p0508 A71-34021
- Thyristor power conditioning application to high voltage DC electric power system, presenting SST aircraft sample load profiles  
p0548 A71-35770
- Composite materials effect on supersonic aircraft weight, design and performance  
[SAWE PAPER 888] p0551 A71-35818
- Strategic bomber B-1A program, discussing airframe and engine contractors, design, characteristics performance, electronic equipment and armament  
p0561 A71-36757
- Three dimensional minimum fuel turns for supersonic aircraft by energy state approximation  
[AIAA PAPER 71-913] p0596 A71-37163
- Supersonic aircraft shape for shock waves minimization based on channel configuration with converging inlet and diverging outlet section  
p0699 A71-44572
- Development and characteristics of variable sweep wing control system for supersonic aircraft  
[NASA-CASE-XLA-03659] p0651 N71-11041
- Development and characteristics of translating horizontal tail assembly for supersonic aircraft  
[NASA-CASE-XLA-08801-1] p0651 N71-11043
- Design of supersonic aircraft with novel fixed, swept wing planform  
[NASA-CASE-XLA-04451] p0108 N71-12243
- Computer program for structural design optimization of horizontal stabilizer of supersonic aircraft  
p0118 N71-13137
- Absorptive, nonreflecting barrier mounted between closely spaced jet engines on supersonic aircraft, for preventing shock wave interference  
[NASA-CASE-XLA-02865] p0169 N71-15563
- Thermodynamic properties of insulated liquid methane fuselage tanks for supersonic cruise aircraft  
[NASA-TN-D-6157] p0238 N71-17506
- Performance of auxiliary inlet ejector nozzle with floating inlet doors and floating single hinge trailing edge flaps  
[NASA-TM-X-2173] p0239 N71-17554
- Linear multichannel control systems for supersonic aerospace vehicles orbiting in earth atmosphere  
[AD-714796] p0241 N71-17747
- Takeoff performance predictions for XB-70 delta wing supersonic aircraft  
[NASA-TM-X-2215] p0252 N71-18509
- Flight and wind tunnel evaluations of flow field effects on performance of supersonic underwing exhaust nozzle at transonic speeds  
[NASA-TM-X-66887] p0302 N71-19366
- Wind tunnel surveys of flow fields about wing fuselage store configuration inlets of transonic and supersonic aircrafts  
[NASA-TM-X-66885] p0303 N71-19371
- Aerodynamic flow field interference effects on supersonic intakes  
p0303 N71-19372
- Design and characteristics of exhaust system for supersonic aircraft  
p0308 N71-19459
- Design and characteristics of supersonic cruise inlets  
p0309 N71-19460
- Aerodynamic stability of supersonic free flight model from static and dynamic subsonic and supersonic wind tunnel tests  
[NAL-TR-210] p0313 N71-19749
- Planning for expected civil aviation developments caused by change-over to Boeing 747 aircraft and supersonic transport  
p0380 N71-22381
- Planning for civil aviation operations including Boeing 747 aircraft and supersonic aircraft  
p0380 N71-22382
- Market forecasts and traffic control technologies of Boeing 747 aircraft and supersonic aircraft operations  
p0380 N71-22383
- Civilian airline operations with Boeing 747 aircrafts and supersonic aircraft  
p0380 N71-22385
- Planning parameters for high capacity international airport system  
p0381 N71-22389
- Investigation of longitudinal and lateral stability and controllability of supersonic aircraft  
[AD-718285] p0400 N71-23818
- Investigation of stability and controllability parameters for supersonic aircraft under varying aerodynamic load conditions  
[AD-719804] p0465 N71-25032
- Stability and controllability of supersonic swept wing aircraft  
[AD-719803] p0465 N71-25049
- Supersonic aircraft lateral control equipment  
[AD-720740] p0477 N71-26538
- Complexity of supersonic aircraft systems for stability and controllability  
[AD-721027] p0517 N71-27354
- Noise reduction in turbulent axisymmetric gas jet by repeated air injection method applied to supersonic transport aircraft  
[NASA-TT-P-13667] p0522 N71-28222
- Mathematical model for supersonic aircraft Mach number threshold operation for atmospheric reflection of sonic boom  
p0525 N71-28376
- Experimental and theoretical study of biologically important radiation components and dose equivalents due to galactic and solar rays at SST in high atmosphere - summary  
p0584 N71-30779
- Study of concept of inertially aided barometric altimetry system to meet vertical separation requirements of 1000 and 2000 feet for Mach 3.5 aircraft in altitude hold at 80,000 feet  
[NASA-CR-1770] p0590 N71-31307
- Heat sink capabilities of Jet-A fuel - heat transfer and coking studies  
[NASA-CR-72951] p0592 N71-31482
- Evaluation of liquid methane storage and transfer problems for future supersonic aircraft cryogenic fuel requirements  
[NASA-CR-72952] p0678 N71-34648
- Aerodynamic and flight characteristics of supersonic aircraft and spacecraft motion in planetary gravitational fields  
[AD-726580] p0683 N71-35224
- Jet aircraft measurements of galactic cosmic radiation dose and comparison with theoretical values for supersonic flights  
[UCRL-20209] p0728 N71-38552
- SUPersonic AIRFOILS**
- Shock wave interaction between supersonic airfoils, slender bodies, and thin wings and plane shock wave  
[VTH-158] p0578 N71-30321
- Minimum drag airfoil shape solutions with supersonic flow and turbulent boundary layers for given chord length and heat transfer rate  
[AD-726767] p0708 N71-36409
- SUPersonic BOUNDARY LAYERS**
- Supersonic laminar boundary layer structure near convex corners for large turning angles  
p0004 A71-10461
- Plate critical surface temperature in case of stabilization by supersonic boundary layer cooling  
p0137 A71-16852
- Interaction theory for supersonic separated and reattaching turbulent boundary layers, comparing to real flow past compression ramp  
[AIAA PAPER 71-128] p0153 A71-18572
- Supersonic turbulent boundary layer density profile over flat plate at single Reynolds number, using Mach-Zender interferometer  
p0287 A71-24270
- Supersonic boundary layer flow profile distortion due to oblique shock during separation  
p0291 A71-24592
- Heat and mass transfer in supersonic laminar boundary layers with light gas injection, deriving approximate solution for binary mixture flow with variable fluid properties  
p0299 A71-25097
- Interaction theory for supersonic separated and reattaching turbulent boundary layers, comparing to real flow past compression ramp

Free wave reflection measurements of normal acoustic impedance of ground surfaces in relation to shock waves from large supersonic commercial aircraft p0068 A71-13278  
Commercial supersonic flight, investigating air pollution and alleged climate and weather modification effects due to principal exhaust products p0214 A71-21921  
Meteorological problems of operation of commercial supersonic aircraft, including sonic boom intensity and extent [CASI PAPER 72/7] p0601 A71-37597  
Evacuation tests from 280-passenger SST mock-up through different type exits [FAA-A7-70-19] p0313 N71-19812  
Cost estimations, noise constraints, and supercritical wing compatibility in optimization of turbofan engines for Mach 0.90 to Mach 0.98 commercial air transports p0641 N71-33246

**SUPERSONIC COMPRESSORS**

- Supersonic compressor performance, discussing shock and dump losses and wave structure model errors p0297 A71-24869  
Analytical model of compressor sensitivity to transient and distorted transient flows, considering inlet duct, compressor stages and combustor up to turbine nozzles [AIAA PAPER 71-670] p0441 A71-30734  
Supersonic cylindrical freon compressor with low blade height for elementary compression and flow visualization aerodynamic and thermodynamic tests p0544 A71-35467  
Normal shock existence in blade spacings of rotor and guide vanes of axial flow supersonic compressor as function of pressure nonuniformity p0664 A71-41843  
Semi-empirical determination of adiabatic efficiency of supersonic compressor stage [AD-715005] p0245 N71-18036

**SUPERSONIC DIFFUSERS**

- Pseudoshock mechanism model, explaining supersonic diffuser main flow static pressure increase and decrease alternately and wall increase monotonously p0020 A71-11870  
Started supersonic axisymmetric parallel diffuser, examining wall static pressure and heat transfer p0099 A71-15489  
Air inlet for simulation of shock wave separated flow in supersonic diffusers, deriving pressure variation profile along free boundary p0416 A71-29175  
Viscous slipstream flow downstream of triple shock wave intersection in supersonic diffuser air flow, using Pitot and static pressure probe measurements p0660 A71-40981  
Flow distribution and performance of supersonic vane diffusers for centrifugal compressors [NASA-TT-P-13428] p0112 N71-12541  
Oscillating interaction of turbulent boundary layers and shock waves in supersonic diffusers p0309 N71-19496  
Mechanical feasibility and aerodynamic effectiveness of rotating vaneless diffuser [AD-716370] p0310 N71-19558

**SUPERSONIC DRAG**

- Aerodynamic interference characteristics of airframe-propulsion systems of transport and military aircraft [AGARD-CP-71-71] p0301 N71-19353  
Swept wing body configurations for reduced drag at supersonic speed p0301 N71-19358  
Aerodynamic configuration effects of propulsion system integration into supersonic transport design p0304 N71-19373

**SUPERSONIC FLIGHT**

- Statics and aerodynamics of lifting decelerators /parawings and sailwings/ at supersonic and hypersonic speeds [AIAA PAPER 68-945] p0010 A71-10927  
Soviet book on meteorological conditions and supersonic aircraft flight covering atmospheric composition and structure, temperature distribution, wind effects, etc p0029 A71-12840  
Radiological risks of cosmic radiation during high altitude supersonic flights, considering galactic, solar and incident particles in aircraft atmosphere p0064 A71-13099  
Jet engine contribution to lift at supersonic flight velocities via air mass heating, studying three dimensional flow with heat supply and stream deflection p0190 A71-19746  
Concorde airworthiness requirements and Air Registration Board participation in flight test program, considering supersonic flight characteristics p0276 A71-23579  
Supersonic flight path curvature effects on local shock wave production, considering no boom zone and ground rules p0354 A71-26310  
Subsonic and supersonic airline operations, restraints, considering noise, air pollution and

- inadequate airport facilities p0358 A71-26870
- Annular vaporizing combustion chamber with film cooling, determining flame temperature under supersonic flight conditions p0411 A71-28749
- Supersonic aircraft propulsion by external heat addition, discussing numerical method for suitable caret wing design p0543 A71-35398
- Sonic aircraft boom propagation analysis for horizontal flight in unperturbed atmosphere p0050 N71-11036
- Numerical determination of aerodynamic coefficients for thin supersonic wings at various angles of attack [NASA-TT-F-13521] p0258 N71-18987
- Dynamics and control of supersonic propulsion systems p0309 N71-19462
- Accelerated supersonic motion of plane at finite angle of attack [NASA-TT-F-13525] p0391 N71-23278
- Clear air turbulence in stratosphere and effects on weather formation, atmospheric physics, and supersonic flights [JPRS-53133] p0469 N71-25746
- Supersonic or hypersonic vehicle control system comprising elevons with hinge line sweep and free of adverse aerodynamic cross coupling [NASA-CASE-XLA-08967] p0515 N71-27088
- Wind tunnel models for sonic boom simulation at high Mach numbers p0525 N71-28377
- Low Mach number supersonic flight data on sonic boom signatures at cutoff Mach number p0525 N71-28381
- Aircraft design, flight characteristics, and atmospheric effects on sonic boom during supersonic and hypersonic flight p0585 N71-30787
- SUPERSONIC FLOW**
- Supersonic overexpanded jet flow past cone, determining impingement point by method of characteristics p0007 A71-10613
- Wing-body interference in supersonic inviscid flow, extending Stewartson approach to arbitrary smooth convex cylinder p0008 A71-10774
- Supersonic and transonic flow including effects of pressure oscillations within cavity, predicting rectangular cavities drag from mathematical model p0010 A71-10931
- Skew panels with in-plane forces under yawed supersonic flow, calculating flutter by matrix displacement methods p0011 A71-10939
- Circular cone with cross shaped wings in supersonic flow, determining flow characteristics, velocities and pressure p0021 A71-11958
- Wing computation in steady or unsteady supersonic flow, using network, inverse discrete and numerical inversion methods p0064 A71-13129
- Aerodynamic characteristics of aircraft in steady and unsteady supersonic flow by analog electrical method, including wing-fuselage interactions p0064 A71-13130
- Thin plane wings with mixed leading edges, applying linearized supersonic flow theory p0079 A71-14241
- Soviet papers on working processes in aircraft engines covering gas flow, liquid injection, nozzles, gas turbines and supersonic flow p0079 A71-14251
- Plane and wedge shaped airfoil profiles of variable thickness, deriving stability in bilateral supersonic air flow p0081 A71-14365
- Turbulent base pressure on conical afterbodies in supersonic axisymmetric flow, including initial direction effect [AIAA PAPER 70-555] p0082 A71-14450
- Inviscid binary gas mixture steady supersonic two dimensional flow past convex corner, taking into account spontaneous condensation p0082 A71-14559
- Interaction between supersonic flow and transverse sonic or supersonic jet blown perpendicular to main stream through circular hole in wall p0083 A71-14572
- Analog and digital methods for interactions between aircraft lifting elements in steady or unsteady supersonic flow [ONERA-TP-850] p0090 A71-15358
- Supersonic flow past notch in lateral body surface or in two closely lying coaxial bodies, applying turbulent jet theory to separation zone p0100 A71-15626
- Turbulent boundary layer separation at low supersonic Mach numbers based on blowdown wind tunnel tests p0134 A71-16582
- Supersonic flow field around flat plate at various angles of attack, comparing Brieden and Lighthill approximations p0135 A71-16713
- German monograph on ignition and combustion processes in rapidly flowing gas mixtures covering supersonic flow, ramjet parameters, flow heating, etc p0137 A71-16900
- Supersonic flow field downstream of turbofan aircraft engine fan nozzle over bodies of revolution, using boundary layer theory and method of characteristics p0138 A71-17150
- Initial structure of wing-body interaction in steady inviscid supersonic flow, obtaining asymptotic expansion from canonical problem solution p0141 A71-17219
- Slender, conical, plane and cambered wing-body combinations with different volume distributions in supersonic flow, comparing experimental with theoretical aerodynamic characteristics p0141 A71-17418
- Shock wave bisector rule improvement, applying to asymptotic behavior of bow shock attached to airfoil in two dimensional supersonic flow p0142 A71-17420
- Supersonic axisymmetric wake-like and two dimensional shear nonuniform free stream flows effects on inviscid flow fields and aerodynamic coefficients of sharp and spherically blunted cones [AIAA PAPER 71-51] p0151 A71-18512
- Three dimensional inviscid supersonic flow fields with primary and embedded shock and expansion waves determined over and behind wings and wing-body configurations [AIAA PAPER 71-99] p0153 A71-18554
- Unsteady supersonic aerodynamic coefficients evaluation to desired kinematic consistency level using finite element method [AIAA PAPER 71-177] p0154 A71-18616
- Intensified molecular diffusion during turbulent mixing of supersonic slipstreams in cylindrical mixing chamber, using optical Prudnikov method p0189 A71-19733
- Shock wave interaction with wedge moving at supersonic speed, calculating geometry of regions formed intersecting wavefronts p0190 A71-19741
- Viscosity effects on three dimensional supersonic flow around circular half cones on flat plate, examining turbulent boundary layer separation p0190 A71-19743
- Supersonic air flow pattern over rectangular indentations on plane and axisymmetric surfaces, examining static pressure and adiabatic temperature distributions p0190 A71-19744
- Jet engine contribution to lift at supersonic flight velocities via air mass heating, studying three dimensional flow with heat supply and stream deflection p0190 A71-19746
- Inverse boundary value problems in hydroaeromechanics, involving profile construction from given velocity or pressure distribution and supersonic flow boundaries determination p0197 A71-20078
- Surface construction of body of revolution in supersonic gas flow from distribution of velocity vector modulus along generatrix of body, using Frankl method of characteristics

- p0198 A71-20789  
 Multilink approximation of Chaplygin function in subsonic and supersonic flow regions, deriving coupling conditions relative to modified stream function at approximation nodes
- p0198 A71-20090  
 Flutter analysis of stressed flat simply supported skew panels in supersonic flow, using small deflection thin plate theory
- p0209 A71-21302  
 Hanging shock wave in small supersonic flow past profile with broken generatrix in plane ideal gas
- p0217 A71-21872  
 Laser Doppler velocimetric technique for supersonic flow particle trajectory and density measurements, noting particle lag  
 [AIAA PAPER 71-287]
- p0220 A71-22010  
 Flow lines construction in two dimensional supersonic flow region with rarefaction waves interaction from several disturbance sources
- p0223 A71-22052  
 Three dimensional laminar boundary layer on cone at incidence in supersonic flow evaluated by pressure distribution technique, comparing heat transfer, Pitot probe measurements, etc  
 [AIAA PAPER 70-48]
- p0264 A71-22088  
 Liquid properties effect on secondary injection from spray nozzle, determining jet penetration in supersonic stream by scattered light and schlieren photographs
- p0264 A71-22089  
 Interaction flowfield of two dimensional supersonic airstream with transversely injected jets of various gases, presenting wall static pressure, gas concentration and temperature measurements
- p0265 A71-22111  
 Turbulence properties in supersonic flow, considering modes with vorticity, entropy and acoustic aspects
- p0277 A71-23603  
 Supersonic flow separation around cross shaped horizontal tail plane with subsonic leading edge, obtaining pressure distribution and aerodynamic characteristics
- p0277 A71-23608  
 Plane sandwich plates in supersonic gas flow, investigating aeroelastic stability, transverse shear flexibility and axial loads
- p0277 A71-23609  
 Mach cones reflection at thin wing subsonic leading edges in supersonic flow, considering axial disturbance velocity and pressure distributions
- p0277 A71-23616  
 Delta wing of symmetrical thickness and optimum variable geometry for two supersonic cruising speeds
- p0277 A71-23617  
 Vortex layer near circular cone surface in supersonic axisymmetric steady flow of homogeneous inviscid gas
- p0289 A71-24372  
 Linear theory of weakly perturbed supersonic plane axisymmetric flows of gas-particles mixture, deriving partial differential equation for perturbation potential
- p0289 A71-24373  
 Backward facing step in confined supersonic two dimensional flow, investigating turbulent shear layer reattachment
- p0292 A71-24622  
 Nonlinear forced vibrations of aeroelastic plate in two dimensional supersonic flow under harmonic pressure near critical Mach number
- p0292 A71-24643  
 Cylindrical shells panel flutter analysis for internal stress and supersonic flow, considering still air buckling data useful for determining buckling loads  
 [AIAA PAPER 71-328]
- p0342 A71-25308  
 Breakup mechanism of liquid sheets and jets in supersonic gas stream, using spark photomicrographs and high speed movies
- p0345 A71-25471  
 Shielded fine wire probe for total temperature rapid measurement in high speed flows, discussing construction and theoretical considerations
- p0347 A71-25528  
 Steady supersonic isoenergetic flow of thermally and calorically perfect gas past circular cones at zero angle of attack, using dimensional perturbation method
- p0358 A71-26939  
 Two phase supersonic barotropic flow with solid particles around thin profile with allowance for elastic particle collisions
- p0362 A71-27450  
 Turbomachine blade cascades in supersonic flow, noting wave configurations, entropy and counter pressure variations
- p0363 A71-27475  
 Particle interaction with wedge surface in supersonic two phase flow, determining incidence coordinates and collision frequency as function of initial conditions
- p0368 A71-27665  
 Unsteady flow downwash behind finite span slender wing during supersonic motion at finite Strouhal numbers
- p0368 A71-27697  
 Wing thickness optimal distribution for minimum wave drag in supersonic flow at zero angle of attack for given planform, using Ritz method at lower Mach numbers
- p0417 A71-29222  
 Heat transfer within resonant cavities at subsonic and supersonic flow, discussing wind tunnels, test procedures and data reduction  
 [ASME PAPER 71-PE-9]
- p0421 A71-29450  
 Turbulent skin friction and heat transfer prediction on flat plates and wind tunnel walls at supersonic and hypersonic Mach numbers, using Van Driest theory
- p0429 A71-29868  
 Supersonic mass flux probe description, discussing inlet geometry, angle of attack and Reynolds and Mach numbers effects on performance
- p0429 A71-29925  
 Flowfield production by fluid injection into supersonic crossflow, occurring with liquid/gas jet control of vehicle with combustion ramjets  
 [AIAA PAPER 71-728]
- p0442 A71-30775  
 Pisa University Aeronautical Institute activities 1960-1970, considering supersonic and subsonic flow research, thin stiffened shells fatigue under compressive or tensile loads, etc
- p0444 A71-30822  
 Supersonic potential flow at large distance from slender body of revolution at angle of attack, deriving nonlinear partial differential equations system
- p0479 A71-31170  
 Near field flow pattern of inclined slender body of revolution, using Whitham far field theory of supersonic flow  
 [AIAA PAPER 71-626]
- p0483 A71-31554  
 Inviscid supersonic flow field structure over blunt delta wing, determining attack angle effects on shock layer surface pressure distributions and streamline patterns  
 [AIAA PAPER 71-596]
- p0485 A71-31576  
 Surface liquid film wave motion effect on air supersonic turbulent boundary layer flow field, discussing film thickness, heat transfer rates and wall temperatures  
 [AIAA PAPER 71-623]
- p0495 A71-32544  
 Sonic boom phenomena, discussing supersonic flow near aircraft, atmospheric propagation, distortion, focusing, caustics, turbulence effects and reduction
- p0495 A71-32566  
 Two vortex model for downwash variations in supersonic flow past thin delta wing with separation at leading edges
- p0533 A71-34190  
 Stream lines construction in meridional plane of blade nozzle annular cascades of steam and gas turbines in subsonic and supersonic flow
- p0534 A71-34446  
 Negative pressure gradient effect on separation of supersonic flow over notches, comparing theory with wind tunnel determination
- p0538 A71-34898  
 Flow distribution behind laminar boundary layer separation point in supersonic flow, calculating plateau region pressure
- p0546 A71-35629  
 Turbulent boundary layer interaction with supersonic outer flow behind step, calculating pressure

# SUPERSONIC TEST APPARATUS

# SUBJECT INDEX

## SUPERSONIC TEST APPARATUS

Development and calibration of Mach 1.2 rain erosion test apparatus  
[AD-715909] p0254 N71-18651

## SUPERSONIC TRANSPORTS

NT BOEING 2707 AIRCRAFT

NT CONCORDE AIRCRAFT

NT SUPERSONIC COMMERCIAL AIR TRANSPORT

Commercial SST environmental effects on stratospheric air, water vapor content and earth surface temperature

p0013 A71-11178

SST program relation to airline operations, comparing production configuration, performance, economics and operation with subsonics

[AIAA PAPER 70-1217] p0013 A71-11248

Electrohydraulic thrust control system for supersonic transport aircraft engines, considering reliability, performance and weight

[SAE PAPER 700819] p0016 A71-11546

Atmospheric turbulence at cruise altitudes of supersonic transport aircraft, considering gusts probability, thunderstorms and mountain waves

p0065 A71-13137

Ravinsonde reported extreme wind speed in arctic stratosphere at SST altitudes

p0135 A71-16700

Supersonic jet transport legal aspects in land overflight, discussing ground noise and sonic boom effects on persons and property

p0144 A71-17644

SST noise suppression research, discussing engine noise suppressor conceptual designs and test results with installed devices

p0199 A71-20302

Mesosphere and stratosphere data from high level observations for supersonic transport and reentering space vehicle operations

p0212 A71-21724

Supersonic transport air traffic meteorology, considering high altitude and flight velocities, applications technology satellites for lower stratosphere thunderstorms, clear air turbulence, etc

p0272 A71-23070

Supersonic transport fuel tank environments and sealant requirements, describing Boeing laboratory environment approach

p0275 A71-23424

Supersonic transport inlet-engine-airframe compatibility programs, noting exhaust nozzle installation effects, distortions and noise

[AIAA PAPER 68-993] p0295 A71-24854

ATC regulations considered for Concorde introduction to passenger service, discussing landing and takeoff characteristics

p0340 A71-25232

Torsional-flexural stability of stiffened Ti panels for application to supersonic transport, using small deflection energy methods

[AIAA PAPER 71-338] p0342 A71-25317

Wind tunnel evaluation of analytical method for predicting longitudinal stability and aerodynamic characteristics of large flexible aircraft applied to supersonic transport configuration

[AIAA PAPER 71-343] p0343 A71-25322

SST problems, including adequate instrumentation and fuel tank immunization to explosion

p0358 A71-26883

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques

p0359 A71-27016

Cruising flight range as function of supersonic/subsonic transport fuselage geometrical parameters

p0364 A71-27494

SST in relation to U.S. world leadership in air transportation, discussing federal funding needs for technological capability assurance

p0420 A71-29387

Stratospheric turbulence correlation to mesoscale horizontal temperature gradient at altitudes flown by SST from Coldscan program

p0425 A71-29767

Uneven runway taxiing vibration effects on supersonic transport aircraft, comparing calculation with measurement

SST sonic boom minimization, discussing cross-country flight

p0432 A71-30305

Commercial SST aircraft engine noise during takeoff, discussing exhaust geometries for suppression

p0444 A71-30820

SST stability augmentation system, discussing performance, operational safety and reliability benefits

[AIAA PAPER 71-785] p0507 A71-34015

SST sonic booms, investigating intensity and transonic aircraft supersonic flight feasibility

p0509 A71-34100

Environmental effects on SST structural materials fatigue, discussing Ti alloys studies involving temperature effects, crack propagation and residual strength

p0535 A71-34556

Stratospheric ozone reduction through catalytic action of nitrogen oxides from SST exhaust, discussing degrading effect on atmospheric radiation shield

p0562 A71-36922

SST sonic boom generation, discussing aircraft design and atmospheric conditions effects and property damage

p0658 A71-40705

Atmospheric wind, temperature, turbulence, hydrometeors, ozone, cosmic radiation and radio activity effects on commercial SST Concorde flight

p0659 A71-40829

Sonic boom minimization including front and rear shocks, exemplified by SST aircraft

p0660 A71-40972

SST handling qualities, takeoff speeds and performance evaluation on six degree of freedom flight simulator

p0691 A71-42922

Supersonic transports and ATC, discussing taxiing, takeoff, landing and terminal area operations

p0698 A71-44352

SST operation climatic impact assessment program, considering carbon dioxide, water vapor, contrails, particulates, nitrogen oxides and carbon monoxide

p0703 A71-44982

Radiation hazards of supersonic transport, and tidal characteristics of Saint Lawrence River

[AD-710638] p0939 N71-10390

Northern Hemisphere temperature field atlas for SST flight planning

[AD-712017] p0050 N71-11031

Position locating system for remote aircraft using voice communication and digital signals

[NASA-CASE-GSC-10087-2] p0125 N71-13958

Pitch and yaw characteristics of supersonic transport aircraft with variable sweep wings at various Mach numbers

[NASA-TM-X-2164] p0236 N71-17415

Environmental impact of supersonic transport

p0238 N71-17545

Traffic control system for supersonic transports using synchronous satellite for data relay between vehicles and ground station

[NASA-CASE-GSC-10087-1] p0260 N71-19287

Aerodynamic configuration effects of propulsion system integration into supersonic transport design

p0304 N71-19373

Flight tests of Boeing 747 aircraft and operational analysis for supersonic transport

p0380 N71-22386

Aerodynamic characteristics affecting stability and controllability of supersonic aircraft

[AD-718474] p0397 N71-23538

Performance prediction of methane-fueled supersonic transports over range of cruise speeds up to Mach 4

[NASA-TM-X-2281] p0467 N71-25384

Prediction methods for sonic boom generation and propagation with overpressure minimization in supersonic transport design and operation

[NASA-SP-255] p0523 N71-28363

Low sonic boom design for supersonic transport configurations

p0526 N71-28382

Computerized multivariate design analysis for low sonic boom overpressure supersonic transport

## SUPPORTS

Soviet book on supports and suspensions of aircraft gyroscopic devices covering accuracy, reliability and lifetime factors related to quality and operational conditions

## SUBJECT INDEX

SUPPRESSORS p0199 A71-20299

SST noise suppression research, discussing engine noise suppressor conceptual designs and test results with installed devices  
p0199 A71-20302

Acoustic noise output from round interfering subsonic jets, considering suppressor nozzle attenuation  
p0699 A71-44560

SURFACE CHEMISTRY  
U SURFACE REACTIONS  
SURFACE COOLING  
Effective heat transfer coefficients in film cooling systems of gas turbine surfaces  
p0234 N71-17395

SURFACE DEFECTS  
Statistical analysis of airfield pavement condition at US Naval Air Station, Cubi Point, Philippines  
[AD-724675] p0640 N71-33224

SURFACE EROSION  
U EROSION  
SURFACE FINISHING  
Axial compressor blades surface finish and fatigue strength restoration by vibrational tumbling  
p0206 A71-20843

Surface treatment effects on high shear strength adhesive bonding of fiber reinforced plastics to metal substructures  
p0282 A71-24069

Airport runway surface strengthening, discussing overlaying additional rigid or flexible layers, replacing used sections and reinforcement problems  
p0293 A71-24756

Helicopter component surface finish smoothness and residual stress requirements, using abrasive grinding belt machines with gear link mechanisms  
p0413 A71-28943

Development of rain erosion resistant plastic coatings as high speed aircraft surface finish  
[AD-727750] p0725 N71-38133

SURFACE GEOMETRY  
Approximate determination of complex geometry aircraft surfaces in form of discrete points, comparing efficiency to other methods  
p0156 A71-18714

Surface geometry effect of polycentric gas bearing on rotor stability in dynamic equilibrium without radial load  
p0268 A71-22799

Photoelectric, bolometric and photographic recording assembly for measurement of light pressure and aerodynamic forces on complex shape body in free molecular flow  
p0415 A71-29155

SURFACE INTERACTIONS  
U SURFACE REACTIONS  
SURFACE NAVIGATION  
Satellite systems for transatlantic simultaneous air and marine navigation, traffic control and rescue, stressing technical and economical factors  
p0146 A71-18015

Communications, navigation and surveillance for aircraft and marine vessels in North Atlantic region, discussing baseline traffic control model  
p0181 A71-18808

Navigation and communication satellites development for civil aviation and shipping, examining technical, organizational, operational and cost problems  
p0533 A71-34240

Civil aviation and merchant marine satellites, considering aircraft and surface vessel antenna characteristics and modulation techniques for optimum communication channel frequencies  
p0546 A71-35582

Satellite navigation system for aviation and marine use, examining operational requirements, economic viability and technical solutions  
p0662 A71-41509

Wrongful death liability in aviation and admiralty, considering U.S. Congress refusal to enact legislation

## NT SURFACE TEMPERATURE

## NT WALL TEMPERATURE

Free wave reflection measurements of normal acoustic impedance of ground surfaces in relation to shock waves from large supersonic commercial aircraft

p0068 A71-13278

Turbulent boundary layer wall pressure fluctuations on hydrodynamically smooth and rough surfaces, investigating eddies, space-time decay rate and flow structure

p0137 A71-16961

Large aspect ratio rectangular duct with nonuniform surface texture, investigating turbulent flow, maximum velocity positions and zero shear stress

p0181 A71-18772

Surface strain measurements in turbine blades by time average holographic interferometry, reviewing resonant modes and holographic fringe patterns [ASME PAPER 71-GT-84]

p0353 A71-25992

Thickness requirements for unsurfaced roads and airfields [AD-713897]

p0176 A71-16452

High aspect ratio planing surface gliding on infinitely deep, incompressible, inviscid, and gravity-free fluid [AD-717667]

p0379 A71-22345

Effects of runway contaminants and pavement surface properties on runway slipperiness

p0582 A71-30767

## SURFACE REACTIONS

Uniform surface blowing effects on hypersonic boundary layer with viscous interaction, calculating heat transfer on flat plate and slender wedge

p0299 A71-25096

Finite difference method for calculating sonic boom overpressure signatures in vicinity of caustics [AD-718835]

p0399 A71-23738

## SURFACE ROUGHNESS

Laminar boundary layer perturbation by sinusoidal wall roughness, analyzing effect on transition nature and position

p0363 A71-27470

Low speed aerodynamic characteristics of airfoil profiles including effects of upper surface roughness simulating hoar frost [NPL-APRO-1308]

p0047 A71-11016

Effect of decreasing altitude on statistics of radar backscatter from random rough surface [NASA-CR-114803]

p0162 A71-14755

Air flow over roughness discontinuity [AD-712113]

p0168 A71-15465

Runway and taxiway profile and airplane response measurements to determine runway roughness

p0582 A71-30766

Grooved and ungrooved runway surface effects on aircraft tire spin-up characteristics and tread damage [NASA-TN-X-2345]

p0633 A71-32798

Analysis of seaplane impact on planing deadrise in smooth and rough water [AD-727753]

p0720 A71-37614

## SURFACE ROUGHNESS EFFECTS

Sound field interaction with sinusoidally corrugated surface, considering aircraft noise measurement implications

p0207 A71-21162

Surface roughness ensuring turbulent reattachment at low Reynolds numbers on airfoil sections with separation near leading edge resulting in bubbles [ONERA-TP-923]

p0279 A71-23762

Supersonic boundary layer transition on adiabatic wall, discussing wind tunnel size, surface roughness and freestream disturbances effects [AIAA PAPER 70-586]

p0365 A71-27554

Uneven runway taxiing vibration effects on supersonic transport aircraft, comparing calculation with measurement

p0432 A71-30305

Turbulent boundary layer response to step change in surface roughness, discussing wind tunnel measurements of pressure and velocity profiles

p0616 A71-39505

Aerodynamically stable meteorological balloon using surface roughness effect [NASA-CASE-XMP-04163]

p0387 A71-23007

Landing accidents investigations for Hawker Siddeley 748 aircrafts with performance measurements on rough surfaces

## SURFACE TEMPERATURE

## NT SKIN TEMPERATURE (NON-BIOLOGICAL)

## NT WALL TEMPERATURE

Commercial SST environmental effects on stratospheric air, water vapor content and earth surface temperature

p0394 A71-23417

Lifting body leeward surface maximum heat transfer coefficient in hypersonic flow, considering Reynolds number, incidence and shape effects

p0013 A71-11178

Plate critical surface temperature in case of stabilization by supersonic boundary layer cooling

p0099 A71-15486

Estimated aerodynamics of all-body hypersonic aircraft configurations [NASA-TN-X-2091]

p0312 A71-19706

Lee surface flow and aerodynamic heating on delta wing orbiter

p0472 A71-26060

Leeside aerodynamic heating of lifting reentry vehicle configurations

p0473 A71-26061

Airborne infrared radiometer measurement of ocean water surface temperatures [AD-726512]

p0696 A71-35494

## SURFACE TENSION

## U INTERFACIAL TENSION

## SURFACE TO SURFACE MISSILES

Principles of operation and characteristics of attitude control systems for surface-to-surface missiles [AD-717096]

p0331 A71-20922

## SURFACE TREATMENT

## U SURFACE FINISHING

## SURFACE VEHICLES

## NT AIRCRAFT CARRIERS

## NT CARGO SHIPS

## NT NUCLEAR POWERED SHIPS

## NT SATELLITE COMMUNICATIONS SHIPS

## NT TANK TRUCKS

Strapdown inertial guidance and software technologies for cosmic speed aerospace vehicles and low speed air, marine and ground transport

p0089 A71-15301

Urban transit and ATC vehicle identification and position determination system, considering surface and airborne traffic real time information communication

p0208 A71-21169

Experimental research at Building Research Station on outdoor sound propagation for building design in relation to aircraft and road traffic noise

p0540 A71-35237

Liquid hydrogen as future replacement for hydrocarbon fuels in surface and air transportation, noting advantages in energy per unit weight and pollution-free combustion

p0699 A71-44365

Legal aspects of air and surface carrier interactions in freight transportation

p0058 A71-12119

Comparison of aircraft and surface vehicle stopping performance under varying runway conditions [NASA-TN-D-6098]

p0107 A71-12235

Development and characteristics of high speed ground transportation system [PB-193144]

p0115 A71-12760

Visual factors in air and surface transportation systems [PB-196014]

p0306 A71-19397

Urban air and surface vehicle noise levels and abatement potential [OST-ONA-71-1-VOL-2]

p0332 A71-21085

Investigation of aerodynamic forces imposed on vehicles proposed for operation in improved urban transportation system

p0473 A71-26129

Analysis of road traffic problems at Washington National Airport and recommendations to improve airport access [REPT-3]

p0476 A71-26526

Production and efficiency of small gas turbine engine for helicopter and surface vehicles [AGARD-LS-46-71]

p0511 A71-26951

Design and performance of gas turbine engines for helicopters and surface transport vehicles

p0512 A71-26953

# SURFACE WAVES

# SUBJECT INDEX

- Engineering aspects and manufacturing of gas turbine engines for helicopters and ground transport vehicles  
p0512 N71-26956
- Comparison of small gas turbine and diesel engine power plants for aircraft and ground vehicle propulsion  
p0512 N71-26958
- Testing ASMI/transponder for moving emergency service vehicles on airfields during poor visibility conditions  
p0571 N71-29553
- Analysis of transit access to Oakland International Airport, Oakland, California, and recommendations for improved service  
[PB-197937] p0592 N71-31463
- Analysis of technology for high speed ground transportation  
[PB-198015] p0621 N71-31766
- SURFACE WAVES**
- NT GRAVITY WAVES**
- Surface liquid film wave motion effect on air supersonic turbulent boundary layer flow field, discussing film thickness, heat transfer rates and wall temperatures  
[AIAA PAPER 71-623] p0495 A71-32544
- SURFACES**
- Minimum suction rate preventing laminar boundary layer separation from curvilinear porous surface in jet flow  
p0025 A71-12553
- Lifting surfaces supersonic-hypersonic flutter at angle of attack determined by shock expansion, Newtonian flow and local flow piston theory  
[AIAA PAPER 71-327] p0342 A71-25307
- Three dimensional jet flap and lifting line/ surface theories application to STOL aerodynamic systems with externally blown flaps and augmentor wing  
[AIAA PAPER 71-578] p0484 A71-31568
- Bibliography of documents containing numerical data on planar lifting surfaces  
[AGARD-R-574-70] p0037 N71-10339
- SURFACTANTS**
- Solutions of aqueous fluorochemical surfactants placed on surfaces of liquid hydrocarbons and hydrocarbon fuels for suppression of fuel evaporation  
[AD-723189] p0627 N71-32050
- SURGES**
- Automatic antisurge control of axial compressor using partial gas recycling bypass method  
p0069 A71-13370
- Pure impulse two stage turbocompressor, preventing surge with automatic adjustment to air flow rate  
p0136 A71-16798
- Surge voltages produced by transient currents on signal conductors in shielded cables  
p0195 A71-19946
- Compressor surge effect on mixed compression inlet flow from numerical solution of one dimensional unsteady inviscid flow equations in variable area duct  
[AIAA PAPER 69-484] p0295 A71-24855
- Analytical model of compressor sensitivity to transient and distorted transient flows, considering inlet duct, compressor stages and combustor up to turbine nozzles  
[AIAA PAPER 71-670] p0441 A71-30734
- SURVEILLANCE**
- NT SPACE SURVEILLANCE (GROUND BASED)**
- Communications, navigation and surveillance for aircraft and marine vessels in North Atlantic region, discussing baseline traffic control model  
p0181 A71-18808
- Airborne surveillance for environmental management, discussing earth resources program, aerial sensors for thermal water pollution, crop disease, salinity and geological structure  
p0183 A71-19080
- Tethered, ground supplied, rotor-borne, self stabilized surveillance platform /Kiebitz/ system, discussing reconnaissance tasks, fire and communication control and data acquisition transmission and evaluation  
p0479 A71-31212
- Aircraft ILS signal reception system, obtaining category III reliability performance by circuit redundancy and automatic incoming information surveillance  
p0490 A71-31912
- Air navigation, surveillance and traffic control technology effects on land and airspace uses at airports  
p0542 A71-35371
- Development and characteristics of aircraft, helicopters, and airships for detecting and destroying submarines  
[AD-723558] p0621 N71-31772
- SURVEILLANCE RADAR**
- Optimum VTOL aircraft landing maneuverability, using short range three dimensional surveillance system and ground computer  
p0071 A71-13574
- Statistical connection strategies for automatic multiradar air traffic surveillance using track computer  
p0081 A71-14395
- Integrated electro-optical microwave radar and laser /lidar/ systems for earth oriented, environmental and domestic applications  
p0181 A71-18827
- Secondary surveillance radar in ATC systems, discussing advantages and implications for controllers  
p0271 A71-22955
- Air traffic controller height and plan position indicator composite picture display system design and operation, combining functions of primary and secondary surveillance radars  
p0650 A71-40128
- Surveillance radar installed on helicopter for obstacle avoidance  
p0125 N71-13938
- SURVEYING**

**TEMPERATURE PROBES**

Reverse flow temperature probe design and calibration for vertical soundings from aircraft, comparing to radiosonde method p0020 A71-11822

Shielded fine wire probe for total temperature rapid measurement in high speed flows, discussing construction and theoretical considerations p0347 A71-25528

High total temperature sensing probe using fluid oscillator concept for X-15 hypersonic aircraft [NASA-CR-116772] p0391 N71-23250

**TEMPERATURE PROFILES**

Heated jet interaction with deflecting flow in subsonic wind tunnel, presenting flow visualization and temperature and velocity profiles [ASME PAPER 71-HT-2] p0604 A71-37980

Temperature field profiling along radius in front of gas turbine stage, applying to regeneratively cooled turbine engine p0703 A71-45011

Jet VTOL fighter-type model inlet-air temperature rise analysis with various exhaust pressure ratios and gas temperatures and surface wind velocities for correlating parameters [NASA-CR-111867] p0324 N71-20271

Calculations of clear column radiances using infrared temperature profile radiometer measurements taken by Convair-990 over partly cloudy areas [NOAA-TN-NESS-28] p0337 N71-21842

## TEMPERATURE SENSORS

High performance fighter aircraft engine pressure ratio and turbine inlet temperature measurement, using fluidic sensors p0203 A71-20586

Upper air sounding systems problems, discussing aerodynamic heat transfer between temperature sensor and ambient air p0212 A71-21739

Fluid amplifiers theory and use as temperature and pressure sensors, discussing applications in chemical and ammunition industries and jet aircraft control [IEEE PAPER 70-TP-120-IGA] p0691 A71-42921

Heat flux sensor adapted for mounting on aircraft or spacecraft to measure aerodynamic heat flux inflow to aircraft skin [NASA-CASE-XPR-03802] p0388 N71-23085

Airborne nucleonics equipment design for indicating helicopter lift capability using X ray backscatter from Kr-85, temperature sensor, and digital computer [SAN-805-1] p0565 N71-29215

**TEMPERATURE TRANSDUCERS**

U TEMPERATURE MEASURING INSTRUMENTS

U TEMPERATURE SENSORS

**TENSILE DEFORMATION**

Inflation of initially spherical balloon of elastic rubber-like material, discussing tensile instability p0345 A71-25445

**TENSILE PROPERTIES**

Flight service effects on residual tensile properties of C-130 aircraft center wing plate section [NASA-CR-111828] p0402 N71-24021

**TENSILE STRENGTH**

Low alloy steels and superalloys inertia welding in gas turbine field, discussing microstructure tensile strength and stress rupture [ASME PAPER 71-GT-21] p0349 A71-25965

Monograph on fiber-resin composites covering glass, boron and carbon fibers and epoxy matrix materials tensile and thermoelastic properties p0534 A71-34469

Strength of adhesive of carbon fiber composite material bonds [DLR-FB-71-31] p0639 N71-33100

**TENSILE TESTERS**

U TENSILE TESTS

**TENSILE TESTS**

Pisa University Aeronautical Institute activities /1960-1970/, considering supersonic and subsonic flow research, thin stiffened shells fatigue under compressive or tensile loads, etc p0444 A71-30822

**TENSION TESTERS**

U TENSILE TESTS

**TENSOR FIELDS**

U TENSORS

**TENSORS**

Tensor inertia conversion from principal to rotated coordinates system, obtaining negative products in aircraft p0298 A71-24949

**TERMINAL BALLISTICS**

Combat aircraft vulnerability to projectile impact predicted by model giving target penetration, damage size and structural response [AIAA PAPER 71-777] p0507 A71-34013

Wing structural elements ballistic damage tolerance and residual fracture strength characteristics, discussing projectile velocity, impact angle and target thickness effects p0540 A71-35161

Armored cockpit for attack aircraft combat effectiveness, including mold line tumbling plates, terminal ballistic kinematics and integral structural armor [AIAA PAPER 71-778] p0545 A71-35530

**TERMINAL FACILITIES**

Digital simulation program in GPSS language for airline operations including aircraft maintenance, flight scheduling, terminal space, equipment, work forces utilization, etc p0020 A71-11809

Helicopter operations integration into civil air traffic system, noting special requirements for mixed fixed and rotary wing terminal environments

- V/STOL aircraft operations, considering terminals, landing and approach aids, air traffic, noise and pollution control, performance, airworthiness regulations and licensing p0029 A71-12892
- Air transport development, examining capital investment, traffic volume and facilities p0071 A71-13572
- Airport planning and terminal facilities operation in 1970s, considering impact on developing countries p0079 A71-14246
- Helicopters, heliports and helistops, discussing need for public facilities p0087 A71-14994
- Public-use ground level and rooftop helicopter and STOL aircraft landing facilities for city and suburban traffic p0098 A71-15440
- Optimum flight paths for V/STOL aircraft operating in short haul transportation near city centers p0098 A71-15442
- Airport adaptation to large capacity aircraft, considering terminal installations, infrastructures, runways, roads and traffic areas p0098 A71-15443

 Ti alloy hot salt stress corrosion under simulated engine environmental conditions, presenting threshold data based on residual tensile ductility p0029 A71-12885  
 Titanium alloys for drop and press forged airframe, engine, rocket and spacecraft components, presenting physical and mechanical properties for various alloys and applications p0132 A71-16136  
 Ti-Al-V foils by electron beam vapor deposition, discussing metallurgical characteristics p0132 A71-16237  
 Plasma arc welding of jet engine components of Ti and Ni alloys, comparing to gas tungsten arc and electron beam processes p0211 A71-21684  
 Structural efficiency improvement by materials selection for airframe structures, discussing Al, Ti-Al-V and steel panels p0212 A71-21685  
 Ti alloys in aircraft industry, considering jet engines applications and structural stability improvements related to fracture toughness,

## TITRATION

fatigue and stress corrosion  
p0274 A71-23292

Chromium and titanium alloyed austenitic steels, examining short and long time application as turbine engine parts  
p0274 A71-23295

Quality assurance in Ti and Ti alloys processing, discussing smelting, ingot homogenization staging, costs and facilities  
p0275 A71-23303

Ti alloys structural high temperature applications in fighter aircraft, considering fabrication and assembly methods  
p0275 A71-23427

Precision forging and pressing of Al alloy and Ti alloy parts of aircraft structures at cost effective prices  
p0279 A71-23691

Alloy and heat treatment effect on Ti bondability for adhesive bonded aircraft structure, using annealed and aged Ti-6Al-4V and Ti-6Al-6V-2Sn alloys for testing  
p0282 A71-24093

Powder metallurgy parts application in aircraft, illustrating flareless-sleeve coupling nut of pressed and sintered Ti-6Al-4V alloy  
p0293 A71-24762

Airframe structural uses of Al, Ti and Be alloys, discussing need for structural efficiency improvements by proper heat treatment and stress relieving techniques  
p0505 A71-33875

Environmental effects on SST structural materials fatigue, discussing Ti alloys studies involving temperature effects, crack propagation and residual strength  
p0535 A71-34556

Diffusion bonding as economical fabrication process for aerospace applications involving Ti alloys, emphasizing mechanical properties and structural reliability improvement  
[SHE PAPER AD-71-245] p0560 A71-36661

Titanium fuselage environmental conditions in post-crash fuel fires  
[FAA-RD-71-3] p0316 N71-19901

Elevated temperature effects on fatigue life of tensile stressed titanium alloys, aluminum alloys, and stainless steels  
[NASA-TN-D-6145] p0374 N71-22076

Properties and selective applications of titanium alloys in airframes and jet engines  
p0515 N71-27045

Short-term creep properties of OT-4 alloy in high speed air flows under aerodynamic vibrations  
[NASA-TT-F-13658] p0530 N71-28832

Experimental investigation on effect of spot welded or adhesively bonded thermocouples and fatigue behavior of two titanium alloys suitable for use in high speed airplanes  
[NASA-TM-X-2288] p0531 N71-28891

**TITRATION**  
Aircraft turbine oils acid number potentiometric determination, discussing automatic titration procedure and apparatus and solvents influence on titration curve and inflection point  
p0560 A71-36680

**TOLERANCES (MECHANICS)**  
Soviet book on bolting and coupling elements threads used in aircraft industry covering configurations selection, cutting, tolerance requirements and quality control  
p0028 A71-12723

Cost effectiveness of closer tolerances in manufacturing  
[UCRL-72380] p0321 N71-20109

Technique for relating transient tolerances in inlet throat Mach number and shock position to supersonic unstart frequency due to atmospheric turbulence for supersonic inlet design  
[NASA-CR-114372] p0723 N71-37835

**TOLERANCES (PHYSIOLOGY)**  
NT ACCELERATION TOLERANCE  
NT HUMAN TOLERANCES

**TONOMETRY**  
U PRESSURE MEASUREMENTS

**TOOLS**  
NT GRINDING MACHINES  
NT MACHINE TOOLS  
NT WRENCHES

## SUBJECT INDEX

Evaluating adequacy of tool sets for aircraft maintenance  
[AD-719103] p0455 N71-24379

Performance test and evaluation of hand tools used in support of military aircraft maintenance  
[AD-726893] p0686 N71-35558

**TOPOLOGY**  
NT FIXED POINTS (MATHEMATICS)

**TORQUE**  
Helicopters safe antitorque control, describing Fenestron ducted fan design  
p0094 A71-15417

Aerodynamic forces and hinge moments of delta cruciform control surface in blunt-nosed canard configuration for subsonic, transonic and supersonic flows  
p0339 A71-25161

Transfer function system relating cornering force and aligning torque of rolling pneumatic aircraft tire to yaw angle and lateral displacement  
p0650 A71-40167

Effectiveness of anti-torque aerodynamic surfaces immersed in helicopter rotor downwash  
[AD-715438] p0257 N71-18937

**TORQUE MEASURING APPARATUS**  
U TORQUEMETERS

**TORQUEMETERS**  
Strain gage torquemeter as primary power indicating instrument in helicopter transmission systems, providing advantages for helicopter designer and operator  
[AHS PREPRINT 563] p0453 A71-31110

**TORSIONAL STRESS**  
Beams torsional rigidity under thermal stress due to arbitrary temperature distribution  
p0265 A71-22103

Torsional-flexural stability of stiffened Ti panels for application to supersonic transport, using small deflection energy methods  
[AIAA PAPER 71-338] p0342 A71-25317

Constrained torsion of spar box fastened along isolated parts of wing span, noting structural failure due to tangential stress distribution  
p0542 A71-35313

Torsional stress analysis of multiweb wing structures  
p0330 N71-20768

**TORSIONAL VIBRATION**  
Natural frequencies of cantilever turbine blade with asymmetric aerofoil under coupled bending-torsion vibrations, using Ritz-Galerkin method for equations of motion  
p0011 A71-11014

Turbomachine blades torsional-bending vibrations aerodynamic damping, noting natural frequency shift  
p0066 A71-13141

Transverse and torsional vibrations of fuselage-wing combination with wing tip fuel tanks, calculating mass and stiffness matrix for elastic beam  
p0202 A71-20364

Time optimal control for distributed systems with random properties, considering n integral relations and flying wing vehicle torsional vibration problems  
p0595 A71-37094

Torsional natural frequencies in coupled turbine and reciprocating engine system driving common propeller, using matrix techniques  
[ASME PAPER 71-VIBR-83] p0651 A71-40319

**TOUCH**  
Computerized touch display for ATC tasks compared to conventional keyboard tabular display performance  
p0649 A71-40114

**TOUCHDOWN**  
Helicopter optimal autorotation landing parameters for touchdown at zero speed, including rotor rpm drop due to flow separation on blades  
p0692 A71-43090

Importance of aircraft speed control relative to longitudinal touchdown dispersion  
p0110 N71-12432

Rate of wheel spin-up, and tire degradation at aircraft touchdown with different runway grooves  
[FAA-RD-71-2] p0320 N71-20069

**TOUGHNESS**  
NT NOTCH SENSITIVITY

- Damage tolerant aircraft structures material toughness and residual strength, presenting fracture test results on precracked panels reinforced with crack stoppers  
p0539 A71-35157
- TOWED BODIES**  
Rigid towed and free flight glider, considering loads and turbulent atmosphere effects  
p0278 A71-23669  
Longitudinal stability of plate-like load towed beneath helicopter in horizontal forward flight  
p0698 A71-44346  
Flight assessment of trailing-cone static pressure probe at subsonic speeds  
[RAE-TR-69139] p0104 A71-12214  
Derivation of stability boundaries in wind tunnels for bodies towed by cables  
[ARC-R/M-3644] p0250 A71-18461  
First order motion of cable towed and tethered bodies for predicting aircraft dynamic stability performance  
[VKI-TN-68] p0639 A71-33116
- TOWED TARGETS**  
**U TOWED BODIES**
- TOWERS**  
**NT AIRPORT TOWERS**
- TOWING**  
Nonlinear mathematical model for dynamical behavior of extensible towing cable subjected to aerodynamic forces generated by uniform flow field, discussing system stability  
p0445 A71-31026
- TOWNSEND DISCHARGE**  
**NT GAS DISCHARGES**
- TRACKERS**  
**U TRACKING (POSITION)**  
**TRACKING (POSITION)**  
**NT OPTICAL TRACKING**  
**NT PURSUIT TRACKING**  
**NT RADAR TRACKING**  
**NT RADIO TRACKING**  
**NT RANGE AND RANGE RATE TRACKING**  
**NT SATELLITE TRACKING**  
ATC satellites providing communications channels between aircraft and ground control stations and aircraft localization  
p0498 A71-32849  
Book on fluidic systems design covering analog and digital control, application to aircraft, spacecraft, computers, tracking devices and equivalent circuits  
p0503 A71-33475  
Computerized automatic estimation techniques application to real time aircraft tracking in ATC system design  
[AIAA PAPER 71-926] p0596 A71-37172  
Mathematical models for computerized ATC automatic aircraft flight tracking logics without tracks smoothing  
p0669 A71-42396  
Feasibility of visual tracking to determine effect of lag in simulated aircraft dynamics  
[IAM-R-479] p0256 A71-18838  
Prediction method for performance of total pilot-vehicle system in turbulence with application to tracking tasks  
[AD-722855] p0590 A71-31288
- TRACKING ANTENNAS**  
**U DIRECTIONAL ANTENNAS**
- TRACKING NETWORKS**  
Satellite systems for transatlantic simultaneous air and marine navigation, traffic control and rescue, stressing technical and economical factors  
p0146 A71-18015
- TRACKING RADAR**  
Acquisition and processing of aircraft search radar data obtained by track-while-scan technique, using off-line digital computer  
p0015 A71-11392  
Three dimensional ATC radar supplying simultaneous range, azimuth and elevation information for indefinite number of targets by continuous searching  
p0491 A71-32167  
National Aviation System stage A ATC displaying digitized radar data positions together with automatic track positions  
p0663 A71-41634
- Experimental design of three dimensional air traffic control radar tracking system  
p0034 A71-10164
- TRACKING STUDIES**  
**U TRACKING (POSITION)**
- TRACTION**  
High traction fluid effect on high speed roller bearing cage skidding, comparing with military specification oil  
[ASME PAPER 70-LUB-E] p0072 A71-13707
- TRACTS**  
**U SITES**
- TRADEOFFS**  
Performance and cost design tradeoff between HF and synchronous meteorological satellite data collection systems, considering platform transmitting power and SNR  
p0445 A71-30900  
Administrative techniques of cost/weight tradeoff program for jet transport airplane  
[SAWE PAPER 899] p0550 A71-35812
- TRAFFIC**  
**NT AIR TRAFFIC**  
Relations between aircraft and road traffic noise and noise tolerance in communities  
[TT-7102] p0675 A71-34019
- TRAFFIC CONTROL**  
**NT AIR TRAFFIC CONTROL**  
**NT RADAR APPROACH CONTROL**  
Satellite systems for transatlantic simultaneous air and marine navigation, traffic control and rescue, stressing technical and economical factors  
p0146 A71-18015  
Communications, navigation and surveillance for aircraft and marine vessels in North Atlantic region, discussing baseline traffic control model  
p0181 A71-18808  
Urban transit and ATC vehicle identification and position determination system, considering surface and airborne traffic real time information communication  
p0208 A71-21169  
Analysis of road traffic problems at Washington National Airport and recommendations to improve airport access  
[REPT-3] p0476 A71-26526
- TRAILING EDGES**  
Boundary layer separation at free streamline attachment to sharp trailing edge of flat plate, deducing terminal velocity profile for two dimensional flow  
p0023 A71-12376  
Turbulent separation and reattachment at turbomachine blade trailing edge at supersonic speeds, discussing various flow models  
p0066 A71-13142  
Stability theory for pair of trailing vortices, investigating induced field convection, modes, amplification, cut-off distance, etc  
[AIAA PAPER 70-53] p0069 A71-13436  
Vortex sheet behavior in inviscid subsonic flow of lifting wing with nonzero trailing edge angle  
p0073 A71-13738  
Lateral vibration effects on heaving airfoil blunt trailing edge vortex shedding flows, examining base cavity damping by flow visualization  
p0143 A71-17621  
Phantom and Buccaneer aircraft boundary layer control, examining lift from trailing and leading edges  
p0146 A71-17953  
Cavitation flow of fluid with free surface past underwater wing with jet flap, solving equations of motion for thin foil with jet emergent from trailing edge  
p0197 A71-20086  
Flat plate trailing edge problem solution consistent with second order boundary layer theory, establishing laminar wake evolution nature and upstream influence  
p0345 A71-25469  
Hele-Shaw flow viscous tails from airfoil, observing high Reynolds number trailing edge flow for separation and initiation of Kutta condition  
p0356 A71-26447  
Skin friction, trailing edge boundary profiles and tuft flow patterns on model F-4D aircraft in transonic flow  
[AIAA PAPER 71-762] p0505 A71-34001

- Compressible viscous gas supersonic flow, observing near wake region behind perpendicular trailing face of rectangular plate with motion, state, energy and continuity equations p0649 A71-40081
- Vortex shedding from blunt trailing edge of flat plate spanning wind tunnel under oscillating flap and acoustic resonance excitations p0699 A71-44558
- Lift and aerodynamic drag data on slender wings with trailing edge sweepback [ARC-CP-1130] p0229 N71-17117
- Boundary layer optimization for small turbine blade design with cusped trailing edge p0232 N71-17380
- Limits of hypersonic boundary layer theory, and leading and trailing edge phenomena in laminar hypersonic boundary layer p0315 N71-19833
- Pressure distribution near center line of trailing edges of delta wings and conical bodies at high supersonic speeds [ARC-CP-1153] p0635 N71-32868
- Correction for straight trailing edges for subsonic slender wing theory using asymptotic expansions p0674 N71-34012
- Theoretical analysis of trailing edge blowing effects on circulation around airfoils based on iterative solutions with lift coefficients [AD-726434] p0680 N71-35202
- TRAILING-EDGE FLAPS**
- Trailing edge flap automatic control for glider performance improvement p0063 A71-13020
- Shock interaction effects on flapped delta wing at hypersonic speed, presenting method for estimating reflected expansion wave impingement boundaries and resulting aerodynamic coefficients p0367 A71-27598
- Linear theoretical method for arbitrary wing planform and trailing edge control surfaces in low frequency oscillatory motion in subsonic flow [NPL-AERO-1303] p0047 N71-11013
- Lift and pressure distribution on leading edge slats and trailing-edge flaps of wing profile with boundary layer control [ARC-R/M-3639] p0171 N71-15706
- Lift and aerodynamic drag due to trailing-edge flaps on sweptback wings in inviscid subsonic flow [ARC-CP-1110] p0229 N71-17114

effect transistor amplifiers [AD-727761] p0723 N71-37792

**TRANSISTOR CIRCUITS**

Interface IC circuits for driving high voltage  
transistor switches from low level logic inputs,  
noting avionics application p0413 A71-28910

## TRANSISTORS

### TRANSISTORS

NT FIELD EFFECT TRANSISTORS

#### TRANSITION FLOW

Two dimensional wake laminar-turbulent transition by single and double frequency sounds imposition and wind tunnel natural disturbance, inducing velocity fluctuations

p0002 A71-10132

Two dimensional wake laminar-turbulent transition, emphasizing velocity fluctuation nonlinear interaction

p0138 A71-16964

Laminar boundary layer perturbation by sinusoidal wall roughness, analyzing effect on transition nature and position

p0363 A71-2747C

Emmons spot theory extension for boundary layer flow on blunt bodies, deducing spot formation rate dependence on transition Reynolds and Mach numbers

p0366 A71-27557

Aerodynamic characteristics similarity and variation in hypersonic flow transition region from free molecular flow to solid medium

p0416 A71-29172

Heat transfer in base type supersonic laminar and transitional separated flows

[AD-710347] p0035 N71-10249

#### TRANSITION METALS

NT COBALT ISOTOPES

NT NIOBIUM

NT REFRACTORY METALS

NT TITANIUM

#### TRANSITION POINTS

Laminar-turbulent boundary layer transition point on wing, using hot-wire anemometer and oscilloscope

p0025 A71-12555

#### TRANSLATIONAL MOTION

NT SECONDARY FLOW

NT THREE DIMENSIONAL FLOW

NT THREE DIMENSIONAL MOTION

Gyrocompass stability during circulations and arbitrary periodic maneuvers, taking into account translational motion vertical inertia component

p0546 A71-35604

Development and characteristics of translating horizontal tail assembly for supersonic aircraft

[NASA-CASE-XIA-08801-1] p0051 N71-11043

#### TRANSMISSION

NT AERODYNAMIC HEAT TRANSFER

NT AUTOMATIC PICTURE TRANSMISSION

NT CONDUCTIVE HEAT TRANSFER

NT CONVECTIVE HEAT TRANSFER

NT DATA TRANSMISSION

NT ELECTRIC POWER TRANSMISSION

NT ELECTROMAGNETIC WAVE TRANSMISSION

NT GROUND WAVE PROPAGATION

NT HEAT TRANSFER

NT HEAT TRANSMISSION

NT HYPERSONIC HEAT TRANSFER

NT IONOSPHERIC PROPAGATION

NT LIGHT SCATTERING

NT MICROWAVE TRANSMISSION

NT MULTIPATH TRANSMISSION

NT RADAR TRANSMISSION

NT RADIO TRANSMISSION

NT SATELLITE TRANSMISSION

NT SHOCK WAVE PROPAGATION

NT SOUND TRANSMISSION

NT SUPERSONIC HEAT TRANSFER

NT TELEVISION TRANSMISSION

NT TIME DIVISION MULTIPLEXING

NT TURBULENT HEAT TRANSFER

NT WAVE PROPAGATION

Transmission impending failure detection via lubricating oil monitoring for metal particle content

p0094 A71-15415

#### TRANSMISSION LINES

NT COMMUNICATION CABLES

#### TRANSMISSION LOSS

Ribbed aluminum panels airborne sound transmission loss, evaluating structural damping effects

p0210 A71-21431

#### TRANSMISSOMETERS

Development and evaluation of dual baseline transmissometer used to measure and record visibilities in range of nine to fifty kilometers

[NBS-10339] p0382 N71-22455

## SUBJECT INDEX

### TRANSMITTER RECEIVERS

Airborne communications with AN/ARC-154 transceiver in single radio, discussing extended frequency coverage, multimode operation, navigation and input/output provisions

p0548 A71-35758

Co-site analysis model automated for evaluation EM compatibility of single site employing large number of transmitting and receiving equipments

p0608 A71-38457

AN/ARC-144 solid state ultrareliable UHF multimode aircraft transceiver, discussing tuning, frequency synthesis and broadband power amplifier

p0613 A71-39209

#### TRANSMITTERS

NT RADIO BEACONS

NT RADIOSONDES

NT RADIOTELEPHONES

NT RAWINSONDES

NT SONOBUOYS

#### NT TRANSMITTER RECEIVERS

Location/identification transmitter and equipment for use in satellite applications in aircraft communication, navigation, and surveillance for US air traffic control

[NASA-CR-117759] p0379 N71-22340

Development and testing of VHF omnirange transmitter for aircraft azimuth guidance

[FAA-RD-71-65] p0687 N71-35779

C band radar transmitter for airborne radar system

[AD-727086] p0721 N71-37707

#### TRANSOCEANIC SYSTEMS

Satellite systems for transatlantic simultaneous air and marine navigation, traffic control and rescue, stressing technical and economical factors

p0146 A71-18015

Performance and costs of nuclear aircraft used in transoceanic commerce

[NASA-TN-X-2386] p0726 N71-38277

#### TRANSONIC AIRCRAFT

U SUPERSONIC AIRCRAFT

#### TRANSONIC COMPRESSORS

Transonic compressor rotors blade camberline shape optimization by various tip diffusion factor-ratio combinations

p0198 A71-20200

Transonic compressor shock wave noise generation and decay rates at multiple tones, using sonic boom analysis

[ASME PAPER 71-GT-7] p0348 A71-25953

Mach number effects on axial flow transonic compressor characteristics, using empirical corrections based on measured three dimensional grid characteristics

p0497 A71-32715

Multiple tone generation by axial flow transonic compressors, considering shock waves production and propagation associated with supersonic elements of blading

p0558 A71-36497

Inlet flow distortion testing of high Mach number transonic fan stages - Vol. 1

[NASA-CR-72786-VOL-1] p0163 N71-14863

Tabular data derived from inlet flow distortion tests of high Mach number transonic fan stages - Vol. 2

[NASA-CR-72786-VOL-2] p0164 N71-14864

Test description and results for high Mach number transonic fan stages to determine range and distortion tolerance for various rotor tip casing treatment configurations

[NASA-CR-82862] p0468 N71-25460

Tabulations of blade element and circumferential distortion flow data in tests of high Mach number transonic fan stages with various rotor tip casing treatment configurations

[NASA-CR-82867] p0468 N71-25461

Computer output tables for performance tests of single stage, transonic compressor for advanced aircraft

[NASA-CR-72964] p0639 N71-33169

Performance tests of single stage, transonic compressor for advanced aircraft

[NASA-CR-72806] p0640 N71-33201

#### TRANSONIC FLIGHT

SST sonic booms, investigating intensity and transonic aircraft supersonic flight feasibility

p0509 A71-34100

- Cone-cylinder-cone missile type body in transonic buffeting environment determining static and fluctuating wall pressure distribution  
[OBERA-TP-942] p0553 A71-36020
- Sonic boomless transonic transports design, performance, economics and airline routes at Mach 1.2 and 0.98  
[CASI PAPER 72/8] p0601 A71-37598
- In-flight P-111 data on total and static pressure from left inlet during automatically scheduled and manually controlled off-schedule positioning of spike at Mach 0.68 to 2.18  
[NASA-TN-D-6490] p0640 N71-33211
- TRANSONIC FLOW**
- Transonic flow through planar cylinder lattices, discussing flow pattern visualization and recording techniques by high speed camera  
p0001 A71-10108
- Supersonic and transonic flow including effects of pressure oscillations within cavity, predicting rectangular cavities drag from mathematical model  
p0010 A71-10931
- Fredholm method for reversible transonic flow in computing aircraft wing and turbomachine or helicopter blade airfoils for compressibility law  
p0012 A71-11022
- Swept wing fighter aircraft transonic buffet onset lift coefficient from camber and trailing edge deflection, considering design variations  
p0027 A71-12679
- Flow characteristics in turbomachine blade cascades with transonic regime, emphasizing shock- boundary layer interaction phenomena  
p0066 A71-13140
- Steady supercritical planar inviscid transonic flows over lifting airfoils, generating unsteady flow by impulsively imposing airfoil boundary condition  
[AIAA PAPER 70-47] p0069 A71-13433
- Lifting and side force distributions acting on body in transonic flow  
p0078 A71-14232
- Plane transonic flow with curved compression shock wave between subsonic and supersonic regions  
p0083 A71-14560
- Interaction between supersonic flow and transverse sonic or supersonic jet blown perpendicular to main stream through circular hole in wall  
p0083 A71-14572
- Symmetric airfoil profiles with sharp and rounded leading edges in inviscid gas unbounded uniform adiabatic transonic flow, solving by nonlinear approximation  
p0084 A71-14591
- Far and near field solutions of plane steady transonic flow past thin airfoil including imbedded shock waves, using small disturbance theory  
[AIAA PAPER 70-188] p0134 A71-16565
- Constant curvature wing contours in transonic flow, determining stream function by approximation  
p0148 A71-18227
- Transonic supercritical flow past arbitrary airfoils, using integral relations method  
[AIAA PAPER 71-98] p0152 A71-18553
- Transonic gas flows in axisymmetric small throat curvature radius Laval nozzle with appreciable flow parameters variation in transverse direction  
p0189 A71-19732
- Monograph on transonic shock free potential flow around quasi-elliptical airfoil sections, investigating flow stability under unsteady disturbances  
p0190 A71-19773
- Ideal gas jet sonic flow past wedge according to Kirchhoff scheme, testing sine series solution for convergence  
p0197 A71-20085
- Computerized transonic airfoil design from predetermined supercritical velocity distribution, obtaining equivalent incompressible flow through streamline and potential line network transformation  
p0199 A71-20304
- Dissipative fluid sonic flow and shock conditions downstream of symmetrical plane barrier  
p0279 A71-23824
- Nonuniform transonic shear compressible flow past symmetric airfoil, using linearized small disturbance theory  
p0293 A71-24761
- Underexpanded transverse sonic jet-hypersonic stream three dimensional flowfield based on inviscid rotational flow model  
p0345 A71-25472
- Time dependent asymptotic solution for transonic flows in hyperbolic nozzle and turbine cascades with oblique shock  
[ASME PAPER 71-GT-42] p0350 A71-25975
- Steady transonic flow through two dimensional gas turbine cascades predicted with time dependent formulation of flow equations, giving airfoil surface pressure distributions  
[ASME PAPER 71-GT-89] p0353 A71-25996
- Transonic airfoil testing techniques in two dimensional flow, discussing wind tunnel conditions at various Reynolds numbers  
p0362 A71-27467
- Low thrust jet effect on base pressures on boat-tailed afterbodies in Mach number 0.8-1.2 flow  
p0429 A71-29889
- Pressure distribution and drag prediction over slender axisymmetric fuselages and afterbodies and exhaust nozzles at transonic Mach numbers  
[AIAA PAPER 71-720] p0442 A71-30771
- Small disturbance equations for steady transonic flows past thin lifting airfoils and slender bodies  
[AIAA PAPER 71-566] p0484 A71-31560
- Compressible transonic flow about two dimensional airfoils, developing inviscid nonlinear potential equations by relaxation procedures  
[AIAA PAPER 71-569] p0484 A71-31562
- Skin friction, trailing edge boundary profiles and tuft flow patterns on model F-4D aircraft in transonic flow  
[AIAA PAPER 71-762] p0505 A71-34001
- Two dimensional steady viscous gas transonic flow Navier-Stokes equations, establishing uniqueness of solutions to boundary value problems  
p0547 A71-35646
- Mesh method for supercritical transonic flow calculation with normal or oblique shock wave at trailing edge  
p0550 A71-35799
- Small disturbance transonic flows potential equations numerical solutions, using mixed finite difference theory  
p0556 A71-36325
- Transonic flow theory and experiment, considering hodograph method, integral equation method, parabolic method and method of characteristics  
p0599 A71-37454
- Numerical analysis of plane transonic flows past shock free airfoils without boundary layer separation using inverse method of complex characteristics  
p0607 A71-38307
- Three dimensional nonlinear subsonic flow over finite wings of arbitrary planform, solving transonic small disturbance equation by integral method  
p0616 A71-39568
- Streamline curvature analysis of compressible subsonic, transonic and supersonic cascade flows in axial turbine blades  
p0698 A71-44347
- Transonic flows about two dimensional airfoils, calculating far field boundary conditions with coordinate transformation  
p0702 A71-44620
- Transonic airfoil cascade analytical design, determining efficiency from velocity distribution  
p0705 A71-45381
- Stability of smooth two dimensional transonic flows  
[AD-712702] p0103 N71-12207
- Test cases for numerical analysis of airfoil two dimensional transonic flow  
[AGARD-R-575-70] p0114 N71-12674
- Transonic pressure distribution on airfoils  
[AD-712397] p0116 N71-13060
- Transonic and supersonic dynamic stability characteristics of variable sweep wing tactical fighter aircraft  
[NASA-TM-X-2163] p0236 N71-17425
- Regions upstream and downstream from shock waves of airfoils in uniform and transonic flow  
[NASA-TT-P-13472] p0248 N71-18401

- Direct and inverse application of Dorodnitsyn technique to incompressible transonic flow over symmetric Joukowski airfoil sections  
[NAL-TR-220T] p0313 N71-19750
- Application of integral relations to inviscid supercritical flow over symmetric airfoils at zero angle of attack  
[AD-717339] p0374 N71-22098
- Procedures for predicting properties of transonic flows about thin airfoils and slender bodies  
[NASA-CR-1722] p0389 N71-23133
- Asymptotic solution of low frequency wing oscillations in transonic shockless adiabatic inviscid gas flow based on complete approximation  
p0390 N71-23193
- Finite difference method for calculating sonic boom overpressure signatures in vicinity of caustics  
[AD-718835] p0399 N71-23738
- Vortical transonic gas flow over wing profile  
p0469 N71-25714
- Structure of three dimensional transonic shear flow in turbomachine cascade examined in context of time dependent computer experiment  
[NASA-CR-1816] p0513 N71-27004
- System of nonlinear equations of motion for isentropic, compressible fluid solved by cyclic relaxation method for subsonic and transonic regimes  
p0530 N71-28688
- Design and characteristics of quasi-steady devices for simulation of high Reynolds number flows  
[NASA-CR-1838] p0590 N71-31262
- Induced lift characteristics of swept wing-body configuration with partial-span jet in flow at Mach 0.20 to 1.30  
[NASA-TM-X-2309] p0629 N71-32307
- Transonic pressure distributions on 12 percent thick, uncambered airfoils with maximum thickness at 0.3 and 0.7 of chord  
p0645 N71-33615
- Prediction formulations for transonic fluctuating pressure environments including protuberance induced turbulent boundary layer flows  
[NASA-CR-119947] p0712 N71-36677
- Numerical analysis of two-dimensional steady gas flow around thin symmetrical wings and shock wave formation during transition from sonic to supersonic flow  
[AD-727854] p0724 N71-37850
- TRANSONIC FLOWS**
- Numerical analysis of plane steady transonic flows past lifting airfoils with free-stream Mach numbers less than unity  
[D180-12958-1] N71-34275
- TRANSONIC FLUTTER**
- F-8D aircraft transonic flight and wind tunnel tests for buffet onset prediction, considering effects of  $q$  level and fluctuation amplitude and frequency  
[AIAA PAPER 70-341] p0296 A71-24863
- Sweptback thin cantilever wing transonic flutter density and velocity coefficients, investigating engine pod shaped concentrated mass location effects  
p0340 A71-25189
- Transonic flutter and buffeting for elastic wind tunnel models of straight wing proposed for space shuttles  
p0461 N71-24659
- TRANSONIC INLETS**
- U SUPERSONIC INLETS**
- TRANSONIC SPEED**
- Transonic wing profiles analog determination by hodograph method  
p0135 A71-16735
- Gliding guided ribbon parachute for transonic speed deployment, investigating turn capability, opening reliability, structural integrity and effective drag  
p0296 A71-24868
- Experimental aerodynamic performance characteristics of rotor entry vehicle configuration - transonic  
[NASA-TN-D-7047] p0177 N71-16534
- Construction of leading edges of surfaces for aerial vehicles performing from subsonic to above transonic speeds  
[NASA-CASE-XLA-01486] p0397 N71-23497
- Jet penetration into Mach 2 airstream using sweptback injectors at angle of attack

- VAPOR GENERATORS**  
U VAPORIZERS
- VAPOR LIQUID EQUILIBRIUM**  
U LIQUID-VAPOR EQUILIBRIUM
- VAPOR PRESSURE**  
Ar condensation onset location in supersonic nozzles  
for nuclear space propulsion systems, using  
supercooled vapor pressure measurements beyond  
saturation point
- p0288 A71-24328
- VAPORIZERS**  
Low pressure drop fuel liquid injectors for jet  
engine combustors, using gas turbine vaporizer  
design
- [ASME PAPER 71-GT-38] p0350 A71-25972
- VAPORIZING**  
NT EVAPORATION  
NT FILM BOILING  
NT PROPELLANT EVAPORATION
- Gas flow parameter changes under partially vaporized  
fluid injection, considering effects on pressure,  
temperature and rate of resultant mixture
- p0080 A71-14252
- VAPORS**  
NT WATER VAPOR
- VARIABLE AREA WINGS**  
U TRAILING-EDGE FLAPS
- VARIABLE GEOMETRY STRUCTURES**  
Concorde aircraft Olympus 593 two-spool turbojet  
engine, discussing variable nozzle and intake  
assembly, afterburner and control system
- p0183 A71-19081  
Delta wing of symmetrical thickness and optimum  
variable geometry for two supersonic cruising  
speeds
- p0277 A71-23617  
Variable geometry external fuel tanks for high  
performance aircraft with drag reduction upon fuel  
transfer
- [AIAA PAPER 71-395] p0341 A71-25271  
Automated low cost structural-mechanical design and  
optimization of wing pivot systems for variable  
geometry aircraft
- [AIAA PAPER 71-404] p0362 A71-27410  
Wind tunnel tests of geometrically compatible  
airfoils for variable chord sailplane
- p0418 A71-29257  
Two dimensional wind tunnel tests on airfoil  
fastened between tunnel walls, investigating  
variable chord concept applicability in sailplane  
design
- p0494 A71-32294  
Performance evaluation of variable geometry external  
fuel tank prototypes by static structural tests,  
wind tunnel tests and flight tests on F-111  
aircraft
- [AIAA PAPER 71-763] p0545 A71-35533
- VARIABLE LIFT**  
U LIFT
- VARIABLE SWEEP WINGS**  
V/STOL civil aircraft, considering rotor lift and  
variable sweep wings
- p0294 A71-24850  
Variable sweep wing aircraft angular motion  
mathematical model, analyzing inertial moments  
influence on control dynamics
- p0347 A71-25661  
Large variable sweep wing maneuver load relief  
system with ailerons reducing resulting bending  
moment at pivot
- p0486 A71-31600  
Fighter F-14 podded engine high variable sweep wing  
design including nozzle, nacelle, fuselage shift,  
aspect ratio and lift control improvements
- p0509 A71-34152  
Variable geometry B-1A bomber aircraft, discussing  
size, payloads, speed, altitude range and runway  
takeoff
- p0600 A71-37516

# SUBJECT INDEX

# VELOCITY DISTRIBUTION

Panavia 200 multipurpose military aircraft,  
describing variable geometry design concept,  
performance characteristics, engines, armament and  
electronics

p0702 A71-44766

Development and characteristics of variable sweep  
wing control system for supersonic aircraft  
[NASA-CASE-XLA-03659]

p0051 N71-11041

Aerodynamic performance of shuttle-orbiter  
configuration with variable delta wing geometry in  
low turbulence subsonic wind tunnels  
[NASA-TM-X-2206]

p0164 N71-14943

Longitudinal aerodynamic characteristics of  
hypersonic lifting body spacecraft with variable  
sweep wings

p0164 N71-14945

Viscous drag on variable sweep wings and wedges at  
supersonic and hypersonic speeds  
[ARC-R/M-3623]

p0228 N71-17109

Pitch and yaw characteristics of supersonic  
transport aircraft with variable sweep wings at  
various Mach numbers

p0236 N71-17415

Transonic and supersonic dynamic stability  
characteristics of variable sweep wing tactical  
fighter aircraft

p0236 N71-17425

Aerodynamics of variable sweep aircraft design  
[NASA-TM-X-2163]

p0318 N71-20054

Roll-control effectiveness of spoiler configurations  
on aircraft model with variable sweep wings at  
supersonic speeds

p0321 N71-20126

Low speed static wind tunnel tests of half-span  
fuselage and variable sweep pressure wing model  
[NASA-TN-D-6215]

p0646 N71-33776

Aerodynamic characteristics of variable sweep wings  
under a variety of operating conditions  
[AD-727210]

p0720 N71-37615

## VARIANCE

Time variant distortions in supersonic inlet on  
J-85-GE-13 turbojet engine from wind tunnel test,  
considering instantaneous distortion amplitudes  
and contours

p0441 A71-30733

VARIANCE (STATISTICS)  
Kalman filter application as observer of observable  
signals derivatives, using gain matrix to minimize  
variance estimate for instrument landing systems

p0209 A71-21343

Tests on scale model configurations of C-5 aircraft  
to obtain data correlation on three transonic wind  
tunnels

p0708 N71-36408

## VARIATION METHOD

U CALCULUS OF VARIATIONS  
VARIATIONS  
NT ANNUAL VARIATIONS  
NT DIURNAL VARIATIONS

## VARIOMETERS

Balloon and glider vertical speed indicators,  
considering barometric devices and electric  
variometer

p0148 A71-18248

## VC-10 AIRCRAFT

VC-10 aircraft ILS electronic equipment reliability  
tests

p0101 A71-15873

Autopilot landing system for VC-10 aircraft  
[ARC-CP-1125]

p0111 N71-12441

Aerodynamic drag measurements on VC-10 aircraft  
subsonic wind tunnel models

p0229 N71-17118

Vibrational responses of VC-10 aircraft during  
takeoff runs, noting cockpit accelerations  
[ARC-CP-1149]

p0634 N71-32811

## VECTOR ANALYSIS

NT VORTICITY  
Time vector method for aircraft flight test data  
evaluation, discussing control deflections effects  
on phugoid motion, lateral stability derivatives  
and error estimation

p0069 A71-13341

## VECTOR CONTROL

U DIRECTIONAL CONTROL  
VECTOR SPACES  
NT MATRICES (MATHEMATICS)  
NT STATE VECTORS  
NT VECTORS (MATHEMATICS)

## NT VORTICITY

## VECTORS (MATHEMATICS)

## NT STATE VECTORS

## NT VORTICITY

Time vector method extension to equations of motion  
with real roots, noting applications to aircraft  
flight control problems

p0147 A71-18049

## VEHICLE WHEELS

## NT NOSE WHEELS

Aircraft multiwheel undercarriage effect on rigid  
and flexible pavements, examining failure modes  
Flexible tires theoretical models application to  
wheel shimmy analysis, examining stretched string  
and point contact theories validity

p0021 A71-12164

Powered landing gear wheel system requirements for  
parking and taxiing of commercial jet transport  
airplanes

p0296 A71-24864

[SAE PAPER 710446]  
Functional analysis of landing gear systems  
[ASD-TR-69-113]

p0438 A71-30530

[ASD-TR-69-113]  
VEHICLES  
Drag coefficient of vehicle traveling coaxially with  
uniform velocity through solid wall tube of finite  
length

p0106 N71-12231

## VEHICLES

Investigating high speed ground transportation  
systems based on tracked air cushion vehicles  
[PB-190939]

p0621 N71-31763

## VEHICULAR TRACKS

Examining tracked air cushion vehicles as advanced  
ground transportation system  
[PB-195030]

p0050 N71-11033

VELOCITY  
NT ACOUSTIC VELOCITY  
NT AIRSPEED  
NT ANGULAR VELOCITY  
NT CRITICAL VELOCITY

## NT ROTOR SPEED

## NT SUBSONIC SPEED

## NT SUPERSONIC SPEEDS

## NT TIP SPEED

## NT TRANSONIC SPEED

## NT WIND VELOCITY

## VELOCITY DISTRIBUTION

Boundary layer separation at free streamline  
attachment to sharp trailing edge of flat plate,  
deducing terminal velocity profile for two  
dimensional flow

p0023 A71-12376

Casing /end wall/ boundary layers in multistage  
axial flow compressors, discussing velocity  
distributions

p0067 A71-13144

Jet fluid dynamics under various boundary conditions  
and velocity distributions

p0071 A71-13579

Centrifugal compressor impeller exit flow velocity  
distribution distortion based on equations of  
motion involving entropy gradient terms

p0075 A71-13831

Single stage axial flow turbocompressor with trips,  
examining viscosity effects on flow velocity  
profiles

p0077 A71-14133

[ASME PAPER 70-WA/FE-24]  
Rarefied gas low speed slip flow over wedge, solving  
for velocity profiles and skin friction

p0078 A71-14158

[ASME PAPER 70-WA/APM-26]  
Incompressible boundary layers with specific  
velocity distribution, studying stability on  
straight and yawing wings

p0136 A71-16849

Three dimensional boundary layer with Pohlhausen  
velocity distribution, examining stability on  
yawing wing

p0137 A71-16850

Inverse boundary value problems in  
hydroaeromechanics, involving profile construction  
from given velocity or pressure distribution and  
supersonic flow boundaries determination

p0197 A71-20078

- Surface construction of body of revolution in supersonic gas flow from distribution of velocity vector modulus along generatrix of body, using Frankl method of characteristics p0198 A71-20089
- Computerized transonic airfoil design from predetermined supercritical velocity distribution, obtaining equivalent incompressible flow through streamline and potential line network transformation p0199 A71-20304
- Flow in channel with abrupt asymmetric widening, calculating expanding flow velocity profile by Prandtl semiempirical turbulence theory p0222 A71-22041
- Turbulent flow in initial section of convergent axisymmetric nozzle based on logarithmic velocity law p0266 A71-22409
- Incompressible viscous fluid nonsteady three dimensional flow, obtaining velocity field and pressure distribution in boundary layer p0272 A71-23092
- Mach cones reflection at thin wing subsonic leading edges in supersonic flow, considering axial disturbance velocity and pressure distributions p0277 A71-23616
- Combustion reactions development with velocity gradient downstream steady shock wave, considering aerodynamic field in supersonic wind tunnel p0279 A71-23813
- Turbulent wakes from subsonic-hypersonic bodies for downstream mean flow predictions analysis, considering eddy viscosity function p0289 A71-24338
- Velocity and static pressure redistribution in distorted flow field upstream of axial flow compressors [AIAA PAPER 69-485] p0295 A71-24856
- Flow variation effect on velocity and flow angle distribution at exit of shrouded radial flow impeller with backward swept blades, using streamline curvature method [ASME PAPER 71-GT-15] p0349 A71-25961
- Three dimensional boundary layer flow and velocity profiles in mixed diffuser with equal angle walls [ASME PAPER 71-GT-40] p0350 A71-25973
- Flow patterns within centrifugal and mixed flow impeller channel, examining velocity distributions, blade surface pressure and flow behavior [ASME PAPER 71-GT-41] p0350 A71-25974
- Helicopter rotor vortex system and induced velocity field for various angles of attack, flight conditions and unit loads, using smoke visualization technique p0418 A71-29235
- Flow field velocity distribution at rotating wing devices tip vortices [AHS PREPRINT 522] p0450 A71-31088
- Interference analysis of wing with overlapping multipropellers in uniform velocity stream confined in elliptical cross section cylinder [AIAA PAPER 71-614] p0486 A71-31583
- Large jet transport aircraft trailing vortices, studying velocity fields, core diameters and logarithmic variations of circulation p0548 A71-35755
- Air injection into trailing vortex core, noting jet flow effect on circumferential velocity p0598 A71-37291
- Heated jet interaction with deflecting flow in subsonic wind tunnel, presenting flow visualization and temperature and velocity profiles [ASME PAPER 71-HT-2] p0604 A71-37980
- Turbulent boundary layer response to step change in surface roughness, discussing wind tunnel measurements of pressure and velocity profiles p0616 A71-39505
- Rectangular wind tunnel study of suction effect on velocity profiles and characteristics of turbulent boundary layer p0616 A71-39788
- Peak velocity vectors in transverse plane of jet transport aircraft wake, measuring tip vortices core size p0654 A71-40491
- Fog formation and dispersal by velocity field induced by helicopter trailing vortices, presenting dynamic model with droplet depletion, evaporation and condensation p0657 A71-40510
- Miniature wind tunnel velocity field calibration for testing anemometers, using null method with spherical probe p0661 A71-41380
- Minimum drag and lifting line characteristics of large aspect ratio wing in uniform shear flow with velocity variations along span p0693 A71-43312
- Subsonic force effect calculations on rectangular wings, using downwash velocity potential method p0702 A71-44613
- Method for calculating helicopter vortex paths and wake velocities [AD-710694] p0040 N71-10470
- Reynolds number effect on wind velocity distribution at subsonic speed [AD-712527] p0103 N71-12206
- Engineering methods for predicting temperatures and velocities in vicinity of vertical lift engines of jet V/STOL aircraft operating near ground [NASA-CR-111845] p0254 N71-18714
- Laminar boundary layer on wing and body of revolution in presence of blowing [NASA-TT-F-13627] p0400 N71-23796
- Design of two dimensional airfoil profile with prescribed velocity distribution using conformal mapping [SAAB-TN-67] p0638 N71-33037
- VELOCITY ERRORS**
- Combined inertial and instrument landing aircraft navigation systems with reduced cross runway position and velocity errors, using optimal linear estimation p0439 A71-30606
- VELOCITY FIELDS**
- U VELOCITY DISTRIBUTION**
- VELOCITY MEASUREMENT**
- NT WIND VELOCITY MEASUREMENT**
- Aircraft ultrasonic altitude and vertical velocity sensor for low flight, discussing VTOL aircraft automatic hovering control and time lag p0016 A71-11624
- Noise-producing subsonic jet turbulence eddies hot-wire anemometer measurements of convection velocity as functions of frequency [AIAA PAPER 71-154] p0154 A71-18596
- Velocity and density measurements in hypervelocity ballistic projectile turbulent wakes, using hot film anemometers [AIAA PAPER 68-701] p0191 A71-19891
- Laser Doppler velocimetric technique for supersonic flow particle trajectory and density measurements, noting particle lag [AIAA PAPER 71-287] p0220 A71-22010
- Centrifugal pump channels flow velocity measurement by optical method, noting flow separation near blade exits p0222 A71-22048
- Low speed testing of VTOL models in wind tunnels, describing method for estimating free air approach velocity and angle of attack p0498 A71-32724
- Precision area navigation system, considering position and velocity continuous measurement in three dimensional space, system components and simulation program p0536 A71-34616
- Velocity determination in hypersonic low density wind tunnel based on high energy electron beam produced nitrogen ions time of flight p0538 A71-34887
- Vortex laser Doppler velocimeter systems for aircraft wake turbulence velocity profile mapping, describing optical arrangements, back and forward scattering modes and prototype design p0548 A71-35756
- Dual scatter laser Doppler velocimeters for transonic wind tunnel measurements and calibration applied to simulated helicopter downwash, high lift wing and jet crossflow p0652 A71-40399
- Pressure altimeter, airspeed and vertical velocity instruments, discussing selection, installation, pilot verification, error identification, repair

- and use  
p0694 A71-43385
- Hot-wire anemometer measurements of streamwise magnitudes and normal velocity components of wing tip vortex  
[NASA-TM-X-62087] p0712 N71-36679
- Factors effecting volume from which data originate in laser Doppler velocimeter dual scatter probe  
[AD-727905] p0715 N71-36845
- VELOCITY POTENTIALS**  
U FLOW DISTRIBUTION  
U VELOCITY DISTRIBUTION
- VELOCITY PROBES**  
U PITOT TUBES  
U SPEED INDICATORS
- VELOCITY PROFILES**  
U VELOCITY DISTRIBUTION
- VENTILATORS**  
Loads on compressor, ventilator and turbine rotor disks having large central holes, giving formulas for stress distributions  
p0359 A71-26952
- Flow acoustic problems of ventilators, sound production mechanisms, and noise reduction  
[NASA-TT-F-13798] p0645 N71-33611
- VERBAL COMMUNICATION**  
Impedance measurements on modified broadband metal antenna for speech communication  
[FOA-3-C-3602-61] p0474 N71-26150
- NASA balloon-aircraft ranging, data and voice experiment for determining best approach for using ATS in air traffic control  
[NASA-TM-X-65649] p0632 N71-32527
- VERTEBRATES**  
NT BIRDS
- VERTICAL AIR CURRENTS**  
Scale lengths in atmospheric turbulence from spectra and autocorrelation of vertical air velocity component measured in low flying aircraft  
p0009 A71-10859
- Mountainous region vertical air flow research, describing superpressure balloon and precise pressure radiosonde system  
p0024 A71-12420
- Glider flight in thermal air currents, discussing aircraft behavior, pilot sensory perceptions and reactions and use of variometers for ascent rate determination  
p0203 A71-20685
- Horizontal and vertical gust load frequency and power spectra influence on longitudinal aircraft stability  
p0624 N71-31890
- VERTICAL DISTRIBUTION**  
Stratospheric turbulence induced aircraft buffeting dependence on vertical wind shear, Richardson number and thermal stability change from underlying to overlying layer  
p0480 A71-31365
- Relation between turbulence in stratosphere causing aircraft buffeting, and vertical distribution of meteorological parameters calculated from radiosonde data  
[NASA-TT-F-13981] p0707 N71-36398
- VERTICAL FINS**  
U FINS
- VERTICAL FLIGHT**  
Aircraft ultrasonic altitude and vertical velocity sensor for low flight, discussing VTOL aircraft automatic hovering control and time lag  
p0016 A71-11624
- Vertical situation display concept for alleviating problems of inadequate guidance and display information for making steep approaches  
p0582 N71-30770
- VERTICAL LANDING**  
V/STOL aircraft instruments, deck display and automatic flight controls for takeoff and landing operation  
p0415 A71-29132
- VTOL and STOL aircraft comparative study covering site area, cost and noise and toxic gas production  
p0431 A71-30163
- Long term prospects of air traffic development in competition with other modes, estimating VTOL service demand  
p0431 A71-30164
- VTOL turboshaft engine powered propulsion system development, detailing design requirements,  
p0692 A71-43090
- program planning, component research and system integration  
[AHS PREPRINT 562] p0452 A71-31109
- Low speed testing of VTOL models in wind tunnels, describing method for estimating free air approach velocity and angle of attack  
p0498 A71-32724
- Aerodynamic design of VTOL propellers, demonstrating possibility of cyclic control of XC-142 experimental propeller  
[DGLR-71-017] p0498 A71-32784
- Helicopter optimal autorotation landing parameters for touchdown at zero speed, including rotor rpm drop due to flow separation on blades  
p0692 A71-43090
- Transition, approach, and vertical landing tests for VTOL transport in terminal area  
[NASA-TM-X-62083] p0681 N71-35209
- VERTICAL MOTION**  
General aviation aircraft accidents involving seat belt and shoulder harness restrained occupants, discussing vertical force effects on survivability and injuries in severe crashes  
[SAE PAPER 710399] p0287 A71-24261

## VIEWING

Flight tests and simulation for determining effects of peripheral viewing losses on pilot performance during commercial aircraft landing  
[RAE-TR-70205] p0570 N71-29497

## VIKING LANDER SPACECRAFT

Longitudinal aerodynamic characteristics of Viking lander spacecraft at hypersonic speed  
[NASA-TM-X-2205] p0230 N71-17253

## VIRGINIA

Congressional hearings on Boeing 727 use of Washington National Airport  
p0240 N71-17697

## VISCOELASTIC DAMPING

## U ELASTIC DAMPING

## U VISCOUS DAMPING

## VISCOELASTIC FLOW

## U VISCOELASTICITY

## VISCOELASTICITY

Reduction of resonant vibrations in integrally stiffened skin-stringer panels using viscoelastic materials  
[AD-727773] p0717 N71-37540

## VISCOSITY

## NT EDDY VISCOSITY

## NT GAS VISCOSITY

Viscosity effects on three dimensional supersonic flow around circular half cones on flat plate, examining turbulent boundary layer separation  
p0190 A71-19743

Jet fuel antiwear properties relation to viscosity and adsorption tar and mercaptans content  
p0487 A71-31678

Aviation fuels lubricating characteristics, discussing refining methods, viscosity, service performance and load testing  
p0705 A71-45383

Laminar boundary layer effect on dynamic viscous pressure interaction in hypersonic flow  
[LR-535] p0645 N71-11003

## VISCOUS DAMPING

Turbine engine vibration dampers viscous resistance calculation based on equations of motion for incompressible and unheated Navier-Stokes liquid  
p0076 A71-13956

Linear damping in piston type liquid damped accelerometers, using porous glass materials  
p0273 A71-23173

Calculating flutter boundaries and estimating stresses in infinite spanwise array of panels using exact method of Zeydel  
[NASA-CR-1721] p0126 N71-14086

Design and operation of viscous pendulum damper  
[NASA-CASE-XLA-02079] p0180 N71-16894

## VISCOUS DRAG

Asymptotic limiting viscous flow pattern and drag on flat plate with stationary separation zones at large Reynolds numbers  
p0417 A71-29204

Compressible flow across shaft face seals and narrow slots, examining fluid inertia, viscous friction and entrance losses  
p0695 A71-43592

Viscous drag on variable sweep wings and wedges at supersonic and hypersonic speeds  
[ARC-R/M-3623] p0228 N71-17109

## VISCOUS FLOW

## NT BOUNDARY LAYER FLOW

## NT BOUNDARY LAYER SEPARATION

## NT REATTACHED FLOW

## NT SECONDARY FLOW

## NT SEPARATED FLOW

## NT STOKES FLOW

Hypersonic viscous air flow past blunt bodies with radiation, obtaining solution for Navier-Stokes equations by finite difference scheme  
p0076 A71-14062

Single stage axial flow turbocompressor with trips, examining viscosity effects on flow velocity profiles  
[ASME PAPER 70-WA/FE-24] p0077 A71-14133

Viscous gas flow interaction on delta wing and oblique airfoil at Mach number of infinity  
p0189 A71-19739

Computer calculation of high Reynolds number viscous and inviscid flow over arbitrary shaped two dimensional bodies and airfoils  
p0201 A71-20313

Laminar boundary layer interaction with shock wave in viscous supersonic flow near concave compression corner  
p0278 A71-23618

Numerical solution of axisymmetric minimum drag bodies in hypersonic viscous gas flow, obtaining coefficient of friction by local variations method  
p0289 A71-24370

Uniform surface blowing effects on hypersonic boundary layer with viscous interaction, calculating heat transfer on flat plate and slender wedge  
p0299 A71-25096

Hypersonic cruise vehicles viscous interactions areas, examining compression corners, shock interactions, laminar and turbulent flow, boundary layer separation, etc  
[AIAA PAPER 70-781] p0365 A71-27551

Viscous convergent-divergent nozzle flow slender channel approximation, discussing nozzle geometry, Reynolds number and wall temperature effects  
[AIAA PAPER 69-654] p0366 A71-27556

Asymptotic limiting viscous flow pattern and drag on flat plate with stationary separation zones at large Reynolds numbers  
p0417 A71-29204

Wind tunnel simulation of viscous hypersonic flow-laminar boundary layer interactions, presenting similarity parameter effects on aerodynamic characteristics  
p0417 A71-29224

Viscous stresses distribution in isothermal incompressible turbulent boundary layer with positive pressure gradient by diffusers in open jet wind tunnel  
p0533 A71-34209

Hypersonic viscous-inviscid internal flow field interaction with laminar boundary layer in circular ducts, using method of characteristics and implicit finite difference scheme  
p0541 A71-35281

Hypersonic aircraft design usable as transport or space shuttle, determining aerodynamic behavior in viscous flow  
p0557 A71-36431

Compressible viscous gas supersonic flow, observing near wake region behind perpendicular trailing face of rectangular plate with motion, state, energy and continuity equations  
p0649 A71-40081

Supersonic and hypersonic viscous gas flows with boundary layer induced pressure gradients, investigating disturbance upstream propagation by asymptotic theory  
p0657 A71-40680

Viscous slipstream flow downstream of triple shock wave intersection in supersonic diffuser air flow, using Pitot and static pressure probe measurements  
p0660 A71-40981

Viscous interactions and flight at high Mach numbers  
[AD-712075] p0103 N71-12204

Investigating supersonic viscous gas flow around blunt bodies  
p0225 N71-16902

Numerical computation of viscous hypersonic flow around slender bodies  
p0225 N71-16951

Proceedings for symposium on viscous interaction phenomena in supersonic and hypersonic flow  
[AD-714362] p0314 N71-19830

Viscous interacting flow in hypersonic streams, including flow over flaps, corners, delta wings, and wing-body combinations  
[NASA-TM-X-66914] p0314 N71-19831

Approximative solutions for heat transfer and drag coefficients in viscous interacting flow on thin three dimensional body  
[NASA-TT-F-13538] p0324 N71-20256

Boundary layer separation in viscous flow around rigid bodies  
[AD-717772] p0378 N71-22241

Computer program for aerodynamic characteristics evaluation of multiple-component airfoils in subsonic, viscous flow  
[NASA-CR-1843] p0639 N71-33140

# SUBJECT INDEX

# VISUAL PERCEPTION

Finite difference method for two dimensional and three dimensional viscous flow problems with applications to hypersonic leading edge equation [AD-726547] p0685 N71-35420

**VISCOUS FLUIDS**

Axisymmetrical three component flow equations for incompressible viscous fluid in cylinder with rotating disk p0444 A71-30855

Laboratory experiment on flow of viscous fluid along traveling waves p0378 N71-22221

**VISIBILITY**

**NT LOW VISIBILITY**

Aircraft compartment glare minimization for flight crew visibility conditions and visual performance improvement p0001 A71-10028

V/STOL spray generation tests concerning pilot visibility impairment in low altitude overwater hover p0098 A71-15444

Poor visual flight meteorological conditions, discussing instrumental and visual aids, airport landing and approach, holding patterns and overshoots p0146 A71-17922

Horizontal visibility range determination of lights on landing strip p0480 A71-31360

Concorde droop nose for takeoff and landing visibility improvement, describing design and operation p0607 A71-38343

Laser technique for runway and slant visibility range, lower cloud boundary and atmospheric damping coefficient p0696 A71-43889

American development in automatic flight control, noting FAA requirements, pilot involvement and visibility enhancement p0699 A71-44455

Ground visibility observations and automatic measurement of runway visual range of airport runways p0034 N71-10118

Visual factors in air and surface transportation systems [PB-196014] p0306 N71-19397

Development and evaluation of dual baseline transmissometer used to measure and record visibilities in range of nine to fifty kilometers [NBS-10339] p0382 N71-22455

Description of method for determining visibility in earth atmosphere [AD-719502] p0455 N71-24375

High intensity xenon flashtube lights for high intensity xenon flashtube lights for during daytime and nighttime flights [AD-718639] p0462 N71-24669

Development and performance testing of visibility meters and airport runway and carrier lighting equipment [NBS-10-577] p0619 N71-31619

Development of numerical rating for correlating safety-of-flight factors with aircraft speed and visibility restrictions [FAA-RD-70-48] p0686 N71-35735

Flight simulator for studying problems of aircraft during approaches and landings at night under category 2 visual conditions [RAE-TM-AVIONICS-59(BLEU)] p0719 N71-37606

**VISION**

**NT NIGHT VISION**

**VISIOPLASTICITY**

**U FLOW VISUALIZATION**

**VISUAL AIDS**

Electronic control indicator for human pilot capability enhancement using color coded cathode ray display, presenting information from seven different instruments p0008 A71-10750

Poor visual flight meteorological conditions, discussing instrumental and visual aids, airport landing and approach, holding patterns and overshoots p0146 A71-17922

Aircraft visual warning indicating system, outlining design criteria, color and brightness

recommendations [SAE-ARP-1088] p0187 A71-19644

Concorde economic flight testing methods, discussing Blagnac flight simulator mobile cabin visualization and color TV terrain model p0368 A71-27608

Visual aids for secondary airports [FAA-NA-70-51] p0053 N71-11474

**VISUAL CONTROL**

Visual factors in air and surface transportation systems [PB-196014] p0306 N71-19397

**VISUAL CUES**

**U CUES**

**U VISUAL PERCEPTION**

**VISUAL DISPLAYS**

**U DISPLAY DEVICES**

**VISUAL FIELDS**

Holographic display for blind landing system with variable image perspective over wide field of view, using collimated or cylindrical laser beam p0554 A71-36061

Aircraft head-up display systems for providing pilot information focused at infinity within pilot normal field of view p0650 A71-40131

**VISUAL FLIGHT**

V/STOL aircraft visual aids flight evaluation concerning minimum landing area operations p0098 A71-15445

Poor visual flight meteorological conditions, discussing instrumental and visual aids, airport landing and approach, holding patterns and overshoots p0146 A71-17922

Visual flight simulation devices, considering high resolution photographic films and digital memories p0421 A71-29483

Development study for VFR heliport standard lighting system [AD-710982] p0042 N71-10682

**VISUAL FLIGHT RULES**

VFR flying under adverse weather conditions, discussing radio navigational aid equipment and communication with ground stations p0203 A71-20683

VFR flying under bad weather conditions, discussing flight through and above cloud layers, need for radiotelephone communication and ground radar support p0213 A71-21767

Commercial ATC, considering VFR, flight control and inertial navigation p0666 A71-42078

European automatic flight control systems for landing in category IIIA conditions, discussing triplex system in Trident and simplex in Caravelle p0699 A71-44456

Evaluation of visual landing aids involving visibility meters and airfield lighting and marking [NBS-10604] p0726 N71-38211

**VISUAL OBSERVATION**

Externally blown flap powered transport high lift wind tunnel model visual flow field investigation with multiple filament smoke streamlines [AIAA PAPER 71-577] p0484 A71-31567

Feasibility of electroluminescent panels and rotor tip lighting for military helicopters to aid in observation by other vehicles in formation [AD-715851] p0255 N71-18734

**VISUAL PERCEPTION**

**NT AUTOKINESIS**

**NT SPACE PERCEPTION**

Automatic calculation of runway visual range of airport runways p0034 N71-10120

Visual approach slope indicator system for long-bodied aircraft [FAA-RD-70-76] p0056 N71-11905

Aviation ground lighting, visual landing aids, dual baseline transmissometer, photometric measurements of deck-landing projector sight, and lamp for Fresnel optical landing system [NBS-10508] p0382 N71-22456

Cockpit simulators without visual or motion cues in pilot training p0625 N71-31952

## VISUAL TASKS

## SUBJECT INDEX

## VISUAL TASKS

Feasibility of visual tracking to determine effect of lag in simulated aircraft dynamics  
[IAM-R-479] p0256 N71-18838

## VISUAL TRACKING

## U OPTICAL TRACKING

## VISUALIZATION OF FLOW

## U FLOW VISUALIZATION

## VJ-101 AIRCRAFT

Flight mechanics problems in accident investigations for VJ-101 aircraft

p0395 N71-23428

## VOICE COMMUNICATION

Data communication role in National Airspace System, concerning radar and flight data acquisition, intersystem transfer and voice control  
[AIAA PAPER 71-248] p0189 A71-19722

ESRO part of joint ATC communication experiment for L band satellite use, giving voice and data transmission and distance measurement techniques tests results

p0559 A71-36510

Position locating system for remote aircraft using voice communication and digital signals  
[NASA-CASE-GSC-10087-2] p0125 N71-13958

Environmental and performance tests of voice initiated cockpit control and interrogation system  
[AD-727574] p0721 N71-37723

## VOLATILIZATION

## U VAPORIZING

## VOLTAGE

## U ELECTRIC POTENTIAL

## VOLTAGE BREAKDOWN

## U ELECTRICAL FAULTS

## VOLTAGE MEASUREMENT

## U ELECTRICAL MEASUREMENT

## VOLTAGE REGULATORS

Soviet book on airplane and helicopter electrical power supply systems covering storage batteries, DC generators, alternators, voltage regulators, current and frequency control, etc

p0422 A71-29525

## VOLUME

Steady state inflated shape and included volume of 24 and 30 gore flat circular, extended skirt, porous ring slot, and porous ribbon parachutes  
[AD-718808] p0393 N71-23387

## VOLUMETRIC STRAIN

Ground effect vehicles limiting volumetric dissipations from air cushion and propulsion systems with fluid boundary by Coanda effect

p0192 A71-19923

## VON KARMAN EQUATION

Drag in turbulent wakes behind bluff bodies measured directly and compared with measurements derived from von Karman equation  
[DLR-FB-70-27] p0328 N71-20685

## VOR SYSTEMS

## U VHF OMNIRANGE NAVIGATION

## VORTEX BREAKDOWN

Vortex breakdown on slender sharp edged and modified delta wings with varying sweep angles investigated in wind tunnel using schlieren system for flow visualization  
[AIAA PAPER 69-778] p0221 A71-22028

Heat transfer to airfoil in oscillating flow at large angles of attack, showing vortex shed reattachment and Nusselt numbers increase  
[ASME PAPER 71-GT-18] p0349 A71-25963

Flow visualization and hot-wire measurements, showing vortex shedding association with turbulent air jet issuing from flat plate into cross wind

p0536 A71-34659

Vortex wakes transport and decay for various aircraft types, flight modes and meteorological conditions

p0655 A71-40499

Turbulent shear effect on isolated trailing single vortex decay behind aircraft

p0656 A71-40503

Aircraft wake turbulence relation to CAT, discussing flight control loss, jumbo jets trailing vortex wakes breakup and detection and safe aircraft spacing

p0658 A71-40704

Windward injection into supersonic stream at angle of attack, minimizing vortex disruption

p0670 A71-42787

Measurement of vortex breakdown on slender sharp-edged wings

p0103 N71-12201

Measurement of oscillatory pitching moment derivatives on sharp-edged delta wing at vortex breakdown angle of attack

p0460 N71-24572

## VORTEX COLUMNS

## U VORTICES

## VORTEX DISTURBANCES

## U VORTICES

## VORTEX FLOW

## U VORTICES

## VORTEX GENERATION

## U VORTEX GENERATORS

## VORTEX GENERATORS

Discrete vortex formation above perforated flat plate in wind tunnel, examining unsteady boundary layer

p0083 A71-14568

Trailing vortex generation behind jet flapped wing a high wing lift coefficients

p0094 A71-15413

Twin vortex development in unsteady separated flow past thin flat plate, using flow visualization

p0266 A71-22582

Supplementary data tables for single stage experimental evaluation of compressor blading with slots and vortex generators

p0162 N71-14672

Safety measures to eliminate aircraft trailing vortex hazards

p0394 N71-23418

## VORTEX INJECTORS

Windward injection into supersonic stream at angle of attack, minimizing vortex disruption

p0670 A71-42787

Jet penetration into Mach 2 airstream using sweptback injectors at angle of attack

p0575 N71-29920

## VORTEX RINGS

Vortex layer near circular cone surface in supersonic axisymmetric steady flow of homogeneous inviscid gas

p0289 A71-24372

Numerical calculation of steady three dimensional potential flow around lifting nonplanar aerodynamic configurations based on surface distribution of quadrilateral vortex-rings  
[TT-7009] p0321 N71-20115

## VORTEX SHEETS

Vortex sheet behavior in inviscid subsonic flow of lifting wing with nonzero trailing edge angle

p0073 A71-13738

Vortex wakes behind STOL operations high lift wings, discussing height above ground and various wind tunnel dimensions effects

p0403 A71-28033

Stagnation pressure changes in unsteady flow downstream of turbomachine blades with fluctuating circulation related to vortex sheets

p0541 A71-35279

Numerical calculation of trailing vortex sheet pattern behind unstalled swept wing at low speed, obtaining downwash field

p0614 A71-39397

Straight or moderately sweptback wings tip shape effect on vortex sheet roll, using detachment laws

p0615 A71-39418

Turbulent motions in fluids of small viscosity as inviscid flows with vortex sheets and rolled-up cores

p0649 A71-40010

Two dimensional jet flapped symmetric wing in subsonic flow, assuming irrotational flow inside jet bounded by vortex sheets

p0651 A71-40172

Subscale modeling of aircraft trailing vortices in controllable laboratory environment

p0653 A71-40488

Aircraft wing tip vortex air motion measurements, utilizing Doppler radar techniques

p0653 A71-40489

Drooped wing tip effects on trailing vortex sheet structure and position from spanwise load distribution determination by vortex lattice theory

p0654 A71-40493

- Trailing vortices behind wing tip with vortex dissipator, using wind tunnel flow visualization and flight tests  
p0654 A71-40496
- Airloads and moments changes of aircraft flying over trailing vortices, investigating time dependent aerodynamic forces  
p0656 A71-40508
- ORTEX STREETS**  
**NT KARRHAN VORTEX STREET**  
Propeller vortex theory, calculating vortex streets pitch distributions and wake configuration  
p0436 A71-30443
- Aircraft wake turbulence /trailing vortex systems/ avoidance during flight, describing procedures for pilots and tower operators  
[CASI PAPER 72/6]  
p0601 A71-37596
- Aircraft trailing vortex pair linear stability, obtaining flow field near curved vortex filament with swirl and axial velocities  
p0655 A71-40500
- Trailing vortex pair behind aircraft, presenting equilibrium characteristics and effects on safety  
p0656 A71-40504
- Aircraft generated vortex wakes and core air motions hazards for encountering light airplane  
p0693 A71-43381
- VORTEX TUBES**  
**U VORTICES**  
**VORTICES**  
Sweptback turboblades in parallel wall channel, investigating thickness, camber and leading edge curvature effects on flow and pressure distributions and vortex movement  
p0025 A71-12606
- Blade bound vortex system mathematical model for optimum heavily loaded ducted fans, including thrust, power and efficiency design parameters  
p0027 A71-12677
- Stability theory for pair of trailing vortices, investigating induced field convection, modes, amplification, cut-off distance, etc  
[AIAA PAPER 70-53]  
p0069 A71-13436
- Lateral vibration effects on heaving airfoil blunt trailing edge vortex shedding flows, examining base cavity damping by flow visualization  
p0143 A71-17621
- Gas turbine aircraft engine compressor blades foreign object ingestion control by inlet vortex flow suppression jets, indicating wind tunnel air intake applications  
p0145 A71-17696
- Slender bodies of revolution with cylindrical afterbodies in subsonic wind tunnel, examining vortex systems and aerodynamic forces  
p0147 A71-18048
- Wing-canard configurations nonlinear vortex interactions, using Sacks method of vortex sheet simulation with discrete vortices distribution  
[AIAA PAPER 71-95]  
p0152 A71-18550
- PAA full scale aircraft vortex wake turbulence flight test programs  
[AIAA PAPER 71-97]  
p0152 A71-18552
- Slender cone hypersonic laminar three dimensional boundary layer separation at angle of attack, proposing helical vortex model  
[AIAA PAPER 71-129]  
p0153 A71-18573
- Supersonic jet noise problem, discussing eddy- Mach wave radiation source mechanism from nonlinear streamwise development of inviscid instability waves in turbulent mixing layer  
[AIAA PAPER 71-150]  
p0154 A71-18592
- Noise-producing subsonic jet turbulence eddies hot-wire anemometer measurements of convection velocity as functions of frequency  
[AIAA PAPER 71-154]  
p0154 A71-18596
- Fluctuating circulation, lift and flow induced structural vibrations of two dimensional bodies, including vortex shedding on sluice gates  
p0187 A71-19592
- Wind tunnel experiments on vortex shedding from circular cylinders in oscillating free stream  
p0192 A71-19908
- Aircraft fuel and air conditioning systems vortex valves and diodes, examining flow patterns into and out of chambers  
p0202 A71-20556
- Loads induced on infinite aspect ratio wing by straight infinite free vortex in subsonic compressible freestream, using planar lifting surface theory  
p0345 A71-25474
- Vortex shedding characteristics of circular cylinders at low Reynolds numbers from experiment on tapered models wake structure  
p0361 A71-27220
- Marginal vortex effects on aerodynamics of helicopter lifting surfaces, considering blade form and noise spectrum tested in hydrodynamic tunnel  
p0363 A71-27473
- Three dimensional incompressible flow about slender foil in perfect fluid, stressing vortex field effect  
p0364 A71-27477
- Flow field model for steady asymmetric vortex system shed from slender body of revolution in coning motion  
[AIAA PAPER 70-52]  
p0365 A71-27552
- Quasi-axisymmetric and superposed fine fluctuating structure of ideal incompressible vortex flows in axial flow turbines, assuming infinite mutual blade proximity  
p0369 A71-27714
- Trailing vortices shed by aircraft lifting surfaces, noting wake effects importance at low speeds  
p0404 A71-28176
- Structure and shape of vortex wake associated with oblique flow past multiblade hinged rotor, using cavitation method  
p0417 A71-29217
- Air flow past small aspect ratio thick-section wing at small angles of attack, investigating vortex system effect on flow characteristics in absence of lift  
p0418 A71-29234
- Helicopter rotor vortex system and induced velocity field for various angles of attack, flight conditions and unit loads, using smoke visualization technique  
p0418 A71-29235
- Flow field velocity distribution at rotating wing devices tip vortices  
[AHS PREPRINT 522]  
p0450 A71-31088
- Equation for motion of buoyant free vortices in inviscid fluid subjected to gravity  
[AIAA PAPER 71-604]  
p0483 A71-31543
- Shearing flows in steady vortex around airfoil in perturbed velocity, considering aerodynamic forces torque  
p0489 A71-31903
- Aerodynamic free vortex loading on two dimensional wing at zero incidence at low speeds in incompressible flow  
p0503 A71-33420
- Aerodynamic characteristics of arbitrary planform wing moving near screen, ground or water surface, using vortex model  
p0504 A71-33596
- Two vortex model for downwash variations in supersonic flow past thin delta wing with separation at leading edges  
p0533 A71-34190
- Steady incompressible flow with potential vortex over flat surface under suction  
p0538 A71-34889
- Flow field induced by aircraft trailing vortices near ground during takeoff and landing, noting experimental departure from theory  
p0538 A71-34900
- Aircraft vortex wake turbulence including formation, disintegration, hazards reduction, instability and interactions with following vehicles  
p0547 A71-35753
- Jumbo jet trailing vortex mathematical model for studying effect on penetrating aircraft  
p0547 A71-35754
- Large jet transport aircraft trailing vortices, studying velocity fields, core diameters and logarithmic variations of circulation  
p0548 A71-35755
- Vortex laser Doppler velocimeter system for aircraft wake turbulence velocity profile mapping, describing optical arrangements, back and forward scattering modes and prototype design  
p0548 A71-35756
- Trailing wake hazards of large transports in takeoff and landing, examining configuration stability of

- vortex pair in ground effect  
p0548 A71-35757
- Two dimensional laminar incompressible fluid flow  
past flat plate at various angles of attack,  
studying vortex shedding characteristics  
p0556 A71-36311
- Helicopter rotor noise due to blade-vortex  
interaction, using linear gust model  
p0562 A71-36934
- Air injection into trailing vortex core, noting jet  
flow effect on circumferential velocity  
p0598 A71-37291
- Critique of paper on spanwise distribution of  
induced drag in subsonic flow by vortex lattice  
method, noting infinities in downwash across all  
vortex lines  
p0599 A71-37297
- High speed neutral buoyancy bubble generators for  
aerodynamic flow visualization, investigating tip  
vortex from wing or helicopter rotor blade  
p0603 A71-37725
- Vortex-induced heating alleviation to lee side of  
slender wings in hypersonic flow by contouring  
leading edge planform  
p0604 A71-37892
- Hypersonic lee surface vortex heating alleviation on  
delta wing by apex alignment with free stream  
p0604 A71-37895
- Wing tip vortex control device, discussing design,  
operation and effectiveness  
p0611 A71-39084
- Simultaneous radar and instrumented aircraft  
observations in clear air turbulent layer for eddy  
dissipation rates calculation  
p0612 A71-39207
- Modified asymptotic perturbation expansion method  
application to free flow rotation effect on  
boundary layer for hypersonic flow about blunt  
body  
p0615 A71-39483
- Turbulent motions in fluids of small viscosity as  
inviscid flows with vortex sheets and rolled-up  
cores  
p0649 A71-40010
- Vortex flow over helicopter rotor square tips, using  
visualization technique with ammonia vapor  
boundary layer flow over diazonium salt solution  
p0650 A71-40169
- Atmospheric stratification effects on downward  
motion of aircraft vortex wakes, developing  
approximate model  
p0653 A71-40486
- Peak velocity vectors in transverse plane of jet  
transport aircraft wake, measuring tip vortices  
core size  
p0654 A71-40491
- Free vortices from slender wings, controlling  
strength, position, core stability and thickness  
on basis of one dimensional flow model  
p0654 A71-40492
- Vortex wakes behind straight and swept wings, noting  
formation of loops and trails close to ground  
p0654 A71-40494
- Vortex wake development and aircraft dynamics, using  
computer graphics and flow visualization  
techniques  
p0654 A71-40497
- Boeing 747, Lockheed C-5A and other aircraft vortex  
wake characteristics by tower flyby technique

- Aircraft hazards due to frequent low cloud occurrences at Kenya airport, forecasting weather with statistical analysis and radiosounding p0415 A71-29106
- Thunderstorm, CAT, weather and mountain wave induced turbulence forecasting and analysis for transport aircraft

Atmospheric turbulence prediction, discussing gust sensitive aircraft design for structural overload and fatigue failure decreases  
[AIAA PAPER 71-775] p0425 A71-29764 p0507 A71-34011

Severe thunderstorm radar tracking and related weather events hazardous to aviation operations  
[ESSA-TM-ERLTM-NSSL-46] p0042 N71-10720

Reference file of factors affecting weather at Reese AFB, Texas  
[AD-711390] p0045 N71-10948

Reference file of factors affecting weather at Vance AFB, Oklahoma  
[AD-711381] p0045 N71-10949

Terminal weather forecast data for Randolph AFB, Texas  
[AD-712681] p0115 N71-12680

Clear air turbulence in stratosphere and effects on weather formation, atmospheric physics, and supersonic flights  
[JPRS-53133] p0469 N71-25746

**WEATHER MAPS**  
U METEOROLOGICAL CHARTS

**WEATHER MODIFICATION**  
NT CLOUD SEEDING

Airport runway mechanical fog dispersal, using trailer mounted rotating wire mesh sieves  
p0086 A71-14983

Fog removal by high power carbon dioxide lasers, evaluating possibility of clearing airport runways  
[AIAA PAPER 69-670] p0200 A71-20308

Spatial correlations between inside cumulus cloud conditions and precipitation onset and intensity for modification experiments from aircraft penetration measurements  
p0210 A71-21450

Meteorological observations for terminal weather modification in aviation, noting airport fog dispersal  
p0212 A71-21732

Fog clearance from airport runways, discussing available techniques, economic aspects and importance for military operations  
p0361 A71-27247

Fog dissipation programs by commercial and military agencies  
p0557 A71-36450

Helicopter experimental fog clearing by downwash mixing at Greenbrier Valley Airport, Lewisburg, West Virginia  
p0612 A71-39206

SST operation climatic impact assessment program, considering carbon dioxide, water vapor, contrails, particulates, nitrogen oxides and carbon monoxide  
p0703 A71-44982

Describing techniques and equipment used by air weather services for fog dissipation  
[AD-712392] p0116 N71-12997

Fog modification over airports using helicopters  
[AD-716818] p0330 N71-20806

**WEATHER RADAR**  
U METEOROLOGICAL RADAR

**WEATHER RECONNAISSANCE AIRCRAFT**  
Oklahoma and Malaysia thunderstorms comparison based on weather reconnaissance aircraft measurements, considering turbulence patches  
p0424 A71-29752

**WEBS (MEMBRANES)**  
U MEMBRANES

**WEBS (SUPPORTS)**  
Torsional stress analysis of multiweb wing structures  
p0330 N71-20768

**WEDGE FLOW**  
Rarefied gas low speed slip flow over wedge, solving for velocity profiles and skin friction  
[ASME PAPER 70-WA/APM-26] p0078 A71-14158

Shock wave interaction with wedge moving at supersonic speed, calculating geometry of regions formed intersecting wavefronts  
p0190 A71-19741

Ideal gas jet sonic flow past wedge according to Kirchhoff scheme, testing sine series solution for convergence  
p0197 A71-20085

Laminar incompressible boundary layer flow over thin Joukowski, parabolic and slender wedge airfoils, using small perturbation and quasi-similar

theories

Uniform surface blowing effects on hypersonic boundary layer with viscous interaction, calculating heat transfer on flat plate and slender wedge  
p0281 A71-23957 p0299 A71-25096

Small surface curvature effect on unsteady hypersonic flow over thin oscillating wedge, using perturbation theory  
p0354 A71-26197

Supersonic flow with separated shock wave past wedge shaped profile  
[NASA-TT-F-13469] p0237 N71-17443

**WEDGES**  
Hypersonic wakes of two dimensional slender wedges and flat plate, testing stability in transition region in wind tunnel  
p0366 A71-27561

Particle interaction with wedge surface in supersonic two phase flow, determining incidence coordinates and collision frequency as function of initial conditions  
p0368 A71-27665

Inclined wedges in rarefied hypersonic flow conditions, investigating base and wake pattern geometrical and aerodynamic characteristics  
p0561 A71-36756

Viscous drag on variable sweep wings and wedges at supersonic and hypersonic speeds  
[ARC-R/M-3623] p0228 N71-17109

**WEIGHT (MASS)**  
NT STRUCTURAL WEIGHT

Material stiffness/weight ratio effects on helicopter blades uncoupled flapwise, chordwise and torsional natural frequencies by rapid estimation  
p0144 A71-17691

Sweptback-bladed centrifugal compressor overall performance in argon  
[NASA-TM-X-2129] p0104 N71-12209

Airspeeds, rotorspeeds, engine rigging, and gross weight effects on UH-1 C helicopter during autorotation  
[AD-717047] p0334 N71-21363

Boundary effects of circular wind tunnel on virtual mass of sphere  
[NAL-TR-223] p0375 N71-22159

**WEIGHT ANALYSIS**  
Parachute weight, configuration and strength correlations for tradeoffs and design  
p0182 A71-18900

Aircraft wings automated preliminary structural design and weight determination procedures based on external shape, aerodynamic loads and fuel mass interaction  
p0273 A71-23274

Automated optimal weight fully stressed large scale structural design of aircraft, using matrix-mathematical programming technique  
[AIAA PAPER 71-361] p0343 A71-25340

Landing load estimation methods for preliminary design weight prediction for military aircraft  
p0404 A71-28211

L-1011 Tristar antenna arrangement test results, considering weight, aerodynamic and structural design requirements  
p0447 A71-31060

Size effects on large rotor systems design, considering weight, blade loading, tip speed, etc  
[AHS PREPRINT 552] p0452 A71-31104

Composite materials application to V/STOL prop/rotors, determining material properties parametric effect on frequencies and weight by Southwell coefficients  
[AHS PREPRINT 554] p0452 A71-31106

Concorde lightweight disk brakes, discussing operating costs, weight and volume factors, design philosophy, structural materials, component life, maintenance and reliability  
p0500 A71-33226

VTOL aircraft gross weight and direct operating costs penalties from additionally installed control power  
[AIAA PAPER 71-768] p0506 A71-34005

Airborne display and electric management system, discussing weight reduction, protective function coordination, power quality, onboard maintenance, data processing and reliability

Aircraft loading system consisting of onboard weight and balance equipment and fully mechanized cargo pallet transfer, using computerized simulation model for parametric evaluation p0536 A71-34617  
 [SAWE PAPER 900] p0550 A71-35811  
 Statistical analysis of error sources and magnitudes in Boeing 747 weight values obtained by onboard aircraft weighing system and by manual calculations p0551 A71-35813  
 [SAWE PAPER 897]  
 Boron-epoxy composite wing box beam design, describing preliminary weight estimation from layouts p0551 A71-35815  
 [SAWE PAPER 891]  
 Weight reduction potential of composite materials in aerospace structures, proposing weight estimation technique p0551 A71-35819  
 [SAWE PAPER 887]  
 Strut pressure and axle strain gage systems testing for balance and weighing onboard De Havilland C-7A aircraft p0552 A71-35827  
 [SAWE PAPER 881]  
 Wing group weight prediction for subsonic aircraft design, taking into account root bending moments due to lift p0552 A71-35925  
 Real weight formula for shell fuselages based on theoretical similarity considerations p0615 A71-39411  
 Formulas for determining flying weight of aircraft electric generator systems p0161 N71-14649  
 [AD-713762]  
**WEIGHT FACTORS**

## NT SQUALLS

Model tests of concepts to reduce hot gas ingestion in VTOL lift engines in low and cross wind conditions - graphs  
[NASA-CR-1863] p0630 N71-32370

Computing dispersal of atmospheric pollutants near airports by use of mean wind and temperature profiles  
[NASA-CR-111962] p0713 N71-36720

Effect of wet, icy, and snow covered runways on aircraft stopping distance and directional control in crosswinds, effect of surface texture and contamination on runway slipperiness  
[FS-160-65-68-2] p0723 N71-37820

## WIND CIRCULATION

## U ATMOSPHERIC CIRCULATION

## WIND DIRECTION

Sea state, wind velocity and wind direction regression analysis for ground effect machines  
[NPL-HOVERCRAFT-16] p0230 N71-17144

## WIND EFFECTS

Soviet book on meteorological conditions and supersonic aircraft flight covering atmospheric composition and structure, temperature distribution, wind effects, etc  
p0029 A71-12840

Flight range and optimum angle of attack under wind conditions of constant velocity and direction, considering fuel consumption for given distance  
p0149 A71-18325

Inertial aircraft lateral guidance system limitations in stochastic gust environment, comparing configurations using aileron or differential spoilers  
[AIAA PAPER 71-22] p0151 A71-18489

Wind gradient effect on flight characteristics during aircraft landing approach, particularly path deviation  
p0340 A71-25194

Extreme turbulence measurement during low level flights of Mirage A3-76 fighter aircraft, determining true gust velocities and power spectral energy distributions  
p0425 A71-29756

Aircraft with T tail configuration, examining dynamic response to lateral gusts  
p0427 A71-29786

Aircraft design and fatigue life monitoring, investigating effects of gust velocity frequency distribution in patches of atmospheric turbulence  
p0428 A71-29789

Gust loading on two dimensional thin airfoil in compressible flow, deriving closed-form lift expression  
p0541 A71-35285

Case histories of aircraft damage due to wind acting on airport surfaces, discussing wind and hail protection  
p0543 A71-35442

Atmospheric wind, temperature, turbulence, hydrometeors, ozone, cosmic radiation and radio activity effects on commercial SST Concorde flight  
p0659 A71-40829

Wind effect criteria for structural design and engineering of buildings  
p0166 N71-15301

Wind loading moments produced on scale models of tall buildings in wind tunnel tests  
p0166 N71-15306

Aeroelastic wind effects for dynamic design of tall buildings  
p0166 N71-15311

Aeroelastic responses of tall buildings to vortex shedding and gust loading  
p0167 N71-15312

Aeroelastic wind tunnel modeling and three dimensional structural analysis for dynamic building response prediction to wind loads  
p0167 N71-15314

Erosion control of soil on air force bases  
[AD-713644] p0169 N71-15636

Minimizing performance criterion to analyze ability of automatically controlled aircraft to maintain accurate flight path control during landing approach  
[NASA-TN-D-6230] p0255 N71-18761

Lift coefficient for wind induced vibration of skewed cylindrical body  
[AD-717739] p0376 N71-22169

Analysis of influence of wind shear on longitudinal motion of aircraft during approach and landing  
[NASA-TN-D-6430] p0675 N71-34022

Horizontal temperature and wind distribution effects on aircraft buffeting in stratosphere  
[NASA-TT-P-13978] p0718 N71-37600

## WIND MEASUREMENT

## NT WIND VELOCITY MEASUREMENT

Aircraft instrumentation and data analysis for clear air turbulence, including orthogonal components and temperature and wind distributions  
p0424 A71-29753

Single anemometer wind measurement required for aircraft landing, comparing data from different sampling periods  
p0435 A71-30395

Flow visualization study of flyable fluidic low speed wind sensor  
[NASA-CR-111808] p0115 N71-12728

Aircraft wing-tip vortex analysis for ground wind measurement program  
[NASA-CR-115772] p0127 N71-14171

Wind pressure measurements on high building for wind tunnel modeling of structural aerodynamics  
p0166 N71-15307

First-order theory of fluctuating lift and drag coefficients for aerodynamically induced motions of rising and falling spherical balloon wind sensors  
[NASA-TN-D-6373] p0521 N71-28129

## WIND PRESSURE

Wind pressure measurements on high building for wind tunnel modeling of structural aerodynamics  
p0166 N71-15307

Wind pressure and cross flow velocity profiles for short takeoff aircraft building roof airports  
p0583 N71-30776

## WIND PROFILES

Stratospheric turbulence induced aircraft buffeting dependence on horizontal temperature and wind distribution  
p0481 A71-31366

Relationship between small scale wind shears and wind profile power spectra  
[NASA-TN-X-64562] p0035 N71-10240

Characteristic coefficients technique for probability models of wind profiles in missile design and environment analysis  
[AD-713522] p0165 N71-15215

Free-fall body for obtaining wind velocity profiles by radar tracking  
[NASA-CASE-XLA-02081] p0176 N71-16281

Feasibility and design criteria of laser Doppler system for detecting and mapping turbulence levels and wind or velocity profiles in various applications  
[NASA-CR-103105] p0402 N71-24081

Wind pressure and cross flow velocity profiles for short takeoff aircraft building roof airports  
p0583 N71-30776

## WIND SHEAR

Aircraft approach and landing under low altitude wind shear conditions, discussing flying hazards and glide path correction procedures  
p0355 A71-26364

Stratospheric turbulence induced aircraft buffeting dependence on vertical wind shear, Richardson number and thermal stability change from underlying to overlying layer  
p0480 A71-31365

Relationship between small scale wind shears and wind profile power spectra  
[NASA-TN-X-64562] p0035 N71-10240

Evaluating analytical models of turbulence having non-Gaussian gusts distributions and effects of wind shear on aircraft operations  
p0584 N71-30778

Lower atmosphere wind shear determined for aircraft approach control from observations in different American sites  
p0586 N71-30837

Analysis of influence of wind shear on longitudinal motion of aircraft during approach and landing  
[NASA-TN-D-6430] p0675 N71-34022

## WIND TUNNEL APPARATUS

## NT WIND TUNNEL DRIVES

## NT WIND TUNNEL NOZZLES

Wind tunnel apparatus for reproducing coning and spinning motions of bodies of revolution, using

- six-component strain gage balance for aerodynamic forces  
p0010 A71-10930
- Hypersonic low pressure wind tunnel design and operation, describing instrumentation  
p0147 A71-18045
- Supersonic wind tunnel electromagnetic balance with superconducting coils  
p0198 A71-20151
- Schlieren visualization for supersonic annular fixed cascade and freon compressor wind tunnels, using vane holding cylinder devices  
p0369 A71-27717
- High speed wind tunnels air heating system optimization, considering pebble bed air heater for intermittent operations  
p0611 A71-39086
- Rotary system for dynamic stability tests in transonic wind tunnel  
[NAL-TR-196]  
p0046 N71-11009
- Wind tunnel pressure measuring techniques  
[AGARD-AG-145-70]  
p0165 N71-14988
- Free flight suspension system for use with aircraft models in wind tunnel tests  
[NASA-CASE-XLA-00939]  
p0172 N71-15926
- Technology review on wind tunnel pressure measuring techniques and equipment  
[AD-714565]  
p0177 N71-16549
- Design and characteristics of device for launching models in wind tunnels without disturbance of air flow  
[NASA-CASE-XNP-03578]  
p0387 N71-23030
- Measurement of lift and drag forces experienced by ejector in wind tunnel and correlation with geometry and static performance of device  
[AD-721192]  
p0511 N71-26920
- Hot-wire anemometer for wind tunnel turbulence measurement and wind tunnel oscillation reduction  
[DLR-FB-70-39]  
p0516 N71-27161
- Evaluating three component electronic wind tunnel balance installed in 3.5 by 5.0 ft subsonic tunnel  
[AD-722571]  
p0591 N71-31400
- WIND TUNNEL BALANCES**  
U WEIGHT INDICATORS  
U WIND TUNNEL APPARATUS
- WIND TUNNEL CALIBRATION**  
Return circuit rectangular wind tunnel design, construction, instrumentation and calibration, discussing drive, jet inclination, velocity distribution, etc  
p0209 A71-21305
- Wind tunnel test models and force measuring balances design, fabrication, inspection and calibration  
p0481 A71-31440
- Dual scatter laser Doppler velocimeters for transonic wind tunnel measurements and calibration applied to simulated helicopter downwash, high lift wing and jet crossflow  
p0652 A71-40399
- Miniature wind tunnel velocity field calibration for testing anemometers, using null method with spherical probe  
p0661 A71-41380
- Flow visualization study of flyable fluidic low speed wind sensor  
[NASA-CR-111808]  
p0115 N71-12728
- WIND TUNNEL DRIVES**  
Return circuit rectangular wind tunnel design, construction, instrumentation and calibration, discussing drive, jet inclination, velocity distribution, etc  
p0209 A71-21305
- WIND TUNNEL MODELS**  
Sonic boom problem, investigating pressure signature of large models in supersonic wind tunnels  
[AIAA PAPER 71-184]  
p0155 A71-18623
- Ground boundary layer effects of fixed ground plane for powered STOL wind tunnel model, discussing flow breakdown criteria, contraction lag, strut fairing interference, etc  
[AIAA PAPER 71-266]  
p0218 A71-21992
- Single and multiple sting support evaluation for unmodified interference free wind tunnel data over 0.85 to 2.2 M range using image method  
[AIAA PAPER 71-267]  
p0218 A71-21993
- Wind tunnel testing of base pressure model attached to long cylindrical body extended and supported far upstream  
[AIAA PAPER 71-268]  
p0218 A71-21994
- Rocket/launcher aerodynamic interference effects investigation by wind tunnel simulation, determining interference coefficients for rockets ballistic dispersion calculations  
[AIAA PAPER 71-269]  
p0218 A71-21995
- Three degree of freedom gas bearing for wind tunnel dynamic measurements, allowing models simultaneous spin, pitch and yaw motions  
[AIAA PAPER 71-279]  
p0219 A71-22004
- Airfoil profile drag measurements, correlating full scale flight tests and scale model tests in transonic and high Reynolds number wind tunnels  
[AIAA PAPER 71-289]  
p0220 A71-22012
- High speed aircraft external store separation testing and prediction techniques, considering flow field survey, dynamically similar drop models and captive trajectory methods  
[AIAA PAPER 71-294]  
p0220 A71-22014
- Wind tunnel boundary interference on V/STOL model calculated in test section with solid vertical and slotted horizontal walls, using image method and Fourier transforms  
[AIAA PAPER 70-575]  
p0221 A71-22029
- Static aerodynamic data correlation for high subsonic speed transport aircraft model in transonic wind tunnels, including relative buoyancy and turbulence effects  
[AIAA PAPER 71-291]  
p0275 A71-23423
- Double oblique shock inlet scramjet model development as test bed for instrumentation and hydrogen fuel supersonic combustion experiments  
p0296 A71-24862
- Plenum chamber with nozzle wind tunnel model, noting jet flow phenomena at various angles of attack  
p0296 A71-24865
- Wind tunnel evaluation of analytical method for predicting longitudinal stability and aerodynamic characteristics of large flexible aircraft applied to supersonic transport configuration  
[AIAA PAPER 71-343]  
p0343 A71-25322
- Pressure orifices inclination in low density flow from experiments with cooled flat plate model in hypersonic low density wind tunnel  
p0346 A71-25490
- Ballistic wind tunnel for drag measurement on models during free flight at supersonic speeds  
p0417 A71-29201
- Wind tunnel model trajectory simulation system with closed loop control by digital computer, describing instrumentation, system servomechanisms and testing procedures  
p0434 A71-30334
- Wind tunnel test models and force measuring balances design, fabrication, inspection and calibration  
p0481 A71-31440

## NT TRAILING-EDGE FLAPS

- Upwash interference on two dimensional jet flap wing in slotted wall tunnel, using small disturbance theory  
p0028 A71-12690
- Two dimensional flow around wing sections with slats and slotted flaps in various positions, presenting surface pressure and boundary layer measurements [AIAA PAPER 71-96]  
p0152 A71-18551
- Airplane wing high lift and flap designs by interactive computer graphics system [AIAA PAPER 71-227]  
p0187 A71-19705
- Power augmented lift STOL aircraft operating costs reduction by channel wing concept, discussing aerodynamic theory and structural applications to high lift flaps aircraft  
p0266 A71-22592
- Automatic gust alleviation system employing inertial sensors and feedback devices with wing flaps and elevators, considering linkage control, noninteracting control and split control  
p0340 A71-25195
- Lifting force of wing with rotating flap, deriving lift increase due to circulation redistribution at surface  
p0364 A71-27491
- Noise measurement data on various types of blown flap configurations for STOL aircraft, discussing integration effects between jet and flap assembly [AIAA PAPER 71-745]  
p0443 A71-30785
- Trailing vortex systems generated by jet-flapped wing operating at high wing lift coefficients [AD-715315]  
p0241 N71-17753
- High lift wing characteristics - wing with plain hinged flaps and boundary layer control, and wing with drag and high lift devices extended  
p0320 N71-20065
- En route aircraft flap control during descent and holding [ARB-TN-99]  
p0464 N71-24920
- Static tests of augmentor-wing flap system for modified C-8A jet STOL research airplane using 0.7 scale model [NASA-CR-114315]  
p0476 N71-26416
- Augmented ram wing vehicle performance and flow field for high speed ground transportation  
p0589 N71-31204
- Noise characteristics of model STOL wing with externally blown flaps in vicinity of aircraft propulsor [NASA-CR-111956]  
p0727 N71-38283
- WING FLOW METHOD TESTS**
- Laminar-turbulent boundary layer transition point on wing, using hot-wire anemometer and oscilloscope  
p0025 A71-12555
- Two dimensional flow around wing sections with slats and slotted flaps in various positions, presenting surface pressure and boundary layer measurements [AIAA PAPER 71-96]  
p0152 A71-18551
- Wind tunnel stability tests of wing with different blowing nozzle arrangements on bottom overpressure surface at 18 and 30 m/sec air speeds  
p0278 A71-23663
- WING LOADING**
- Civil aircraft aspect ratio relationship to commercial viability, considering need for minimum induced drag at wing loading to improve payloads, speeds and ranges  
p0017 A71-11628
- Integral relation between boundary conditions and aerodynamic loads on straight and inverted wings, using reversibility theory for arbitrary time dependences  
p0083 A71-14566
- Wing representation by lifting line lattice as computation method for complex configurations unsteady aerodynamic forces, presenting numerical program for wings in two parallel planes [ONERA-TP-891]  
p0090 A71-15356
- Sailing aerodynamic characteristics, obtaining aerodynamic loading by two dimensional flexible airfoil and Prandtl lifting line theories  
p0199 A71-20303
- Thin rectangular wing load distribution in nonstationary incompressible flow, using downwash integral equation Fourier transform  
p0270 A71-22946
- Aircraft wings automated preliminary structural design and weight determination procedures based on external shape, aerodynamic loads and fuel mass interaction  
p0273 A71-23274
- Wing structure fatigue substantiation procedures under fail-safe concept for general aviation aircraft [SAE PAPER 710404]  
p0287 A71-24264
- Aircraft wing fatigue test procedures for gust, maneuver, ground-air-ground, taxi and landing impact loads [SAE PAPER 710403]  
p0300 A71-25133
- Loads induced on infinite aspect ratio wing by straight infinite free vortex in subsonic compressible freestream, using planar lifting surface theory  
p0345 A71-25474
- Wing-jet interference effects in cross wind on thrust and aerodynamic characteristics at large distance from and near ground  
p0417 A71-29207
- Gust transfer functions relating lift and moments to upwash in single sinusoidal wave for large aspect ratio rectangular wings in turbulent incompressible flow  
p0439 A71-30604
- Helicopter rotor blade airload by applying lifting surface solution [AHS PREPRINT 510]  
p0448 A71-31081
- Size effects on large rotor systems design, considering weight, blade loading, tip speed, etc [AHS PREPRINT 552]  
p0452 A71-31104
- Aerodynamic free vortex loading on two dimensional wing at zero incidence at low speeds in incompressible flow  
p0503 A71-33420
- Self induction function and stability for vortex with finite core at aircraft wing, confirming Crow theory  
p0655 A71-40502
- Aerodynamic aspect ratio effects on drag and aircraft performance, noting span loading as major force on wing lifting function  
p0661 A71-41246
- Convergence proof for chordwise vorticity equation for discrete panel wing loading  
p0671 A71-42840
- Aerodynamic and structural aspects of all-flexible parawings [NASA-CR-1674]  
p0120 N71-13404
- Center of gravity vertical acceleration and wing stresses of Boeing 720-B aircraft [TB-87-1970]  
p0229 N71-17119
- Torsional stress analysis of multiweb wing structures  
p0330 N71-20768
- Wind tunnel study of augmented ram-wing vehicle with various blowing arrangements [PB-189425]  
p0392 N71-23283
- Numerical evaluation of downwash integral for wing loading of lifting rectangular planform [NPL-MA-90]  
p0457 N71-24483
- Low wing loading STOL transport ride smoothing using Boeing aircraft [NASA-CR-111819]  
p0460 N71-24586
- Notch sensitivity of flat plates used as structural members in aircraft wings tested on load testing machine [TB-89]  
p0580 N71-30675
- Computer program for calculating lifting force distributions on symmetrical and cambered wings in subsonic flow based on numerical integration and lifting surface theory  
p0640 N71-33220
- Determining deployment characteristics of all-flexible parawings by free flight tests [NASA-TM-X-2307]  
p0641 N71-33239
- WING OSCILLATIONS**
- Critical flutter of wing with rigid aileron studied by analog computer modeling  
p0007 A71-10606
- Three dimensional wings harmonic oscillation with arbitrary frequency in subsonic flow, presenting approximation method for singular integral equation  
p0009 A71-10844
- Aerodynamic forces on control surfaces in subsonic range, investigating pressure distribution on harmonically oscillating wing  
p0081 A71-14347

- Unsteady motion of finite span wing in ideal incompressible liquid near solid surface by integral operator method in potential acceleration space  
p0156 A71-18701
- Solid foil small oscillations in unsteady incompressible flow, mapping physical plane and corresponding complex potential region onto curvilinear half strip  
p0198 A71-20088
- Oscillating airfoil wake interaction with fixed cascade, considering two dimensional incompressible inviscid small perturbation flow theory  
p0270 A71-22943
- Aerodynamic forces on harmonically oscillating wing in subsonic flow of ideal gas  
p0277 A71-23615
- Wing aperiodic motion during change from one frequency to another, using Laplace and Fourier transforms to reduce partial to ordinary differential equation  
p0289 A71-24353
- Instantaneous aerodynamic force measurements and flow visualization on flapping wing, showing increase of thrust force mean value over maximum steady state value  
p0289 A71-24362
- Comparative vertical turbulence and loss restrictive stochastic models for threshold crossing rotor blade flapping vibrations at low lift high advance ratio  
[AIAA PAPER 71-389] p0343 A71-25351
- Small surface curvature effect on unsteady hypersonic flow over thin oscillating wedge, using perturbation theory  
p0354 A71-26197
- Oscillating thin wing with control surfaces in two dimensional compressible subsonic flow, calculating aerodynamic forces based on kernel function method  
p0499 A71-33013
- Active feedback wing/store flutter control for fighter aircraft, using computer programs based on frequency and time domains for linear analysis  
p0697 A71-44109
- Linear theoretical method for arbitrary wing planform and trailing edge control surfaces in low frequency oscillatory motion in subsonic flow  
[NPL-AERO-1303] p0047 N71-11613
- Numerical analysis of low frequency subsonic lifting surface theory noting wing oscillations in steady flow  
[ARC-R/M-3634] p0249 N71-18425
- Asymptotic solution of low frequency wing oscillations in transonic shockless adiabatic inviscid gas flow based on complete approximation  
p0390 N71-23193
- Measurement of oscillatory pitching moment derivatives on sharp-edged delta wing at vortex breakdown angle of attack  
p0460 N71-24572
- Numerical analysis of aerodynamic loads on wing and tail surfaces with oscillations in unsteady supersonic and subsonic flow including interference lift  
[AGARD-CP-80-71-PT-1] p0566 N71-29333
- Box collocation method for calculating aerodynamic loads on tandem delta wings with oscillations in supersonic flow  
p0567 N71-29337
- Calculated values of air forces on oscillating thin wings obtained by linearized potential flow  
[AGARD-R-583-71] p0679 N71-35198
- WING PANELS**
- Ball forming technique application to Al alloys structural part contouring, discussing L-1011 wing panel forming and prestress tooling  
p0211 A71-21681
- Structural and inertial nonlinearities influence on flat or curved panel flutter  
p0444 A71-30825
- Wing structural elements ballistic damage tolerance and residual fracture strength characteristics, discussing projectile velocity, impact angle and target thickness effects  
p0540 A71-35161
- Boron-epoxy composite wing box beam design, describing preliminary weight estimation from layouts  
[SAWE PAPER 891] p0551 A71-35815
- Convergence proof for chordwise vorticity equation for discrete panel wing loading  
p0671 A71-42840
- Critical buckling data for design of skew plates subjected to loads  
[AE-248-S] p0165 N71-15151
- Flight service effects on residual tensile properties of C-130 aircraft center wing plate section  
[NASA-CR-111828] p0402 N71-24021
- Structural analysis of corrugated aircraft wing skin panels to determine effects of corrosion damage  
[AD-728009] p0721 N71-37619
- WING PLANFORMS**
- NT ARROW WINGS
- NT DELTA WINGS
- NT INFINITE SPAN WINGS
- NT SWEEPBACK WINGS
- NT TRAPEZOIDAL WINGS
- NT VARIABLE SWEEP WINGS
- Sectional drag relationships in linearized wing theory, examining lifting and thickness problems for various planforms  
p0079 A71-14240

 [AIAA PAPER 71-614] p0486 A71-31583  
 Probabilistic approach to prolonged lifetime design  
 and static strength of structures of monocoque and  
 multispar wings, using fatigue characteristics of  
 individual elements p0504 A71-33604  
 Fatigue crack initiation and growth and residual  
 strength of F-100 wing, comparing service failure  
 data with full scale fatigue test results  
 p0539 A71-35159  
 Two dimensional flow over two dimensional finite  
 wing without correction for downwash, assuming  
 known pressure distribution p0651 A71-40173  
 Mathematical models for control surface wings in  
 subsonic unsteady flow  
 [ONERA-TP-889] p0251 N71-18473  
 Determine aerodynamic characteristics of  
 determining aerodynamic characteristics of large  
 aspect ratio p0310 N71-19559  
 Interaction of nacelle-mounted supersonic propulsion  
 system with simulated wing boundary layer  
 [NASA-TM-X-2184] p0316 N71-19853  
 Vortical transonic gas flow over wing profile  
 p0469 N71-25714  
 Computer programs for evaluating subsonic flow over  
 wing-tail, wings with folded tips, T tails, and  
 cruciform tail surfaces p0568 N71-29341  
 Method for calculating flutter using interference  
 aerodynamic forces between wing and tail  
 p0568 N71-29345  
 Calculation of pressure distributions over wings  
 with harmonic oscillating control surfaces using  
 kernel function method p0568 N71-29346  
 Application of lifting surface theory to wing with  
 control surfaces in unsteady subsonic flow  
 p0569 N71-29347

- Asymptotic expansion techniques to define pressure loading effects on wings with unbalanced control surfaces  
p0569 N71-29348
- Computed aided design of wing structures and application of optimal law of material distribution  
[AD-722303] p0572 N71-29657
- Theoretical method for calculating aerodynamic loading on wing-body combinations  
[NASA-TN-D-6441] p0708 N71-36411
- Noise characteristics of model STOL wing with externally blown flaps in vicinity of aircraft propulsor  
[NASA-CR-111956] p0727 N71-38283
- WINTER**  
Auroral oval continuity during winter /1969-1970/ from jet aircraft ionospheric instrumentation, showing band distribution along geomagnetic pole  
p0082 A71-14526
- WIRE**  
**NT ELECTRIC WIRE**  
Flexible trailing wire effect on aerodynamic characteristics and radar cross sections of hypervelocity cone  
[AD-712509] p0103 N71-12205
- Wire and probe support interference on hypersonic wakes of magnetically suspended round based conical body  
[ARC-CP-1133] p0331 N71-20848
- WIRING**  
Automated design system producing wire format data for cabling avionics subsystem of light attack aircraft  
[AIAA PAPER 69-976] p0145 A71-17698
- Computerized automatic control of aircraft electrical system using remote power controllers and multiplexed data bus for wiring reduction and reliability improvement  
p0537 A71-34700
- High voltage DC electric power transmission systems with ground return, reducing aircraft wiring weight and energy dissipation  
p0549 A71-35771
- Remote power controller as static circuit protection device for aircraft and spacecraft automatically controlled electrical wiring system, discussing performance improvement  
p0550 A71-35782
- WIRING SYSTEMS**  
**U WIRING**  
**WISCONSIN**  
Investigation of Mississippi Valley Airways De Havilland DHC-6, N956SM crash at LaCrosse, Wisconsin Nov. 9, 1970  
[NTSB-AAR-71-10] p0575 N71-29914
- WOOD AIRCRAFT CONSTRUCTION**  
**U AIRCRAFT STRUCTURES**  
**U WOODEN STRUCTURES**  
**WOODEN STRUCTURES**  
Nonmetallic aircraft construction materials, discussing wood epoxy and polyester resins  
p0023 A71-12299
- WORK CAPACITY**  
Pilot workload reduction in steep approach landing of light aircraft from flight test data analysis  
[AIAA PAPER 71-904] p0595 A71-37155
- WORK DECREMENT**  
**U WORK CAPACITY**  
**WORK-REST CYCLE**  
In-flight study of work/rest cycle effects on double crew performance and fatigue in flying transport missions  
p0664 A71-41829
- WRENCHES**  
Ultrasonic wrench for applying vibratory energy to mechanical fasteners  
[NASA-CASE-MPS-20586] p0240 N71-17686
- X**
- X BAND**  
**U SUPERHIGH FREQUENCIES**  
**X RAY APPARATUS**  
Airborne nucleonics equipment design for indicating helicopter lift capability using X ray backscatter from Kr-85, temperature sensor, and digital computer  
[SAN-805-1] p0565 N71-29215
- X RAY FLUORESCENCE**  
X ray fluorescence analysis for quality control of gas turbine aircraft engine parts during manufacture and overhaul  
p0054 N71-11641
- X RAY FLUORESCENCE ANALYSIS**  
**U X RAY FLUORESCENCE**  
**X RAY PHOTOGRAPHY**  
**U RADIOGRAPHY**  
**X RAYS**  
Aircraft altimeter containing X ray source  
p0226 N71-16993
- X-15 AIRCRAFT**  
Evaluating use of airborne digital computers for guidance and control of X-15 and F-104 aircraft  
[NASA-TN-X-66491] p0113 N71-12610
- Data processing and display system for terminal guidance of X-15 aircraft  
[NASA-CASE-XPR-00756] p0122 N71-13421
- Measuring solar irradiance data obtained at 75 to 80 km by X-15 aircraft using narrow band multichannel radiometer  
p0179 N71-16686
- Flight tests to determine reliability of X-15 self adaptive flight control system  
[NASA-TN-D-6208] p0249 N71-18422
- High total temperature sensing probe using fluid oscillator concept for X-15 hypersonic aircraft  
[NASA-CR-116772] p0391 N71-23250
- Flight-measured base pressures from sharp leading edge upper vertical fin of X-15 aircraft compared with wind tunnel data for turbulent flow at Mach numbers from 1.5 to 5.0  
[NASA-TN-D-6348] p0401 N71-23922
- X-24 AIRCRAFT**  
Fin loads and control surface hinge moments measured in full scale wind tunnel tests on X-24A flight vehicle  
[NASA-TN-X-1922] p0157 N71-14501
- XB-70 AIRCRAFT**  
**U B-70 AIRCRAFT**  
**XC-142 AIRCRAFT**  
Aerodynamic design of VTOL propellers, demonstrating possibility of cyclic control of XC-142 experimental propeller  
[DGLR-71-017] p0498 A71-32784
- XENON**  
Brayton cycle turbogenerator performance tests using helium xenon gas mixture including gas turbine engine, turbocompressor, coolant pump, and heat exchanger power efficiencies  
[NASA-TN-X-67846] p0518 N71-27713
- XENON LAMPS**  
Aircraft flash light designs, discussing tandem oscillating lights, fixed lamp rotating reflectors and lamps, xenon flashtube, quartz-iodine lamp and flash frequencies  
p0661 A71-41494
- High intensity xenon flashtube lights for high intensity xenon flashtube lights for during daytime and nighttime flights  
[AD-718639] p0462 N71-24669
- XH-51 HELICOPTER**  
Flying safety factors in close to ground operational design of XH-51 helicopter  
p0396 N71-23430
- Y**
- Y AXIS**  
**U COORDINATES**  
**YAK 40 AIRCRAFT**  
Soviet book on Yak-40 passenger transport aircraft configurational design and aerodynamic characteristics covering stability, controllability and flight under special conditions  
p0204 A71-20750
- Yak 40 aircraft flight test program, discussing airworthiness requirements, static structural, vibration and wind tunnel tests  
p0429 A71-29911
- YAW**  
Roll moment of inertia to static margin ratio effect on yaw of repose angle magnitude in ballistic match of projectiles  
p0429 A71-29890
- Transfer function system relating cornering force and aligning torque of rolling pneumatic aircraft

# YAWING MOMENTS

# SUBJECT INDEX

tire to yaw angle and lateral displacement  
p0650 A71-40167  
Total pressure, static pressure, surface shear  
stress, and yaw angle measurements of S curved  
ducted flow  
[IC-71-10] p0577 N71-30264  
Atmospheric turbulence models showing gust load  
influence on aircraft yaw motion p0624 N71-31891

# PERSONAL AUTHOR INDEX

AERONAUTICAL ENGINEERING / *A Special Bibliography*

JANUARY 1972

1971 Cumulative Index

## Typical Personal Author Index Listing

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g., NASA report, translation, NASA contractor report). The page and accession numbers are located beneath and to the right of the title, e.g., p0046 N71-11019. Under any one author's name the accession numbers are arranged in sequence with the /AA accession numbers appearing first.

## A

- AAS, H. G.**  
Holographic analysis of turbine blades  
[ASME PAPER 71-GT-84] p0353 A71-25992
- ABAD, G.**  
On the accuracy of Merk's method for solution of laminar boundary-layer equations p0359 A71-27051
- ABBETT, M.**  
Mach disk in underexpanded exhaust plumes  
[AIAA PAPER 70-231] p0264 A71-22097
- ABDELHAMID, A. B.**  
Discrete frequency noise from lifting fans  
[ASME PAPER 71-GT-12] p0348 A71-25958
- ABEL, I.**  
A critical wind-tunnel evaluation of a technique for predicting static aerodynamic characteristics for a highly flexible supersonic transport configuration  
[AIAA PAPER 71-343] p0343 A71-25322
- ABELE, M.**  
Experimental determination of acoustic and structural behavior of wall panel-cavity configurations exposed to sonic booms  
[NASA-CR-111925] p0631 N71-32488
- ABIBOV, A. L.**  
Technology of aircraft construction p0081 A71-14399
- ABRAMOVA, G. IA.**  
Constrained torsion of an incompletely fastened spar box p0542 A71-35313
- ABRAMS, R.**  
FAA flight test research approach to the SST airworthiness standards p0691 A71-42922
- ACHENBACH, E.**  
Experimental determination of the momentum thickness of a circular cylinder in a cross flow p0369 A71-27738
- ACHITOFF, L.**  
The airplane and the airport p0381 N71-22389
- ACKER, C. H.**  
Structural analysis of the laser camera module and its installation for the Laser Airborne Photographic Scanning System /LAPSS/ on the RA-5C aircraft Final report  
[AD-723820] p0620 N71-31727
- ACKER, L. W.**  
Acoustic and aerodynamic performance of a 6-foot-diameter fan for turbofan engines. 3 -

- Performance with noise suppressors  
[NASA-TN-D-6178] p0231 N71-17254
- Inlet noise suppressor performance with a turbojet engine as the noise source  
[NASA-TN-D-6395] p0587 N71-31096
- ACKERBERG, R. C.**  
Boundary-layer separation at a free streamline. I - Two-dimensional flow p0023 A71-12376
- ACKERMAN, G. H.**  
Heat sink capability of jet A fuel - Heat transfer and coking studies  
[NASA-CR-72951] p0592 N71-31482
- ADACHI, T.**  
A note on the T-tail flutter p0340 A71-25188
- ADAMS, H. O.**  
Department of Transportation Federal Aviation Administration planning and programming for aeronautical satellite systems in oceanic applications p0668 A71-42096
- ADAMS, J. D.**  
Capability of a projected 1975 airborne solid-state phased-array radar p0663 A71-41630
- ADAMS, J. J.**  
An approach to the determination of aircraft handling qualities by using pilot transfer functions  
[NASA-TN-D-6104] p0164 N71-14944
- ADAMS, M. S.**  
Utilization of a fixed base simulator to study the stall and spin characteristics of fighter airplanes  
[NASA-TN-D-6117] p0325 N71-20292
- ADAMS, P. A.**  
On dynamic stability testing of unconventional configurations  
[AIAA PAPER 71-276] p0219 A71-22001
- ADAMS, R. I.**  
Design for the Army operational environment p0092 A71-15402
- ADAMSON, G. P.**  
Development progress - New transport engines- JT9D  
[SAE PAPER 710419] p0437 A71-30527
- ADCOCK, B. D.**  
Effective perceived noise level evaluated for STOL and other aircraft sounds Final report  
[WR-70-9] p0587 N71-31075
- ADINSKOV, B. P.**  
The work of turbine and injection burners on a gas variable composition p0467 N71-25359
- ADLER, M. V.**  
Possible modes of operation of a centripetal stage p0705 A71-45380
- ADY, C. E.**  
Filament winding an aircraft wing structure  
[SME PAPER EM-70-406] p0202 A71-20546
- AGEEV, ZH. S.**  
Controlling the angle of attack of a space vehicle by varying the position of the center of mass p0131 A71-16039
- Effect of changing wing sweep on the dynamics of the controlled processes p0347 A71-25661
- AGGARWAL, S. R.**  
The role of heat conduction in leading edge heating - Theory and experiment  
[REPT-6901] p0383 N71-22494
- The role of heat conduction in leading edge heating theory and experiment  
[ARC-CP-1126] p0456 N71-24446

- AHABRAH, R. C.**  
Low altitude high speed flight experience  
p0394 N71-23421
- AHLERS, E. B.**  
Operations research analysis of aircraft noise abatement  
[AIAA PAPER 71-525] p0423 A71-29551
- AHLERS, R. H.**  
Investigation of two methods for improving the crashworthiness of integral fuel tanks Final report, 1967 - 1970  
[FAA-NA-70-46] p0048 N71-11019
- AHLVIN, R. G.**  
Developments in pavement design in the USA - Flexible pavements  
p0022 A71-12166  
Rapid assessment of aircraft landing sites  
[AD-713502] p0164 N71-14902
- AIKEN, T. N.**  
Low speed aerodynamic characteristics of a large scale STOL transport model with an augmented jet flap  
[NASA-TM-X-62017] p0474 N71-26183  
Stability and control characteristics of a large scale deflected slipstream STOL model with a wing of 5.7 aspect ratio  
[NASA-TN-D-6393] p0711 N71-36435  
Large-scale wind-tunnel tests of a propeller-driven deflected slipstream STOL model in ground effect  
[NASA-TM-X-2313] p0711 N71-36436
- AINES, R. O.**  
Development of an aerospace system for agriculture  
p0149 A71-18408
- AIRD, R. T.**  
The lubricating quality of aviation fuels  
p0705 A71-45383
- AKAMATSU, Y.**  
Representation of a wing by lifting lines - Application to the calculation of the interaction of two wings in tandem  
[ONERA-TP-891] p0090 A71-15356  
Wing lifting line representation - Application to the two wings in tandem interaction  
[ONERA-TP-891] p0249 N71-18439  
Representation of a wing in the lifting line, application of the interaction calculations of two wings in tandem  
p0567 N71-29336
- AKASOPU, S.-I.**  
On the continuity of the auroral oval  
p0082 A71-14526
- AKHSEDOV, R. B.**  
Aerodynamics of a twisted jet near a nozzle  
p0482 A71-31522
- AKHMEZIANOV, A. M.**  
Theoretical problems of working processes in aircraft engines  
p0079 A71-14251  
Estimation of influence coefficients by statistical method  
p0080 A71-14257  
Study of the relation between the geometrical dimensions of nozzle system elements and the passage area of a nozzle system  
p0080 A71-14258  
Analysis of the effectiveness of various techniques for plotting the parameters of a two-shaft turbojet engine  
p0080 A71-14259  
Substantiation of the constraints placed on the overall excess air ratio  
p0704 A71-45022
- AKHMEROV, A. P.**  
Selection of a cam profile for the computing-resolving unit of an altimeter  
p0413 A71-28938
- AKIYAMA, T.**  
The airport access problem in Tokyo  
p0257 N71-18953
- AKSENOV, A. P.**  
Aviation fuels, lubrication materials, and special fluids  
p0014 A71-11320  
Influence of the test time and contact stresses on the antiwear properties of jet fuels under conditions of rolling friction  
p0025 A71-12570  
Laboratory device for studying antiwear properties of jet fuels  
p0186 A71-19493
- Effect of the deoxygenation of jet fuels on their antiwear properties  
p0368 A71-27662  
Aviation fuels, lubricants and special liquids  
[AD-727199] p0727 N71-38531
- ALATORTSEV, V. P.**  
Analysis of the effectiveness of various techniques for plotting the parameters of a two-shaft turbojet engine  
p0080 A71-14259  
Substantiation of the constraints placed on the overall excess air ratio  
p0704 A71-45022
- ALBE, P.**  
Application of the schlieren process to the density measurement on hypersonic wakes in the free flight tunnel  
[ISL-T-12/69] p0105 N71-12221  
Optical methods applied in the free flight tunnel  
[ISL-T-39/69] p0105 N71-12223
- ALBERS, J. A.**  
Potential flow solution for a STOL wing propulsion system  
[NASA-TN-D-6394] p0573 N71-29774
- ALDRIDGE, S. E.**  
Experimental results of high bypass ratio turbofan and wing aerodynamic interference  
p0304 N71-19376
- ALECSANDRESCU, C.**  
Design principles of a ground effect vehicle in which the limitation of volumetric dissipations is accomplished with the help of a fluid boundary obtained by means of the Coanda effect  
p0192 A71-19923
- ALECSANDRIESCU, C.**  
Propulsion guidance and stability of the ground effect vehicle with perimetric Coanda fluid boundary  
p0419 A71-29308
- ALEKSANDROV, A. D.**  
Prospective automatic flight-control systems  
p0357 A71-26716
- ALEKSANDROV, K. K.**  
Some results of investigations of centripetal and radial-flow stages  
p0222 A71-22049
- ALEKSANDROV, V. G.**  
Technical aviation handbook  
[AD-727195] p0720 N71-37613
- ALEKSEEV, S. A.**  
Calculation of three-dimensional structures. Number 13  
p0445 A71-30888  
Influence of the end play on the dynamic strength of axial-flow-turbine rotor blades  
p0494 A71-32298
- ALEKSEYEVA, T. I.**  
The use of dirigibles in construction  
p0161 N71-14629
- ALENASOVA, N. A.**  
Calculation of losses in the vaneless diffuser of a centrifugal compressor  
p0208 A71-21266
- ALESI, P.**  
High entry temperature turbine on turboreactors and gas turbines  
p0231 N71-17373  
Cycles of a gas turbine  
p0512 N71-26954
- ALEXANDER, A. J.**  
Correlation of total lift data for thin, sharp-edged, low-aspect-ratio delta wings at low speeds  
p0615 A71-39398  
R and D in Soviet aviation  
p0698 A71-44189  
R and D in Soviet aviation  
[AD-716410] p0313 N71-19769
- ALEXANDER, H.**  
Tensile instability of initially spherical balloons  
p0345 A71-25445
- ALEXANDER, J. A.**  
Metal matrix composite fabrication procedures for gas turbine engine blades  
[ASME PAPER 71-GT-46] p0351 A71-25979
- ALEXANDER, J. C.**  
V/STOL area navigation  
p0283 A71-24150

- ALEXANDER, J. M.**  
Research, design, fabrication, and field testing of a ninety foot span, two arch evaluation segment, aircraft maintenance hangar, volume 2  
[AD-727051] p0684 N71-35396  
Research, design, fabrication, and field testing of 50 by 80 feet aircraft maintenance hangars and 30 by 45 feet general purpose shelters, volume 1  
[AD-727047] p0685 N71-35397  
Advanced lightweight portable structural concepts for shelters, hangars and maintenance docks

# Corporate Source Index

AERONAUTICAL ENGINEERING / A Special Bibliography

JANUARY 1972

1971 Cumulative Index

## Typical Corporate Source Index Listing

The Notation of Content (NOC), rather than the title of the document, is used to provide a more exact description of the subject matter. The page number and NASA or AIAA accession number are included in each entry to assist the user in locating the abstract in the abstract section of an individual supplement of *Aeronautical Engineering*. If applicable, a report number is also included as an aid in identifying the document.

## A

### AC ELECTRONICS-DEFENSE RESEARCH LABS., SANTA BARBARA, CALIF.

Application of free flight ranges to high temperature gas dynamics

p0385 N71-22633

### ADVISORY GROUP FOR AEROSPACE RESEARCH AND DEVELOPMENT, PARIS (FRANCE).

Bibliography of documents containing numerical data on planar lifting surfaces

[AGARD-R-574-70] p0037 N71-10339

Advanced technology for production of aerospace engines - conference

[AGARD-CP-64-70] p0053 N71-11626

Performance and handling qualities criteria for V/STOL aircraft

[AGARD-R-577-70] p0109 N71-12248

Advanced ILS and automatic landing systems for conventional and V/STOL aircraft - conference

[AGARD-CP-59-70] p0109 N71-12426

All weather landing systems of Thomson/CSF

p0112 N71-12446

Considering design of digital computers for guidance and control of aerospace vehicles

[AGARD-CP-68-70] p0113 N71-12601

Investigating nonlinear digital control methods for attitude stabilization of VTOL aircraft

p0114 N71-12615

Computer based methods in man machine interaction for dynamic structural design optimization of stressed-skin structures and structural members

[AGARD-CP-36-70] p0117 N71-13126

Conference on ballistic range techniques and equipment

[AGARDGRAPH-138] p0123 N71-13576

Data handling equipment for aerospace and ground support applications - conference

[AGARD-CP-67-70] p0124 N71-13826

Wind tunnel pressure measuring techniques

[AGARD-AG-145-70] p0165 N71-14988

Flight test methods for determining aircraft dynamic stability

[AGARD-R-573-70] p0173 N71-16039

Human factors in aircraft simulation

[AGARD-CP-79-70] p0173 N71-16060

Advanced cooling systems and heat resistant materials for turbine blades of high temperature aeronautical gas turbine engines

[AGARD-CP-73-71] p0231 N71-17372

Subject and author index on aeroelasticity documents

[AGARD-R-578-71] p0236 N71-17432

Schedule of AGARD conferences for 1971, and summaries of 1970 AGARD publications

[AGARD-BUL-71/1] p0259 N71-19111

Aerodynamic interference characteristics of airframe-propulsion systems of transport and military aircraft

[AGARD-CP-71-71] p0301 N71-19353

Gyroscope theory and applications to inertial guidance and navigation, vehicle stabilization, and related uses - bibliography

[AGARD-R-582-71] p0317 N71-20002

Aerodynamics and applications of lift augmentation devices - AGARD lecture series

[AGARD-LS-43-71] p0318 N71-20051

Mathematical programming techniques applied to aerospace structural design - algorithmic tools, applications, and literature review

[AGARD-AG-149-71] p0322 N71-20128

Basic concepts of mathematical programming applied to structural design of aerospace vehicles

p0322 N71-20129

Optimization of aeroelastic constraints for aircraft design using differential equation idealization and finite element approximation

[NASA-CR-117198] p0322 N71-20139

Computer and optimization techniques in aircraft design

p0322 N71-20140

Conference on propulsion and energetics techniques for diagnosing high velocity flows

[AGARD-CP-38] p0385 N71-22626

Transfer functions in modelling human pilot and dynamic structural aircraft responses

[AGARD-R-580-71] p0390 N71-23210

Accident investigations, flight control systems, and operational recordings for improved aircraft flight mechanics

[AGARD-CP-76-71] p0393 N71-23410

Consideration by NATO of transonic wind tunnel requirements to support evolution of aeronautical and aerospace systems during next decade

[AGARD-AR-35-71] p0466 N71-25073

Cumulative frequency distributions determined by extreme value analysis used for fatigue analysis and interpretation of c.g. vertical acceleration and gust velocity measured on transport aircraft

[AGARD-R-579-71] p0466 N71-25080

Production and efficiency of small gas turbine engine for helicopter and surface vehicles

[AGARD-LS-46-71] p0511 N71-26951

Properties and selective applications of high strength steels, aluminum and titanium alloys, polymeric materials, ceramic materials, and composite materials in aerospace engineering

[AGARD-LS-51-71] p0514 N71-27038

Numerical analysis of aerodynamic loads on wing and tail surfaces with oscillations in unsteady supersonic and subsonic flow including interference lift

[AGARD-CP-80-71-PT-1] p0566 N71-29333

Symposium on unsteady aerodynamic forces, loads, and configurations for aeroelastic analysis of interfering surfaces

[AGARD-CP-80-71-PT-2] p0567 N71-29338

Critique of topics discussed at AGARD meeting on aerodynamic interference

[AGARD-AR-34-71] p0592 N71-31459

Calculated values of air forces on oscillating thin wings obtained by linearized potential flow

[AGARD-R-583-71] p0679 N71-35198

AGARD report on engine-airplane interference and wall correction in transonic wind tunnel tests

[AGARD-AR-36-71] p0707 N71-36400

- Conclusions and recommendations concerning wind tunnel tests of interaction between engine flow and wall corrections in transonic wind tunnels  
p0707 N71-36401
- Compilation of responses to questionnaire on engine-airframe interference in transonic tests  
p0707 N71-36402

[NASA-CASE-XLA-05378] p0334 N71-21475

Afterburner-equipped jet engine nacelle with slotted configuration afterbody  
[NASA-CASE-XLA-10450] p0334 N71-21493

Measurements of sonic boom pressure distribution of bodies of revolution at Mach 2.96, 3.83, and 4.63 in Unitary Plan wind tunnel  
[NASA-TN-D-6195] p0372 N71-21961

Predicting aerodynamic characteristics of arrow, delta, and diamond wing platforms using Prandtl-Glauert transformation  
[NASA-TN-D-6243] p0372 N71-21973

Analysis of effects of spanwise variations of gust velocity in isotropic turbulence on vane-controlled gust alleviation system  
[NASA-TN-D-6126] p0373 N71-22068

Free flight tests in hovering and forward flight  
free flight tests in hovering and forward flight lift fans  
[NASA-TN-D-6198] p0373 N71-22069

Elevated temperature effects on fatigue life of tensile stressed titanium alloys, aluminum alloys, and stainless steels  
[NASA-TN-D-6145] p0374 N71-22076

Numerical analysis of dynamic and thermodynamic state of plenum-type air-cushion vehicle to determine heave response and control system operating characteristics  
[NASA-TN-D-6257] p0384 N71-22589

Design and development of lunar escape system simulator for investigation of lunar escape problems and simplified manual guidance and control for lunar escape vehicles  
[NASA-TN-D-6111] p0384 N71-22590

Analysis of normal accelerations through center of gravity of aircraft due to landing impacts and ground operations associated with taxi, takeoff, and landing  
[NASA-TN-D-6124] p0384 N71-22620

Wind tunnel tests to determine effects of wing dihedral angle on aerodynamic characteristics of highly swept fixed-wing configuration  
[NASA-TN-X-2261] p0384 N71-22622

Flutter suppression with dissipated energy reduced to quadratic form for control surfaces  
[NASA-TN-D-6199] p0388 N71-23091

Low-inertia flow-direction vane static and dynamic wind tunnel tests at subsonic and supersonic speeds for in-flight measurement of bust velocities  
[NASA-TN-D-6193] p0388 N71-23115

Effect of engine position and high lift devices on aerodynamic characteristics of external flow, jet flap STOL model - graphs  
[NASA-TN-D-6222] p0388 N71-23124

Wind tunnel investigation of lift-induced sonic boom characteristics of two simple wing models at Mach numbers from 2.3 to 4.63  
[NASA-TN-D-6201] p0388 N71-23125

Wind tunnel investigation of hypersonic transport model aerodynamic characteristics at Mach numbers to 6 - graphs  
[NASA-TN-D-6191] p0389 N71-23127

Low subsonic longitudinal aerodynamic characteristics of twin body space shuttle booster configuration using low turbulence pressure tunnel - graphs  
[NASA-TN-X-2162] p0389 N71-23135

Combined optical attitude and altitude indicating instrument for use in aircraft or spacecraft

- [NASA-CASE-XLA-01907] p0391 N71-23268  
Construction of leading edges of surfaces for  
aerial vehicles performing from subsonic to  
above transonic speeds

Development of improved turbine cooling processes and facilities for conducting turbine cooling research p0308 N71-19454

Effects of engine design and propulsion system configurations on combustion efficiency p0308 N71-19455

Propulsion technology for STOL and V/STOL commercial aircraft p0308 N71-19456

Sources and characteristics of aircraft noise for conventional and V/STOL aircraft p0308 N71-19457

Development and characteristics of low cost engines for general aviation aircraft p0308 N71-19458

Design and characteristics of exhaust system for supersonic aircraft p0308 N71-19459

Design and characteristics of supersonic cruise inlets p0309 N71-19460

Effects of engine inlet disturbances on engine stall performance p0309 N71-19461

Dynamics and control of supersonic propulsion systems p0309 N71-19462

Application and characteristics of cryogenic fuels for air breathing gas turbine engines p0309 N71-19463

Development of bearings, seals, and lubricants for air breathing turbojet engines p0309 N71-19464

Protective coatings for heat resistant materials for aircraft gas turbine engines, and refractory metals for reentry vehicles [NASA-TM-X-52977] p0311 N71-19677

Mass-flux probe as useful diagnostic tool in high Mach number and high enthalpy flows [NASA-TM-X-52974] p0312 N71-19699

Inlet plenum chamber noise measurement comparison of 20 inch diameter fan rotors with aspect ratios of 3.6 and 6.6 [NASA-TM-X-2191] p0312 N71-19707

Interaction of nacelle-mounted supersonic propulsion system with simulated wing boundary layer [NASA-TM-X-2184] p0316 N71-19853

Design and performance of 0.9-hub-tip-ratio axial flow pump rotor with blade-tip diffusion factor of 0.63 [NASA-TM-X-2235] p0324 N71-20288

Performance tests and characteristics of short length, double annular ram induction turbojet combustion chambers for supersonic flight [NASA-TN-D-6254] p0325 N71-20291

Design of shaft face seal with self-acting lift augmentation for gas turbine engines [NASA-TN-D-6164] p0326 N71-20392

Engine modifications to reduce smoke emission from J-57 turbojet engine [NASA-TM-X-2236] p0326 N71-20419

Single stage turbine operation with various stator cooling techniques and effects on stator, stage, and rotor efficiencies [NASA-TM-X-52968] p0326 N71-20420

Conversion of experimental turbojet combustor from ASTM A-1 fuel to natural gas fuel [NASA-TM-X-2241] p0327 N71-20533

Supersonic inlet engine control using engine speed as primary variable for controlling normal shock position [NASA-TN-D-6021] p0328 N71-20674

Effect of circumferential, radial, and combined pressure distortions on stall margin of J-85 engine [NASA-TM-X-2239] p0329 N71-20766

Analytical investigation of effects of geometric changes on flow characteristics of tandem bladed compressor stators [NASA-TN-D-6264] p0335 N71-21508

Thermal performance analysis of solar Brayton heat receiver in transferring heat to working gas of Brayton engine [NASA-TN-D-6268] p0335 N71-21512

Computer program to generate turbine aerodynamic requirements, approximate external blade geometries, and coolant flow requirements for two stage axial flow turbine [NASA-TM-X-2229] p0384 N71-22568

Measurement of cooling air pressure changes through stationary turbine disk and airflow distribution within a blade at room temperature and pressures from 28 to 100 psia [NASA-TM-X-2171] p0387 N71-22680

Conference on high temperature turbines detailing effect of film cooling on blade profile loss [NASA-TM-X-67123] p0387 N71-22699

Windage tests of cylindrical and Lundell-conical rotors in ambient air producing Reynolds numbers up to 100,000 for high speed alternators [NASA-TM-X-67809] p0388 N71-23116

Quasi-three dimensional surface velocities and choking flow for turbomachine blade rows calculated by FORTBAN program [NASA-TN-D-6177] p0389 N71-23126

Determination of low speed jet noise from fan engine for simulated nacelle configuration [NASA-TN-D-6314] p0389 N71-23134

Aerodynamic performance of sweptback-bladed centrifugal compressor in argon as function of equivalent weight flow [NASA-TM-X-2269] p0398 N71-23659

Requirements analysis of airbreathing gas turbine engines for shuttle vehicles [NASA-TM-X-67806] p0399 N71-23764

Measurement of turbojet engine exhaust nozzle performance as affected by installation parameters using load cells and calibrated engines on F-106 aircraft [NASA-TM-X-67816] p0400 N71-23822

Wind tunnel tests for instantaneous and dynamic analysis of effects of time-variant distortions produced in supersonic inlet on J85-GE-13 turbojet engine [NASA-TM-X-67821] p0401 N71-23927

Cold-air tests to determine performance characteristics of single-stage turbine with stator blades employing transpiration coolant ejection through wire mesh shell [NASA-TM-X-2176] p0401 N71-23980

Jet noise contribution to far field sound from 1.83 meter diameter fan determined for two simulated nacelle configurations [NASA-TM-X-67825] p0402 N71-24009

Design point characteristics of 15-80 kWe nuclear reactor Brayton cycle power system [NASA-TM-X-67811] p0462 N71-24689

Predicted performance of 15-80 kWe reactor Brayton power system over range of operating conditions [NASA-TM-X-67833] p0462 N71-24690

Motor starting techniques for 2-15 kW Brayton space power system [NASA-TM-X-67819] p0462 N71-24691

Performance prediction of methane-fueled supersonic transports over range of cruise speeds up to Mach 4 [NASA-TM-X-2281] p0467 N71-25384

Studying aircraft accidents to determine impact angle and speed criteria for designing nuclear airplane fission product containment vessel [NASA-TM-X-2245] p0468 N71-25411

Potential feasibility of safe, practical, and economical air breathing nuclear propulsion system for aircraft and air cushion vehicles [NASA-TM-X-67837] p0468 N71-25524

Characteristics and cost analysis of nuclear powered air cushion vehicles for oceanic commercial operations [NASA-TM-X-2293] p0470 N71-25783

Wind tunnel tests to determine Mach 2.5 performance of bicone inlet with internal focused compression and 40-percent internal contraction [NASA-TM-X-2294] p0470 N71-25872

Analysis of first stage turbine stator vane and rotor blade cooling designs for application in highspeed aircraft [NASA-TM-X-1782] p0475 N71-26355

# CONTRACT NUMBER INDEX

AERONAUTICAL ENGINEERING / A Special Bibliography

JANUARY 1972

1971 Cumulative Index

## Typical Contract Number Index Listing

Listings in this index are arranged alphanumerically by contract number. Under each contract number, the accession numbers denoting documents that have been produced as a result of research done under that contract are arranged in ascending order with the IAA accession numbers appearing first. The accession number denotes the number by which the citation is identified in either the IAA or STAR section. Preceding the accession number is the page number in the particular supplement in which the citation may be found.

# REPORT/ACCESSION NUMBER INDEX

AERONAUTICAL ENGINEERING / A Special Bibliography  
1971 Cumulative Index

JANUARY 1972

## Typical Report/Accession Number Index Listing

Listings in this index are arranged alphanumerically by report number. The page number indicates the page in the individual Supplement in which the citation is located. The accession number denotes the number by which the citation is identified. An asterisk (\*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche. A plus sign (+) indicates a document that cannot be microfiched but for which one-to-one facsimile is available.

1. Report No. NASA SP-7037 (14)	2. Government Accession No.	3. Recipient's Catalog No.	
4. Title and Subtitle AERONAUTICAL ENGINEERING: A Special Bibliography - Cumulative Index		5. Report Date January 1972	
		6. Performing Organization Code	
7. Author(s)		8. Performing Organization Report No.	
		10. Work Unit No.	
9. Performing Organization Name and Address National Aeronautics and Space Administration Washington, D. C. 20546		11. Contract or Grant No.	
		13. Type of Report and Period Covered	
12. Sponsoring Agency Name and Address		14. Sponsoring Agency Code	
15. Supplementary Notes			
16. Abstract  This publication is a cumulative index to the abstracts contained in NASA SP-7037 (02) through NASA SP-7037 (13) of <u>Aeronautical Engineering: A Special Bibliography</u> . NASA SP-7037 and its supplements have been compiled through the cooperative efforts of the American Institute of Aeronautics and Astronautics (AIAA) and the National Aeronautics and Space Administration (NASA). This cumulative index includes subject, personal author, corporate source, contract, and report number indexes.			
17. Key Words (Suggested by Author(s)) Aerodynamics Aeronautical Engineering Aeronautics Bibliographies		18. Distribution Statement  Unclassified - Unlimited	
19. Security Classif. (of this report) Unclassified	20. Security Classif. (of this page) Unclassified	21. No. of Pages 783	22. Price* \$9.00 HC

# PUBLIC COLLECTIONS OF NASA DOCUMENTS

## DOMESTIC

NASA deposits its technical documents and bibliographic tools in eleven special regional libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

### CALIFORNIA

University of California, Berkeley

### COLORADO

University of Colorado, Boulder

### DISTRICT OF COLUMBIA

Library of Congress

### GEORGIA

Georgia Institute of Technology, Atlanta

### ILLINOIS

The John Crerar Library, Chicago

### MASSACHUSETTS

Massachusetts Institute of Technology, Cambridge

### MISSOURI

Linda Hall Library, Kansas City

### NEW YORK

Columbia University, New York

### PENNSYLVANIA

Carnegie Library of Pittsburgh

### TEXAS

Southern Methodist University, Dallas

### WASHINGTON

University of Washington, Seattle

NASA publications (those indicated by an "\*" following the accession number) are also received by the following public and free libraries:

### CALIFORNIA

Los Angeles Public Library

San Diego Public Library

### COLORADO

Denver Public Library

### CONNECTICUT

Hartford Public Library

### DELAWARE

Wilmington Institute Free Library, Wilmington

### MARYLAND

Enoch Pratt Free Library, Baltimore

### MASSACHUSETTS

Boston Public Library

### MICHIGAN

Detroit Public Library

### MINNESOTA

Minneapolis Public Library

### MISSOURI

Kansas City Public Library

St. Louis Public Library

### NEW JERSEY

Trenton Public Library

### NEW YORK

Brooklyn Public Library

Buffalo and Erie County Public Library

Rochester Public Library

New York Public Library

### OHIO

Akron Public Library

Cincinnati Public Library

Cleveland Public Library

Dayton Public Library

Toledo Public Library

### OKLAHOMA

Oklahoma County Libraries, Oklahoma City

### TENNESSEE

Cossitt-Goodwin Libraries, Memphis

### TEXAS

Dallas Public Library

Fort Worth Public Library

### WASHINGTON

Seattle Public Library

### WISCONSIN

Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 750 Third Avenue, New York, New York, 10017.

## EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the National Lending Library for Science and Technology, Boston Spa, Yorkshire, England. By virtue of arrangements other than with NASA, the National Lending Library also has available many of the non-NASA publications cited in *STAR*. European requesters may purchase facsimile copy or microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "\*" and "#", from: ESRO/ELDO Space Documentation Service, European Space Research Organization, 114, av. de Neuilly, 92-Neuilly-sur-Seine, France.

POSTMASTER: If Undeliverable (Section 158  
Postal Manual) Do Not Return

*"The aeronautical and space activities of the United States shall be conducted so as to contribute . . . to the expansion of human knowledge of phenomena in the atmosphere and space. The Administration shall provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof."*

— NATIONAL AERONAUTICS AND SPACE ACT OF 1958

## NASA SCIENTIFIC AND TECHNICAL PUBLICATIONS

**TECHNICAL REPORTS:** Scientific and technical information considered important, complete, and a lasting contribution to existing knowledge.

**TECHNICAL NOTES:** Information less broad in scope but nevertheless of importance as a contribution to existing knowledge.

**TECHNICAL MEMORANDUMS:** Information receiving limited distribution because of preliminary data, security classification, or other reasons.

**CONTRACTOR REPORTS:** Scientific and technical information generated under a NASA contract or grant and considered an important contribution to existing knowledge.

**TECHNICAL TRANSLATIONS:** Information published in a foreign language considered to merit NASA distribution in English.

**SPECIAL PUBLICATIONS:** Information derived from or of value to NASA activities. Publications include conference proceedings, monographs, data compilations, handbooks, sourcebooks, and special bibliographies.

**TECHNOLOGY UTILIZATION PUBLICATIONS:** Information on technology used by NASA that may be of particular interest in commercial and other non-aerospace applications. Publications include Tech Briefs, Technology Utilization Reports and Technology Surveys.
